CECORS, INC. (CEOS)

Announces Entry into a Material Contract

6 March 2023: CECORS, INC. (OTC PINK: CEOS) ("CeCors" or the "Company"), announced today that it has entered into an Acquisition and Exchange of Shares Agreement (the "Agreement") with VetComm Corp ("VetComm"), a corporation incorporated under the laws of Wyoming.

Pursuant to the Agreement, CeCors will acquire a 100% equity interest in VetComm in exchange for the issuance of 20,000,000 shares of the Company's restricted common stock and 637,500 shares of the Company's Series A preferred stock to VetComm founding shareholder, Kate Monroe. In order to facilitate the transaction and mitigate dilution to CeCors shareholders, the Company's officers will be concurrently returning 20,000,000 shares of common stock and 637,500 shares of Series A preferred stock, for cancelation, without consideration.

Kate Monroe, CEO and founder of VetComm, along with key management of VetComm, shall continue in their existing roles running the operations of VetComm, pursuant to mutually acceptable management and/or employment agreements, currently under negotiation.

About VetComm

VetComm Corp's mission is to empower United States veterans by providing them with the education and resources they need to access the benefits they are entitled to, but not presently receiving. Founded by United States Marine Corps veteran Kate Monroe, VetComm is dedicated to advocating for veterans and ensuring they receive the support they need to thrive after serving our country. VetComm believes that every veteran deserves to receive the benefits they are entitled to, and is committed to providing a comprehensive education and support platform to help them do just that. With the tools provided by VetComm, veterans can get rated and claim the benefits they deserve, preventing the reallocation of funds by the U.S. government to other budget line items and making sure that those who have served their country receive the support they need in order to lead fulfilling lives.

About PsyKey Inc.

PsyKey Inc. is vertically integrated in the research & development, production, and commercialization of therapeutic and medicinal entheogenic, adaptogenic, nootropic ingredients and formulations for its premium functional product lines which are developed by its mycology and botany experts. PsyKey understands the importance of access to support services and healthcare professionals and is continuously engaged in the development of tools that will aid in removing barriers and providing inclusivity. PsyKey is also engaged in the scientific development of patentable technologies pertaining to the composition, bioavailability and targeted delivery of entheogen-based therapeutics.
