FORWARD LOOKING STATEMENTS

THIS INITIAL COMPANY INFORMATION AND DISCLOSURE STATE, IN PARTICULAR, “MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS” AND “BUSINESS,” INCLUDE “FORWARD-LOOKING STATEMENTS” WITHIN THE MEANING OF SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED. THESE STATEMENTS REPRESENT THE COMPANY’S EXPECTATIONS OR BELIEFS CONCERNING, AMONG OTHER THINGS, FUTURE REVENUE, EARNINGS, AND OTHER FINANCIAL RESULTS, PROPOSED ACQUISITIONS AND NEW PRODUCTS, ENTRY INTO NEW MARKETS, FUTURE OPERATIONS AND OPERATING RESULTS, FUTURE BUSINESS AND MARKET OPPORTUNITIES. THE COMPANY WISHES TO CAUTION AND ADVISE READERS THAT THESE STATEMENTS INVOLVE RISK AND UNCERTAINTIES THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THE EXPECTATIONS AND BELIEFS CONTAINED HEREIN. FOR A SUMMARY OF CERTAIN RISKS RELATED TO THE COMPANY’S BUSINESS, SEE “RISK FACTORS.” UNDER “DESCRIPTION OF BUSINESS.”

Unless the context requires otherwise, references to the Company or Issuer are to American Security Resources Corp.

PART A GENERAL COMPANY INFORMATION

Cautionary Factors That May Affect Future Results (Cautionary Statements Under the Private Securities Litigation Reform Act of 1995)

The disclosure and analysis set forth herein contains certain forward looking statements, particularly statements relating to future actions, performance or results of current and anticipated products and services, sales efforts, expenditures, and financial results. From time to time, the Company also provides forward-looking statements in other publicly-released materials, both written and oral. Forward-looking statements provide current expectations or forecasts of future events such as new products or services, product approvals, revenues, and financial performance. These statements are identified as any statement that does not relate strictly to historical or current facts. They use words such as “anticipates,” “intends,” “plans,” “expects,” “will,” and other words and phrases of similar meaning. In all cases, a broad variety of assumptions can affect the realization of the expectations or forecasts in those statements. Consequently, no forward-looking statement can be guaranteed. Actual future results may vary materially.

The Company undertakes no obligation to update any forward-looking statements, but investors are advised to consult any further disclosures by the Company on this subject in its subsequent filings. Furthermore, as permitted by the Private Securities Litigation Reform Act of 1995, the Company provides these cautionary statements identifying risk factors, listed below, that could cause the Company’s actual results to differ materially from expected and historical results. It is not possible to foresee or identify all such factors. Consequently, this list should not be considered an exhaustive statement of all potential risks, uncertainties and inaccurate assumptions.

RISK FACTORS

No Active Market. Although the Company’s shares are listed on the Pink Sheets listing service, the Company believes that the public trading price may be an inaccurate representation of the value of the Company because there is little or no trading volume in the Company’s shares and no analysts or NASD market makers actively follow the Company.

We have never issued a Dividend but we plan to issue dividends of our interest in Hydrogen Future Corporation (HFCO) to our current shareholders. American Security Resources Corp. has never issued a dividend and we do not

anticipate paying dividends on our common stock in the near future. Furthermore, we may also be restricted from paying dividends in the future pursuant to subsequent financing arrangements or pursuant to Nevada law.

You could be diluted from the Issuance of additional Common and Preferred Stock. American Security Resources Corp. is authorized to issue up to 3,000,000,000 shares of common stock and 2,000,000 shares of preferred stock. To the extent of such authorization, our board of directors will have the ability, without seeking shareholder approval, to issue additional shares of common stock in the future for such consideration as the board may consider sufficient. The issuance of additional common stock in the future may reduce your proportionate ownership and voting power.

Volatility of Stock Prices. In the event that there is an established public market for the Company's Common Stock, market prices will be influenced by many factors and will be more subject to significant fluctuations in response to variations in operating results of the Company and other factors such as investor perceptions of the Company, supply and demand, interest rates, general economic conditions and those specific to the industry, developments with regard to the Company's activities, future financial condition and management.

Applicability of Low Priced Stock Risk Disclosure Requirements. The Common Stock of the Company may be considered a low priced security under rules promulgated under the Securities Exchange Act of 1934. Under these rules, broker-dealers participating in transactions in low priced securities must first deliver a risk disclosure document which describes the risks associated with such stocks, the broker-dealer's duties, the customer's rights and remedies, certain market and other information, and make a suitability determination approving the customer for low priced stock transactions based on the customer's financial situation, investment experience and objectives. Broker-dealers must also disclose these restrictions in writing to the customer, obtain specific written consent of the customer, and provide monthly account statements to the customer. With all these restrictions, the likely effect of designation as a low priced stock will be to decrease the willingness of broker-dealers to make a market for the stock, to decrease the liquidity of the stock and to increase the transaction cost of sales and purchases of such stock compared to other securities.

The Company had working capital deficits of \$43,167.18 for the year ended December 31, 2016 and \$12,150.00 for the three months ended March 31, 2017.

Our cash flows from operations were negative during the year ended December 31, 2016 and for the three months ended March 31, 2017, respectively, due to our lack of revenues and the continuation of research and development and operating costs. Our primary funding source was the issuance of stock for cash and stockholder loans net of pay down on convertible debentures resulting in total cash provided by financing activities of for the years ended December 31, 2016 and for the three months ended March 31, 2017, respectively were:

Year ended 2016	\$	30,904.87

Our financial statements are prepared using principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, we do not have significant cash or other material liquid assets, nor do we have an established source of revenue sufficient to cover our operating costs and to allow us to continue as a going concern. We may, in the future, experience significant fluctuations in our results of operations. If we are required to obtain additional debt and equity financing or our illiquidity could suppress the value and price of our shares if and when trading in those shares develops. However, our future offerings of securities may not be undertaken, and if undertaken, may not be successful or the proceeds derived from these offerings may be less than anticipated and/or may be insufficient to fund operations and meet the needs of our business plan. Our current working capital is not sufficient to cover expected cash requirements for 2017 or to bring us to a positive cash flow position. If we do not raise sufficient capital to execute our business plan, it is possible that we will not be able to continue as a going concern.

We are attempting to raise additional capital through sales of common stock either through private placements or public offerings, as well as seeking other sources of funding. There are no assurances that ASRC will be able to achieve a level of revenues adequate to generate sufficient cash flow from operations or obtain the additional financing through private placements or public offerings to support the investment in American Hydra's development of hydrogen technology. If these funds are not available ASRC may not continue its operations or execute its business plan.
