Item 4 Management's discussion and analysis or plan of operation.

Revenues for the 3 month period ending September 30, 2012 totaled \$174,973 with a net income of \$67,501. The company's assets were \$1,242,285 at the end of the period. Year to date revenues for the nine month period ending September 30, 2012 totaled \$538,274 with a net income of \$173,237. Actual year over year comparisons are as follows:

<u>Revenues:</u> 2011 Q3 = \$147,020 vs. 2012 Q3 = \$174,973<u>Net Income</u>: 2011 Q3 = \$19,035 vs. 2012 Q3 = \$67,501<u>Assets</u>: 2011 Q3 = \$955,843 vs. 2012 Q3 = \$1,242,285<u>Cash</u>: 2011 Q3 = \$18,080 vs. 2012 Q3 = \$84,492

Demand for the company's services remains strong despite an overall flat to down trend in the industry as a whole. New vehicles that were recently added to the fleet are generating higher average hourly rates, and additional vehicles will be added in the coming quarters. There has been a shift in corporate charters from Limousines to traditional sedans, so this is one area that we are addressing when adding additional vehicles.

Client satisfaction ratings are in the top tier and the company was rated A+ by the Better Business Bureau at the end of the period. Several new charitable alliances have been formed that will further advance Dynasty's visibility in the area as well. A significant amount of holiday bookings were also received during the period, and typically receiving early reservations will translate into an overall busy fourth quarter.

Projects that were announced in previous reports were placed on hold while the company is engaged in other corporate actions. The company and its officers are currently under a nondisclosure agreement with a third party, and a full disclosure will be made once the process is complete. The officers of Dynasty Limousine have taken actions that should benefit its shareholders, and this information will be made public when we are able to do so. Dynasty has a positive history of non-dilution and growth, and the goal has always been for our shareholders to have an equitable relationship with the company.

The company has no off-balance sheet arrangements; therefore Item 16 "C" is inapplicable. The company has no convertible debt.

There are several factors that could make a significant impact on our future performance:

1. The company is anticipating a move into a new facility in the coming weeks. Locations that will allow for consolidation and display of the entire fleet are being considered.

2. New luxury sedans will be added to the fleet to service the changing needs of our corporate clients.

3. Historically the company has not engaged in the high volume, low margin airport transfer business model. Once a larger fleet of sedans is in place, marketing for this type of business will commence.

4. Several new affiliates have been added in markets outside of the current service area. Dynasty will receive booking from these new affiliates, and our clients will have the flexibility to book with us in areas that we previously did not service.

5. Although development of our third party booking service has been temporarily placed on hold, we do expect that this service will generate revenues once it goes live. Interest from both clients and outside affiliates regarding this project has been high. Launch of this project will be the next major offering from the company to assist its clients.

i. Any known trends, events or uncertainties that have or are reasonably likely to have a material impact on the issuer's short-term or long-term liquidity;

The company has entered into an agreement with a third party regarding its securities. The company is currently in a non-disclosure period; however a full disclosure will be made once the action is complete. We view this action as a positive development for our shareholders and Dynasty.

ii. Internal and external sources of liquidity;

The company receives revenues through the normal course of business. Vehicles are currently financed through Advantage Funding Corporation, Ford Credit, and Allstate Leasing.

iii. Any material commitments for capital expenditures and the expected sources of funds for such expenditures;

Not applicable.

iv. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations;

The addition of new luxury sedans to the fleet will allow Dynasty to service a higher number of airport transfers. Although the margins are low on this type of model, revenues and total number of bookings should benefit.

v. Any significant elements of income or loss that do not arise from the issuer's continuing operations;

Not applicable.

vi. The causes for any material changes from period to period in one or more line items of the issuer's financial statements; and

Not applicable.

vii. Any seasonal aspects that had a material effect on the financial condition or results of operation.

Third quarter is historically a lower performing period of the company's fiscal year. Holiday charters and year end corporate events usually generate an increase in the fourth quarter vs. the current period.

Item 5 Legal proceedings.

As of the date of this report, there are no (i) current, past, pending or threatened legal proceedings or administrative actions either by or against the issuer that could have a material effect on the issuer's business, financial condition, or operations, and (ii) current, past or pending trading suspensions by any securities regulator.

Item 6 Defaults upon senior securities.
