March 29, 2013

Dear Fellow Shareholders:

I am pleased to present our 2012 annual report, which gives you a snapshot of our financial position at December 31, 2012 and the year's operating results. As the bank closed out its sixth year of operation, we find our industry operating with significant pressure on net interest margins, increasing regulatory pressures, delinquency rates remaining higher than historical norms, continuing deflated real estate valuations, and slow economic growth. In spite of these conditions, I am indeed proud to say that Carolina Alliance Bank again produced solid results in 2012; I hope you will share my pride. I continue to be very grateful for the support of our customers and shareholders, and for the tireless efforts of our staff and board of directors.

Let me highlight some of our 2012 financial results:

The bank concluded 2012 with income before income taxes for the year of approximately \$2,415,000, compared to \$1,277,000 in the prior year, an increase of 89%. Net income for the year ended December 31, 2012 increased by \$329,000, or 27%, to \$1,553,000 from \$1,224,000 earned in the prior year. In 2011, all remaining unrecognized tax benefits accumulated prior to the bank becoming profitable were utilized to offset most of that year's tax expense on earnings. Having no remaining income tax benefit in 2012, income tax expense increased approximately \$810,000 in 2012. We are extremely pleased that the pre-tax earnings improvement of \$1,138,000 more than offset this dramatic increase in income taxes.

Total assets grew to \$249.6 million at December 31, 2012 which was up from \$239.4 million at December 31, 2011, or an increase of 4.3%. At December 31, 2012, gross loans also increased by 4.3% to \$175.4 million over the \$168.2 million gross loan total at December 31, 2011. This compares to a state-wide decline in gross loans of 1.4% reported by South Carolina banks in 2012, according to statistics maintained by the FDIC.

Total deposits grew to \$209.4 million at December 31, 2012, up from \$197.5 million at December 31, 2011. As was the case in 2011, we saw an increase in the percentage of core deposits, which includes checking, savings, and money market accounts and certain certificates of deposit. Core deposits tend to be a more stable funding source and are generally viewed as an indicator of a bank's success in establishing full banking relationships with its customers. We think this to be particularly true of checking account relationships, where the bank experienced an increase in balances of 34% in 2012.

Total shareholders' equity was \$31.8 million at December 31, 2012 compared to \$30.0 million at December 31, 2011. We continued to maintain \$5.0 million in preferred stock issued to the U.S. Treasury's Small Business Lending Fund (SBLF). This preferred stock remained at a cost of 1.00%.

Non-performing assets increased since last year-end as a percentage of total assets. Non-performing assets stood at 0.98% of total assets at December 31, 2012 compared to 0.66% at December 31, 2011. While this number was elevated over the prior year, it still remains below the state-wide average of 4.09%, according to the FDIC. A detailed analysis of our non-performing assets is included in the notes to the financial statements.

We believe our bank is poised for continuing success in 2013 and beyond. We desire not only to be a survivor in the ever-changing banking landscape, we want to grow and thrive. With the experience and determination of our staff and board of directors, the support of our customers and shareholders, and the bank's strong capital level, I believe that Carolina Alliance is well positioned for the future.

Thank you sincerely for your continuing support of our growing bank.

Yours truly, John S. Poole

President and CEO

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Carolina Alliance Bank Spartanburg, South Carolina

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Carolina Alliance Bank and Subsidiary which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Carolina Alliance Bank and Subsidiary as of December 31, 2012 and 2011, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Elliott Davis, LLC

Notes to Consolidated Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization - Carolina Alliance Bank (the "Bank") was incorporated and began operations in January 2007 and provides a broad array of commercial banking services to its customers. The Bank is subject to regulation of the South Carolina State Board of Financial Institutions and the Federal Deposit Insurance Corporation.

Basis of Presentation - The consolidated financial statements include the accounts of the Bank and its wholly-owned subsidiary, NSCB 2, LLC (whose only business activity is the holding of title to certain operating real estate). Significant intercompany balances and transactions have been eliminated. The accounting policies and reporting practices conform to accounting principles generally accepted in the United States of America ("GAAP") and to general practices in the banking industry.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amount of income and expenses during the reporting periods. Actual results could differ from those estimates.

Nature of Operations and Concentrations of Credit Risk - The Bank is engaged in the business of accepting demand and time deposits and providing loans to individuals and businesses. The Bank's business is limited primarily to Spartanburg and adjacent counties in the northwestern area of South Carolina. The Bank has a diversified loan portfolio and the borrowers' ability to repay their loans is not dependent upon any specific economic sector.

Disclosure Regarding Segments - The Bank reports as one operating segment, as the chief operating decision-maker reviews the results of operations of the Bank as a single enterprise.

Reclassifications - Certain amounts previously reported have been reclassified to conform to the current presentation of these consolidated financial statements. These reclassifications had no effect on previously reported net income or shareholders' equity.

Subsequent Events - Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements. Non-recognized subsequent events are events are events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date. Management has reviewed events occurring through March 18, 2013, the date the financial statements were issued, and determined that no subsequent events have occurred requiring accrual or disclosure.

Cash and Cash Equivalents - For purposes of reporting cash flows, cash and cash equivalents include cash on hand, amounts due from banks, short-term interest bearing deposits and federal funds sold. Cash and cash equivalents have an original maturity of three months or less. Bank term deposits, consisting of FDIC-insured certificates of deposits with original maturities in excess of three months, are not included in cash and cash equivalents.

Notes to Consolidated Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Securities - Investments in debt and equity securities are required to be classified into one of three categories: "trading," "held to maturity," or "available for sale." During the reporting periods, the Bank held no trading or held to maturity securities. Available for sale securities are debt and equity securities which are not classified as either trading or as held to maturity securities. These securities are reported at fair market value. Net unrealized gains and losses are reported as a separate component of shareholders' equity.

Gains or losses on dispositions of investment securities are determined on a trade date basis and are based on the difference between the net proceeds and the adjusted carrying amount of the securities sold, using the specific identification method. Premiums and discounts are amortized or accreted into interest income by a method that approximates a level yield.

The Bank periodically evaluates its investment securities portfolio for "other-than-temporary impairment." If a security is considered to be other-than-temporarily impaired, the related unrealized loss is charged to income, and a new cost basis is established. Factors considered include the reasons for the impairment; the severity and duration of the impairment; changes in value subsequent to period-end; and forecasted performance of the security issuer. Impairment is considered other-than-temporary unless the Bank has both the intent and ability to hold the security for a sufficient period of time to allow the fair market value to recover and evidence supporting the recovery outweighs evidence to the contrary.

Other Investments - Other investments consists of stock in the Federal Home Loan Bank of Atlanta ("FHLB") which the Bank is required to own as a member institution. Transfer of the stock is restricted, no ready market exists, and it has no quoted market value. However, redemption of the stock historically has been at par value; therefore it is stated at the Bank's cost basis.

Loans, Interest, and Fee Income on Loans - Loans are stated at the principal balance outstanding and reduced by the allowance for loan losses. Loan origination fees and certain direct loan origination costs are deferred and the net amount is accreted or amortized as an adjustment of the related loan's yield over the contractual life of the loan. Loan origination fees and costs are netted and the net amount either reduces or increases net loans outstanding. Interest income is recognized over the term of the loan based on the contractual interest rate and the principal balance outstanding.

Loans generally are placed on non-accrual status when principal or interest becomes ninety days past due, or when payment in full is not anticipated. Interest payments received after a loan is placed in non-accrual status are applied as principal reductions until such time as the loan is returned to accrual status. Generally, a loan is returned to accrual status when the loan is brought current and the collectability of principal and interest no longer is in doubt.

Allowance for Loan Losses - The Bank provides for loan losses using the allowance method. Provisions for loan losses are added to the allowance through charges to operating expenses. Loans which are determined to be uncollectible are charged against the allowance and recoveries on loans previously charged off are added to the allowance. The provision for loan losses charged to operations is an amount sufficient to bring the allowance for loan losses to an estimated balance considered adequate to absorb losses inherent in the portfolio.

Notes to Consolidated Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Management's determination of the adequacy of the allowance is based on an evaluation of the portfolio, current economic conditions, historical loan loss experience, and other risk factors. While management uses the best information available to make evaluations, future adjustments may be necessary if economic and other conditions differ substantially from the assumptions used. The allowance for loan losses is subject to periodic evaluation by various regulatory authorities and may be subject to adjustment upon their examination.

A loan is considered to be impaired when full payment according to the terms of the loan agreement is not probable or when the terms of a loan are modified in a Troubled Debt Restructuring ("TDR"). The fair value of impaired loans may be determined based upon the present value of expected cash flows discounted at the loan's effective interest rate, the market price of the loan, if available, or value of the underlying collateral if the loan is collateral-dependent.

The treatment of the loan impairment is based on the status of the borrower and the underlying collateral. In general, the impairment is charged-off for collateral-dependent loans and consumer loans. For all other loans, a portion of the allowance for loan losses is allocated specifically to each impaired loan. When the ultimate collectability of an impaired loan's principal is in doubt, wholly or partially, all cash receipts are applied to principal. Once payments equal to the outstanding principal balance have been received, further cash receipts are applied to interest income, to the extent that any interest has been foregone.

Property and Equipment - Property and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Building and fixtures have estimated useful lives of 10 to 40 years and furniture and equipment have estimated useful lives of 3 to 15 years. Maintenance and repairs are charged to operations, while major improvements are capitalized. Upon retirement, sale, or other disposition of property and equipment, the cost and accumulated depreciation are eliminated from the accounts and the gain or loss is included in income from operations.

Other Real Estate Owned - Other real estate owned is comprised of property acquired through a foreclosure proceeding or acceptance of a deed-in-lieu of foreclosure. Other real estate owned is recorded at the lower of the recorded investment in the loan at the time of acquisition or the fair value of the underlying property collateral, less estimated selling costs. Any write-down in the carrying value of a property at the time of acquisition is charged to the allowance for loan losses. Any subsequent write-downs to reflect current fair market value, as well as gains and losses on disposition and revenues and expenses incurred in maintaining such properties, are treated as period costs. Other real estate owned is included in "Other assets" in the balance sheet and balances are summarized in Note 3.

Advertising - Advertising, promotional, and other business development costs generally are expensed as incurred. External costs incurred in producing media advertising are expensed the first time the advertising takes place. External costs relating to direct mailing costs are expensed in the period in which the direct mailings are sent.

Stock-Based Compensation - The Bank adopted a stock option plan on May 21, 2007. The fair value of the stock options issued under the plan is expensed over the vesting period of each option grant. Further information about the plan and the methodology to determine the fair value of stock options is detailed in Note 13.

Notes to Consolidated Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes - The asset and liability approach is utilized to account for income taxes, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying values and the tax bases of assets and liabilities, as well as net operating loss carry forwards. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be realized or settled. A current tax asset or liability is recognized for taxes that are presently payable.

The Bank has analyzed its filing positions in the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions. The Bank believes that income tax filing positions taken or expected to be taken in its tax returns will more likely than not be sustained upon audit by the taxing authorities and does not anticipate any adjustments that will result in a material adverse impact on the Bank's financial condition, results of operations, or cash flows. Therefore, no reserves for uncertain income tax positions have been recorded.

Earnings Per Share - Basic earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares and potential common shares outstanding during the period. Potential common shares consist solely of dilutive stock options determined by the treasury stock method using the average market price of the shares during the period. The dilutive effect of stock options outstanding on earnings per share at December 31, 2012 and 2011 was either insignificant or non-existent.

Comprehensive Income - Comprehensive income consists of net income and net unrealized gains and losses on investment securities available for sale and is presented in the Consolidated Statements of Changes in Shareholders' Equity and in the separate Consolidated Statements of Comprehensive Income.

Fair Value Measurements - Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Fair values are determined under a hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs in the measurement process. There are three levels of inputs that may be used to measure fair value:

Level 1: These inputs principally consist of quoted prices in active markets for identical assets or liabilities. (The Bank has no assets or liabilities measured by the use of Level 1 inputs.)

Level 2: Observable inputs such as quoted prices for similar assets or liabilities or other inputs that are observable or can be corroborated by observable market data are the primary types of measurements that comprise Level 2.

Level 3: Unobservable inputs that are supported by little or no market activity or that may involve using pricing models, discounted cash flow methodologies, or similar techniques are included in this level. The determination of values also may require significant management judgment or estimation.

Notes to Consolidated Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Issued Accounting Standards - In April 2011, the Financial Accounting Standards Board ("FASB") amended the "Receivables" topic of the Accounting Standards Codification ("ASC") by the issuance of Accounting Standards Update ("ASU") 2011-03, which changed the criteria used to determine effective control of transferred assets in the "Transfers and Servicing" topic of the ASC. The requirement for the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms and the collateral maintenance implementation guidance related to that criterion was removed from the assessment of effective control. The other criteria to assess effective control were not changed. The amendment was effective for the Bank beginning January 1, 2012, and its adoption did not have a material effect on the financial statements.

ASU 2011-04 was issued in May 2011 to amend the "Fair Value Measurement" topic of the ASC. The amendment generally provided clarifications on how to measure and disclose fair value. Its adoption by the Bank on January 1, 2012 had no material effect on the financial statements.

In June 2011, ASU No. 2011-05 amended ASC topic "Comprehensive Income," which eliminated the option to present components of other comprehensive income as part of the statement of changes in shareholders' equity. The ASU requires that all non-owner changes in shareholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The Bank adopted this statement using the two-statement approach on January 1, 2012, and its provisions were applied retrospectively. Under this reporting option, an entity must present the components of net income and total net income in the first statement. That statement must be immediately followed by a financial statement that presents the components of other comprehensive income, at total for other comprehensive income, and a total for comprehensive income.

In February 2013, this topic was further amended by ASU 2013-02, which requires an entity to show the components of any amounts reclassified out of accumulated other comprehensive income, and certain other disclosures if applicable. The Bank is required to apply this change prospectively for reporting periods beginning on or after January 1, 2013, and its adoption is not expected to have a material effect on the financial statements.

Other accounting standards that have been issued or proposed by standards-setting bodies are not expected to have a material impact on the Bank's financial position, results of operations or cash flows.

NOTE 2 - INVESTMENT SECURITIES

The amortized cost and fair value of investment securities available for sale at December 31, 2012 and 2011 are as follows:

| | | 20 | 12 | | |
|--|--------------|--------------|------|----------|--------------|
| | Amortized | Gross U | nrea | lized | Fair |
| | Cost | Gains | | Losses | Value |
| U.S. government agency and | | | | | |
| sponsored enterprises | \$ 5,117,373 | \$ 111,958 | \$ | - | \$ 5,229,331 |
| Agency mortgage-backed securities | 25,911,046 | 1,037,875 | | (436) | 26,948,485 |
| Agency collateralized mortgage obligations | 7,875,861 | 133,115 | | (3,755) | 8,005,221 |
| Municipal securities | 6,603,104 | 142,825 | | (26,651) | 6,719,278 |
| Total available for sale | \$45,507,384 | \$ 1,425,773 | \$ | (30,842) | \$46,902,315 |

Notes to Consolidated Financial Statements

NOTE 2 - INVESTMENT SECURITIES (continued)

| | | 20 | 11 | |
|--|---------------|--------------|-------------|---------------|
| | Amortized | Gross Un | realized | Fair |
| | Cost | Gains | Losses | Value |
| U.S. government agency and | | | | |
| sponsored enterprises | \$ 1,801,581 | \$ 19,903 | \$ (55) | \$ 1,821,429 |
| Agency mortgage-backed securities | 32,779,632 | 1,012,268 | (7,357) | 33,784,543 |
| Agency collateralized mortgage obligations | 8,434,703 | 220,414 | (754) | 8,654,363 |
| Municipal securities | 5,428,979 | 95,820 | (2,868) | 5,521,931 |
| Total available for sale | \$ 48,444,895 | \$ 1,348,405 | \$ (11,034) | \$ 49,782,266 |

In the year ended December 31, 2012, there was one sale of an investment security available for sale without gain or loss. The gross proceeds are reflected in the Consolidated Statements of Cash Flows. In the year ended December 31, 2011, there were no sales of investment securities available for sale.

Following is a summary of investment securities which had been in an unrealized loss position for less than 12 months at December 31, 2012 and 2011 (no investment securities had been in an unrealized loss position for greater than 12 months at December 31, 2012 or 2011). The number of securities, the fair value, and the gross unrealized losses are provided for each investment security category.

| | 2012 | | | | 2011 | | | | |
|---|--------|------------------------|----|---------------------|--------|----|--------------------|----|---------------------|
| | # | Fair Value | - | nrealized Losses | # | | Fair Value | - | nrealized Losses |
| U.S. government agency and sponsored enterprises Agency mortgage-backed | - | \$- | \$ | - | 1 | \$ | 503,630 | \$ | (55) |
| securities | 1 | 454,676 | | (436) | 3 | | 1,657,180 | | (7,357) |
| Agency collateralized mortgage obligations Municipal securities | 3 5 | 1,633,330 1,101,771 | | (3,755) (26,651) | 1 3 | | 489,666 943,228 | | (754) (2,868) |
| Total temporarily impaired securities | 9 | \$ 3,189,777 | \$ | (30,842) | 8 | \$ | 3,593,704 | \$ | (11,034) |

Based on its other-than-temporary impairment analysis at December 31, 2012, management concluded that the unrealized losses reflected in the preceding summary were not other-than-temporarily impaired as of that date. Management believes the decline in value to be solely the result of changes in interest rates and not from deterioration in their credit quality. The Bank has the intention and ability to hold these securities for a period of time sufficient to allow for their recovery in value or maturity.

Notes to Consolidated Financial Statements

NOTE 2 - INVESTMENT SECURITIES (continued)

Investment securities at December 31, 2012 and 2011 were pledged as collateral for the following purposes (at fair value):

| | 2012 | 2011 |
|--------------------------------|---------------|--------------------|
| FHLB advances | \$ 3,021,331 | \$ 5 7,886,115 |
| Customer repurchase agreements | 5,318,350 | 7,093,617 |
| Public entity deposits | 8,504,306 | 5,821,219 |
| Total | \$ 16,843,987 | \$ 5 20,800,951 |

Amortized cost and fair value of securities available for sale at December 31, 2012, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations. Mortgage-backed securities and collateralized mortgage obligations are shown separately since they are not due at a single maturity date.

| | Amortized Cost | Fair Value |
|----------------------------------|-------------------|---------------|
| Due within one year or less | \$- | \$ - |
| Due after one through five years | 5,327,186 | 5,357,053 |
| Due after five through ten years | 6,393,291 | 6,591,556 |
| No contractual maturity | 33,786,907 | 34,953,706 |
| Total investment securities | \$ 45,507,384 | \$ 46,902,315 |

NOTE 3 - LOANS

Loans receivable at December 31, 2012 and 2011 consisted of the following:

| | 2012 | 2011 |
|-----------------------------------|----------------|----------------|
| Commercial | \$ 36,708,887 | \$ 36,811,422 |
| Real estate: | | |
| Commercial | 103,137,037 | 94,745,035 |
| Residential | 27,720,951 | 29,272,523 |
| Construction | 4,147,066 | 3,663,788 |
| Consumer | 3,544,694 | 3,567,510 |
| Gross loans | 175,258,635 | 168,060,278 |
| Allowance for loan losses | (3,082,443) | (3,772,606) |
| Deferred loan fees and costs, net | 107,362 | 134,513 |
| Net loans | \$ 172,283,554 | \$ 164,422,185 |

At December 31, 2012, substantially all of the Bank's residential mortgage loans were pledged as collateral for advances from the FHLB under the borrowing facility described in Note 6.

Notes to Consolidated Financial Statements

NOTE 3 – LOANS (continued)

A summary of changes in the allowance for loan losses is as follows for the years ended December 31, 2012 and 2011:

| | 2012 | 2011 |
|----------------------------|--------------|--------------|
| Balance, beginning of year | \$ 3,772,606 | \$ 2,794,312 |
| Provision for loan losses | 1,080,000 | 1,480,000 |
| Loans charged off | (1,875,799) | (506,818) |
| Recoveries | 105,636 | 5,112 |
| Balance, end of year | \$ 3,082,443 | \$ 3,772,606 |

The Bank makes loans to individuals and small- to mid-sized businesses for various personal and commercial purposes primarily in Spartanburg County, South Carolina. Credit concentrations can exist in relation to individual or groups of borrowers, industry segments, geographic regions and collateral characteristics. Credit risk associated with these concentrations could arise when a significant amount of loans sharing similar characteristics are simultaneously impacted by economic or other conditions which adversely affect their collectability. The Bank regularly monitors its credit concentrations. The Bank's loan portfolio is not concentrated in loans to any single borrower or a relatively small number of borrowers. The largest component of the loan portfolio is loans secured by real estate mortgages which were comprised of the following at December 31, 2012 (construction loans have been allocated to commercial and residential categories as appropriate):

| | Amount | % of Real Estate Loans |
|------------------------------|----------------|---------------------------|
| Commercial real estate : | | |
| Owner-occupied | \$ 57,244,741 | 42.4% |
| Other | 50,006,562 | 37.0% |
| Total commercial real estate | 107,251,303 | 79.4% |
| Residential real estate | 27,753,751 | 20.6% |
| Total real estate loans | \$ 135,005,054 | 100.0% |
| % of gross loans | 77.0% | |

In addition to monitoring potential concentrations described above, management monitors exposure to credit risk that could arise from potential concentrations of lending products and practices, such as loans that subject borrowers to substantial payment increases (e.g. principal deferral periods, loans with initial interest-only periods, etc.) and loans with high loan-to-value ratios. At December 31, 2012, approximately \$7.1 million, or 4.1% of gross loans were identified as having high loan-to-value ratios. The largest component comprising these loans was commercial real estate loans of approximately \$3.6 million which was below the aggregate supervisory loan-to-value limit of 30% of capital for this type of loan by approximately \$5.9 million.

Notes to Consolidated Financial Statements

NOTE 3 – LOANS (continued)

The remainder of the balance of high loan-to-value loans, \$3.5 million, was also well below supervisory limits. Additionally, there are industry practices that could subject the Bank to increased credit risk should economic conditions change over the course of a loan's life. For example, the Bank makes variable rate loans and fixed rate principal-amortizing loans with maturities prior to the loan being fully paid (i.e. balloon payment loans). These loans are underwritten and monitored to manage the associated risks. Management has determined that there is no concentration of credit risk associated with its lending policies or practices.

Credit quality of individual residential loans and consumer loans is monitored principally through review of delinquency measures and non-accrual levels on a portfolio-level basis. The Bank uses an internal loan grading system to classify and monitor the credit quality of all commercial loans. Loan risk grades are based on a graduated scale representing increasing likelihood of loss. The originating loan officers are responsible for the assignment of risk grades to commercial loans, subject to verification by an approving officer or the Management Loan Committee. In addition, the Credit Policy Officer is responsible for confirming loan grades and, along with the Management Loan Committee, has final authority over loan grading. Loan gradings also are reviewed on a regular basis by an independent third-party loan review firm. Individual loan officers also are responsible for ensuring that loan grades are updated as needed over the life of the loan. Loan grade descriptions and a summary of the grading of the Bank's loan portfolio by segment at December 31, 2012 and 2011 are as follows:

Grade 1 – High Liquidity; Minimal Risk – Grade is based on highest quality liquid collateral, minimum risk, and excellent ratios.

Grade 2 – Strong Liquidity; Low Risk – Borrower has strong financial statements, or loan is secured by marketable securities without impairment to liquidation. Although one measure removed from Grade 1, any unfavorable factor is outweighed by other positive considerations.

Grade 3 – Normal Liquidity; Average Risk – Reasonable and satisfactory risk exists in these loans to borrowers with good financial strength. The loan's purpose becomes a more significant factor at this level.

Grade 4 – Pass/Watch; Marginal Liquidity; Average Risk – Includes borrowers with generally acceptable credit strength, but with manageable weaknesses or uncertainty evident in one or more factors.

Grade 5 – Special Mention/Potential Problem; Uncertain Liquidity; More than Normal Risk – Loans with potential weaknesses that deserve management's close attention are included. If left uncorrected, these potential weaknesses may result in deterioration of repayment prospects.

Grade 6 – Substandard/Problem Loan; Minimal Liquidity; Abnormal Risk (Unacceptable) – The Bank is inadequately protected by the current sound worth and paying capacity of the borrower or of any pledged collateral. Well-defined weakness or weaknesses that jeopardize the liquidation of the debt is present. The loan is characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Grade 7 – Doubtful; Loss Potential; Absence of Liquidity – These loans exhibit all the weaknesses inherent in Grade 6 with the added characteristic that the weaknesses make collection in full highly questionable and improbable.

Notes to Consolidated Financial Statements

NOTE 3 – LOANS (continued)

Grade 8 – Loss/Charge-Off – Considered uncollectible; some recovery potential may exist, but the probability of such recovery does not support continued reflection of the loan as an asset.

Not Graded – Primarily consists of individual residential or consumer loans not assigned a risk grade, in accordance with the Bank's credit policy. Also not graded may be commercial loans for which a grade is pending because the loan is under review.

The composition of the loan portfolio by segment and grade at December 31, 2012 is as follows:

| | | | Real Estate | | | | |
|-------------|--------------|---------------|--------------------|--------------|--------------|---------------|--|
| | Commercial | Commercial | Residential | Construction | Consumer | Total | |
| Grade 1 | \$ 2,125,447 | \$- | \$- | \$ - | \$- | \$ 2,125,447 | |
| Grade 2 | 1,955,111 | - | - | - | - | 1,955,111 | |
| Grade 3 | 10,454,356 | 37,383,168 | - | 470,774 | 476 | 48,308,774 | |
| Grade 4 | 20,461,618 | 57,072,143 | 276,299 | 3,065,966 | - | 80,876,026 | |
| Grade 5 | 1,147,438 | 1,486,502 | 368,965 | - | 3,615 | 3,006,520 | |
| Grade 6 | 307,036 | 5,805,399 | 572,591 | 577,526 | 19,050 | 7,281,602 | |
| Grades 7, 8 | 100,000 | - | - | - | 11,005 | 111,005 | |
| Not graded | 157,881 | 1,389,825 | 26,503,096 | 32,800 | 3,510,548 | 31,594,150 | |
| Gross loans | \$36,708,887 | \$103,137,037 | \$27,720,951 | \$ 4,147,066 | \$ 3,544,694 | \$175,258,635 | |

The composition of the loan portfolio by segment and grade at December 31, 2011 is as follows:

| | | | Real Estate | | | | |
|-------------|--------------|--------------|--------------------|--------------|--------------|---------------|--|
| | Commercial | Commercial | Residential | Construction | Consumer | Total | |
| Grade 1 | \$ 3,516,636 | \$ - | \$ - | \$ - | \$- | \$ 3,516,636 | |
| Grade 2 | 2,354,261 | 30,342 | - | - | 83,379 | 2,467,982 | |
| Grade 3 | 9,493,926 | 41,618,660 | - | 864,546 | 5,795 | 51,982,927 | |
| Grade 4 | 19,371,931 | 42,613,676 | 440,954 | 2,799,242 | 1,289 | 65,227,092 | |

As a result of adopting the amendments in ASU 2011-02, the Bank reassessed all loan restructurings occurring after adoption on January 1, 2011 to determine whether they are considered TDRs under the amended guidance. The Bank identified as TDRs certain loans for which the allowance for loan losses had previously been measured under a general allowance methodology. Upon identifying those loans as TDRs, the Bank classified them as impaired under the guidance in ASC 310-10-35. The amendments in ASU 2011-02 require prospective application of the impairment measurement for those loans newly identified as impaired.

Notes to Consolidated Financial Statements

NOTE 3 – LOANS (continued)

At December 31, 2012, the outstanding recorded investment in loans which had been previously determined to be impaired under ASC 310-10-35 was \$4,957,773, and there was no allowance for loan losses associated with those loans. Following is a summary of loans determined to be TDRs during the years ended December 31, 2012 and 2011:

| | | 2012 | | | | | 2011 | | | | |
|--------------|--------|------|------------|--------------|---------|--------|--------------|-----------|--------------|----------|--|
| | Number | | Am | ount | | Number | _ | Am | ount | | |
| | of | | Pre- | | Post- | of | | Pre- | | Post- | |
| | Loans | Mo | dification | Modification | | Loans | Modification | | Modification | | |
| Commercial | 1 | \$ | 246,679 | \$ | 246,679 | 2 | \$ | 800,000 | \$ | 800,000 | |
| Real estate: | | | | | | | | | | | |
| Commercial | 1 | | 57,933 | | 57,933 | 4 | - | 3,869,977 | 3 | ,869,977 | |
| Residential | 1 | | 218,649 | | 218,649 | - | | - | | - | |
| Construction | - | | - | | - | 1 | | 587,200 | | 587,200 | |
| Consumer | 1 | | 11,005 | | 11,005 | | | - | | - | |
| | 4 | \$ | 534,266 | \$ | 534,266 | 7 | \$: | 5,257,177 | \$ 5 | ,257,177 | |

Of the loans that were identified as TDRs during the year ended December 31, 2012, two involved extended terms, one resulted from the bankruptcy proceedings of the former co-borrower, and one involved financial difficulty with renewal terms that did not mitigate the increased potential risk. During the years ended December 31, 2012 and 2011, no loans that had been previously restructured had payment defaults, nor were there any loans that had been previously restructured removed from this classification (except by pay-offs).

The following table summarizes activity related to the allowance for loan losses for the year ended December 31, 2012 by portfolio segment:

| | Balance Beginning of Year | Provision for Loan Losses | Loan Charge Offs | Charge Loan | | Balance End of Year |
|--------------|---------------------------------|---------------------------------|------------------------|-------------|--------|---------------------------|
| Commercial | \$ 606,908 | \$ 774,882 | \$ (950,350) | \$ | 10,959 | \$ 442,399 |
| Real estate: | | - | | | | |
| Commercial | 2,305,371 | (812,443) | (369,229) | | 90,803 | 1,214,502 |

Notes to Consolidated Financial Statements

NOTE 4 - PROPERTY AND EQUIPMENT

Property and equipment at December 31, 2012 and 2011 are summarized as follows:

| | 2012 | | 2011 | |
|-------------------------------|------|------------------------|------|------------------------|
| Land Building | \$ | 1,115,352 5,356,495 | \$ | 1,115,352 5,356,495 |
| Furniture and equipment | | 2,083,915 8,555,762 | | 1,917,252 8,389,099 |
| Less accumulated depreciation | | 1,690,794 | | 1,336,718 |
| Property and equipment, net | \$ | 6,864,968 | \$ | 7,052,381 |

Depreciation expense for the years ended December 31, 2012 and 2011 was \$354,076 and \$351,369, respectively.

NOTE 5 - DEPOSITS

Deposit accounts at December 31, 2012 and 2011 are summarized as follows:

| | 2012 | 2011 | |
|-------------------------------|----------------|----------------|--|
| Non-interest bearing deposits | \$ 24,319,214 | \$ 20,502,285 | |
| Interest bearing deposits: | | | |
| Interest checking | 19,643,381 | 12,414,355 | |
| Money market | 100,346,898 | 79,336,701 | |
| Savings | 1,865,151 | 814,691 | |
| Time, less than \$100,000 | 17,085,356 | 22,887,655 | |
| Time, \$100,000 and over | 46,093,951 | 61,507,179 | |
| Total deposits | \$ 209,353,951 | \$ 197,462,866 | |

At December 31, 2012 and 2011 there were deposits amounting to approximately \$6.0 million and \$14.9 million, respectively, obtained from outside the Bank's market area through the internet and deposit brokers.

At December 31, 2012 the scheduled maturities of time deposits were as follows:

| 2013 | \$ 50,770,727 |
|---------------------|---------------|
| 2014 | 8,148,125 |
| 2015 | 2,441,714 |
| 2016 | 1,577,629 |
| 2017 | 241,112 |
| Total time deposits | \$ 63,179,307 |

Notes to Consolidated Financial Statements

NOTE 6 - OTHER BORROWINGS

Repurchase Agreements - All of the Bank's repurchase agreements are with its commercial deposit customers. At December 31, 2012 and 2011, respectively, balances of \$5,311,528 and \$7,089,616 were outstanding at rates of 0.35% and 0.50% for the respective year-ends.

Federal Funds Lines of Credit - The Bank maintains federal funds lines of credit with correspondent banks to meet short-term liquidity needs. Advances under these agreements are unsecured and are limited to terms ranging from seven to 15 days. These banks have reserved the right to withdraw these lines at their option. At December 31, 2012, the Bank had credit availability of \$13.5 million under these lines with no advances outstanding.

FHLB Line of Credit - The Bank has an approved credit line with the FHLB of approximately \$24.9 million, subject to the Bank's ability to pledge qualifying collateral. Advances totaled \$2.0 million at December 31, 2012 and \$3.0 million at December 31, 2011.

All advances are at fixed rates with interest paid monthly and principal paid at maturity. The following table summarizes FHLB borrowings at December 31, 2012:

| Maturity Date | Balance | Interest Rate |
|--------------------|--------------|------------------|
| August 20, 2013 | \$ 1,000,000 | 4.13 % |
| September 29, 2014 | 1,000,000 | 3.03 |
| | \$ 2,000,000 | |

Federal Reserve Bank Credit Facility - The Bank is eligible to borrow through the Federal Reserve Bank's ("FRB") "Discount Window" program. Any borrowings under this program must be secured by eligible collateral and are limited to very short terms, typically overnight. The FRB has indicated that though institutions are not required to seek funding elsewhere before requesting credit, they expect that institutions will use the Discount Window as a backup rather than a regular source of funding. The Bank has never used this funding source, but maintains it as a part of its contingency funding plan. The Bank estimates that credit availability under this program was approximately \$99.1 million at December 31, 2012.

Notes to Consolidated Financial Statements

NOTE 7 - INCOME TAXES

The income tax effects of temporary differences between financial statement carrying values and the tax bases of assets and liabilities, as well as net operating loss carryforwards at December 31, 2012 and 2011 are as follows:

| | 2012 | 2011 |
|---|------------|--------------|
| Deferred tax assets: | | |
| Allowance for loan losses | \$ 793,774 | \$ 1,116,171 |
| Organization and start-up costs | 141,856 | 157,618 |
| Other | 489,340 | 329,771 |
| Total deferred tax assets | 1,424,970 | 1,603,560 |
| Deferred tax liabilities: | | |
| Property and equipment | 366,451 | 312,012 |
| Loan origination costs | 77,930 | 88,540 |
| Unrealized gains on securities available for sale | 526,837 | 494,426 |
| Other | 27,629 | 41,177 |
| Total deferred tax liabilities | 998,847 | 936,155 |
| Net deferred tax asset | \$ 426,123 | \$ 667,405 |

Deferred tax assets represent the future tax benefit of deductible differences and, if it is more likely than not that a tax asset will not be realized, a valuation allowance is required to reduce the recorded deferred tax assets to net realizable value. At December 31, 2012 and 2011, management determined that no valuation allowance was necessary. In the year ended December 31, 2011, a tax benefit of \$516,639 was recorded to eliminate the valuation allowance which previously had been provided to reflect management's estimate of the net realizable value of the deferred tax asset.

The Bank has analyzed the tax positions taken or expected to be taken in its tax returns and concluded it has no liability related to uncertain tax positions.

The Bank's federal and state income tax returns are open and subject to examination from the 2009 tax return year and forward.

The income tax expense (benefit) for the years ended December 31, 2012 and 2011 is summarized as follows:

| | 2012 | 2011 |
|---|------------|------------|
| Income taxes currently payable | \$ 653,611 | \$ 898,511 |
| Net deferred income tax expense (benefit) | 208,871 | (328,986) |
| Change in valuation allowance | | (516,639) |
| Income tax expense | \$ 862,482 | \$ 52,886 |

Notes to Consolidated Financial Statements

NOTE 7 - INCOME TAXES (continued)

The income tax expense for the years ended December 31, 2012 and 2011 is reconciled to the amount of income tax computed at the federal statutory rate of 34% on income before income taxes as follows:

| | 2012 | 2011 |
|--|------------|------------|
| Tax expense at statutory rate | \$ 821,223 | \$ 434,104 |
| Increase (decrease) in taxes resulting from: | | |
| Stock option compensation | 31,068 | 65,884 |
| State income taxes, net of federal benefit | 23,060 | 18,175 |
| Other, net | (12,869) | 51,362 |
| Change in valuation allowance | - | (516,639) |
| Income tax expense | \$ 862,482 | \$ 52,886 |

NOTE 8 - COMMITMENTS AND CONTINGENCIES

During the years ended December 31, 2012 and 2011, the Bank leased various equipment under operating leases. Lease expense for the years ended December 31, 2012 and 2011 was approximately \$6,000 and \$12,000, respectively. Future minimum rental payments under non-cancelable operating leases having remaining terms in excess of one year in the aggregate are not material.

The Bank has a contract for data processing services with a remaining term of 54 months at December 31, 2012 with an average monthly minimum payment of approximately \$26,000.

The Bank has entered into employment agreements with two executive officers. The initial three-year terms expired December 15, 2011, and the agreements were and will continue to be extended automatically for successive one-year terms unless a respective officer's employment is terminated under various provisions of the agreements. These agreements include provisions regarding term, compensation, benefits, incentive programs, stock option plans, severance, and non-compete provisions.

Management is not aware of any legal proceedings which would have a material adverse effect on the financial position or operating results of the Bank.

NOTE 9 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

In the ordinary course of business, and to meet the financing needs of its customers, the Bank is a party to various financial instruments with off-balance sheet risk. These financial instruments, which include commitments to extend credit and standby letters of credit, involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the balance sheet. The contract amounts of those instruments reflect the extent of involvement the Bank has in particular classes of financial instruments.

The Bank's exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amounts of those instruments. The same credit policies used for on-balance sheet instruments are used in making commitments and conditional obligations.

Notes to Consolidated Financial Statements

NOTE 9 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation of the borrower. Collateral varies but may include accounts receivable, inventory, property, plant and equipment, and commercial and residential real estate. Since many of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any material condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require the payment of a fee. At December 31, 2012, the Bank's commitments to extend additional credit totaled approximately \$30.8 million, the majority of which are at variable rates of interest with varying maturities. Included in the Bank's total commitments are standby letters of credit. Letters of credit are commitments issued by the Bank to guarantee the performance of a customer to a third party and totaled approximately \$236,515 at December 31, 2012.

NOTE 10 - EMPLOYEE BENEFIT PLAN

The Bank has a 401(k) plan which covers all eligible employees. Participants may contribute up to \$17,500 per year, and the Bank matches contributions equal to 100% of employee contributions up to three percent (3%) of eligible compensation plus 50% of employee contributions up to the next two percent (2%) of eligible compensation. Contributions to the plan were approximately \$99,000 and \$100,000 in the years ended December 31, 2012 and 2011, respectively.

NOTE 11 - PREFERRED STOCK

On August 23, 2011, the Bank completed the sale of \$5 million of Series A preferred stock to the Secretary of the Treasury under the Small Business Lending Fund ("SBLF"). The fund was established under the Small Business Jobs Act of 2010 that was created to encourage lending to small businesses by providing capital to qualified community banks with assets less than \$10 billion.

Under the terms of the stock purchase agreement, the Treasury received 5,000 shares of \$1.00 par value, non-cumulative perpetual preferred stock with a liquidation value of \$1,000 per share in exchange for \$5 million.

The Series A preferred stock qualifies as Tier 1 capital. The dividend rate can fluctuate on a quarterly basis during the first 10 quarters the Series A preferred stock is outstanding, based upon changes in the level of qualified small business lending. The dividend rate is calculated based on the increase in the level of qualified small business lending over the baseline level calculated under the terms of the related purchase agreement and may range from one percent (1%) to five percent (5%) per annum for the first nine calendar quarters, beginning with the initial dividend period. For the tenth calendar quarter through four and one half years after issuance, the dividend rate will be fixed at between one percent (1%) and seven percent (7%) based upon the level of the qualified small business lending compared to the baseline. After four and one half years from the issuance, the dividend rate will increase to nine percent (9%).

Beginning with the initial dividend period, which ended September 30, 2011, and for each dividend period since, the Bank's dividend rate was one percent (1%). For the years ended December 31, 2012 and 2011, respectively, the Bank paid dividends of \$50,000 and \$17,777.

Notes to Consolidated Financial Statements

NOTE 11 - PREFERRED STOCK (continued)

Subject to regulatory approval, the Bank is generally permitted to redeem the Series A preferred shares at par plus unpaid dividends.

<u>NOTE 12 – DIVIDENDS</u>

Currently, the Bank has no plans to initiate payment of cash dividends on its common shares. It is anticipated that any future dividends paid by the Bank to common shareholders would be dependent on earnings, capital requirements, and financial condition. Additionally, as a condition of receiving a state banking charter, the Bank agreed to pay no cash dividends until its retained deficit is eliminated. This restriction was waived in connection with the Bank's participation in the SBLF program with regard to dividends on the Series A preferred stock.

NOTE 13 - STOCK COMPENSATION

Stock Option Plan - The Bank has a stock option plan for the benefit of the Bank's officers, employees, and directors. Under terms of the Plan, the Board may grant options to purchase common stock ("options") of the Bank aggregating up to 525,000 shares. Options issued under the plan have an exercise price equal to the stock's fair market value (based on the most recent over-the-counter stock trades) on the grant date. The life of options granted cannot exceed 10 years. On February 16, 2010, the Plan was amended to allow members of the Board to participate in the Plan.

The following is a summary of activity in the stock option plan for the years ended December 31, 2012 and 2011:

| | 2012 | | | 2011 | | | |
|--|-------------------|--|--------------------------------------|---------|--|--------------------------------------|--|
| | Shares | Weighted Average Exercise Price | Weighted Average Fair Value | Shares | Weighted Average Exercise Price | Weighted Average Fair Value | |
| Outstanding, beginning of year Granted Forfeited | 394,000 - - | \$ 10.19 - - | \$ 4.07 | 400,000 | \$ 10.25 13.88 | \$ 4.09 5.69 | |
| Outstanding, end of year | 394,000 | 10.19 | 4.07 | 394,000 | 10.19 | 4.07 | |
| Options exercisable | 309,700 | 10.34 | 4.11 | 239,800 | 10.40 | 4.13 | |
| Non-vested options, end of year | 84,300 | 9.64 | 3.90 | 154,200 | 9.86 | 3.98 | |
| Options vesting during year | 69,900 | 10.37 | 4.07 | 69,900 | 10.37 | 4.07 | |
| Shares available for grant | 131,000 | | | 131,000 | | | |

All options outstanding have a 10-year life and substantially all have a five-year vesting period. Stock options outstanding and vested at December 31, 2012 have an average remaining life of 5.2 years and of 6.2 years, respectively. Exercise prices per share of outstanding stock options range from \$9.50 to \$16.50. At December 31, 2012, 28,000 options had an insignificant amount of intrinsic value; at December 31, 2011, no options had intrinsic value.

Notes to Consolidated Financial Statements

NOTE 13 - STOCK COMPENSATION (continued)

The following table summarizes other information concerning stock option awards granted by the Bank as of and for the years ended December 31, 2012 and 2011:

| | 2012 | 2011 |
|---|-----------|-----------|
| Compensation charged against pretax income | \$181,372 | \$300,009 |
| Approximate future compensation of options outstanding | \$191,000 | \$369,000 |
| Weighted average years remaining to recognize future compensation | 2.4 years | 2.0 years |

Director Compensation Program - In 2012, the Bank adopted a compensation plan for its 14 independent directors. Monthly fees earned by the directors are determined based on a combination of fixed amounts for board and committee membership, and variable amounts based on the number of meetings attended. The program was effective June 1, 2012, and total fee expense was \$85,750 in the year ended December 31, 2012.

Directors may elect payment of fees in the form of cash or in Bank stock. Fees earned and payable in cash are paid quarterly, and fees payable in Bank stock are settled semi-annually. The total of stock-settled fees earned in 2012 was \$60,995, which was settled in January 2013 through the issuance of 6,594 shares at a market price on the date of settlement of \$9.25 per share.

NOTE 14 - REGULATORY MATTERS

The Bank is subject to various regulatory capital requirements administered by the federal banking regulatory agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possible additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements.

Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification also are subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Notes to Consolidated Financial Statements

NOTE 14 - REGULATORY MATTERS (continued)

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital to risk-weighted assets, and of Tier 1 capital to average assets. As of December 31, 2012, the most recent notification from the Bank's primary regulator categorized the Bank as "well capitalized" under the regulatory framework for prompt corrective action. There are no conditions or events that management believes have changed the Bank's category.

The following table summarizes the capital amounts and ratios of the Bank and the regulatory minimum requirements at December 31, 2012 and 2011:

| | Acti | ual | For Capital <u>Adequacy Purposes</u> Minimum | | To be Well Capitalized Under Prompt Corrective <u>Action Provisions</u> Minimum | |
|---|-----------|-------|--|-----------|--|-------|
| | Amount | Ratio | Amount | Ratio | Amount | Ratio |
| | | | (Amounts | in \$000) | | |
| As of December 31, 2012: Total capital | | | | | | |
| (To risk weighted assets) Tier 1 capital | \$ 32,851 | 17.3% | \$ 15,220 | 8.0% | \$ 19,026 | 10.0% |
| (To risk weighted assets) Tier 1 capital | 30,464 | 16.0 | 7,610 | 4.0 | 11,415 | 6.0 |
| (To average assets) | 30,464 | 12.3 | 9,922 | 4.0 | 12,402 | 5.0 |
| As of December 31, 2011: Total capital | | | | | | |
| (To risk weighted assets) Tier 1 capital | \$ 30,847 | 16.8% | \$ 14,652 | 8.0% | \$ 18,315 | 10.0% |
| (To risk weighted assets) Tier 1 capital | 28,539 | 15.6 | 7,326 | 4.0 | 10,989 | 6.0 |
| (To average assets) | 28,539 | 11.4 | 10,008 | 4.0 | 12,510 | 5.0 |

NOTE 15 - RELATED PARTY TRANSACTIONS

Certain directors, executive officers and companies with which they are affiliated (collectively referred to as "insiders") are customers of and have banking transactions with the Bank in the ordinary course of business. Loans to insiders are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable arms-length transactions. At December 31, 2012 and 2011, respectively, loans to insiders approximated \$7.2 million and \$6.6 million, and deposits from insiders approximated \$9.2 million and \$10.5 million.

Notes to Consolidated Financial Statements

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments include cash and due from banks, federal funds sold, investment securities, other investments, loans, deposit accounts, other borrowings, and accrued interest. The following methods and assumptions were used by the Bank in estimating fair values of financial instruments recorded or disclosed in the financial statements:

Cash and Due from Banks - For these short-term instruments, the carrying amounts approximate their fair values.

Bank Term Deposits - Fair values for fixed-rate certificates of deposit are estimated utilizing a discounted cash flow calculation that applies current market interest rates of certificates of deposits with similar remaining maturities to the portfolio of certificates of deposits.

Federal Funds Sold and Interest Bearing Bank Balances - The carrying amount of federal funds sold and interest bearing bank balances approximate its fair value due to their short maturities (daily).

Investment Securities - Fair value for investment securities equals quoted market price if such information is available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities. The Bank utilizes a third party pricing service to provide valuations on its securities portfolio. Most of these securities are U.S. government agency debt obligations or agency mortgage-backed securities traded in active markets. The third party valuations are determined based on the characteristics of each security (such as maturity, duration, rating, etc.) and in reference to similar or comparable securities. Due to the nature and methodology of these valuations, the Bank considers these fair value measurements as Level 2.

Other Investments - No ready market exists for the FHLB stock, and it has no quoted market value. However, redemption of the stock historically has been at par value, therefore it is stated at the Bank's cost basis.

Accrued Interest Receivable and Payable - The carrying amounts for these items approximate their fair values due to the short period to settlement (three months or less).

Loans - For variable rate loans that reprice based on each change in a reference rate (e.g. prime rate), fair values are based on carrying values. Fair values for all other loans are estimated using discounted cash flow analyses, with interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Fair values for impaired loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

Deposits - The fair values disclosed for demand deposits are, by definition, equal to their carrying amounts. Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated monthly maturities.

Securities Sold Under Agreements to Repurchase - The carrying value of these retail repurchase agreements approximates fair value since these obligations mature daily.

Notes to Consolidated Financial Statements

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Advances from FHLB of Atlanta - The valuation methodology utilizes a discounted cash flow calculation that applies current offered interest rates for fixed rate advances with similar remaining maturities.

Off-Balance Sheet Instruments - Fair values of off-balance sheet lending commitments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The total fair value of such instruments is not material.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Bank's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Bank's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and, therefore, cannot be determined with precision. Changes in assumptions could affect these estimates significantly.

The estimated fair values of the Bank's financial instruments were as follows at December 31, 2012 and 2011:

| | 2012 | | 2011 | |
|---|--------------------|---------------|--------------------|---------------|
| | Carrying Amount | Fair Value | Carrying Amount | Fair Value |
| Financial Assets: | | | | |
| Cash and due from banks | \$ 7,209,287 | \$ 7,209,287 | \$ 5,183,531 | \$ 5,183,531 |
| Federal funds sold and interest bearing | | | | |
| bank balances | 7,852,117 | 7,852,117 | 5,155,490 | 5,155,490 |
| Bank term deposits | 4,980,000 | 4,992,166 | 3,735,000 | 3,731,394 |
| Investment securities, available for sale | 46,902,315 | 46,902,315 | 49,782,266 | 49,782,266 |
| Other investments | 448,400 | 448,400 | 625,800 | 625,800 |
| Loans, net | 172,283,554 | 173,731,565 | 164,422,185 | 166,141,218 |
| Accrued interest receivable | 693,078 | 693,078 | 705,994 | 705,994 |
| Financial Liabilities: | | | | |
| Deposits | 209,353,951 | 207,695,154 | 197,462,866 | 196,878,613 |
| Securities sold under agreements to | | | | |
| repurchase | 5,311,528 | 5,311,528 | 7,089,616 | 7,089,616 |
| Advances from FHLB of Atlanta | 2,000,000 | 2,068,036 | 3,000,000 | 3,135,219 |
| Accrued interest payable | 60,537 | 60,537 | 102,629 | 102,629 |

Notes to Consolidated Financial Statements

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

The Bank reports fair value on a recurring basis for certain financial instruments, most notably available for sale investment securities. The table below presents the balances of assets and liabilities measured at fair value on a recurring basis:

| | Total | Level 1 | Level 2 | Level 3 |
|--|--|---------|--|----------------|
| December 31, 2012: Investment securities, available for sale: U.S. government agency and sponsored | | | | |
| enterprises Agency mortgage-backed securities Agency collateralized mortgage obligations Municipal securities | \$ 5,229,331 26,948,485 8,005,221 6,719,278 | \$ | - \$ 5,229,331 - 26,948,485 - 8,005,221 - 6,719,278 | \$ - - - |
| Total | \$46,902,315 | \$ | \$46,902,315 | <u>\$</u> |
| December 31, 2011: Investment securities, available for sale: U.S. government agency and sponsored | | | | |
| enterprises Agency mortgage-backed securities Agency collateralized mortgage obligations Municipal Securities | \$ 1,821,429 33,784,543 8,654,363 5,521,931 | \$ | - \$ 1,821,429 33,784,543 - 8,654,363 - 5,521,931 | \$ - - - |
| Total | \$49,782,266 | \$ | \$49,782,266 | \$ - |

The Bank may be required, from time to time, to measure certain assets at fair value on a non-recurring basis. These include assets that are measured at the lower of cost or market that were recognized at fair value which was below cost at the end of the period. Assets subject to non-recurring use of fair value measurements include impaired loans and foreclosed assets. Due to the use of both observable and unobservable inputs and the significant amount of judgment required in the determination of fair values, both of these categories of assets are considered to be valued under Level 3 inputs.

The fair value of impaired loans is determined based upon the present value of expected cash flows discounted at the loan's effective interest rate or the fair value of the collateral if the loan is collateraldependent. The fair value of collateral is determined by obtaining an observable market price or obtaining an appraised value from an independent, licensed or certified appraiser, using observable market data. This data includes information such as selling price of similar properties and capitalization rates of similar properties sold within the market, adjusted for differences in the properties, expected future cash flows, or earnings of the subject property based on current market expectations and other relevant factors. In addition, management may apply selling and other discounts to the underlying collateral value to determine the fair value.

Other real estate owned is valued by use of appraisals and management judgment as described for valuation of collateral underlying collateral-dependent impaired loans.

Notes to Consolidated Financial Statements

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

The following tables present the fair value measurement of assets measured at fair value on a nonrecurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011:

| | Total | Level 1 | Level 2 | Level 3 |
|-------------------------|--------------|-------------|-------------|--------------|
| December 31, 2012: | | | | |
| Impaired loans | \$ 5,479,998 | \$- | \$- | \$ 5,479,998 |
| Other real estate owned | 797,658 | - | - | 797,658 |
| Repossessed collateral | 102,427 | | | 102,427 |
| Total | \$ 6,380,083 | <u>\$</u> - | <u>\$</u> - | \$ 6,380,083 |
| December 31, 2011: | | | | |
| Impaired loans | \$ 5,214,270 | \$ - | \$ - | \$ 5,214,270 |
| Other real estate owned | 876,960 | | | 876,960 |
| Total | \$ 6,091,230 | \$ - | \$ - | \$ 6,091,230 |

For Level 3 assets and liabilities measured at fair value on a recurring or non-recurring basis as of December 31, 2012, the significant unobservable inputs used in the fair value measurements were as follows:

| Impaired loans | Fair Value \$ 5,479,998 | Valuation Technique Appraised Value, Discounted Cash Flows and Market Value of the Underlying Collateral | Significant Unobservable Inputs Discount Factors Applied to Valuations for: Shorter Marketing Period (Liquidation Approach), Sales Commissions, and Selling Costs |
|-------------------------|----------------------------|---|---|
| Other real estate owned | 797,658 | Appraised Value and Estimates from Independent Sources | Discount Factors Applied to Valuations for: Shorter Marketing Period (Liquidation Approach), Sales Commissions, and Selling Costs |
| Repossessed collateral | 102,427 | Appraised Value and Estimates from Independent Sources | Appraisals and Independent Quotes and Bids |
| Total | \$ 6,380,083 | | |
