# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS

#### NATURE OF OPERATIONS

Andes Gold Corporation is the operator of leased properties which it mines for mineral resources, specifically, gold. The development of the properties is through the contracting of companies as needed. The focus of the business is to develop and produce gold assets in Ecuador and elsewhere in South America.

Andes Gold Corporation was incorporated as a Delaware corporation on August 29, 2007 as Princeton Consulting and Services Corporation. Princeton Consulting and Services Corporation was a participant in a three party merger under Delaware Business Corporation Act Section 251(g) wherein Whitewing Environmental Corp. ("Whitewing") was merged with and into Princeton Consulting Acquisition Corp. ("Acquisition") which changed its name to Whitewing Environmental Corp. and assumed all of the obligations of Whitewing effective September 27, 2007. On September 27, 2007, Whitewing Environmental Corp. then changed its name to Princeton Consulting and Services Corporation. On July 27, 2009, Princeton Consulting and Services Corp. changed its name to Andes Gold Corporation to coincide with the acquisition on that date of 100% of the controlling interests of Compania Minera Pl. S.A., an Ecuadorian company, located in Zaruma, Ecuador.

On October 1, 2010, Andes Gold Corporation entered into an agreement for the exchange of shares with New World Gold Corporation, whereby the New World Gold Corporation acquired a 54% controlling interest in the Issuer, and Andes Gold Corporation acquired a 20.57% interest, in New World Gold Corporation. As a result, Andes Gold Corporation became a majority-owned subsidiary of New World Gold Corporation. As of September 30, 2015, New World Gold Corporation holds controlling interest in Andes Gold Corporation through ownership of the voting preferred stock and common stock.

#### **USE OF ESTIMATES**

The Company prepares its financial statements in conformity with accounting principles generally accepted in the Unites States of America. These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### INCOME TAXES

The Company accounts for income taxes using the asset and liability method. The differences between the financial statement and tax bases of assets and liabilities are determined annually. Deferred income tax assets and liabilities are computed for those differences that have future tax consequences using the currently enacted tax laws and rates that apply to the period in which they are expected to affect taxable income. Valuation allowances are established, if necessary, to reduce deferred tax asset accounts to the amounts that will more likely than not be realized. Income tax expense is the current tax payable or refundable for the period, plus or minus the net change in the deferred tax asset and liability accounts.

#### NET INCOME (LOSS) PER SHARE DATA

Net income (loss) per common share is computed based on the weighted average common stock and dilutive common stock equivalents outstanding during the year as defined by Statement of Financial Accounting Standards, No. 128, "Earnings per Share". The continued losses of the Company are anti-dilutive.

#### FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of the Company's financial instruments, including accounts receivable and payable, notes receivable and payable and accrued liabilities approximate fair value due to the relatively short period to maturity for these instruments.

#### NEW ACCOUNTING PRONOUNCEMENTS

None that is applicable through September 30, 2015 to company operations.

#### ISSUANCE OF SHARES FOR SERVICES

Valuation of shares for services and other acquired assets were based on the fair market value of services received. For the nine months ended September 30, 2015, no restricted shares of common stock were issued for services to the Company.

The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The Company anticipates raising additional working capital for improvements and expansion of operations through the issuance of debt and equity securities.
