**BRIDGEGATE PICTURES, CORP.**  
**NOTES TO FINANCIAL STATEMENTS**  
**APRIL 30, 2019**  
**(UNAUDITED)**

**1. ORGANIZATION AND NATURE OF OPERATIONS:**

Bridgegate Pictures Corp. (the "Company") formerly Big Cat Energy Corporation, is the difference in today's film community. Operating as an integrated film company, located in the United States. The company engages in the financing and development of various feature films for global distribution in the theatrical motion picture markets. Bridgegate specializes in independent films that have domestic and international appeal, as well as giving a voice to the important stories needing to be heard. Together with their worldwide partners, as the Company provides resources and investment managers and utilizes its collective expertise and network to produce and distribute its product

**2. LIQUIDITY:**

*Going Concern* – As of APRIL 30, 2019 the Company had working capital deficit of \$177,568 and stockholders' equity of \$11,109. The Company has changed its focus from oil and gas support to motion picture production, financing and distribution. The Company will be dependent on addition funds from private and public sources. The Company can provide no assurance that additional investor funds will be available on terms acceptable to the Company. These conditions raise substantial doubt about the Company's ability to continue operations as a going concern

The Company's ability to continue as a going concern is dependent upon raising capital through debt or equity financing and ultimately by increasing revenue and achieving profitable operations. The Company can offer no assurance of success in our efforts to raise additional proceeds or achieve profitable operations. The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of business.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

*Use of Estimates* – The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

*Cash and Cash Equivalents* – Cash and cash equivalents include cash on hand, amounts held in banks and highly liquid investments purchased with an original maturity of three months or less.

*Advertising*-The Company expenses advertising costs as they are incurred.

*Concentrations of Credit Risk* – The Company's cash equivalents, accounts receivable and marketable securities are exposed to concentrations of credit risk. The Company manages and controls this risk by investing the cash equivalents with major financial institutions. The accounts receivable are from a related party and are considered to be fully collectable. The marketable securities are common shares are from the same related party and are subject to market risk.

*Furniture and Equipment* – Furniture and equipment is stated at cost. Depreciation is provided on furniture, fixtures and equipment using the straight-line method over an estimated service life of three to seven years.

The cost of normal maintenance and repairs is charged to operating expenses as incurred. Material expenditures which increase the life of an asset are capitalized and depreciated over the estimated remaining useful life of the asset.

**Income Taxes** – Income taxes are accounted for by recognizing deferred income tax assets and liabilities for the expected future income tax consequences, based on enacted tax laws, of temporary differences between the financial reporting and tax basis of assets, liabilities and carryforwards. Deferred tax assets are recognized for the expected future effects of all deductible temporary differences, loss carryforwards and tax credit carryforwards. Deferred tax assets are then reduced, if deemed necessary, by a valuation allowance for the amount of any tax benefit which, more likely than not, are not expected to be realized.

We adopted ASC 740, *Income Taxes* as of April 1, 2008. This topic provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods. We recognize interest and penalties related to uncertain tax positions in income tax expense.

**Investments** – Securities classified as “available for sale” are carried in the financial statements at fair value. Realized gains and losses are included in earnings. Unrealized holding gains and losses are reported in other comprehensive income.

**Fair Value of Financial Instruments** – The Company’s financial instruments consist of cash and cash equivalents, accounts receivable, prepaid expenses, marketable securities and accounts payable. The fair market value of these financial instruments approximates or is equal to the book value due to the short term nature of these balances.

**Fair Value Measurements** - are determined by the Company’s adoption of ASC 820 *Fair Market Measurement and Disclosures* as of May 1, 2008, including the application of the statement to non-recurring, non-financial assets and liabilities. The adoption of ASC 820 did not have a material impact on the Company’s fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal (or most advantageous market) for the asset or liability in an orderly transaction between market participants at the measurement date.

**Stock-Based Compensation** – The Company accounts for stock-based compensation arrangements in accordance with ASC 718, *Compensation-Stock Compensation*, which permits entities to recognize as expense over the vesting period, the fair value of all stock-based awards on the date of grant.

**Research and Development Expenditures** – Costs related to the research, design, and development of products are charged to research and development expenses as incurred. The Company incurred \$0 of research and development costs for the years ended April, 2018 thru 2015.

**Net Loss Per Share** – Basic net loss per share is computed using the weighted average number of common shares outstanding during the period. Contingently issuable shares are included in the computation of basic net income (loss) per share when the related conditions are satisfied. Diluted net income per share is computed using the weighted average number of common shares and potentially dilutive securities outstanding during the period. Potentially dilutive securities consist of contingently issuable shares, the incremental common shares issuable upon conversion of preferred stock or convertible debt (using the “if converted” method) and shares issuable upon the exercise of stock options and warrants (using the “treasury stock” method). Potentially dilutive securities are excluded from the computation if their effect is antidilutive.

**Reclassifications** – Certain reclassifications have been made to prior years’ amounts to conform to the classifications used in the current year. Such reclassifications had no effect on the Company’s net loss in any of the periods presented.

#### **Recent Pronouncements**

We have reviewed all recently issued, but not yet effective, accounting pronouncements and do not believe the future adoption of any such pronouncements may be expected to cause a material impact on our financial condition or the results of our operations.

#### **4. MARKETABLE SECURITIES**

The Company did not have any securities available for sale at April 30, 2019.

#### **5. RELATED PARTY TRANSACTIONS**

The Company issued shares of common stock to its Officers and Directors in lieu of compensation during the twelve months ended April 30, 2019. Shares issued for the twelve months ended April 30, 2019 were:

Guy Griffithe	CEO	24,595,518 shares of restricted common stock
James DiPrima	CFO	5,000,000 shares of restricted common stock

The Company did not have any related party transactions for the nine months ended April 30, 2019

#### **6. SHAREHOLDERS' EQUITY:**

##### *Private Offerings* –

The Company had no private offering activity in the twelve months ended April 30, 2019 and 2018.

**7. INCOME TAXES:** The Federal net operating loss (NOL) carryforward of approximately \$4,252,000 as of April 30, 2019 expires on various dates through 2042. Internal Revenue Code Section 382 places a limitation on the amount of taxable income which can be offset by NOL carryforwards after a change in control (generally greater than 50% change in ownership) of a loss corporation. Generally, after a change in control, a loss corporation cannot deduct NOL carryforwards in excess of the Section 382 limitation. Due to these “change in ownership” provisions, utilization of NOL carryforwards may be subject to an annual limitation regarding their utilization against taxable income in future periods. We have not performed a Section 382 analysis. However, if performed, Section 382 may be found to limit potential future utilization of our NOL carryforwards.

We have established a full valuation allowance against the deferred tax assets because, based on the weight of available evidence including our continued operating losses, it is more likely than not that all of the deferred tax assets will not be realized. Because of the full valuation allowance, no income tax expense or benefit is reflected on the statement of operations.

We have identified no significant uncertain tax positions as of April 30, 2016 or 2015. The cumulative effect of adopting ASC 740 has not resulted in a liability on the balance sheet. The total amount of unrecognized tax benefits as of the date of adoption was zero. No interest and penalties related to uncertain tax positions were accrued as of April 30, 2019 or 2018.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions and is no longer subject to examinations by tax authorities for tax years before 2007.

**8. ACCRUED SALARIES:** As of April 30, 2019 and April 30, 2018 accrued salaries for corporate officers were \$0 and \$0. No salaries were accrued for the twelve months ended April 30, 2019 and 2018 respectively.

**9. SUBSEQUENT EVENTS:** The Company has evaluated subsequent events through January 15, 2020 the date these financial statements were available to be issued. On September 5, 2019 the majority of the shareholders approved a 1 for 100 reverse stock split to be effective November 1, 2019.
