(AN EXPLORATION STAGE MINING COMPANY)

NOTES TO FINANCIAL STATEMENTS
(Unaudited)

Note 1 - Organization and Business

The accompanying unaudited financial statements do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of recurring accruals) considered necessary for fair presentation have been included.

Effective February 1, 2007, the Board of Directors changed the name of the corporation from “Brownsville Company” to “Uranium Hunter Corporation”.

Note 2 - Summary Of Significant Accounting Practices

The relevant accounting policies and procedures are listed below.

Accounting Basis

The statements were prepared following generally accepted accounting principles of the United States of America consistently applied.

Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. The financial statements reflect adjustments (consisting only normal recurring adjustments), which, in the opinion of management, are necessary for a fair presentation of the results for the periods presented. The results from operations for the interim periods are not indicative of the results expected for the full fiscal year or any future period. Certain prior period amounts may have been reclassified to conform to current period presentation.

Management Certification

The financial statements herein are certified by the officers of the Company to present fairly, in all material respects, the financial position, results of operations and cash flows for the periods presented, in conformity with accounting principles generally accepted in the United States of America, consistently applied.

Unit of Measurement

The United States currency is being used as the unit of measurement in these financial statements.

Fair Value of Financial Instruments

The estimated fair value of many financial instruments has been determined by the Company, using available market information and valuation methodologies. Considerable judgment is required in estimating fair value. Accordingly, the estimates may not be indicative of the amounts the Company could realize in a current market exchange.

Earnings per Share

The basic earnings (loss) per share are calculated by dividing the Company's net income available to common shareholders by the weighted average number of common shares during the year. The diluted earnings (loss) per share is calculated by dividing the Company's net income (loss) available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted as of the first of the year for any potentially dilutive debt or equity. The Company has no options, warrants or similar securities issued or pending.

Dividends

The Company has not yet adopted any policy regarding payment of dividends. No dividends have been paid during the periods shown.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

SFAS No. 105, "Disclosure of Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentration of Credit Risk," requires disclosure of any significant off-balance sheet risk and credit risk concentration. The Company does not have significant off-balance sheet risk or credit concentration.

Related Party Transactions and Balances

There have been no related party transactions during the period.

Accounts Receivable

The trade accounts receivable and allowances for bad debt are shown below.

	12/31/12
Trade Accounts Receivable	
Allowances	0
Trade Accounts Receivable, net	0

Plant and Equipment

Plant and equipment are stated at cost. Depreciation will be computed using the straight-line method over their estimated useful lives. Maintenance and repairs are charged to expense as incurred.

	12/31/12
Plant and equipment	\$43,685
Less: Accumulated Depreciation	<u>25,236</u>
Plant and equipment, net	\$18,449 =====

Revenue Recognition

To date the Company has had no significant revenue. When the Company does have revenue it will follow industry standards in reporting same.

Advertising

Advertising is expensed when incurred. There has been no advertising in the previous several years.

Income Taxes

The provision for income taxes is the total of the current taxes payable and the net of the change in the deferred income taxes. Provision is made for the deferred income taxes where differences exist between the period in which transactions affect current taxable income and the period in which they enter into the determination of net income in the financial statements.

Note 3 - Going Concern Assumption

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, the Company has accumulated a loss. This raises substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from this uncertainty.

Note 4— Stockholders' Equity

Common Stock - The Company has authorized six billion shares of common stock with a par value of \$0.001.

Note 5—Provision for Income Taxes

The Company provides for income taxes under Statement of Financial Accounting Standards NO. 109 accounting for Income Taxes. SFAS No. 109 requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse.

SFAS No. 109 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will

not be realized. In the Company's opinion, it is uncertain whether they will generate sufficient taxable income in the future to fully utilize the net deferred tax asset. Accordingly, a valuation allowance equal to the deferred tax asset has been recorded. The total deferred tax asset is \$228,877 which is calculated by multiplying a 15% estimated tax rate by the items making up the deferred tax account, the Net Operating Loss (NOL) of \$1,525,847.

The provision for income taxes is comprised of the net changes in deferred taxes less the valuation account plus the current taxes payable as shown in the chart below.

Net changes in Deferred Tax Benefit less valuation account	0
Current Taxes Payable	0
Net Provision for Income Taxes	0

The federal NOL is due to expire 20 years from the date of its creation.

The Company has not filed any federal income returns for several years.

Note 6— Segment Information

Segment information is presented in accordance with SFAS 131, Disclosures about Segments of an Enterprise and Related Information. This standard is based on a management approach, which requires segmentation based upon the Company's internal organization and disclosure of revenue based upon internal accounting methods. For the period shown there has been no revenue in which to segment.

Note 7— Operating Leases and other Commitments

The Company has no lease obligations other than its office lease, which is for a one-year period from October to September.

Note 8— The Effect of Recently Issued Accounting Standards

Below is a listing of the most recent accounting standards and their effect on the Company.

SFAS 148 - Accounting for Stock-Based Compensation-Transition and Disclosure

Amends FASB 123 to provide alternative methods of transition for an entity that voluntarily changes to the fair value based method of accounting for stock-based employee compensation.

SFAS 149 - Amendment of Statement 133 on Derivative Instruments and Hedging Activities

This Statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement NO. 133, Accounting for Derivative Instruments and Hedging Activities.

SFAS 150 - Financial Instruments with Characteristics of both Liabilities and Equity

This Statement requires that such instruments be classified as liabilities in the balance sheet. SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003.

Interpretation No. 46 (FIN 46)

Effective January 31, 2003, The Financial Accounting Standards Board requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a continuing financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The Company has not invested in any such entities, and does not expect to do so in the foreseeable future.

The adoption of these new Statements is not expected to have a material effect on the Company's financial position, results or operations, or cash flows.

Note 9 – Long-term Debt

The company has long-term notes in the amount of \$1,000,018 due to certain stockholders. Additionally, the Company has received advances from shareholders which are unsecured, non-interest bearing and have no fixed terms of repayment.

Note 10 – Notice of Financial Information

Pertaining to the financial data contained herein, information gathered and compiled is accurate and complete in its reporting, however, there may be changes or modifications needed to adjust these financial records to reflect the exact financial data reported.
