a) Restricted Share Units

The fair value of restricted share units ("RSUs") granted are recorded as a charge to operations or deferred exploration costs and a credit to contributed surplus. On vesting of the RSUs, the book value of the RSUs is transferred from contributed surplus to share capital.

4. Future Accounting standards and pronouncements

The following standards, which are applicable to the Company, were issued but not yet effective. The Company is currently evaluating the impact of the standards on its financial statements.

Notes to the condensed interim financial statements For the three months ended December 31, 2017 and 2016 (Unaudited - Expressed in Canadian dollars)

IFRS 9 - Financial instruments

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. IFRS 9 also amends some of the requirements of IFRS 7 Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in OCI, and guidance on financial liabilities and derecognition of financial instruments. IFRS 9 will be effective for the Company for the fiscal year beginning October 1, 2018. Adoption of this standard is expected to have minimal impact on the Company's financial statements.

IFRS 16 - Leases

This standard specifies how an issuer will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less, or the underlying asset has an insignificant value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. IFRS 16 was issued in January 2016 and will be effective for the Company for the fiscal year beginning October 1, 2019. The adoption of IFRS 16 is expected to increase the leased assets and liabilities of the Company.
