ANASAZI ENERGY CORPORATION

(A Development Stage Company)

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

September 30, 2016

NOTE 1 - NATURE OF OPERATIONS AND BASIS OF PRESENTATION

The Company was incorporated in the State of Nevada on March 15, 2006, under the name Royal Blue Exploration Inc. The name was changed on June 18, 2008 to CH4 Energy Inc. and on March 26, 2014, the company name changed to High Sierra Acquisitions Inc. The name was changed on November 4, 2014 to Anasazi Energy Corporation. The company has an established fiscal year end of September 30.

The Company is in the initial development stage and has incurred losses since inception.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES **Basis of Presentation**

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars

Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Financial Instruments

The carrying value of the Company's financial instruments approximates their fair value because of the short maturity of these instruments.

Basic and Diluted Net Loss per Share

The Company computes loss per share in accordance with "ASC-260", "Earnings per Share" which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive. The Company has no potential dilutive instruments and accordingly basic loss and diluted loss per share are the same.

NOTE 3 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. As of September 30, 2016, the Company currently does not have an operating asset which would result in sufficient cash flow to meet its obligations for at least the next 12 months. Therefore, the ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses, undertaking joint ventures, or seeking other ways in which to generate cash flow. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan is to obtain such resources for the Company by obtaining capital from investors through private placements, public financings, or otherwise. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 - CAPITAL STOCK

During the fiscal year ending September 30, 2016, convertible notes in the aggregate amount of $65,000 in term notes were converted to 465,000 shares of common sotck.

NOTE 5 - RELATED PARTY TRANSACTION

Effective September 30, 2014 the Company entered into a Promissory Note with Paladin Resources Corporation, an affiliate of the Company, payable for the total of $90,000 at 5% interest and due in twelve months. The Promissory Note is secured by the Lease described below.

Effective September 30, 2014 the Company acquired a 95% working interest in three producing oil wells, having completed the acquisition of the Glide-Williams mineral lease in November 2014. That interest was reduced to a 3% working interest in December 2014. The Lease was acquired from Paladin International Corporation for a total of 4,400,000 shares of common stock. The lease covers 120 acres in Kern County, California, northwest of Bakersfield, CA. Two wells were drilled in 1956 and one in 1964 to depths of 7,800 feet and 7,600 feet respectively, both being completed in the Randolph Sand. The wells produce with minimal operating expenses. Based on an independently appraised engineering SEC valuation, the Company capitalized the oil and gas properties at $500,000 and issued common stock for the assignment of the lease.

The Glide-Williams mineral lease is operated by Pacific Energy Resources, Inc. pursuant to an Operating Agreement. Pacific Energy Resources, Inc. is owned by affiliates of the Company. Pursuant to the Operating Agreement, Pacific Energy Resources is entitled to 2% of the gross revenues generated by the wells, is paid a monthly fee of $125 for each operating well, is entitled to be reimbursed for direct expenses.

Effective September 30, 2014, the Company wrote down the value of the oil and gas properties previously set forth on its balance sheet by $521,884, based on its determination that the leasehold interests in Oklahoma no longer retained value.

NOTE 6 - SUBSEQUENT EVENTS

On May 31, 2016 the Company entered into a Reorganization and Stock Purchase Agreement (“RSPA”) with Solar Quartz Technologies Limited (SQT), incorporated in New Zealand. On July 12, 2016, the transaction closed into escrow and on October 1, 2016, the transaction closed with the issuance of ANSZ shares to the shareholders of SQT, representing about 95% of the total outstanding shares after closing. . The financial statements presented at September 30, 2016 reflect the financial position of the company before the transaction relating to SQT. The company will report the financial position of SQT when it files it financial statements for December 30, 2016.

The Company has begun the process to change its name to Solar Quartz Technologies, Inc. ("SQT") and obtain a new trading symbol. he Company has begun the process of engaging accountants and auditors to prepare audited financial statements and become fully reporting with the SEC, and subsequent apply to trade on the more senior OTCQX exchange or NASDAQ. The company anticipates qualifying to trade on a more senior exchange before mid-year 2017.
