\*To be included in the OTC Pink Current Information tier, the transfer agent must be registered under the Exchange Act.

List any restrictions on the transfer of security:

There are no restrictions on the transfer of security.

Describe any trading suspension orders issued by the SEC in the past 12 months.

There have been no trading suspension orders issued in the past twelve months.

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently Anticipated or that occurred within the past 12 months:

There have been no stock splits, stock dividends, mergers, acquisitions, spin offs:

The company increased its authorized shares from 500,000,000 to 750,000,000.

The company acquired another rural property in Borba, Amazonas, Brazil adding to its land and timber inventory values as is reflected in the Financial Statements ending June 30<sup>th</sup>, 2014.

#### **4) Issuance History**

Between June 30<sup>th</sup> and September 30<sup>th</sup>, 2014, the Company issued another 93,600,000 shares of common stock to IBC Funds. This covers the company's obligation of payment to Mezzomo and Co, an important supplier of wood products in Brazil. This is a financial transaction titled a 3A10 that was approved in the company's favor to clean debt from its balance sheet. Counting these issues during this period the Company's outstanding common shares came to a total of 570,030,312.

#### **5) Financial Statements**

The company has published its Unaudited Consolidated Financial Statements for the period ending 09/30/2014, which include the Balance sheet, Statement of Income, Statement of Cash flows and Financial Notes. These documents are incorporated by reference and can be found at <http://www.otcmarkets.com/stock/AZFL/filings> Labeled "Quarterly Report" for period ending 09/30/2014.

#### **6) Describe the Issuer's Business, Products and Services**

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

##### **Description of the issuer's business operations:**

Headquartered at 1110 Brickell Avenue, Ste 430 Miami, Florida, 33131, and with operations in Amazonas, Brazil, at Avenida Duque de Caxias, 1514, Bairro Praca 14, Edificio Hasselman, Sala 01, Manaus, Amazonas, Brazil, AZFL's through its wholly owned subsidiary AFL is a natural resources company diversified in timber products and a highly specialized commodity known as Hardwood Sleepers ( aka: Railroad Ties) for the European markets primarily the UK with a focus on sustainable practices in the management of its forestry holdings in the Brazilian state of Amazonas. The AZFL management team and its shareholders, some of whom have owned large tracts of land in the Amazon Rain Forest for over fifty years are committed to sustainable forest management and the bio-diversity of the Amazon Rain Forest. AZFL is building a business strategy that will enable its development into a profitable enterprise, as well as preserve the balance environmental integrity and consumer needs.

AZFL currently owns 114,990 acres of virgin Rain Forest, located in the state of Amazonas in Brazil. The AZFL approach addresses local poverty alleviation, sustainable development and bio-diversity conservation, restoration, and also combats the new challenges of climate change. AZFL is committed to working closely with local forest communities, and providing employment opportunities to the indigenous peoples that live in communities adjacent to the company properties. AZFL offers innovative ways of doing business, providing a new way of life for individuals, forest communities and the natural environment, while generating company profits and benefits from preservation incentives.

##### **Timber Market**

Production and consumption of key wood products and wood energy are expected to rise from the present to 2030(^2); largely following historical trends of 1-2% increases per annum. Two main factors affecting long-term global demand for wood products are demographic change and continued economic growth. The world's population is projected to increase to 8.2 billion in 2030. During a 40 year span from 1970-2010 global GDP increased approximately US \$42 trillion. It is projected to grow another US \$42 trillion in the next 20 years. Global trade of all wood products doubled in a six-year span from 2002-2008, increasing from approximately US \$300 billion to approximately \$600 billion. Income derived from high global timber demands is a primary determinant for investment

in forest management. This escalating growth not just increases global wood demands but creates a need for conservative forest management initiatives.

(2) Food and Agriculture Organization of the United Nations, “Status of the World’s Forests 2009”, [www.pefc.org](http://www.pefc.org)  
Timber Agent Operations

Since inception, AZFL has acted as Timber Agent providers of various species of wood products from the Amazon Rain Forest. As Timber Agents, AZFL acts as originating broker and sales agent for various timber products. Current operations focus on the sale of wood products. Current operations focus on the sale of wood products procured from third-party timberland owners and producers in Brazil. AZFL coordinates several factors when fulfilling the requirements of clients’ timber orders:

1. Quantity of Timber
2. Species of Timber
3. Finish and specification of desired product
4. Shipment of finished product

As a natural resource, wood is available in many species. AZFL spends time researching various species that will best fit the needs of their customers and the availability of the raw wood. Different woods have geographical, seasonal, and cutting season differences. The decisions made regarding these three differences are crucial to the business. Geographical decisions include determining the region the wood species is located, and which third-party owns the land to be focused on for harvesting.

Seasonal decisions include at what time felling (the cutting of trees) should commence, and also the amount of time felling will take, factoring in weather patterns to minimize erosion. There can be substantial differences in weather patterns

from one season to another in the northern parts of Brazil, as in most places. More or less rainfall can cause river water levels to fluctuate at different times of the year sometimes dictating the total amount of timber that can logistically be transported.

The cutting season is substantially affected by the weather conditions. Rain hampers the ability to work in the forest using heavy equipment. As a result, when there is more rainfall, the cutting season is shorter, and less active days of extraction work is performed. In addition, more or less timber may be harvested from one season to the next.

## **Revenues**

Currently AZFL is attempting to fulfill its second order from a U.K. based railroad supply company, for US \$2.64 MM dollars in Railroad Ties or “Sleepers”. The first partial order was shipped on December 7<sup>th</sup>, 2013. The company shipped 10 – 40’ containers of railroad ties to the UK as a partial shipment on an order for 200-40’ containers of this product valid until the end of the 2015. The company has signed an intent for a Joint Venture Agreement with Trade Finance Partners, London, UK, through which it expects to re-start shipments on the Trackwork order in the final quarter of 2014.

## **Governmental Regulations**

The Timber industry and all wood products produced are regulated by the State and Federal Government of Brazil as to their origin, chain of custody, extraction, production and shipment, under the prescribed Environmental standards. As a “Timber Agent” AZFL requires that all of its suppliers maintain and provide the proper documentation and licenses in reference to any wood products AZFL may broker. These Government and Environmental regulations are more specifically described below in Item 16A, Plan of Operations in the Risk Factors section.

## **Employees**

AZFL has 5 full time employees. AZFL currently has no key employees, other than Bruce Barren, AZFL’s CEO and Chairman, Director and Mr. Ricardo Cortez, a shareholder in AZFL. Employees do not currently receive stock benefits for their performance.

## **Intellectual Property**

A) AZFL owns the domain name www.amazonasf.com. AFL does not currently own any patents, trademarks, or copyrights. AZFL plans to file for certain Trademarks and Copyrights in the near future.

B. Date and State (or Jurisdiction) of Incorporation:

The company was incorporated in the State of Nevada December 16, 2008.

C. the issuer's primary and secondary SIC Codes;

AZFL's primary SIC Code is 800 5 FORESTRY.

D. the issuer's fiscal year end date;

Issuer's fiscal year end is 12/31

E. principal products or services, and their markets;

Currently the Company's wholly owned subsidiary, AFL engages in the wholesale export of tropical hardwood products from Brazil to potential customers in the US and abroad. Wood in general is one of the most consumed commodities worldwide and the sustainable supply of wood is under consistent pressure from population growth and environmental concerns. Tropical hardwoods specifically, are a marketable type of wood for export out of Brazil and have numerous application and product derivatives including but not limited to, Sleepers, Decking, Flooring, Lumber and Furniture. There is worldwide demand and for these types of products and while AZFL currently represents an inconsequential market share for such, the Company believes it can be competitive as it grows in this sector due to its access contacts and experience in relation to the direct supply and production of these materials at their source.

To date the Company has only sold Railroad Ties or Sleepers to one customer in the UK. While the company has other prospective clients that it can potentially market more products to, it has chosen to focus first on increasing its volume of this product to this one customer. This does currently create a dependence on this one customer and a lack of diversity in its client and product base more specifically detailed in the Risk Factors section of item 16 A. Plan of Operations. AZFL has abundant access to supply of this product through its existing contacts with producers in the region, who are named in later sections. Our Railroad Sleepers are shipped by means of cargo vessel to the client from the respective port of departure, usually the port of Manaus, Brazil. The company does not have any pending publicly announced "new product or services" other than those described herein. AZFL does not have any patents, trademarks, licenses, franchises, concessions, royalty agreements on these products. Any government or Environmental approval necessary for the products are achieved by the supplier prior to AFL's purchase of said product as the Company is currently only acting as a Timber Agent.

AZFL also retains the original ECOSYS business plan and will pursue setting up a series of alternative fuel stations at existing gas stations along various freeways in the state of California. OTC Markets Group Inc.

## **7) Describe the Issuer's Facilities**

AFL, the subsidiary of AZFL owns Title for a property denominated Fazenda Jatuarana and 5 other smaller properties. These properties contains some 46,555 hectares or 114,990 acres of rainforest land located in the State of Amazonas in Brazil. Along with these properties, AFL also holds title for two fully approved forest management projects and their associated permits and licenses in preparation for expansion into Timber Production. Through these licenses AFL is authorized to harvest approximately 14,000 cubic meters of timber.

The Company's corporate operations, sales, & marketing and accounting are conducted at its Miami Florida location at 1110 Brickell Ave, Suite 430, Miami Florida 33131. The Company's AFL division's timber operation is conducted at its Brazil location at Ru Salvador, Numero 120, 12 Andar, Edif Vieralves Business Center, Bairro Adrianopolis, Manaus, Amazonas Brazil CEP: 69.057-040.

## **8) Officers, Directors, and Control Persons**

A. Names of Officers, Directors, and Control Persons.
