NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

B2 Digital, Inc. has been a provider of in-room, on-demand video entertainment and Satellite services to the domestic lodging industry. B2 Digital, Inc. has also recently ventured into the Internet deliver to rural areas of Arizona. In the past B2 Digital, Inc. had provided the video services to over 50,000 Hotel room in the lodging industry. B2 Digital, Inc. tried working into the development of mining properties. Due to a lack of funding this adventure failed to gain what B2 Digital, Inc. Board of Directors had expected. With this failure, the Board of Directors made a major change as two members resigned. The Pay-Per View lost a great deal of income due to the increased Internet use by the Hotel Guest. With this loss the B2 Digital, Inc. Board of Directors felt it was time to dissolve Hotel Movie Network. The main purchases of the Pay Per View products had been Adult type videos. Over 80% of the income from Hotel Pay Per View was this product. In the 1st few months of operation of Hotel Movie Network that revenue dropped to less than 12%.

With two members of the Board of Directors having resigned; C.E.O. Paul D.H. LaBarre moved forward in search of a group of leaders that would help make B2 Digital, Inc. into the world class company that it should become. IN the search also become the concept for doing outside services for B2 Digital, Inc. such as the "Super Bowl" with the NFL in 2008. Addition of security services such as installation of video cameras and alarm systems. Parts of this plan went into play with the installation of several GYMS' in the Phoenix area. Because of the ownership of B Digital, Inc. in "Sino-Can", a contact was made with several companies in China for the delivery of security equipment. Moving in this new direction has also added four new members to the B2 Digital, Inc. Board of Directors. Each person having a very special background in the Data, Cable TV, Media, Internet, Computer Technology and of course the best all have a great deal of management experience. Heading up the Board of Directors is Mr. Rodney P. Hunt, past owner and developer of RSI Data Systems. Mr. Hunts past Companies have grossed hundreds of millions of dollars.

Because of a greater work load one of the new Board Members, Mr. Atonn Muhammad had to resign and apply more of his time to the Real Hip Hop Network (RHN). With B2 Digital, Inc. having a 10% ownership this is going to be a great move for both B Digital, Inc. and Mr. Muhammad. B2 Digital, Inc. has been working very closely with RHN to bring RHN on line as a full 24 hour a day TV broadcaster. B2 Digital, Inc. is working on a daily basis to add the technology necessary to make RHN a strong source of revenue. By adding the Internet experience that B2 Digital, Inc. has gained this should be a winner for both companies.

NOTE 2 - FINANCIAL STATEMENTS

We adopted FASB Statement No.154, Accounting Changes and Error Corrections. This Statement provided guidance on accounting for and reporting of accounting changes error corrections. It establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transaction requirements specific to the newly adopted accounting principle. This Statement also provides for determining whether retrospective application is impracticable. This Statement also provides for determining the correction of an error in previously issued financial statements is not an accounting change. However, the reporting of an error correction involves adjustments to previously issued financial statements similar to those generally applicable to reporting an accounting change retrospectively. Therefore the reporting of a correction of an error by restating previously issued financial statements is also addressed by this statement. (None Noted)

Risk Factors-Summary

The value of our Castle Creek Silver, Inc. is subject to fluctuations in the market price of minerals. Our profitability is subject to Demand for materials such as gold, silver to have sufficient funds to complete further exploration and development programs. We would need additional funds to develop any material deposits for commercial production. Factors beyond our control may determine whether any mineral deposits we discover are sufficiently economic to be developed into a mine. We require licenses and permits to operate our business which we may not be able to obtain. There are risks associated with mineral exploration that may adversely affect our ability to undertake planned operations. There is uncertainty of mineralization estimates. Our operations make us susceptible to environmental risks. There is no guarantee that legal title to the property in which we have an interest will not be challenged. Mineral exploration and mining activities require compliance with a broad range of law and regulation violation of which can be costly.

Land reclamation requirements for exploration properties may be burdensome. We face industry competition for the acquisition of mining properties and the recruitment and retention of qualified Because of these issues B2 Digital, Inc. Board of Directors feel that this area of the Business world should be left to others with a great deal of experience.

Under the WiMax project we have an installation cost that should provide up to 80% of the total cost. Our main research will deal with a best product line for the best cost comparison. B2 Digital, Inc. will be purchasing WiMax equipment for advancement of the Wireless network. The customer will cover the basic cost of installation. The distribution of the Network system will require minor capital outlay.

The addition of the Security projects will require additional staff with a different type of training. The Company new policy of a 50% deposit has made this a source of income that is at this point moving even. With larger contracts that are expected in the next few months there should be a return as good as B2 Digital, Inc. had in the Pay Per View markets.

With the joint venture with SSM Media Ventures additional personal will be required. B2 Digital, Inc. is looking for Video libraries to add support of the 24 hour RHN Network as it is expected to grow. B2 Digital, Inc. has several sources working closely together to gain educational students for the Network. This will be a cost saving and a chance for the students to have a opening into the Broadcasting market.

6) MANAGEMENTS DISCUSSION AND ANALYSIS OR PLAN OF OPERATION Company Overview-Plan of Operation

A. B2 DIGITAL, INC. COMPANY OVERVIEW September 30, 2016

B2 Digital, Inc. has been a provider of in-room, on-demand video entertainment and satellite services to the domestic lodging industry. B2 Digital, Inc. has also recently ventured into the on-line publishing industry. B2 Digital, Inc. through Hotel Movie Network, Inc. had installed approximately 50,000 hotel rooms, which consist of contract rights of Hotel Movie Network with Pay Per View and Cable/Satellite access, and associated hardware and peripherals. B2 Digital, Inc. primarily provides services under long-term contracts. B2 Digital, Inc. through Hotel Movie Network, Inc. platforms s provided for in room viewing of select cable channels (such as HBO, ESPN and CNN) and other interactive and information services, plus high-speed wireless Internet access.

NEW DIRECTION-ACQUISITION OF OWNERSHIP IN "THE REAL HIP HOP NEWORK", OWNERSHIP IN "SINO-CAN (SINO-CANADA), PURCHASE OF 38 MINING CLAIMS IN CANADA, OWNERSHIP IN "CASTLE CREEK INTERNATIONAL CORPORATION" AND PROVISION OF RESIDENTIAL HIGH SPEED WIRELESS INTERNET ACCESS TO SELECTED RURAL AREAS IN ARIZONA.

"The Real Hip Hop Network" is a 24 hour Premium" cable television network that has the ability to have a worldwide distribution to the 18-34 year old Hip Hop purist. It is the hope of B2 Digital, Inc. that through this investment those other opportunities will be provided for the production of a reality TV show to be negotiated about the World of Mining. "Sino-Can" (Sino-Canada) working in conjunction with "Castle reek International Corporation will bring to B2 Digital, Inc. shareholder another opportunity for value in the minerals that become available from the claims currently held. B2 Digital, Inc. is further continuing to develop other areas of opportunity. By working with several rural communities it is our desire to offer High-Speed Internet and possibly telephone to many under serviced communities. WiMax is Standards - based technology enabling the delivery of last-mile wireless broadband access. WiMax continues to be one of the most talked about and highly anticipated technology developments in the wireless industry-a sector that's seen more than its share of well-hyped initiatives in recent years. In terms of hype cycles, WiMax may actually be eclipsing some of the industry's earlier technologies, primarily because it is viewed as a key for the future convergence of wireless and wire line networks, in addition to promising advancement for broadband wireless services and applications. Worldwide sales of WiMax products have been miniscule so far, but the true test of its potential is about to commence, now that the standards-compliant products are hitting the market for deployment in real commercial networks. B2 Digital, Inc. has researched this area and found that over 100,000 homes in rural areas of Arizona that are without real Internet service. In many cases the cost to those that do have service reaches \$100.00 per month for service such as DSL.

Satellite Delivery the cost has always been out of reach. B2 In most cases dial-up is all that is available from the local phone provider. In the case of Digital, Inc. owns one patent, registered in the Dominican Republic for video technology. It also owns through the acquisition of Hotel Movie Network various trade names, trademarks, service marks to be actively protected. - Under our current operations B2 Digital, Inc. without the merger of Mob Candy Corporation should still be able to
 expand the Company financial needs with the minimum outside funding. Currently it is felt with the additional outlets
 Internet income to the Company by year's end should cover the over-all operations.
- Under the WiMax project we have an installation cost that should provide up to 80% of the total cost. Our main research
 will deal with a best product line for the best-cost comparison.
- B2 Digital, Inc. will be purchasing WiMax equipment for advancement of the Wireless network. The customer will
 cover the basic cost of installation. The distribution of the Network system will require minor capital outlay.
- Without the merger of Mob Candy Corporation, B-2 Digital, Inc. will not need to expand the employees. However with the advancement of the WiMax network additional installers will be required.
- 5. In moving forward with a merger with SSM Media Venture the employees of SSM and RHN will be additional to the current employees of B2 Digital, Inc. The additional funding requirement will rise as the launch of RHN takes place with DirecTV and Dish Network. RHN has announced plans for an IOP early in 2016.

NOTES TO - FINANCIAL STATEMENTS

4100

We adopted FASB Statement No.154, Accounting Changes and Error Corrections. This Statement provided guidance on accounting for and reporting of accounting changes error corrections. It establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transaction requirements specific to the newly adopted accounting principle. This Statement also provides for determining whether retrospective application is impracticable. This Statement also provides for determining the correction of an error in previously issued financial statements is not an accounting change. However, the reporting of an error correction involves adjustments to previously issued financial statements similar to those generally applicable to reporting an accounting change retrospectively. Therefore the reporting of a correction of an error by restating previously issued financial statements is also addressed by this statement. (None Noted)
