AVATAR VENTURES CORP.

NOTES TO FINANCIALS STATEMENTS

JULY 31, 2015

(UNAUDITED)

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

AVATAR VENTURES CORP. was incorporated in the State of Nevada as a for-profit Company on August 14, 2006 and established a fiscal year end of July 31. The Company was then organized to enter into the aftermarket electronic accessories business for motor vehicles. Currently the Company is exploring opportunities in the t-shirt/garment industry and entertainment business. The Company welcomes comments or questions from shareholders and the investment community regarding these financial statements and its business plans. Please visit our website at www.avatarvcorp.com to contact the Company.

Going concern

To date the Company has generated no revenues from its business operations and has incurred operating losses since inception of \$970,803. As at July 31, 2015, the Company had a working capital deficit of \$36,595. The Company will require additional funding to meet its ongoing obligations and to fund expected operating losses. The ability of the Company to continue as a going concern is dependent on raising capital to fund its initial business plan and ultimately to attain profitable operations. Accordingly, these factors raise substantial doubt as to the Company's ability to continue as a going concern. The Company intends to continue to fund its business through private placements and advances from related parties as may be required. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 2 - MANAGEMENT CHANGE

On September 30, 2013, Voltaire Gomez resigned as President and a Director of the Company. On September 30, 2013 Zhen Chen resigned as Director and Chief Operating officer of the company. On September 30, 2013, Edward Minnema, was appointed President and sole Director of the Company.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements present the balance sheet, statements of operations, stockholders' equity (deficit) and cash flows of the Company. The financial statements are presented in United States dollars and have been prepared in accordance with accounting principles generally accepted in the United States.

Use of Estimates and Assumptions

Preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported

amounts of revenues and expenses during the period. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents.

Loss per Common Share

The basic earnings (loss) per share is calculated by dividing the Company's net income (loss) available to common shareholders by the weighted average number of common shares during the year. The diluted earnings (loss) per share is calculated by dividing the Company's net income (loss) available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. As of July 31, 2015 and 2014, the Company had common stock equivalents representing 600,000 shares and 1,800,000, respectively. Both the basic and diluted loss per share for the years ended July 31, 2015 and 2014 were less than \$.01.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances and tax loss carry-forwards. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

Recent Accounting Pronouncements

In June 2014, the FASB issued ASU 2014-10, "Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation". The guidance eliminates the definition of a development stage entity thereby removing the incremental financial reporting requirements from U.S. GAAP for development stage entities, primarily presentation of inception to date financial information. The provisions of the amendments are effective for annual reporting periods beginning after December 15, 2014, and the interim periods therein. However, early adoption is permitted. Accordingly, the Company has adopted this standard as of July 31, 2014.

The Company does not expect the adoption of any other recent accounting pronouncements to have a material impact on its financial statements.

NOTE 4 – RELATED PARTY TRANSACTIONS

From October 2013 through December 2014, Edward Minnema, President, CEO and Director received \$500 per month in consulting fees.

On January 2, 2015 the Board of Directors agreed to pay Mr. Minnema \$2,000 per month in consulting fees. In addition, the Board of Directors agreed that Mr. Minnema will receive 5,000,000 common shares

upon his willful resignation from the Company. Further, the Board of Directors agreed that Mr. Minnema will receive 30,000,000 common shares or its equivalent in cash upon his separation from the Company for any other reason except for cause.

On February 28, 2015 Mr. Minnema was compensated 1,500,000 shares at \$.01 per share, for services rendered for calendar year 2014.

NOTE 5 – INCOME TAXES

The provision for income taxes at the United States federal statutory rate compared to the Company's income tax expense as reported at July 31, 2015 and 2014 is as follows:

	<u>2015</u>	<u>2014</u>
Net Loss before income taxes per financial statements	\$ (42,905)	\$ (16,928)
Income tax rate	<u>34%</u>	<u>34%</u>
Provision for income taxes at federal rate	\$ (14,588)	\$ (5,755)
Valuation allowance	<u>14,588</u>	<u>5,755</u>
Provision for income taxes, as reported	<u>\$ -</u>	<u>\$ -</u>

The significant components of the deferred income tax asset at July 31, 2015 and 2014 are as follows:

	<u>2015</u>	<u>2014</u>
Deferred Income tax asset	\$ 330,073	\$ 315,485
Valuation Allowance	<u>(330,073)</u>	<u>(315,485)</u>
Deferred Income tax asset, as reported	<u>\$ -</u>	<u>\$ -</u>

No provision for income taxes has been reported in these financial statements due to the net loss for the years ended July 31, 2015 and 2014. The Company has recognized a valuation allowance for the deferred income tax asset since the Company cannot be assured that it is more likely than not that such benefit will be utilized in future years. The valuation allowance is reviewed annually.

The Company did not have any tax positions for which it is reasonably possible that the total amount of unrecognized tax benefits will significantly increase or decrease within the next 12 months. The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operations in the provision for income taxes. As of July 31, 2015 and 2014, the Company had no accrued interest or penalties related to uncertain tax positions. The tax years that remain subject to examination by major taxing jurisdictions are for the years ended July 31, 2010 through July 31, 2015.

NOTE 6 - CONVERTIBLE PROMISSORY NOTES

On November 26, 2013 the Company issued three convertible promissory notes totaling \$34,291. The Holders had the right, from and after the issuance of the Notes and then at any time at the Holders' option, to convert, in whole or in part, the then outstanding balance of the principal amount of the Note.

The conversion price was amended to \$0.01905 per share (1,800,000 shares). In addition, the convertible promissory notes included a twelve month warrant (1,200,000 shares) at a conversion price of \$0.15 per share. Mr. Minnema, President, was a participant.

On December 11, 2014, two convertible promissory notes were converted into 1,200,000 shares of the Company's common stock at a price of \$0.01905 per share. Mr. Minnema, President, did not convert his promissory note.
