1 Nature of Operations

a) Organization

In January 2007 CyberVegas.com acquired all the outstanding common shares of Aeries, a Nevada corporation in a transaction accounted for as a reverse merger. CyberVegas issued 28,000,000 shares to the shareholders of Arius and reserved 10,000,000 shares to satisfy the obligations to existing Aeries convertible note, stock option and warrant holders.

Aeries is developing high performance antenna technology for cellular devices. The product will significantly reduce energy consumption and SARs therefore producing the most green technology in the industry.

As part of the merger the CyberVegas directors, but one, resigned and the directors of Aeries were appointed to the board of directors. The name of the corporation was changed to Aeries International Inc.

b) Going Concern

The accompanying financial statement was prepared assuming the Company will continue to be a going concern.

As shown in the accompanying financial statement, the Company has incurred a net loss of \$861,603 for the period from February 24, 2000 (inception) to December 31, 2009 and had no sales, and a net loss of \$ 1,660,524 for the period from February 24, 2000 to March 31 2016 and has no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its new business opportunity. 2 Significant Accounting Policies

The financial Statement of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent on future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgement.

The financial statement has, in management's opinion, been properly prepared within reasonable limits of materiality, and within the framework of the significant accounting policies summarized below.

a) Development Stage Company

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No 7. The Company is devoting substantially all of its present efforts to establish a new

The Company has developed and acquired patented technology that applies to wireless to hand held communication units. The costs have been capitalized.

c) Income Taxes

The Company has adopted Statement of Financial Accounting Standards No. 109 Accounting For Income Taxes (SFAS 109). This standard required the use of an asset and liability approach for financial accounting and reporting on income taxes. If it is more likely than not that some portion, or all if a deferred tax asset, will not be realized, a valuation allowance is recognized.

d) Financial Instruments

The Company financial instruments consist of cash.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

In anticipation of the merger, the Company exchanged assets of the previous business for approximately 40,000,000 shares of common stock. The Company then acquired Aerius for 28,000,000 common shares.

On March 2011, the Company filed an amendment to its articles of incorporation raising its authorized common shares to 180,000,000. At such time the Company had 97,261,615 issued and outstanding shares.
