Cytta Corp.
Notes to Financial Statements
March 31, 2017 and September 30, 2016

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

Cytta Corp., (the “Company”) was incorporated on May 30, 2006 under the laws of the State of Nevada. It is located in Las Vegas, Nevada. The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America, and the Company’s fiscal year end is September 30. Currently, the Company is engaged in the manufacture, distribution and marketing of various telephony based internet access and computing products and services in the eHealth industry.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company’s periodic filings with the Securities and Exchange Commission include, where applicable, disclosures of estimates, assumptions, uncertainties and markets that could affect the financial statements and future operations of the Company.

Cash and Cash Equivalents

Cash and cash equivalents include cash in banks, money market funds, and certificates of term deposits with maturities of less than three months from inception, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of loss in value.

Start-Up Costs

In accordance with ASC 720-15-20, “Start-up Activities”, the Company expenses all costs incurred in connection with the start-up and organization of the Company.

Impairment of long-lived assets

The Company follows the provisions of ASC 360 for its long-lived assets. The Company’s long-lived assets, which include test equipment and purchased intellectual property rights, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of long-lived assets (Continued)

The Company assesses the recoverability of its long-lived assets by comparing the projected undiscounted net cash flows associated with the related long-lived asset or group of long-lived assets over their remaining estimated useful lives against their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. Fair value is generally determined using the asset’s expected future discounted cash

flows or market value, if readily determinable. If long-lived assets are determined to be recoverable, but the newly determined remaining estimated useful lives are shorter than originally estimated, the net book values of the long-lived assets are depreciated over the newly determined remaining estimated useful lives.

Fair value of financial instruments

The Company follows ASC 825 in accounting for its financial instruments. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties. The carrying amounts of financial assets and liabilities, such as accrued expenses, approximate their fair values because of the short maturity of these instruments. The Company's notes payable approximate the fair value of such instruments based upon management's best estimate of interest rates that would be available to the Company for similar financial arrangements.

Risks and Uncertainties

The Company operates in the technology industry which is subject to significant risks and uncertainties, including financial, operational, technological, and other risks associated with operating a technology business, including the potential risk of business failure.

Revenue recognition

The Company follows the guidance of ASC 605 for revenue recognition. The Company will recognize revenues when it is realized or realizable and earned less estimated future doubtful accounts. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured. The Company has earned no revenues since inception.

Stock-based compensation

The Company accounted for its stock based compensation under the recognition and measurement principles of the fair value recognition provisions of Statement of Financial Accounting Standards No. 123 (revised 2004) "Share-Based Payment" ("SFAS No. 123R")(ASC 718) using the modified prospective method for transactions in which the Company obtains employee services in share-based payment transactions and the Financial Accounting Standards Board Emerging Issues Task Force Issue No. 96-18 "Accounting For Equity Instruments That Are Issued To Other Than Employees For Acquiring, Or In Conjunction With Selling Goods Or Services" ("EITF No. 96-18") for share-based payment transactions with parties other than employees provided in SFAS No. 123(R) (ASC 718). All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. The measurement date used to determine the fair value of the equity instrument issued is the earlier of the date on which the third-party performance is complete or the date on which it is probable that performance will occur.

Income taxes

The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109 "Accounting for Income Taxes" ("SFAS No. 109") (ASC 740). Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and

tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

Cash flows reporting

The Company follows the provisions of ASC 230 for cash flows reporting and accordingly classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by ASC 230 to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments.

Reporting segments

ASC 280 establishes standards for the way that public enterprises report information about operating segments in annual financial statements and requires reporting of selected information about operating segments in interim financial statements regarding products and services, geographic areas and major customers. ASC 280 defines operating segments as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performances. Currently, ASC 280 has no effect on the Company's consolidated financial statements as substantially all of the Company's operations are conducted in one industry segment.

Concentrations of Credit Risk

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents and related party payables it will likely incur in the near future. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited

Earnings (Loss) Per Share of Common Stock

The Company has adopted ASC 260-10-20, "Earnings per Share," ("EPS") which requires presentation of basic and diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. In the accompanying financial statements, basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period.

Recent Accounting Pronouncements

The Company has evaluated the recent accounting pronouncements through ASU 2013-10 and believes that none of them will have a material effect on the company's financial statements.

NOTE 3 - CAPITAL STOCK

Authorized Stock

At inception, the Company had authorized 100,000,000 common shares and 100,000,000 preferred shares, both with a par value of \$0.001 per share. Each common share entitles the holder to one vote, in person or proxy, on any matter on which action of the stockholders of the corporation is sought.

Effective July 1, 2009, the Company increased the number of authorized shares to 2,000,000,000 shares, of which 1,900,000,000 shares are designated as common stock with a par value of \$0.00001 per share, and 100,000,000 shares are designated as preferred stock with a par value of \$0.001 per share.

Effective November 7, 2012, the Company increased the number of authorized shares to 4,000,000,000 shares, of which 3,900,000,000 shares are designated as common stock with a par value of \$0.00001 per share, and 100,000,000 shares are designated as preferred stock with a par value of \$0.001 per share.

As of April 9, 2013 the Company reverse split its common shares 1 for 300 reducing the number of authorized common shares to 13,000,000. All common stock disclosures appearing in the accompanying financial statements have been retroactively restated to reflect the reverse split of shares. The Company increased the number of authorized common shares to 100,000,000 with a \$0.001 par value.

Share Issuances

On November 18, 2008, the Company effected a 4 for 1 forward split, of its common stock, under which each stockholder of record, received 4 new shares of the Corporation's stock for every one share outstanding.

On June 19, 2009, the Company effected a 20 for 1 forward split, of its common stock, under which each stockholder of record on July 10, 2009, received 20 new shares of the Corporation's stock for every one share outstanding.

As of April 9, 2013 the Company reverse split its common shares 1 for 300 reducing the number of authorized common shares to 13,000,000. All common stock disclosures appearing in the accompanying financial statements have been retroactively restated to reflect the reverse split of shares. The Company increased the number of authorized common shares to 100,000,000 with a \$0.001 par value.

In addition to the above shares, 56,000,000 shares (reduced to 186,667 shares after reverse split) are pending cancellation. These shares were issued and subsequently cancelled when the merger with Ophthalmic International, Inc. was rescinded. However, the physical certificate was lost and thus it is being disclosed separately in our share capital. The shares have legally been cancelled as to our transfer agent. Management has placed a stop with our transfer agent and will not permit these shares to be negotiated, but are still outstanding until the physical certificate can be surrender or reissued.

From the above issued common shares of 99,267,351 a total of 33,108,000 shares are pending cancellation resulting in the issued capital being reduced by this number. These shares were issued and subsequently cancelled when the merger with EraStar was rescinded and the Company received Default Judgement against EraStar from the Nevada Supreme Court. However, the physical certificates were lost, stolen and/or unable to be recovered and thus it is being disclosed separately in our share capital. The shares have legally been cancelled as to our Transfer Agent. Management has placed a stop with our Transfer Agent and will not permit these shares to be negotiated, but are still outstanding until the physical certificates can be cancelled, surrendered or reissued. Alternatively, the Company may also obtain a Court Order authorizing the Transfer Agent to remove the shares from the share ledger.

NOTE 4 - INCOME TAXES

The Company provides for income taxes under ASC 740, Accounting for Income Taxes. ASC 740 requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse. ASC 740 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

NOTE 5 - DUE TO RELATED PARTIES

As of March 31, 2017 and September 30, 2016, the Company was obligated to related parties for a non-interest bearing demand loans with balances totaling of \$216,000 and \$-0-.

NOTE 6 - GOING CONCERN AND LIQUIDITY CONSIDERATIONS

The accompanying financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. As at March 31, 2017, the Company had a loss from operations of \$236,982, a retained deficit of \$8,011,111 and a working capital deficit of \$36,026. The Company intends to fund operations through equity financing arrangements, which may be insufficient to fund its capital expenditures, working capital and other cash requirements for the foreseeable future.

In response to these problems, management intends to raise additional funds through public or private placement offerings. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 7 - SUBSEQUENT EVENTS

In accordance with ASC 855-10, Company management reviewed all material events through the date of this report and there are no additional subsequent events to report.
