Current Operations:

EPA Petroleum, Inc. is a wholly owned subsidiary of Cyber Kiosk Solutions, Inc. (CYBK) and is an independent producer of crude oil and natural gas. EPA Petroleum is actively involved in drilling activities within the Commonwealth of Pennsylvania by and through its General Contractor-Sub Contractor relationships. EPA Petroleum is always seeking new opportunities in the O&G sectors and looks to work with the local communities to help bring jobs within its drilling region. EPA Petroleum's strategy is to grow organically through low-risk exploration and development and higher risk exploration when it purchases its own properties and acreage in and out of the United States. This will be supplemented with opportunistic acquisition of underdeveloped properties that complement EPA Petroleum's existing portfolio. EPA Petroleum is looking for opportunities to drill new oil wells and/or acquire formerly producing oil wells of larger companies that have been plagued with paraffin build up, in order for us to use our own EOR-Enhanced Oil Recovery Products and Techniques. Due to EPA Petroleum's business model, products, and EOR methods, EPAP is able to take oil wells that are no longer cost effective for the larger oil drilling companies and make them profitable.
