

OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 ("Exchange Act") as well as Rule 144 of the Securities Act of 1933 ("Securities Act"), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. We use the basic disclosure information provided by OTC Pink companies under these guidelines to designate the appropriate tier in the OTC Pink marketplace: Current, Limited or No Information. OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for OTC Pink Current Information tier.

6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. a description of the issuer's business operations;

Executive Summary

The current technology market and also the resources venture businesses have presented a unique opportunity for merger of these types of companies. The timing is very important because the use of technologies will play an important role in the success of the resource venture solutions.

Technology Market

Sweeping changes in the global telecommunications and mobile market have presented an opportunity to create a new international telecom through the merger of some of the more than 15,000 independent companies.

By acquiring a small percentage of these technology solutions or small companies, All World Resources Corp. ("All World") will become a significant technology solutions provider within the next 2-3 years.

The small independents will probably lose their investments as they are unable to compete singularly against giant firms such as Verizon, Sprint, AT&T and BCE. All World offers them an option to merge their small start-up or developing companies into a publicly traded entity that will provide them with a liquid investment. No, or limited cash would change hands.

The smaller firms would be grouped according to services and geography in order to gain critical mass in reducing operating costs.

Clients of one company would then be cross-sold products from another merged company, thus increasing sales to any one customer and reducing administrative costs.

A smaller initial investment is required to make this company a reality. Because the client and asset base are being acquired for shares the amount of funds necessary will be greatly reduced. Only \$5 million (phased-in according to the specific of each technology application or type of junior mining company needs) will be required to fund the start up of All World. The funds would be used for acquiring a public company, developing and implementing the marketing campaigns for the first two years (before operating revenues take over) in addition to regular start-up costs.

Resources Market

All World is currently exploring relationships with a number of junior mining and exploration companies that are in desperate need of an infusion of capital to start or continue their mining and exploration activities. All World would bring a single one-stop place for juniors mining and exploration companies to fund and grow their business.

B. Date and State (or Jurisdiction) of Incorporation:

September 11, 2006, State of Nevada

C. the issuer's primary and secondary SIC Codes;

1040 , 8299

D. the issuer's fiscal year end date;

June 30

E. principal products or services, and their markets;

1. Technology solutions focusing on the telecommunications and mobile markets worldwide.

2. Resources venture businesses with junior mining and exploration companies in US and Canada.

If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.
