1. For common equity, describe any dividend, voting and preemption rights.

On January 23, 2014, the Company was authorized to decrease its authorized number of shares of Common Stock, \$.001 par value, from 1,883,000,000 shares to 500,000,000 shares.

Each share of Common Stock is entitled to one vote, which shares do not have pre-emptive rights.

From inception, the Company has never declared or paid any cash dividends on shares of its common stock. The Company has adopted a policy regarding the payment of dividends. Dividends may be paid to shareholders once all divisions are fully operational and profitable. The Board may also pay dividends to counter any short selling or undermining of the entity. Although it is the Company's intention to utilize all available funds for the development of its business, no restrictions are in place that would limit its ability to pay dividends. The payment of any future cash dividends will be at the sole discretion of the Company's board of directors.

2. For preferred stock, describe the dividend, voting, conversion and liquidation rights as well as redemption or sinking fund provisions.

On January 23, 2014, the Company was authorized to decrease its authorized number of shares of Preferred Stock, \$.001 par value, from 5,000,000 shares to 200,000 shares, of which 200,000 shares were designated as convertible Series B Preferred Stock with a conversion ratio of 1:1,000 shares of common. Currently, no shares of Series B Preferred Stock are issued and outstanding.

On February 20, 2014, the Company filed an Amendment to Certificate of Designation with the Secretary of State of Nevada pursuant to which the Company set forth the designation, powers, rights, privileges, preferences and restrictions of the convertible Series B Preferred Stock as follows:

(1) Designation and Rank. The series of Preferred Stock shall be designated the "Convertible Series B Preferred Stock" ("Series B Preferred") and shall consist of 200,000 shares. The Series B Preferred is authorized by the Board of Directors of this Corporation and shall be senior to the common stock.

(2) Conversion into Common Stock.

(a) Right to Convert. Each share of Series B Preferred shall be convertible, at the option of the holder thereof, at any time after the date of issuance (the "Conversion Date") into One Thousand (1,000) shares of fully paid and non-assessable shares of Common Stock (the "Conversion Ratio").

(b) Mechanics of Conversion. Before any holder shall be entitled to convert, he shall surrender the certificate or certificates representing Series B Preferred to be converted, duly endorsed or accompanied by proper instruments of transfer, at the office of the Corporation or of any transfer agent, and shall give written notice to the Corporation at such office that he elects to convert the same. The Corporation shall, as soon as practicable thereafter, issue a certificate or certificates for the number of shares of Common Stock to which the holder shall be entitled. The Corporation shall, as soon as practicable after delivery of such certificates, or such agreement and indemnification in the case of a lost, stolen or destroyed certificate, issue and deliver to such holder of Series B Preferred a certificate or certificates for the number of shares of Common Stock to

which such holder is entitled as aforesaid and a check payable to the holder in the amount of any cash amounts payable as the result of a conversion into fractional shares of Common Stock. Such conversion shall be deemed to have been made immediately prior to the close of business on the date of such surrender of the shares of Series B Preferred to be converted.

(c) Adjustment to Conversion Ratio.

(1) Merger or Reorganization. In case of any consolidation or merger of the Corporation as a result of which holder of Common Stock become entitled to receive other stock or securities or property, or in case of any conveyance of all or substantially all of the assets of the Corporation to another corporation, the Corporation shall mail to each holder of Series B Preferred at least thirty (30) days prior to the consummation of such event a notice thereof, and each such holder shall have the option to either (i) convert such holder's shares of Series B Preferred into shares of Common Stock pursuant to this Section 2 and thereafter receive the number of shares of stock or other securities or property to which a holder of the number of shares of Common Stock of the Corporation deliverable upon conversion of such Series B Preferred would have been entitled upon such consolidation, merger or conveyance, or (ii) exercise such holder's rights pursuant to Section 3(a). Unless otherwise set forth by the Board of Directors, the Conversion Ratio shall not be affected by a stock dividend or subdivision (stock split) on the Common Stock of the Corporation, or a stock combination (reverse stock split) or stock consolidation by reclassification of the Common Stock. However, once the Series B Preferred has been converted to Common Stock, it shall be subject to all corporate actions that affect or modify the common stock.

(d) No Impairment. The Corporation will not, by amendment of its Articles of Incorporation, this Certificate of Designation or through any reorganization, transfer of assets, consolidation, merger, dissolution, issue or sale of securities or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms to be observed or performed hereunder by the Corporation, but will at all times in good faith assist in the carrying out of all the provisions of this Section 2 and in the taking of all such action as may be necessary or appropriate in order to protect the Conversion Rights of the holders of the Series B Preferred against impairment.

(e) Certificate as to Adjustments. Upon the occurrence of each adjustment or readjustment of the Conversion Ratio of the Series B Preferred pursuant to this Section 2, the Corporation at its expense shall promptly compute such adjustment or readjustment in accordance with the terms hereof and furnish to each holder of Series B Preferred a certificate setting forth such adjustment or readjustment and the calculation on which such adjustment or readjustment is based. (f) Notice of Record Date. In the event of any taking by the Corporation of a record of the holders of any class of securities for the purpose of determining the holders thereof who are entitled to receive any dividend (other than a cash dividend which is the same as cash dividends paid in previous quarter) or other distribution, the Corporation shall mail to each holder of Series B Preferred at least ten (10) days prior to the date specified herein, a notice specifying the date on which any such record is to be taken for the purpose of such dividend or distribution.

(g) Common Stock Reserve. The corporation shall reserve and keep available out of its authorized but unissued Common Stock such number of shares of Common Stock as shall from time to time be sufficient to effect conversion of the Series B Preferred.

(3) Liquidation Preference. (a) In the event of any liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary (a "Liquidation"), the assets of the Corporation available for distribution to

its stockholders shall be distributed as follows:

(1) The holders of the Series B Preferred shall be entitled to receive, prior to the holders of the other series of Preferred Stock or Common Stock and prior and in preference to any distribution of the assets or surplus funds of the Corporation to the holders of any other shares of stock of the corporation by reason of their ownership of such stock, an amount equal to \$1.00 per share with respect to each share of Series B Preferred.

(2) If upon occurrence of a Liquidation the assets and funds thus distributed among the holders of the Series B Preferred shall be insufficient to permit the payment to such holders of the full preferential amount, then the entire assets and funds of the Corporation legally available for distribution shall be distributed among the holders of the Series B Preferred ratably in proportion to the full amounts to which they would otherwise be respectively entitled.

(3) After payment of the full amounts to the holders of Series B Preferred as set forth above in paragraph (3)(a)(1), any remaining assets of the Corporation shall be distributed pro rata to the holders of the Preferred Stock and Common Stock (in the case of the Preferred Stock, on an "as converted" basis into Common Stock).

(b) For purposes of this Section 3, and unless a majority of the holders of the Series B Preferred affirmatively vote or agree by written consent to the contrary, a Liquidation shall be deemed to include (i) the acquisition of the Corporation by another entity by means of any transaction or series of related transactions (including, without limitation, any reorganization, merger or consolidation) and (ii) a sale of all or substantially all of the assets of the Corporation, unless the Corporation's stockholders of records as constituted immediately prior to such acquisition or sale will, immediately after such acquisition or sale (by virtue of securities issued as consideration for the Corporation's acquisition or sale or otherwise) hold at least fifty percent (50%) of the voting power of the surviving or acquiring entity.

(c) If any of the assets of the Corporation are to be distributed other than in cash under this Section 3, then the board of directors of the Corporation shall promptly engage independent competent appraisers to determine the value of the assets to be distributed to the holders of Preferred Stock or Common Stock. The Corporation shall, upon receipt of such appraiser's valuation, give written notice to each holder of shares of Preferred Stock or Common Stock of the appraiser's valuation.

(4) Voting Rights. Except as otherwise required by law, the holders of Series B Preferred and the holders of Common Stock shall be entitled to notice of any stockholders' meeting and to vote as a single class upon any matter submitted to the stockholders for a vote as follows: (i) the holders of Series B Preferred shall have one vote for each full share of Common Stock into which a share of Series B Preferred would be convertible at the ratio of 1:1,000 on the record date for the vote, or, if no such record date is established, at the date such vote is taken or any written consent of stockholders is solicited; and (ii) the holders of Common Stock shall have one vote per share of Common Stock held as of such date.

(5) Covenants. In addition to any other rights provided by law, the Corporation shall not, without first obtaining the affirmative vote or written consent of the holders of a majority of the outstanding shares of Series B Preferred, do any of the following:

(1) take any action which would either alter, change or affect the rights, preferences, privileges or restrictions of the Series B Preferred or increase the number of shares of such series authorized hereby or designate any other series of Preferred Stock;

(2) increase the size of any equity incentive plan (s) or arrangements;

(3) make fundamental changes to the business of the Corporation;

(4) make any changes to the terms of the Series B Preferred or to the Corporation's Articles of Incorporation or Bylaws, including by designation of any stock;

(5) create any new class of shares having preferences over or being on a parity with the Series B Preferred as to dividends or assets, unless the purpose of creation of such class is, and the proceeds to be derived from the sale and issuance thereof are to be used for, the retirement of all Series B Preferred then outstanding;

(6) incur any indebtedness in excess of \$1,000,000;

(7) make any change in the size or number of authorized directors;

(8) repurchase any of the Corporation's Common Stock;

(9) sell, convey or otherwise dispose of, or create or incur any mortgage, lien, charge or encumbrance on or security interest in or pledge of, or sell and leaseback, all or substantially all of the property or business of the Corporation or more than 50% of the stock of the Corporation;

(10) make any payment of dividends or other distributions or any redemption or repurchase of common stock or options or warrants to purchase common stock of the Corporation which would frustrate the right of the Series B Preferred to its cumulative dividend; or

(11) make any sale of additional Preferred Stock.

(6) Reissuance. No share or shares of Series B Preferred acquired by the Corporation by reason of conversion, all such shares thereafter shall be returned to be the status of unissued shares of Series B Preferred of the Corporation.

(7) Directors. The holders of Series B Preferred and Common Stock voting together as a class shall be entitled to elect the directors comprising the Board of Directors (and to fill any vacancies with respect thereto).

3. Describe any other material rights of common or preferred stockholders.

None.

4. Describe any provision in issuer's charter or by-laws that would delay, defer or prevent a change in control of the issuer.

B. Business of Issuer.

The Company's current mission is to develop and sell sustainable products. Our original product was rainwater captured, filtered and processed using ultraviolet light and ozone. It is then magnetized and bottled in a PET bottle that does not stay in a landfill nearly as long as other plastic bottles. Other planned items include organic rainwater based drinks, varied drinks in Stand-up Pouches, Dehydrated Fruits & Vegetables in Stand-up Pouches, Organic Snacks, Hydroponics, Aeroponics, Aquaponics and other sustainable agriculture products. To this end, Company has endeavored to solicit and queue up several distinctive, green initiatives in the United States and in the Caribbean which Company intends to bring to market over the course of 2014 and 2015.

As of the date of the Change in Control, the company had minimal revenues. The Company shall therefore be considered at development stage and new management believes that it is unlikely to benefit from any of the past initiatives of former management even though those efforts were reflected in the financial statements.

Management fully expects to become a significant international provider of high-end, sustainable rainwater and organic based products and systems.

1. The issuer's primary and secondary SIC Codes; The Primary SIC Code for the Company is:
2086 - Bottled and Canned Soft Drinks and Carbonated Waters

Secondary SIC Codes for the Company are: 0182 – Food Crops Grown Under Cover
5083 – Farm and Garden Machinery and Equipment

2. If the issuer has never conducted operations, is in the development stage, or is currently conducting operations:

The Company, since its acquisition of Choose Rain, LLC, is conducting business and has operations.

3. If the issuer is considered a "shell company" pursuant to Securities Act Rule 405:

The Company believes is not now and has never been a "shell company" as that term is defined in Rule 405 of the Securities Act.

4. The names of any parent, subsidiary, or affiliate of the issuer, and its business purpose, its method of operation, its ownership, and whether it is included in the financial statements attached to this disclosure statement.

The Company had no subsidiary as of the date of this Report.

5. The effect of existing or probable governmental regulations on the business;

The Company is in the business of capturing and bottling rainwater. As such, the Company is governed by various regulations affecting the bottling process from the Food and Drug Administration and the various State and Local counterparts.

6. An estimate of the amount spent during each of the last two fiscal years on research and development activities, and, if applicable, the extent to which the cost of such activities are borne directly by customers.

The Research and Development of the new technologies and products by the Company is an ongoing process. During the six months ended June 30, 2014 and fiscal years ended December 31, 2013 and 2012, the Company had no R&D expenses incurred.

7. Costs and effects of compliance with environmental laws (federal, state and local):

Each State regulates the sale, manufacture and distribution of bottled water and organic products independently; therefore costs vary from state-to-state depending upon the state, type of product, size of package, and the number of tons sold, however, we do not believe that these costs have been or will be material to us.

8. The number of total employees and number of full-time employees. The Company currently has three full time employees.

Item IX: The nature of products or services offered.

1. Distribution methods of the products or services:

Distribution methods differ within each product grouping. The Company intends to use a multitude of distribution outlets including product representatives, distributors, direct sales, social media and others as are appropriate.

2. Status of any publicly announced new product or service:

The Company will continue to announce all new services and products as listed.

3. Competitive business conditions, the Issuer's competitive position in the industry, and methods of competition:

Competition within the industry varies with the products. Bottled water is a reasonably mature market with three key players controlling the market. The Company's bottled water products are unique in several aspects. We use rainwater not tap water or ground water. We process the rainwater without chlorine or other harsh chemicals. We magnetize the end products and place our rainwater drinks in Stand-up Pouches or in plastic bottles designed to degrade in a land fill more quickly than those of our competitors. We intend to operate within the premium bottled water and drink market, not competing for the high volume low price market. We offer a responsible choice.

The Hydroponics, Aquaponics and Aeroponics markets by comparison are relatively new and ever evolving. Current offerings are priced for the hobbyist. Our products will create a brand new hierarchy by offering education combined with reasonably priced systems available to the masses.

4. Sources and availability of raw materials and the names of principal suppliers:

Obviously, rainwater is plentiful with 30 gallons a year falling on average in North America for every sq. ft. of surface. All other raw materials we will need are readily available or we will be growing them.

5. Dependence on one or a few major customers:

Our products do not lend themselves to a few or a single customer. We will be supplying the masses.

6. Patents, trademarks, licenses, franchises, concessions, royalty agreements or labor contracts, including their duration:

While the Company does not directly control any patents, trademarks, licenses, franchises or royalty agreements, we are in negotiation with various parties who possess significant intellectual property. Successful

completion of these negotiations could greatly influence the competitiveness of our product offerings.

7. The need for any government approval of principal products or services. Discuss the status of any requested government approvals.

The Company is required to have approval and licensing of any bottled water plant and any plant manufacturing food products. Additionally, certain products supporting our Hydroponics, Aeroponics and Aquaponics offerings would routinely require government approval. Company management anticipates no problem in securing said approvals when needed.

Item X: The nature and extent of the issuer's facilities.

The Company operates one 6,600 square foot office, manufacturing and R&D facility at 1230 N US Hwy 1, Suite 16 Ormond Beach, FL 32174. Item XVI: Management's discussion and analysis or plan of operation.

A. Plan of Operation: Issuer's Plan of Operation for the next twelve months.

As of June 30, 2013, the Company was still considered a development stage company. We expect this to change in 2014. While developing the products and the markets over the course of the last two years, the

Company has identified and has been negotiating several key opportunities in the United States, the Caribbean and internationally. These opportunities may involve the issuance of additional shares but should bring in several new products and services, equipment, intellectual property, key personnel and revenue streams allowing us to further pursue our objectives.

B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

For the six months ended June 30, 2014 (Unaudited)

Revenues

The Company has devoted substantially all of its efforts towards establishing a new business in the production of Bottled Water and other Beverages, Drinks in Stand-up Pouches, Hydroponics, Aeroponics, Aquaponics and other sustainable products. There has been minimal revenue generated during the six months ended June 30, 2014.

Company Management expects minimal revenues for the remainder of 2014 and operating revenues beginning in 2015 which will reflect the new business initiatives pursued to date and additional opportunities yet to be identified.

Operating Expenses

We had operating expenses of \$71,579 for the six months ended June 30, 2014. Operating expenses were in connection with our daily operation, including but not limited to operating expenses, consulting and advising fees, accounting fees, legal fees, fees related to compliance, website development and others. Both operating costs and expected revenue generation are difficult to predict. There can be no assurance that revenues will be sufficient to cover future operating costs, and it may be necessary to continuously raise additional capital to sustain operations.

We expect our operating expenses will significantly increase in 2014 and 2015 resulting from the new business in Bottled Water and Products in Stand-up Pouches, Hydroponics, Aeroponics, Aeroponics and other sustainable products.

Income/Losses

Net income for the six months ended June 30, 2014 was \$963,798. Net income in 2014 was due primarily to the gain of \$984,363 on debt forgiveness in connection with the debt settlement with the related parties and the settlement of the Hillis judgment.

In November 2008, the Company was served with a summons and complaint entitled “Steve Hillis and Diane Hillis vs. Resolve Staffing, Inc.” due to a dispute arising out of a private placement. Steve Hillis and Diane Hillis, the private placement subscribers, alleged the Company owed \$810,050 relating to the subscription agreement, plus interest and fees. The Company failed to appear, plead or otherwise defend against in the action and a judgment by default was issued to the Company.

Accordingly, the Company had judgment payable of \$981,431 as of December 31, 2013, including the principal of \$810,050 and the accrued interest payable of \$171,381. The Company accrued interest at a rate of 4.25% per annum, representing the prime rate plus 1% according to the current version of A.R.S §44-1201.

On May 16, 2014, Company signed a Settlement Agreement with Hillises to release the judgment. Pursuant to the Settlement Agreement Company agreed to pay Hillises \$20,000 and withdraw Company’s lawsuit against them. Upon Hillises signing the Settlement Agreement Company remitted the first payment of \$3,000 and agreed to pay \$2,000 a month until the full \$20,000 has been paid. Hillises agreed to release the Judgment within 30 days of receiving a total of \$15,000 against the Settlement Agreement. Company made payments totaling \$15,000 by June 15th which required Hillises to release the judgment by July 15, 2014. Hillises executed the release of Judgment on June 30, 2014.

We expect that we will become profitable resulting from the new business initiatives. However, there can be no assurance that we will achieve or maintain profitability, or that any revenue growth will take place in the future.

Impact of Inflation

We believe that inflation has had a negligible effect on operations since inception. We believe that we can offset inflationary increases in the cost of operations by increasing sales and improving operating efficiencies.

Liquidity And Capital Resources

During the six months ended June 30, 2014, net cash flows used in operating activities were \$65,993. Negative cash flows from operating activities in 2014 were due primarily to the cost of operations.

Cash flow from investing and financing activities totaled \$60,414 during the six months ended June 30, 2014. This positive cash flow from investing and financing activities in 2014 was due primarily to the reduction of \$68,402 from the loan of related parties and the purchase of equipment, which were offset by \$97,736 from the shareholders contribution and \$31,080 increase in Convertible Notes Payable.

Cash on hand as of June 30, 2014 was \$54. On the short-term basis, we will be required to raise a significant amount of additional funds over the next 12 months to sustain operations. On the long-term basis, we will potentially need to raise capital to grow and develop our new businesses.

It is likely that we will require significant additional financing within the next 12 months and if we are unable to raise the needed funds on an acceptable basis, we may be forced to cease operations.

C. Off-Balance Sheet Arrangements: None
