Notes to the Consolidated Financial Statements

For the three and nine months ended July 31, 2015 and 2014

(Expressed in Canadian dollars, except where indicated)

1 Nature of operations

Bearing Resources Ltd. (the "Company" or "Bearing") is an exploration stage company that is engaged in the exploration and development of mineral properties in Mexico and Canada. The Company's registered office is Suite 2600, Oceanic Plaza. 1066 West Hastings Street, Vancouver, British Columbia, Canada.

Bearing was incorporated on January 13, 2011 as 0900353 B.C. LTD. On March 25, 2011, Levon Resources Ltd. ("Levon") acquired Valley High Ventures Ltd. ("Valley High"), the predecessor corporation to the Company, by way of a court-approved plan of arrangement (the "Arrangement").

Reorganization

On May 5, 2015, the Company announced its proposal to complete a corporate reorganization (the "Reorganization") that will transform it from a mineral exploration company to a film, television and digital media company. The Reorganization will include the reverse takeover of the Company by Odyssey Media Inc. ("Odyssey") and the concurrent disposition of the Company's mineral properties in exchange for shares of Commander Resources Inc. ("Commander").

Bearing has entered into letters of intent with Odyssey and Commander whereby (i) Bearing will acquire all of the issued and outstanding shares of Odyssey (the "Odyssey Transaction") in exchange for shares of Bearing, and (ii) transfer all of its mineral properties to Commander in exchange for shares of Commander (the "Commander Transaction") which it will then distribute to its shareholders of record prior to closing the Odyssey Transaction (the "BRZ Shareholders").

Odyssey is a Vancouver based private company involved in the production and sale of motion pictures. Commander is a TSX-V listed Canadian focused exploration company with a portfolio of base and precious metals projects across Canada and equity positions in a number of Canadian junior exploration companies.

The letter of intent between Bearing and Odyssey ("Odyssey LOI") is intended to govern the conduct of Bearing and Odyssey in respect of the proposed Odyssey Transaction and a proposed concurrent financing by Odyssey (the "Odyssey Financing"). The Odyssey LOI provides for an exclusive dealing period commencing on signing and ending on the earlier of the date of closing of the binding definitive agreement (the "Odyssey Agreement") and May 29, 2015 (subsequently extended to September 30, 2015), unless otherwise extended by both parties.

Conditions of closing will include:

- (i) Bearing will consolidate its issued and outstanding shares at such ratio as will result in there being 6,000,000 shares outstanding (provided that such number may be increased by up to 850,000 additional shares in the event Bearing receives refunds of its Mexican tax claims);
- (ii) Bearing will dispose of all of its mineral property interests and subsidiaries in a manner acceptable to Odyssey acting reasonably (and BRZ's Shareholders and the Exchange, if applicable), which is anticipated to be by way of the Commander Transaction;
- (iii) Odyssey will raise at least \$2,400,000 pursuant to the Odyssey Financing (through the sale of common shares of Odyssey at \$0.10 per share);
- (iv) upon the closing date of the Odyssey Transaction (the "Closing Date"), certain directors and officers of Bearing will resign and individuals nominated by Odyssey will be appointed; and
- (v) Bearing will change its name to such name as may be approved by Odyssey.

As consideration for Odyssey, Bearing will issue to the Odyssey shareholders, one Bearing Share for each common share of Odyssey outstanding after the Odyssey Financing (the "Acquisition Shares"); and, issued and outstanding options and warrants of Odyssey will be exchanged for options and warrants of Bearing on an equal basis.

Notes to the Consolidated Financial Statements

For the three and nine months ended July 31, 2015 and 2014

(Expressed in Canadian dollars, except where indicated)

1 Nature of operations (continued)

The letter of intent between Bearing and Commander (the "Commander LOI") sets out the proposed terms of the transfer of Bearing's mineral assets to Commander. Under the terms of the Commander LOI, Bearing will transfer its Canadian mineral properties to its wholly owned subsidiary BRZ Mex Holdings Ltd. (the "Canadian Subsidiary") which also holds (indirectly) title to Bearing's Mexican mineral properties. Bearing will then transfer all of the shares of the Canadian Subsidiary to Commander in exchange for 13,000,000 common shares of Commander and \$15,000 in cash. Closing is conditional on the following:

- (i) The parties entering into a definitive agreement;
- (ii) Receipt of BRZ Shareholder approval;
- (iii) Receipt of regulatory approval; and
- (iv) Completion of the transfer of Bearing's Canadian mineral assets from Bearing to the Canadian Subsidiary

Upon completion of the Commander Transaction, the Company intends to distribute all of the Commander shares which it receives to the BRZ Shareholders. In accordance with the Exchange policies, Bearing's common shares are currently halted from trading and will remain so until the Company meets the sponsorship requirements or completes the Reorganization.

2 Significant accounting policies

Basis of presentation

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34- Interim Financial Reporting. The accounting policies followed in these condensed interim consolidated financial statements are consistent with those of the previous financial year, except as described below.

These interim consolidated financial statements were approved for issue on September 16, 2015 by the Audit Committee on behalf of the Board of Directors.

The condensed interim consolidated financial statements do not contain all disclosures required under IFRS and should be read in conjunction with the Company's audited annual consolidated financial statements and the notes thereto for the year ended October 31, 2014.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Actual results could differ from those estimates. Significant accounts that require estimates as the basis for determining the stated amounts include exploration and evaluation assets, share-based payments, allocation of financing proceeds, and income and mining taxes. Differences may be material.

Effective November 1, 2014, the Company adopted IFRIC 21, Accounting for Levies imposed by Governments. IFRIC 21 clarifies that the obligating event giving rise to a liability to pay a levy is the activity described in the relevant legislation that triggers payment of the levy. IFRIC 21 did not result in any changes to the Company's financial statements.

Notes to the Consolidated Financial Statements

For the three and nine months ended July 31, 2015 and 2014

(Expressed in Canadian dollars, except where indicated)

2 Significant accounting policies (continued)

New accounting pronouncements

Unless otherwise noted, the following revised standards and amendments are effective for annual periods of the Company beginning on or after November 1, 2015 with earlier application permitted, except where indicated.

- (i) The completed version of IFRS 9, *Financial Instruments*, was issued in July 2014. The completed standard provides revised guidance on the classification and measurement of financial assets. It also introduces a new expected credit loss model for calculating impairment for financial assets. The new hedging guidance that was issued in November 2013 is incorporated into this new final standard. This final version of IFRS 9 will be effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company is currently assessing the effect of this standard.
- (ii) In May 2014, IFRS 15, Revenue from Contracts with Customers was issued which establishes principles to address the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. IFRS 15 will be effective for annual periods beginning on or after January 1, 2017, with early adoption permitted. The Company is currently assessing the effect of this standard.

3 Exploration costs

Exploration costs are comprised of exploration and evaluation expenses on the following properties or property groups. For an understanding of the properties, reference should be made to note 4. Costs related to Mt. Polley are included under the "Other" heading on the following table:

July 31, 2015	210,000	13,325	25,004	248,329

Canadian Properties:

The **October Dome gold property** is located northwest of Likely, British Columbia, Canada. A portion of the property is subject to a 2% Net Smelter Royalty ("NSR"), with each 0.5% purchasable for \$500,000. A further 667 hectares are subject to a 1.5% NSR royalty. In April 2015, the Company wrote down certain acquisition cost as impairment is indicated by the terms of the proposed Commander transaction (note 2). The amount of the write-down has been estimated based on the value of the cash and shares proposed to be received from Commander.

The **Mt. Polley copper-gold properties** are located adjacent to Imperial Metals Corporation's ("Imperial") Mt. Polley open-pit copper gold mine, northeast of Williams Lake, British Columbia, Canada. The Company has a 90% interest in a portion of the Lloyd claims and a 100% interest in the remaining Lloyd claims, subject to a 1.5% NSR royalty. The Company also has a 100% interest in the Nordik, Buc, and Calm claims subject to a 2% NSR royalty. The NSR royalty on each claim group with the exception of the Buc claims can be purchased for \$500,000 for each one-half percent.

The Mt. Polley properties previously included an additional area adjacent to Imperial's Boundary Zone that was sold to Imperial over which the Company retained a royalty interest. The royalty is \$2.50 per tonne for the first 400,000 tonnes of material milled and \$1.25 per tonne for all tonnes milled in excess of 400,000 tonnes. The royalty in excess of 400,000 tonnes can be reduced to \$0.62 per tonne for a payment of \$1,000,000. The Company is entitled to 90% of the aforementioned royalties.

Notes to the Consolidated Financial Statements

For the three and nine months ended July 31, 2015 and 2014

(Expressed in Canadian dollars, except where indicated)

4 Mineral property interests (continued)

In the **Yukon**, the Company's portfolio includes the Flume (subject to a 2.5% NSR), HY (subject to a 2% NSR), Jay, VM, VBA and Big properties. It also has royalties on properties owned by Aben Resources Ltd. (a 2% NSR on the VF property) and Precipitate Gold Corporation (a 2% NSR on the Jay East Property). In July 2013, the Company wrote down acquisition costs on its Yukon properties (excluding Flume).

5 Share stock options Options

The Company has a stock option plan (the "Plan") that permits the grant of share purchase options up to 10% of the issued and outstanding common shares of the Company to directors, officers, key employees and consultants. Terms and pricing of options are determined in accordance with the Plan.

	Nine months end	ed July 31, 2015	Year ended Oct	ober 31, 2014
	Number of Weighted		Number of	Weighted
	shares	average exercise price \$	shares	average exercise price \$
Outstanding - October 31	1,300,000	0.09	1,690,000	0.15
<u> </u>	1,500,000	0.07		
Granted	-	-	800,000	0.05
Forfeited	-	-	-	-
Expired	-	-	(1,190,000)	(0.15)
Outstanding – at period end	1,300,000	0.09	1,300,000	0.09

As of July 31, 2015, the following stock options were outstanding and exerciseable:

Number of options Outstanding	Number of options vested and exercisable	Exercise price \$	Expiry Date
500,000	500,000	0.15	July 12, 2016
800,000	800,000	0.05	August 1, 2019
1,300,000	1,300,000		_

For the three months ended July 31, 2015 total share-based compensation expense was nil (2014: Nil). For the nine months ended July 31, 2015 total share-based compensation expenses was nil (2014: (recovery (\$32,432))

The following assumptions were used in the Black-Scholes pricing model to calculate compensation expense for options granted during the year ended October 31, 2014:

	Options
Risk-free interest rate	0.95% to 1.92%
Expected life	2.0 to 3.5 years
Expected volatility	100-120%
Expected dividend	nil

Notes to the Consolidated Financial Statements

For the three and nine months ended July 31, 2015 and 2014

(Expressed in Canadian dollars, except where indicated)

6 Related party transactions

The Company considers the Officers of the Company to be key management personnel.

\$	Three Months Ended July 31, 2015	Three Months Ended July 31, 2014	Nine Months Ended July 31, 2015	Nine Months Ended July 31, 2014
Short-term employee benefits	17,716	27,916	73,569	93,736
Share-based payment expense	-	-	-	
Total key management personnel	17,716	27,916	73,569	93,736

7 Geographic segmented information

The Company operates in a single operating segment, mineral exploration. The following table provides geographic information about the Company's assets

\$	Canada	Total
July 31, 2015		
Non-current assets	270,229	270,229
October 31, 2014		
Non-current assets	615,253	615,253

8 Financial instruments

Financial instruments include cash and any contracts that give rise to a financial asset to one party and a financial liability or equity instrument to another party. Financial instruments disclosure requires information about the classification and fair value of financial instruments, including their classification within a hierarchy that prioritizes the inputs to fair value measurements. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 -Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

Fair Values

As at July 31, 2015, the Company's carrying values of cash and cash equivalents, accounts receivable, reclamation bonds and deposits, accounts payable and accrued liabilities approximate their fair values due to their short terms to maturity. The Company has no financial assets or liabilities classified as held-for-trading or available-for-sale.

Credit Risk

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents and accounts receivable. The Company deposits cash and cash equivalents with high credit quality financial institutions as determined by rating agencies. Accounts receivable are primarily from governments.

Notes to the Consolidated Financial Statements

For the three and nine months ended July 31, 2015 and 2014

(Expressed in Canadian dollars, except where indicated)

8 Financial instruments (continued)

Interest Rate Risk

The Company is exposed to interest rate risk on its cash and cash equivalents held at July 31, 2015. A 100 basis point (1%) increase or decrease in the interest rate in 2015 would have resulted in approximately a \$3,332 change in the Company's reported loss for the nine months ended July 31, 2015 based on its closing balance at the end of the period.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with its financial liabilities. The Company is reliant upon equity issuances as its sole source of cash. The Company manages liquidity risk by endeavoring to maintain an adequate level of cash and cash equivalents to meet its ongoing obligations. The Company continuously reviews its actual expenditures and forecast cash flows and matches the maturity dates of its cash equivalents to capital and operating needs.

Currency Risk

As at July 31, 2015 the Company has financial instrument exposure in Canadian dollars, Mexican pesos and United States dollars. The Company therefore has exposure to United States dollars as the functional currencies of the Company and its Mexican subsidiaries are Canadian dollars and Mexican pesos respectively.

9 Contingencies

As part of the Arrangement, Bearing agreed to indemnify Levon from any tax liabilities associated with the transfer of the assets to Bearing from Valley High. At this time, the Company does not believe that any significant liabilities will arise as a result of this indemnification.
