NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Description of Organization and Nature of Business

The Automotive Resource Network Holdings, Inc. (ARNH) is a U.S. based company listed under the symbol ARNH which began operations on January 6, 2012. Prior to January 6, 2012, the company was known as Diversity Group International, Inc. (DGI) and had a symbol of DGIN. DGIN began operations on January 6, 2005. The Company is newly emerging holding company targeting the acquisitions of undervalued, niche companies with high growth potential, income-producing commercial real estate properties and high return investments all designed to pay a future dividend to our shareholders.

Note 2 — Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Previously the company has suffered significant operating losses, used substantial funds in its operations, and needed to raise additional funds to accomplish its objectives. These financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Note 3 - Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of The Automotive Resource Network Holdings, Inc.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements. Actual results could differ from those estimates.

Debt

The Company accounts for debt at the face amount of the debt offset by applicable discounts and recognizes interest expense for accrued interest payable under the terms of the debt. Principal and interest payments due within one year are classified as current, whereas principal and interest payments for periods beyond one year are classified as long term. Beneficial conversion features of debt are valued and the related amounts recorded as discounts on the debt. Discounts are amortized to interest expense using the effective interest method over the term of the debt. Any unamortized discount upon settlement or conversion of debt is recognized immediately as interest expense.

Revenue Recognition

The Company recognizes revenue from online purchases of monthly coverage. Revenue is recognized when the purchase occurs and the Company has received notification from merchant services.

Income Taxes

The Company accounts for income taxes under an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in its financial statements or tax returns. In estimating future tax consequences, the Company generally considers all expected future events other than enactments of changes in the tax law or rates.

Fair Value of Financial Instruments

The carrying amount of the Company's cash equivalents, other receivables, accrued expenses and short-term debt approximates their estimated fair values due to the short-term nature of those financial instruments. The long-term debt approximates carrying value since the related rates of interest approximate current market rates.

Loss Per Share

Statement of Financial Accounting Standards FASB No. 128, "Earnings per Share", which replaces the calculation of primary and fully diluted earnings (loss) per share with basic and diluted earnings (loss) per share, is used to calculate earnings per share. Basic earnings (loss) per share includes no dilution and is computed by dividing income (loss) available to common stockholders by the weighted average number of shares outstanding during the period. Diluted earnings (loss) per share reflect the potential dilution of securities that could share in the earnings of an entity, similar to fully diluted earnings (loss) per share.

Recent Accounting Pronouncements

The Company does not expect the adoption of any recently issued accounting pronouncements to have a significant effect on its material position or results of operations.

Note 4 – Notes

On April 1st, 2015 ARNH entered into a consulting contract with PBDC , LLC. Company Shall pay consultant a fee of \$2,500/month in the form of a convertible note bearing 10% interest convertible at a 50% discount to the trailing weeks vwap at the end of each quarter.
