Cerro Dorado, Inc., and subsidiary
Notes to the Consolidated Financial Statements
March 31, 2016 and 2015

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

B.C. Realty Partners, Inc. was incorporated under the laws of the State of Florida on September 23, 1988, which is considered date of inception. By amendment to the Articles of Incorporation, its name was changed to Weather All Manufacturing USA, Inc. on November 23, 1998 and subsequently it changed its name to Cerro Dorado, Inc. on March 24, 1999. On July 14, 1999 as part of a merger the domicile was changed to the State of Nevada.

Cerro Dorado, Inc. is the parent company of a 99.8% (formerly 50% - see Note 4) owned subsidiary, Sociedad Contractual Minera Cerro Dorado Chile, trade name Cerro Dorado Chile. Cerro Dorado Chile was created on February 18, 2000. Collectively, they are referred to as "the Company."

The Company is principally in the business of acquiring and seeking to develop copper and gold mining interests in Chile, South America.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Cerro Dorado, Inc. and its Subsidiary (the Company) conform to U.S. generally accepted accounting principles. The following is a summary of the more significant of such policies:

a. Accounting Method

The Company's consolidated financial statements are prepared using the accrual method of accounting. The Company has elected a calendar year-end.

b. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all cash accounts and highly liquid investments with original maturities of three months or less to be cash equivalents.

c. Machinery and Equipment

Machinery and equipment are stated at cost less accumulated depreciation. Expenditures for minor replacements, maintenance and repairs which do not increase the useful lives of the property and equipment are charged to operations as incurred. Major additions and improvements are capitalized. Depreciation and amortization are computed using the straight-line method over an estimated useful life of 3 to 7 years.

Notes to the Consolidated Financial Statements
March 31, 2016 and 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

e. Fair Value of Financial Instruments

The carrying amounts reported in the accompanying consolidated financial statements for cash and cash equivalents, accounts payable, and investments in Chile mining company approximate fair values because of the immediate or short-term maturities of these financial instruments.

f. Concentrations of Risk

The Company maintains its cash in bank deposit accounts which, at times, may exceed the federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to certain limits. The Company has not experienced any losses in such accounts or lack of access to its cash, and believes it is not exposed to significant risk of loss with respect to cash. However, no assurance can be provided that access to the Company's cash will not be impacted by adverse economic conditions in the financial markets.

g. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Cerro Dorado, Inc., and its 50% owned subsidiary, Sociedad Contractual Minera Cerro Dorado Chile. All significant intercompany transactions have been eliminated. In addition, the Company evaluates its relationships with other entities to identify whether they are variable interest entities in accordance with the Variable Interest Entity Subsections of FASB ASC Subtopic 810-10, *Consolidation – Overall*, and to assess whether it is the primary beneficiary of such entities. If the determination is made that the Company is the primary beneficiary, then that entity is included in the consolidated financial statements.

h. Impairment of Long-Lived Assets

The Company evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to future non-discounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Mining claims were impaired by \$138,540 prior to their sale (see Note 4).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Recent Accounting Pronouncements

The Company has reviewed all recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on its results of operations, financial position or cash flows. Based on that review, the Company believes that the following pronouncement will have a significant effect on its financial statements.

In April 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-03, "Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs," (ASU 2015-03), which requires an entity to present debt issuance costs related to recognized debt liability in the balance sheet as a direct deduction from the carrying amount of that debt liability. The new standard is effective for the company on December 31, 2016 and early adoption is permitted. The company elected to early adopt this new guidance effective for the year ended 2015. The adoption of this standard did not have an effect on the company's financial statements.

New Accounting Standards to be Adopted

In July 2015, Financial Accounting Standards Board issued Accounting Standards Update No. 2015-11, "Simplifying the Measurement of Inventory," which requires an entity to measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completions, disposal, and transportation. The new standard is effective for the company on December 31, 2016. The standard permits early adoption and should be applied prospectively as of the interim or annual period of adoption. The Company does not expect the effect of ASU 2015-11 to have a material impact on its financial statements.

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-09, "Revenue from Contracts with Customers," (ASU 2014-09) which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. This guidance will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The FASB has elected to defer the effective date to fiscal year beginning after December 15, 2017, which would result in an effective date for the company of December 31, 2017, with early application permitted one year earlier. The standard permits the use of either the retrospective or cumulative catch-up transition method. The company is currently evaluating the adoption method and effect that ASU 2014-09 will have on its financial statements but they do not expect it to have a material impact.

The Company has evaluated all other recent accounting pronouncements and believes such pronouncements do not have a material effect on the Company's financial statements.

Cerro Dorado, Inc., and subsidiary
Notes to the Consolidated Financial Statements
March 31, 2016 and 2015

NOTE 3 - MACHINERY AND EQUIPMENT

As of March 31, 2016 and 2015 machinery and equipment had a basis and accumulated depreciation balance of \$1,288. No depreciation expense was recorded for the three months ended March 31, 2016 and 2015.

NOTE 4 - INTANGIBLE ASSETS

In 1999 the Company did a reverse merger and signed an agreement to acquire the Lonco Millarepu 1/60 claim from a Chilean company. The Chilean company's owner was issued shares of Cerro Dorado in exchange for the claims. The agreement was signed on April 7, 1999. The agreement also called for creating a new subsidiary called Sociedad Contractual Minera Cerro Dorado Chile, trade name Cerro Dorado Chile.

On May 3, 2006 Cerro Dorado Chile issued shares to acquire 3 more claims: Fortuna 61/120, Colihues 1/40, and Antonio 1/20. However, management has recently confirmed that it presently does not have any ownership in the Colihues 1/40 and Antonio 1/20, and they are presently owned by another company. Management has recognized an impairment for the full value of those assets.

During February 2016 Cerro Dorado, Inc.'s ownership of Sociedad Contractual Minera Cerro Dorado Chile increased from 50% to 99.8%. The transfer in ownership was resolved and finalized without additional expense or obligation to or from the Company.

The Company also exchanged all of its mining claims in exchange for 5,000,000 shares (approximately 5% ownership) of a Chile based mining company.

As of March 31, 2016 and 2015 the mining claims of Lonco Millarepu 1/60 and Fortuna 61/120 are reported at \$-0- and \$409,500, respectively.

NOTE 5 - NON-CONTROLLING INTEREST

As explained in Notes 1 and 4, as of March 31, 2015 the subsidiary Sociedad Contractual Minera Cerro Dorado Chile was owned 50% by Cerro Dorado, Inc. and 50% by a non-controlling interest. The only assets owned by Sociedad Contractual Minera Cerro Dorado Chile were the mining claims Lonco Millarepu 1/60 and Fortuna 61/120. These intangible assets have been reported at an impaired value of \$409,500 which results in a non-controlling interest equity balance of \$204,750 as of March 31, 2015. As explained in Note 4 during February 2016 Cerro Dorado, Inc.'s ownership of Sociedad Contractual Minera Cerro Dorado Chile increased from 50% to 99.8%. The transfer in ownership was resolved and finalized without additional expense or obligation to or from the Company. The Company also exchanged all of its mining claims in exchange for 5,000,000 shares (approximately 5% ownership) of a Chile based mining company. This results in a non-controlling interest equity balance as of March 31, 2016 of \$-0-.

NOTE 6 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events through August 12, 2016, the date which the financial statements were available to be issued, and noted no material subsequent events that would require adjustment in or disclosure to these financial statements as of March 31, 2016.

Item 6. Description of Issuer

Date and State of Incorporation:

Cerro Dorado, Inc. ("the Company") was incorporated under the laws of the state of Florida on September 23, 1988 under the name of B.C. Realty Partners, Inc. The Company later changed its name on November 16, 1998 to Weather All Manufacturing USA, Inc. Following a change of management in March of 1999, the Company changed its name to Cerro Dorado, Inc. and redirected its business activities to the mining industry. On July 14, 1999 the Company changed its state of domicile from Florida to Nevada.

The Issuer's Primary and Secondary SIC Codes:

SIC Code 1041, Establishments primarily engaged in mining gold ores from lode deposits or in the recovery of gold from placer deposits by any method

Fiscal Year End Date:

December 31

Issuer's Business Operations, Products, Services and Their Markets:

The Company is currently headquartered in Salt Lake City, UT and is a junior exploration and mining company that specializes in the acquisition and exploration of gold properties in Chile. The Company is currently evaluating sites throughout Chile's long, lucrative gold and copper belts. The mission of the Company is to develop these and other mining properties to maximize their potential profitability with the ultimate goal of securing a joint venture partnership with an established, reputable mining company or possibly secure a buyout from same.

The Company owns a 99.8% interest in a Chilean subsidiary, Cerro Dorado Chile ("CDC"). The Company previously held a 50% ownership in CDC until January 2016 when the Company acquired the additional interest as a result of negotiations by a representative of the Company with Mr. Fernandez in Chile. As a result of these negotiations, 2,490 shares of the total 5,000 shares were transferred to the Company at no additional cost to it.

As part of these negotiations in January 2016, the Company also entered into an agreement with Auryn Mining Chile, SpA (“Auryn”) through which CDC’s ownership of the Lonco Millarepu 1-60 and the Fortuna 61-120 mining claims was transferred to Auryn in exchange for a 5% equity ownership of Auryn. The Acquisition by Auryn resulted in their consolidation of over 10,000 hectares (24,700 acres) of mining claims in the Altos de Lipangue area, located approximately 30 kilometers northwest of Santiago, Chile. The concerted interest of the Company and Auryn in the Altos de Lipangue area stems from gold and copper productions in the 1950s-1970s, which yielded gold concentrates upwards of 20g/ton, as reported by Auryn.

The Company informed its shareholders that any proceeds directly resulting from the Auryn transaction will be used to return value to the shareholders directly rather than using such proceeds for exploration of new projects.

Following execution of the agreement with Auryn, the Company entered into an agreement with Jose Manuel Borquez, Alex Pujado, Rolf Sommer and George Young in which the parties agreed to undertake to raise capital in order to build a processing plant and purchase the right to process tailings at the Alto Adigio mining project near La Serena, Chile (as described in the Company’s April 19, 2016, Notice of Shareholder Meeting). As part of the agreement, Messrs. Bourquez, Pujado, Sommer and Young were nominated as Company directors and subsequently confirmed at the Company’s May 2, 2016, Shareholder Meeting.

Unfortunately, because the Company was not successful in raising the capital necessary to fulfill the terms of the agreement, Messrs. Pujado and Sommer elected to not extend the agreement and, as a result, Messrs. Pujado and Sommer are no longer directors or otherwise associated with the Company.

However, Messrs. Bourquez and Young agreed to continue with the Company and pursue additional opportunities for potential projects as well as potential funding for any such project that might materialize and the Company remains active in seeking such opportunities throughout northern Chile.

Item 7. The Issuer’s Facilities:

The Issuer is currently renting office space from its registrar and transfer agent, American Registrar & Transfer Co. at a rate of \$250/mo. The office consists of space for storage, access to utilities for phone, power and internet as well as other basic office supplies.

Item 8. Officers, Directors, and Control Persons:

Officers:

As of the date of this report, Patrick R. Day is the Company’s sole officer.

Directors:

Jose Manual Borquez

Patrick R. Day
George S. Young

Legal/Disciplinary History.

None of the officers, directors listed above has been involved in the past five years in any of the following:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);
2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;
3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended or vacated;
4. The entry of an order by a self-regulatory organization that permanently or temporarily barred suspended or otherwise limited such person's involvement in any type of business or securities activities.
