### FORWARD-LOOKING INFORMATION

This Annual Report of Brazos International Exploration, Inc. on Form 10-K contains forward-looking statements, particularly those identified with the words, "anticipates," "believes," "expects," "plans," “intends”, “objectives” and similar expressions. These statements reflect management's best judgment based on factors known at the time of such statements. The reader may find discussions containing such forward-looking statements in the material set forth under "Legal Proceedings" and "Management's Discussion and Analysis and Plan of Operations," generally, and specifically therein under the captions "Liquidity and Capital Resources" as well as elsewhere in this Annual Report on Form 10-K. Actual events or results may differ materially from those discussed herein.

### ITEM 1: BUSINESS

We were incorporated in the State of Nevada on January 11, 2007. Our principal offices are located at 2655 Camino Del Rio North, Ste 410, San Diego, CA 92108

We intend to be a conglomerate company.

We had an option to acquire a 100% interest in the mining claims comprising the Lac Dube claims, located approximately 200 km northwest and 65-70 km northeast of Montreal and Mont-Laurier, respectively. The property, which consists of 16 contiguous mining claims (940.04 ha), is situated in the Franchere Township (NTS Map 31J/15) in southwestern Quebec. The property is easily accessible by provincial highways, paved and all-weather gravel roads from major centers of Quebec (Montreal) and Ontario (Ottawa).

We acquired the option from Mr. Michael Carr of Calgary, Alberta.

Due to lack of viable deposits on the mineral claims the Company has abandoned the pursuit and exploration of the mineral claims offered by Mr. Carr. As of March 2, 2010, the Company has issued 500,000 shares of its common stock and paid $5,000 towards the claims option and these amounts have been expensed as exploration costs.

As a result of our decision to not proceed with further efforts on the Lac Dube claims, our management is seeking other opportunities. These opportunities include investigating other potential mineral properties as well as non-mineral business ventures that may be seeking a business combination.

Our research into other industries has included the automotive industries and in particular the pre-owned auto segment. We are currently looking into a start-up venture that will focus on internet sales and traditional transactions as well as a wholesale division.

### Employees

We currently have no full-time employees including our CEO and Principal Accounting Officer.

**Research & Development**

We have incurred no research and development costs, since inception.

## ITEM 1 A: RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this prospectus before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

**IF WE DO NOT OBTAIN ADDITIONAL FINANCING, OUR BUSINESS WILL FAIL.**

Our current operating funds are totally depleted. As of March 31, 2014 we have cash in the amount of $0. We currently do not have any operations and we have no income.

We do not currently have sufficient funds to continue in business and will be entirely dependent on loans or further equity investments from officers, directors and shareholders. Any sale of share capital will result in dilution to existing shareholders.

**BECAUSE WE HAVE NOT COMMENCED BUSINESS OPERATIONS, WE FACE A HIGH RISK OF BUSINESS FAILURE.**

We were incorporated on January 11, 2007. We have not earned any revenues as of the date of this prospectus. Potential investors should be aware of the difficulties normally encountered by new small “micro-cap” ventures and the high rate of failure of such enterprises. The likelihood of success must be considered in light of the problems, expenses, difficulties, complications and delays encountered in connection with the organization, infrastructure and implementation of a new business plan of any kind.

There is limited history upon which to base any assumption as to the likelihood that we will prove successful, and we can provide investors with no assurance that we will generate any operating revenues or ever achieve profitable operations. If we are unsuccessful in addressing these risks, our business will most likely fail.

**WE NEED TO CONTINUE AS A GOING CONCERN IF OUR BUSINESS IS TO SUCCEED.**

Our independent accountant’s report to our financial statements for the period ended March 31, 2014, indicates that there are a number of factors that raise substantial doubt about our ability to continue as a going concern. Such factors identified in the report are our accumulated deficit since inception, our failure to attain profitable operations and our dependence upon obtaining adequate financing to pay our liabilities. If we are not able to continue as a going concern, it is likely investors will lose their investments.

**BECAUSE OUR DIRECTORS HAVE OTHER BUSINESS INTERESTS, HE MAY NOT BE ABLE OR WILLING TO DEVOTE A SUFFICIENT AMOUNT OF TIME TO OUR BUSINESS OPERATIONS, CAUSING OUR BUSINESS TO FAIL.**

Our president, intends to devote about 40 hours per week to our business affairs. It is possible that the demands from other obligations could increase with the result that he would no longer be able to devote sufficient time to the management of our business. In addition, the president may not possess sufficient time for our business if the demands of managing our business increased substantially beyond current levels.

**Risks Relating to Our Common Stock :**

**If A Market For Our Common Stock Does Not Develop, Shareholders May Be Unable To Sell Their Shares.**

There is currently no market for our common stock and we can provide no assurance that a market will develop. However, we can provide investors with no assurance that our shares will be traded on the bulletin board or, if traded, that a public market will materialize. If no market is ever developed for our shares, it will be difficult for shareholders to sell their stock. In such a case, shareholders may find that they are unable to achieve benefits from their investment.

**Authorization of preferred stock.**

Our Certificate of Incorporation authorizes the issuance of up to 5,000,000 shares of preferred stock with designations, rights and preferences determined from time to time by its Board of Directors. Accordingly, our Board of Directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting, or other rights which could adversely affect the voting power or other rights of the holders of the common stock. In the event of issuance, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company. Although we have no present intention to issue any shares of our authorized preferred stock, there can be no assurance that the Company will not do so in the future.

## ITEM 2: PROPERTIES.

We maintain our principal office at 2655 Camino Del Rio North, Ste 410, San Diego, CA 92108
Our telephone number:

These facilities are provided at no charge as a temporary office and mailing address by an officer and director. As of March 31, 2014 we have no other property.

## ITEM 3: LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have, individually or in the aggregate, a material adverse affect on our business, financial condition or operating results.

Information in this Item 7, "Management's Discussion and Analysis or Plan of Operation," and elsewhere in this 10-K that does not consist of historical facts, are "forward-looking statements." **NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 – NATURE AND PURPOSE OF BUSINESS**

Brazos International Exploration, Inc. (the “Company”) was incorporated under the laws of the State of Nevada on January 11, 2007. The Company’s activities to date have been included research in natural resource exploration industry. Additionally the officers of the company have explored other industries where revenue has the ability to be generated in a more rapid pace with a focus on consumer cyclical industries.

**NOTE 2 – NATURE OF SIGNIFICANT ACCOUNTING POLICIES**

**CASH AND CASH EQUIVALENTS**

The Company considers all highly liquid debt instruments purchased with maturity of three months or less to be cash equivalents.

**REVENUE RECOGNITION**

The Company considers revenue to be recognized at the time the service is performed.

**USE OF ESTIMATES**

The preparation of the Company’s financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

**FAIR VALUE OF FINANCIAL INSTRUMENTS**

The Company’s short-term financial instruments consist of cash and cash equivalents and accounts payable. The carrying amounts of these financial instruments approximate fair value because of their short-term maturities. Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash. During the year the Company did not maintain cash deposits at financial institution in excess of the $100,000 limit covered by the Federal Deposit Insurance Corporation. The Company does not hold or issue financial instruments for trading purposes nor does it hold or issue interest rate or leveraged derivative financial instruments.

**ADVERTISING**

As of March 31, 2014, we have incurred no advertising costs.

**EARNINGS PER SHARE**

Basic Earnings per Share (“EPS”) is computed by dividing net income available to common stockholders by the weighted average number of common stock shares outstanding during the year. Diluted EPS is computed by dividing net income available to common stockholders by the weighted-average number of common stock shares outstanding during the year plus potential dilutive instruments such as stock options and warrant. The effect of stock options on diluted EPS is determined through the application of the treasury stock method, whereby proceeds received by the Company based on assumed exercises are hypothetically used to repurchase the Company’s common stock at the average market price during the period. Loss per share is unchanged on a diluted basis since the assumed exercise of common stock equivalents would have an anti-dilutive effect. The Company does not have any common stock equivalents, therefore basic and diluted EPS are the same.

**BRAZOS INTERNATIONAL EXPLORATION, INC.**
**(An Exploration Stage Company)**

**NOTES TO FINANCIAL STATEMENTS**

**INCOME TAXES:**

The Company uses the asset and liability method of accounting for income taxes. This method requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of certain assets and liabilities. Deferred income tax assets and liabilities are computed annually for the difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period, plus or minus the change during the period in deferred tax assets and liabilities.

Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of the assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse. The Company had no significant deferred tax items arise during any of the periods presented.

The Company has incurred net operating losses since inception of $328,006 The related deferred tax asset of approximately $111,522 has been fully offset by a valuation allowance. The net operating losses begin to expire in the year 2031.

**CONCENTRATION OF CREDIT RISK:**

The Company does not have any concentration of related financial credit risk.

**RECENT ACCOUNTING PRONOUNCEMENTS:**

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact to its financial statements.
