Quarterly Report
For the Period Ending: June 30, 2021

As of June 30, 2021, the number of shares outstanding of our Common Stock was:

325,001,000

As of March 31, 2021, the number of shares outstanding of our Common Stock was:

25,001,000

As of March 31, 2021, the number of shares outstanding of our Common Stock was:

25,001,000

Indicate by check mark whether the company is a shell company (as defined in Rule 405 of the Securities Act of 1933 and Rule 12b-2 of the Exchange Act of 1934):

Yes: ☐ No: ☒

Indicate by check mark whether the company's shell status has changed since the previous reporting period:

Yes: ☐ No: ☒

Indicate by check mark whether a Change in Control¹ of the company has occurred over this reporting period:

Yes: ☐ No: ☒

¹ "Change in Control" shall mean any events resulting in:

(i) Any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) becoming the "beneficial owner" (as defined in Rule 13d-3 of the Exchange Act), directly or indirectly, of securities of the Company representing fifty percent (50%) or more of the total voting power represented by the Company's then outstanding voting securities;

(ii) The consummation of the sale or disposition by the Company of all or substantially all of the Company's assets;

(iii) A change in the composition of the Board occurring within a two (2)-year period, as a result of which fewer than a majority of the directors are directors immediately prior to such change; or

(iv) The consummation of a merger or consolidation of the Company with any other corporation, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or its parent) at least fifty percent (50%) of the total voting power represented by the voting securities of the Company or such surviving entity or its parent outstanding immediately after such merger or consolidation.

1) Name of the issuer and its predecessors (if any)

Date and state (or jurisdiction) of incorporation (also describe any changes to incorporation since inception, if applicable)
Please also include the issuer's current standing in its state of incorporation (e.g. active, default, inactive):

Tradestar Resources Corp. was incorporated in Nevada and redomiciled to Wyoming in 2020.

Status: Active / Current

Describe any trading suspension orders issued by the SEC concerning the issuer or its predecessors since inception:

None

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

None

The address(es) of the issuer's principal executive office:

Tradestar Resources Corp.
4101 International Parkway
Carrollton, TX 75007

The address(es) of the issuer's principal place of business:

Check box if principal executive office and principal place of business are the same address: ☒

Has the issuer or any of its predecessors been in bankruptcy, receivership, or any similar proceeding in the past five years?

Yes: ☐ No: ☒

2) Security Information

Notes on Financial Statements

NOTE 1 – ORGANIZATION AND BASIS OF PRESENTATION

Description of Business

The Company is in the business of acquiring oil and gas leases for re-entry and workovers. In the process the company will buy and sell leases. The company operates on a fiscal year ending March 31st.

Basis of Presentation

The financial statements of the Company have been prepared in accordance with the accounting principles generally accepted in the United States of America ("GAAP"). In the opinion of management all normal recurring adjustments considered necessary to give a fair presentation of operating results for the periods presented have been included. Interim results are not necessarily indicative of results for a full year.

Principals of Consolidation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and include the accounts of the Company and its

majority owned subsidiaries, Luxuriant Holdings and Sutimco Inc. All intercompany accounts and transactions have been eliminated. In the opinion of management, all adjustments necessary to present fairly the consolidated financial position as of Sept. 30, 2015 have been included in the consolidated financial statements.

Going Concern

. The Company's ability to continue will be dependent on its ability to generate revenue as well as raise funds for its operations. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The Company anticipates raising additional working capital through the issuance of debt and equity securities in order to further expand its business. Management believes that actions presently being undertaken to obtain additional funding provide the Company with the opportunity to continue to operate as a going concern.

The Company's consolidated financial statements are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business. The Company cannot provide assurance that it can sustain profitability on a quarterly or annual basis in the future. The Company anticipates it may incur losses until it is able to establish significant levels of revenue while controlling its expenses. Any future success that the Company might experience will depend upon many factors, including factors out of its control or which cannot be predicted at this time. These factors may include changes in or increased levels of competition, including the entry of additional competitors and increased success by existing competitors, changes in general economic conditions, increases in operating costs, including costs of supplies, personnel and equipment, reduced

margins caused by competitive pressures, failure of the Company to launch new technologies and other factors. These conditions may have a materially adverse effect upon the Company or may force it to reduce or curtail operations. In addition, the Company will require additional funds to sustain and expand its efforts, particularly if a well-financed

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Definition of fiscal year

The Company's year-end is March 31.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Only highly liquid investments with original maturities of 90 days or less are classified as cash and equivalents. These investments are stated at cost, which approximates market values.

The Company maintains its cash balances at credit-worthy financial institutions that are insured by the Federal Deposit Insurance Corporation ("FDIC"). As of Sept. 30, 2015, management believes the risk of loss of cash balances in excess of the insured limit to be low.

Fixed Assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation is provided principally on the straight-line method over the estimated useful lives of the assets. The cost of repairs and maintenance is charged to expense as incurred. Expenditures for property betterments and renewals are capitalized. Upon sale or other disposition of a depreciable asset, cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in other income (expense).

The Company periodically evaluates whether events and circumstances have occurred that may warrant revision of the estimated useful lives of fixed assets or whether the remaining balance of fixed assets should be evaluated for possible impairment. The Company uses an estimate of the related undiscounted cash flows over the remaining life of the fixed assets in measuring their recoverability.

Convertible Debenture and Beneficial Conversion Feature

If the conversion feature of conventional convertible debt provides for a rate of conversion that is below market value, this feature is characterized as a beneficial conversion feature ("BCF"). A BCF is recorded by the Company as a debt discount. In those circumstances, the convertible debt will be recorded net of the discount related to the BCF. The Company amortizes the discount to interest expense over the life of the debt using the effective interest method.

Fair Value of Financial Instruments

The Company calculates the fair value of its assets and liabilities which qualify as financial instruments under this standard and includes this additional information in the notes to the financial statements when the fair value is different than the carrying value of those financial instruments. The estimated fair value of cash, accounts payable and notes payable approximate their carrying amounts due to the nature and short maturity of these instruments. The Company considers the carrying value of its financial instruments to approximate their fair value due to the short maturity of these instruments.

Fair value measurement

ASC Topic 820, Fair Value Measurements and Disclosures, defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and requires certain disclosures about fair value measurements. In general, fair values of financial instruments are based upon quoted market prices, where available. If

such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. Any such valuation adjustments are applied consistently over time. At this time, management does not plan to adopt fair value accounting for nonfinancial assets or liabilities.

Stock-Based Compensation

All issuances of the Company's stock for non-cash consideration have been assigned a per share amount equaling either the market value of the shares issued or the value of consideration received, whichever is more readily determinable. The measurement date for the fair value of the equity instruments issued is determined at the earlier of (i) the date at which a commitment for performance by the consultant or vendor is reached or (ii) the date at which the consultant or vendor's performance is complete. In the case of equity instruments issued to consultants, the fair value of the equity instrument is recognized over the term of the consulting agreement.

The Company accounts for all compensation related to options or warrants using a fair value-based method whereby compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. The Company uses the Black-Scholes valuation model to calculate the fair value of options and warrants issued to both employees and non-employees.

Net Loss Per Share

Basic net loss per share is computed by dividing the net loss available to common stockholders for the period by the weighted average number of shares of common stock outstanding during the period. The calculation of diluted net loss per share gives effect to common stock equivalents. Such amounts include shares potentially issuable upon conversion of the convertible preferred stock.

Income Taxes

The Company accounts for income taxes in accordance with ASC Topic 740, Income Taxes. Under this standard, deferred tax assets and liabilities are recognized for future tax benefits or consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided for significant deferred tax assets when it is most likely that such an asset will not be realized through future operations.

Recent Accounting Pronouncements

In December 2011, the Financial Accounting and Standards Board (FASB) issued ASU 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). ASU 2011-11 requires an entity to disclose both gross and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement with a similar master netting arrangement. ASU 2011-11 is effective for annual and interim reporting periods beginning on or after January 1, 2013. Retrospective disclosure is required for all comparative periods presented. Since this accounting standard requires only enhanced disclosure, the adoption of this standard is not expected to have an impact on our financial position or results of operations.

In September 2011, the FASB issued ASU 2011-08, Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment ("ASU 2011-08"). Under ASU 2011-08, companies testing goodwill for impairment have the option of performing a qualitative assessment before calculating the fair value of the reporting unit (i.e. step 1 of the goodwill impairment test). If companies determine, on the basis of qualitative factors, that the fair value of the reporting unit is more likely than not less than the carrying amount, the two-step impairment test would be required. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The Company is evaluating the revised guidance and does not anticipate that adoption will have a material impact on the Company's Consolidated Financial Statements.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income ("ASU 2011-05"). ASU 2011-05 will require companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The standard does not change the items which must be reported in other comprehensive income, how such items are measured or when they must be reclassified to net income. This standard is effective for

interim and annual periods beginning after December 15, 2011. Because this ASU impacts presentation only, it will have no effect on our financial condition, results of operations or cash flows.

In July 2012, the Financial Accounting and Standards Board (FASB) issued Accounting Standards Update (“ASU”) ASU 2012-02, Intangibles – Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. ASU 2012-02 addresses valuation of indefinite-lived intangible assets other than goodwill, and allows an entity the option to first assess qualitative factors to determine whether it is more likely than not that impairment has occurred. If an entity determines it is not likely that impairment has occurred no further action is necessary. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The Company is evaluating the revised guidance and does not anticipate that adoption will have a material impact on the Company's Consolidated Financial Statements.

NOTE 3 – INCOME TAXES

The Company accounts for income taxes in accordance with ASC Topic 740, “Income Taxes.” Under this standard, deferred tax assets and liabilities are recognized for future tax benefits or consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided for significant deferred tax assets when it is most likely that such an asset will not be realized through future operations.

5) Issuer’s Business, Products and Services

- A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

No Operations

- B. Describe any subsidiaries, parents, or affiliated companies, if applicable, and a description of such entity’s business, contact information for the business, officers, directors, managers or control persons. Subsidiary information may be included by reference

None

- C. Describe the issuers’ principal products or services, and their markets

6) Issuer’s Facilities

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

N/A

7) Officers, Directors, and Control Persons

Name of Officer/Director or Control Person	Affiliation with Company (e.g. Officer/Director/Owner of more than 5%)	Residential Address (City / State Only)	Number of shares owned	Share type/class	Ownership Percentage of Class Outstanding	Note
