FOY-JOHNSTON INC.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2009

(UNAUDITED)

1. Operations and Business

Foy-Johnston Inc. (the Company), was organized under the laws of the State of Delaware.

2. Going Concern Assumption

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company's ability to continue as a going concern is also contingent upon its ability to secure additional financing to meet its obligations as they become due.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

3. Basis of Financial Statement Presentation and Summary of Significant Accounting Policies

Basis of Financial Statement Presentation

The accompanying unaudited interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the requirements of item 310 (b) of regulation S-B.

FOY-JOHNSTON INC.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2009

(UNAUDITED)

Accordingly, certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements reflect adjustments (consisting only normal recurring adjustments), which, in the opinion of

management, are necessary for a fair presentation of the results for the periods presented. The results from operations for the interim periods are not indicative of the results expected for the full fiscal year or any future period. Certain prior period amounts have been reclassified to conform to current period presentation.

Summary of Significant Accounting Policies

a) Unit of Measurement

The United States currency is being used as the unit of measurement in these financial statements.

b) Fair Value of Financial Instruments

The estimated fair value of financial instruments have been determined by the Company using available market information and valuation methodologies. Considerable judgment is required in estimating fair value. Accordingly, the estimates may not be indicative of the amounts the Company could realize in a current market exchange. As of September 30, 2009 the carrying value of accounts payable and accrued charges and advances from shareholder approximate their fair value due to the short term maturity of such instruments.

c) Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes". Deferred tax assets and liabilities are recorded for differences between the financial statement and tax basis of the asset and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is recorded for the amount of income tax payable or refundable for the period increased or decreased by the change in deferred tax assets and liabilities during the period.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2009

(UNAUDITED)

d) **Earnings or (Loss) Per Share**

The Company adopted FAS No. 128, "Earning per Share" which requires disclosure on the financial statements of "basic" and "diluted" earnings (loss) per share. Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding for the year. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding plus common stock equivalents (if diluted) related to stock options and warrants each year.

e) **Concentration of Credit Risk**

SFAS No. 105, "Disclosure of Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentration of Credit Risk", requires disclosure of any significant off-balance sheet risk and credit risk concentration. The Company does not have significant off-balance sheet risk or credit concentration.

f) **Use of Estimates**

Preparation of financial statements in accordance with accounting principles accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to financial statements. These estimates are based on management's best knowledge of current events and actions the Company may undertake in the future. Actual results may ultimately differ for those estimates although management does not believe such changes will materially affect the financial statements in any individual year.

g) **Management Certification**

The financial statements herein are certified by the officers of the Company to present fairly, in all material respects, the financial position, results of operations and cash flows for the periods presented, in conformity with accounting principles generally accepted in the United States of America, consistently applied.

6. Related Party Transactions and Balances

There have been no related party transactions during the period.

7. Income Taxes

The Company provides for income taxes under Statement of Financial Accounting Standards NO. 109 accounting for Income Taxes. SFAS No. 109 requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse.

SFAS No. 109 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. In the Company's opinion, it is uncertain whether they will generate sufficient taxable income in the future to fully utilize the net deferred tax asset. Accordingly, a valuation allowance equal to the deferred tax asset has been recorded. The total deferred tax asset is \$422,044, which is calculated by multiplying a 15% estimated tax rate by the items making up the deferred tax account, the Net Operating Loss (NOL) of \$2,813,630.

The provision for income taxes is comprised of the net changes in deferred taxes less the valuation account plus the current taxes payable as shown in the chart below. For the nine months ended September 30, 2009 it is as follows.

Net changes in Deferred Tax Benefit less valuation account	0
Current Taxes Payable	0
Net Provision for Income Taxes	0

The federal NOL is due to expire 20 years from the date of its creation. The chart below shows the year of creation, the amount of each estimated year's NOL and the year of expiration if not utilized.

9. Subsequent Events

There are no subsequent events that occurred after the quarter end.

10. Operations

Foy-Johnston operates in the green technology field, working with many companies to bring green companies to market.

11. Operating Leases and other Commitments

The Company has no lease obligations.

12. Reliance on Officers

The President has experience in multi-company operations. If he were no longer able or willing to function in that capacity the Company would be negatively affected.
