NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A – SUMMARY OF ACCOUNTING POLICIES

General

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results from operations for the three months and six months ended September 30, 2015, are not necessarily indicative of the results that may be expected for the year-ended December 31, 2015.

A summary of the significant accounting policies applied in the preparation of the accompanying financial statement follows.

The consolidated financial statements include a Company which is effectively controlled directly by the Company, where control is defined as the power to govern the financial operation policies. This control is generally evidenced when the Company directly or indirectly owns more than 50% of the voting rights of the Company's share capital. Significant intercompany transactions have been eliminated in consolidation.

Inventory is valued at the lower of cost or market as of the respective balance sheet dates.

In May of 2006, the Company's parent, Green Endeavors LTD., formerly Net2Auction, Inc., at the time of the transaction, purchased 50,000 shares (50,000,000 shares prior to the pre-reverse stock split on June 27, 2006) to gain a 50.02% ownership of BizAuctions, Inc. On June 27, 2006, the Company had a reverse stock split whereby each shareholder received 1 share for each 1,000 shares owned. On June 28, 2006, the former parent company, Green Endeavors LTD., at the time of the transaction, acquired 50,000,000 post reverse split shares to gain a 99.9% ownership of the Company's outstanding common stock. In this transaction, the Company acquired 100% of BizAuctions, Corp. from its parent. This transaction was valued at \$154,400 or \$0.003 per share.

As of September 30, 2015, and December 31, 2014, Delmar Janovec and Brent Crouch, ("Parent" or its "Affiliates"), controlled approximately 65% and 69%, respectively, of the outstanding common stock of the Company. Upon the conversion of the Series A and Series D Preferred stock owned by Delmar Janovec and Brent Crouch would give approximately 92% and 93% voting control of the Company as of September 30, 2015, and December 31, 2014.

On August 17, 2006, a forward stock split was affected whereby each shareholder of record received 2 shares of common stock for each share owned.

Business and Basis of Presentation

BizAuctions, Inc. was formed as a Delaware Corporation on May 5, 1995 as Topper's Brick Oven Pizza, Inc. Since the inception of the Company there have been four (4) subsequent name changes to its current name, CannaGrow Holdings, Inc.

CannaGrow Holdings changed its business model during the spring of 2014 and has entered into the Medical and Recreational Marijuana industry in the State of Colorado as a Lessor, Liaison, and Consultant to developers, licensed growers and operators.

NOTE A – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Business and Basis of Presentation-(Continued)

The first project the Company is currently working on is a 20 acre lease in which the Company is acting as Liaison with the various County and State Agencies, and the Utility Companies during the development phase of the property. Once the “Turn-Key” Growing Facilities are built to the exact specifications of expert consultants already employed by CannaGrow Holdings, Inc., the Company will then sub-lease the facilities to Licensed Growers and assist in manage the operations from seed to sale. CannaGrow Holdings, Inc. will also make available consulting services to Investment Groups looking to enter the Industry as well as other Licensed Growers in other areas through the utilization of its expert consultants the Company engaged in calendar year, 2014. CannaGrow intention is to become a “One-Stop-Shop” providing expert oversight into the Cannabis Industry. The Company intends to expand this business model within this industry as the business opportunities evolve.

CannaGrow Holdings, Inc. does not and will not, until such time as Federal law allows, grow, harvest, distribute or sell marijuana or any substance that violate the laws of the United States of America.

The Company operates out of its office in Centennial, Co., and has two (2) full time employees and two (2) part-time employee at the end of this reporting period.

CannaGrow Holdings sales for the quarter of September 30, 2015 were \$10,000. The revenue was for consulting services as the company ramps up to begin production. The decrease in revenues is due to the changing of its business model in the spring of 2014 and the sale of a substantial portion of the retail operations in the fall of calendar year, 2012.

Cash and Cash Equivalents

For the purposes of the Statements of Cash Flows, the company considers all highly liquid debt instruments purchased with a maturity date of three months or less to be cash equivalents.

Income Taxes

The Company has adopted Financial Accounting Standard No. 109 (SFAS 109) which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Temporary differences between taxable income reported for financial reporting purposes and income tax purposes are insignificant.

Net Loss per Common Share

The Company computes earnings per share under Financial Accounting Standard No. 128, "Earnings per Share" (SFAS 128). Net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock and dilutive common stock equivalents outstanding during the year. Dilutive common stock equivalents consist of shares issuable upon conversion of convertible preferred shares. During the nine months ended September 30, 2015, and year-ended December 31, 2014, common

NOTE A – SUMMARY OF ACCOUNTING POLICIES-(CONTINUED)

stock equivalents are not considered in the calculation of the weighted average number of common shares outstanding because they would be anti-dilutive, thereby decreasing the net loss per common share.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly actual results could differ from those estimates.

Revenue Recognition

Revenue for product sales or services is recognized at the time the product is shipped to or picked up by the customer or when services were rendered.

Advertising

The Company follows the policy of charging the costs of advertising to expenses as incurred. For the periods ended September 30, 2015, and December 31, 2014, advertising costs were not material to the statement of income.

Liquidity

As shown in the accompanying financial statements, the Company has incurred a net loss of (\$261,111) before extraordinary items, and (\$174,252) during the nine months ended September 30, 2015, and 2014, respectively. As of September 30, 2015, the Company had working capital deficit of (\$2,922,874). In order for the Company to sustain operations, additional working capital must be raised by increases in revenue realizing profitable margins, by the sale of equity securities or by advances from its Parent or affiliates and loans.

Concentrations of Credit Risk

Financial instruments and related items, which potentially subject the Company to concentrations of credit risk, consist primarily of cash, cash equivalents and related party receivables. The Company places its cash and temporary cash investments with credit quality institutions. At times, such investments may be in excess of the FDIC insurance limit.

Stock Based Compensation

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure-an amendment of SFAS 123." This statement amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25 and related interpretations.

CannaGrow Holdings, Inc.
(formerly BizAuctions, Inc.)

NOTE A - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Stock Based Compensation-(Continued)

Accordingly, compensation expense for stock options is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No. 148 in its financial reports for the periods ended September 30, 2015, and December 31, 2014, respectively.

Comprehensive Income

Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" (SFAS 130), establishes standards for reporting and display of comprehensive income, its components and accumulated balances. Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, SFAS 130 requires that all items that are required to be recognized under current accounting standards as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. The Company adopted SFAS 130 during the periods ended September 30, 2015, and December 31, 2014, and has no items of comprehensive income to report.

The information disclosed herein, materially represents all of the financial information related to the Company's principal operating segment.

New Accounting Pronouncements

SFAS No. 168. In June of 2009, the Financial Accounting Standards Board, ("FASB"), issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles-replacement of SFAS No. 162. No 168 established the FASB Accounting Standards Codification as the source of authoritative accounting principles recognized by the FASB to be applied in the preparation of financial statements in conformity with generally accepted accounting principles. NOTE M - INCOME TAXES

The Company has adopted Financial Accounting Standard No. 109 which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Temporary differences between taxable income reported for financial reporting purposes and income tax purposes are insignificant.

At September 30, 2015, the Company has available for federal income tax purposes a net operating loss carry-forward of approximately \$10,300,000, beginning to expire in the year 2026, that may be used to offset future taxable income. The Company has provided a valuation reserve against the full amount of the net operating loss benefit, since in the opinion of management based upon the start-up status of the Company, the tax benefits will not be recognized until income is realized. Due to significant changes in the Company's ownership, the future use of its existing net operating losses may be limited.

Components of deferred tax assets as of September 30, 2015 are as follows:

Non Current:	
Net operating loss carry forward	\$ 3,502,000
Valuation allowance	(3,502,000)

Net deferred tax asset	\$ --

NOTE N - GOING CONCERN

The accompanying consolidated statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements during the 9 months ended September 30, 2015, the Company incurred losses from operations of (\$261,111), and has not obtained profitable operation under its current operating plan. This may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon advances from its parent and affiliates, and the sale of additional investment stock, and management's ability to develop profitable operations. Management anticipates the Company will attain profitable status and improve its liquidity through the continued developing, marketing, and selling of its products, and additional equity investments in the Company. The accompanying financial statements do not include any adjustments that might result should the Company be unable to continue as a going concern. In order to improve the Company's liquidity, the Company is actively pursuing additional equity financing through discussions with investment bankers and private investors. There can be no assurance the Company will be successful in its effort to secure additional equity financing.

If operations and cash flows continue to improve through these efforts, management believes that the Company can continue to operate and achieve profitability. However, no assurance can be given that management's actions will result in profitable operations or the resolution of its liquidity problems.
