Supplementary Information (Note 15)

Notes to Unaudited Consolidated Financial Statements For the Three Months and Year Ended December 31, 2014

(Tabular amounts expressed in millions of Canadian dollars, except where otherwise noted)

1) Nature of Operations

Canadian Oil Sands Limited ("Canadian Oil Sands" or the "Corporation") is incorporated under the laws of the Province of Alberta, Canada. The Corporation indirectly owns a 36.74 per cent interest ("Working Interest") in the Syncrude Joint Venture ("Syncrude"). Syncrude is involved in the mining and upgrading of bitumen from oil sands near Fort McMurray in northern Alberta. The Syncrude Project is comprised of open-pit oil sands mines, utilities plants, bitumen extraction plants and an upgrading complex that processes bitumen into Synthetic Crude Oil ("SCO"). Syncrude is jointly controlled by seven owners and each owner takes its proportionate share of production in kind, and funds its share of Syncrude's operating, development and capital costs on a daily basis. The Corporation also indirectly owns 36.74 per cent of the issued and outstanding shares of Syncrude Canada Ltd. ("Syncrude Canada"). Syncrude Canada operates Syncrude on behalf of the owners and is responsible for selecting, compensating, directing and controlling Syncrude's employees, and for administering all related employment benefits and obligations. The Corporation's investment in Syncrude Canada Syncrude Canada represents its only producing asset.

The Corporation's office is located at the following address: 2000 First Canadian Centre, 350 – 7th Avenue S.W., Calgary, Alberta, Canada T2P 3N9.

2) Basis of Presentation

These unaudited interim consolidated financial statements are prepared and reported in Canadian dollars in accordance with Canadian generally accepted accounting principles as set out in Part 1 of the Chartered Professional Accountants of Canada Handbook and in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and effective on January 29, 2015.

Certain disclosures that are normally required to be included in the notes to the annual audited consolidated financial statements have been condensed or omitted as permitted by International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. These unaudited interim consolidated financial statements should be read in conjunction with the Corporation's audited consolidated financial statements and notes thereto for the year ended December 31, 2013.

3) Accounting Policies

The same accounting policies and methods of computation are followed in these unaudited interim consolidated financial statements as compared with the most recent audited annual consolidated financial statements for the year ended December 31, 2013 except as follows:

Taxes

Current taxes in interim periods are accrued based on our best estimate of the annual effective tax rate applied to year-todate earnings. Current taxes accrued in one interim period may be adjusted prospectively in a subsequent interim period if the estimate of the annual effective tax rate changes.

Impairment

In January 2013, the IASB issued amendments to IAS 36, *Impairment of Assets*, which removed fair value guidance from the standard to ensure consistency with the enhanced fair value measurement and disclosure requirements provided under IFRS 13, *Fair Value Measurements*. Canadian Oil Sands has applied these amendments effective January 1, 2014 in accordance with the applicable transitional provisions, with no impact on the financial statements or disclosures.

Levies

In May 2013, the IASB issued International Financial Reporting Interpretations Committee ("IFRIC") Interpretation 21, *Levies*, which provides guidance on when to recognize a liability for levies imposed by governments. Canadian Oil Sands has applied this interpretation effective January 1, 2014, in accordance with the applicable transitional provisions, with no impact on the financial statements or disclosures.

¹ Reclassifications are primarily transfers from construction in progress to other categories of property, plant and equipment when construction is completed and assets are available for use.

For the three months and year ended December 31, 2014, interest costs of \$30 million and \$111 million, respectively, were capitalized and included in property, plant and equipment (three months and year ended December 31, 2013 – \$27 million and \$107 million, respectively) based on an interest capitalization rate of 6.6 per cent for the three months and year ended December 31, 2014 (6.6 per cent and 6.5 per cent for the three months and year ended December 31, 2013, respectively).

6) Employee Future Benefits

The Corporation's 36.74 per cent share of Syncrude Canada's obligation for pension and other post-employment benefits in excess of the fair value of the assets held in the benefit plans (the "accrued benefit liability") is as follows:

	Year Ended	Year Ended
	December 31	December 31
(\$ millions)	2014	2013
Accrued benefit liability, beginning of period	\$ 308	\$ 438
Current service cost ¹	42	45

Accrued benefit liability, end of period	\$ 338	\$ 308
Less current portion	(20)	(82)
Non-current portion	\$ 318	\$ 226

¹ Current service cost is recognized in net income as operating expense.

7) Asset Retirement Obligation

The Corporation and each of the other Syncrude owners are liable for their share of ongoing obligations related to the reclamation and closure of the Syncrude properties on abandonment. The Corporation estimates reclamation and closure expenditures on disturbed mines and existing facilities will be made progressively over the next 70 years and has applied a risk-free interest rate of 2.25 per cent at December 31, 2014 (December 31, 2013 – 3.25 per cent) in deriving the asset retirement obligation.

	Year Ended	Year Ended
	December 31	December 31

Asset retirement obligation, end of period	\$ 1,219	\$ 896
Less current portion	(18)	(28)
Non-current portion	\$ 1,201	\$ 868

² Interest expense is net of estimated return on plan assets and is recognized in net income as net finance expense.

³ Re-measurement (gains) losses are recognized, net of taxes, in other comprehensive income (loss).

⁴ Interest earned on plan assets included in net finance expense was \$34 million (2013 - \$26 million)

⁵ The other re-measurement loss in 2013 reflects an increase in the estimated average lifespan of the plans' beneficiaries as a result of new actuarial standards.

12) Capital Management

The Corporation's capital consists of cash and cash equivalents, debt and Shareholders' equity. The balance of each of these items at December 31, 2014 and December 31, 2013 was as follows:

	December 31		December 31
As at (\$ millions, except % amounts)	2014		2013
Long-term debt ¹	\$ 1,889	\$	1,602
Cash and cash equivalents ¹	(33)	(806)

Net debt-to-total net capitalization ^{2,6} (%)	29		14
Long-term debt-to-total capitalization ^{2,7} (%)	30		25

¹ As reported in the Consolidated Balance Sheets.

In 2014, net debt rose to \$1,856 million at December 31, 2014 as payments for capital expenditures, dividends, and other liabilities were in excess of cash flow from operations. In addition, a weakening Canadian dollar in 2014 increased the Canadian dollar equivalent value of long-term debt. As a result, net debt-to-total net capitalization increased to 29 per cent at December 31, 2014 from 14 per cent at December 31, 2013.

Shareholders' equity decreased to \$4,497 million at December 31, 2014 from \$4,732 million at December 31, 2013, as dividends exceeded comprehensive income during the year.

In July 2014, Canadian Oil Sands extended the terms of its credit facilities by approximately one year. The \$1,500 million credit facility was extended to June 30, 2018 and the \$40 million credit facility to June 30, 2016. As at December 31, 2014, \$140 million was drawn against these facilities (December 31, 2013 - \$nil).

The Senior Notes indentures and credit facility agreements contain certain covenants that restrict Canadian Oil Sands' ability to sell all or substantially all of its assets or change the nature of its business, and limit long-term debt-to-total capitalization to 55 per cent. Our earliest Senior Note maturity is in 2019 and the Corporation has about \$1.4 billion of unutilized credit facilities that mature in 2018. With a long-term debt-to-total capitalization of 30 per cent at December 31, 2014, a significant increase in debt or decrease in equity would be required to negatively impact the Corporation's financial flexibility.

13) Financial Instruments

The Corporation's financial instruments include cash and cash equivalents, accounts receivable, investments held in a reclamation trust, accounts payable and accrued liabilities, and current and non-current portions of long-term debt. The nature, the Corporation's use of, and the risks associated with these instruments are unchanged from December 31, 2013.

Offsetting Financial Assets and Financial Liabilities

The carrying values of accounts receivable and accounts payable and accrued liabilities have each been reduced by \$52 million (\$49 million at December 31, 2013) as a result of netting agreements with counterparties.

² Additional GAAP financial measure.

³Long-term debt less cash and cash equivalents.

⁴ Net debt plus Shareholders' equity.

⁵Long-term debt plus Shareholders' equity.

⁶ Net debt divided by total net capitalization.

⁷Long-term debt divided by total capitalization.

Fair Values

The fair values of cash and cash equivalents, accounts receivable, reclamation trust investments, accounts payable and accrued liabilities, and amounts drawn on the credit facility recorded as long-term debt approximate their carrying values due to the short-term nature of those instruments. The following fair values of long-term debt are based on Level 2 inputs to fair value measurement, which represent indicative bids or spreads for a round lot transaction within the relevant market:

14) Commitments

Canadian Oil Sands is obligated to make future cash payments under contractual agreements that it has entered into either directly, or as a 36.74 per cent owner in Syncrude. Cash from operating activities and existing cash balances are expected to be sufficient to fund the contractual obligations and commitments as they become due. The following table outlines the significant commitments that the Corporation will be required to fund which are not recorded as liabilities.

	 Cash Outflow By Period								
(\$ millions)	Total		2015		2016 to 2017		2018 to 2019		After 2019
