Re: Supplemental filing

Notice of an assignment of an original convertible note

This supplemental filing is being uploaded to disclose a specific transaction to the public.

On or about July 11, 2008 the Company entered into a convertible note with an original principal amount of \$100,000. This note was later assigned to another party on February 3, 2015. In an effort to consolidate and reduce the number of debtor holders a Stock Purchase Agreement for a partial purchase and assignment of the original July 11, 2008 note for 45,750,000 shares to a related party was entered into June 29, 2016.
