The accompanying notes are an integral part of these condensed interim consolidated financial statements

1. DESCRIPTION OF BUSINESS AND NATURE OF OPERATIONS

Endeavour Mining Corporation (“Endeavour” or the “Corporation”) is a publicly listed gold mining company that operates four mines in West Africa in addition to having project development and exploration assets. Endeavour is focused on effectively managing its existing assets to maximize cash flows as well as pursuing organic and strategic growth opportunities that benefit from its management and operational expertise.

Endeavour's corporate office is in Vancouver, Canada and its shares are listed on the Toronto Stock Exchange (“TSX”) (symbol EDV) and the Australian Securities Exchange (“ASX”) (symbol EVR) and quoted in the United States on the OTCQX International (symbol EDVMF). The Corporation is incorporated in the Cayman Islands and its registered office is located at 190 Elgin Avenue, George Town, Grand Cayman, Cayman Islands.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES**(a) Statement of compliance**

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*, using the accounting policies consistent with International Financial Reporting Standards (“IFRS”).

These condensed interim consolidated financial statements should be read in conjunction with the most recently issued annual consolidated financial statements of the Corporation, which include information necessary or useful to understanding the Corporation's business and financial statement presentation. In particular, the Corporation's significant accounting policies were presented as Note 2 to the consolidated financial statements for the fiscal year ended December 31, 2014, and have been consistently applied in the preparation of these interim financial statements.

(b) Basis of preparation

These condensed interim consolidated financial statements have been prepared on the historical cost basis, except certain financial instruments that are measured at fair value at the end of each reporting period. The Corporation's accounting policies have been applied consistently in preparing these condensed interim consolidated financial statements.

(c) Accounting Standards issued but not yet effective

The Corporation has not early adopted the following new and revised Standards, Amendments and Interpretations that have been issued but are not yet effective. The Corporation is currently assessing the impact they will have on the consolidated financial statements.

- *IFRS 15, Revenue from Contracts with Customers*: IFRS 15 introduces a new framework for determining the nature, amount, timing and uncertainty of revenues and cash flows arising from a contract with a customer. The standard is effective for annual period beginning on or after January 1, 2018, with early adoption permitted. The Corporation is currently evaluating the potential impact of the new standard on its consolidated financial statements.
- *IFRS 9, Financial Instruments*: IFRS 9 introduces the new requirements for the classification, measurement and de-recognition of financial assets and financial liabilities. Specifically, IFRS 9 requires all recognized financial assets that are within the scope of *IAS 39 Financial*

ENDEAVOUR MINING CORPORATION**Notes to the Unaudited Condensed Interim Consolidated Financial Statements**
(Expressed in Thousands of United States Dollars, except per share amounts)

Instruments: Recognition and Measurement to be subsequently measured at amortized cost or fair value, and all financial liabilities classified as subsequently measured at amortized cost except for financial liabilities measured at fair value through profit and loss. In July 2014, the IASB issued the final version of *IFRS 9 Financial Instruments* bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace *IAS 39 Financial Instruments: Recognition and Measurement*. The mandatory effective date of IFRS 9 would be annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company is currently assessing the impact of adopting IFRS 9 on its consolidated financial statements.

Long term stockpiles

Certain low grade stockpiles that are not expected to be processed until the end of mine life are classified as long term assets. In the period ended June 30, 2015, a reversal of prior impairment of \$0.2 million (December 31, 2014, \$4.5 million) was recorded to adjust the cost to recoverable value.

6. FINANCE LEASE OBLIGATIONS

On March 7, 2014, the Corporation's Malian subsidiary entered into a five year, \$18 million equipment lease financing facility. The equipment lease was used to purchase a portion of the owner-operated mining equipment for the Tabakoto and Segala underground developments. The lease terms have a fixed rate of 9.5% per annum to amortize the principal and there exists a purchase option to buy the equipment outright at the end of the lease life for 0.5% of cost. The equipment lease is treated as a finance lease.

The finance leases were composed of the following obligations:

	June 30, 2015	December 31, 2014
Equipment lease obligations	\$ 15,008	\$ 16,248

On July 24, 2013, the Corporation signed a \$350 million amended senior secured revolving corporate loan facility (the "Facility") with UniCredit Bank AG, BNP Paribas, ING Bank NV, Société Générale and Deutsche Bank AG and utilized \$300 million of the amended Facility while completing the expansion of the Tabakoto mine and the construction of the Agbaou mine.

On March 10, 2015, the Corporation renewed its Facility with UniCredit Bank AG, BNP Paribas, ING Bank NV, Société Générale and Investec Bank Plc. The renewed Facility has a new maturity date of March 2020 and key terms include the following:

- The maturity date is five years from signing, March 9, 2020, and the available Facility amount declines with four equal semi-annual reductions of \$87.5 million commencing September 2018;
- The Facility includes standard corporate financial covenants, including:
 - Interest Cover shall not be less than 3 to 1, calculated on a rolling 12 month basis;
 - Net Debt to EBITDA shall not exceed 3.5 times, calculated on a rolling 12 month basis;
 - Minimum Tangible Net Worth shall not be less than US\$350 million.
- The interest is based on LIBOR plus a margin ranging between 3.75% and 5.75% per annum (sliding scale based on the actual Net Debt to EBITDA ratio).
- The Facility is secured by shares of Endeavour's material gold mining subsidiaries and certain material assets of those subsidiaries.

On April 30, 2015, the Corporation made a principal payment of \$20.0 million to reduce the drawn amount on the Facility to \$280.0 million.

Subsequent to quarter-end, on July 8, 2015, the Corporation made another principal payment of \$20.0 million to reduce the drawn amount on the Facility further to \$260.0 million.

*(a) Gold and fuel price protection programs**(i) Options*

Prior to Endeavour's acquisition, a wholly owned subsidiary sold twelve call options that entitle the buyer to purchase 36,396 ounces of gold (3,033 ounces per call option) at strike price of \$900 over twelve consecutive quarters from September 1, 2012 to June 1, 2015. In exchange, Avion received cash consideration of \$25.0 million.

The settlement of the call options is in cash as there is no exchange of physical gold. During the three and six months ended June 30, 2015, the Corporation settled the remaining 3,033 and 6,066 ounces of gold resulting in a realized loss of \$0.9 million and \$1.8 million, respectively.

(ii) Gold forward contracts

Prior to Endeavour's acquisition, Adamus implemented a gold price protection program as part of the initial project financing of the Nzema Gold Mine. The gold price protection program consisted of gold forward contracts initially covering 290,000 ounces at a forward price of \$1,075 per ounce and subsequently amended to \$1,061 per ounce. The program required no cash or other margin.

On July 29, 2013 Endeavour re-distributed a portion of the 96,163 ounces of remaining forward contracts to several new lenders. The amended strike price has increased from \$1,061 per ounce to a weighted average strike price \$1,332 per ounce. On the close out of the former hedge under the Nzema project financing, a \$300 per ounce increase in the strike price gave rise to a crystallized loss;

ENDEAVOUR MINING CORPORATION**Notes to the Unaudited Condensed Interim Consolidated Financial Statements**
(Expressed in Thousands of United States Dollars, except per share amounts)

this crystallized loss will be allocated and paid over the remaining hedge deliveries, resulting in the net proceeds to be received of \$1,032 per ounce (\$1,332 per ounce less the loss of \$300 per ounce). Other terms and conditions remain the same.

The settlements of the forward contracts are in cash as there is no exchange of physical gold between the Corporation and the buyer. During the three and six months ended June 30, 2015, the Corporation settled 6,949 and 15,177 ounces of gold resulting in a realized loss of \$1.0 million and \$2.3 million, respectively.

As at June 30, 2015, 48,986 ounces (16,823 in 2015 and 32,163 in 2016) of gold forward contracts remain outstanding with a fair value of \$6.7 million (December 31, 2014, \$9.3 million).

(iii) Fuel Swap Contracts

On June 1, 2015, Endeavour initiated a 12-month fuel price protection program approximately equal to 50% of the diesel fuel requirement at the Tabakoto Mine in the form of a cash-settled commodity swap transaction with Societe Generale. The strike price of the swap is \$572 per metric tonne (Mtonne) of Gas Oil, with monthly settlements of 1,268 Mtonnes.

During the three and six months ended June 30, 2015, the Corporation settled 1,268 Mtonnes of Gas Oil resulting in a realized loss of \$0.01 million and \$0.01 million, respectively.

As at June 30, 2015, 12,680 Mtonnes (7,608 in 2015 and 5,072 in 2016) of Gas Oil swap contracts remain outstanding as a liability of \$0.4 million (December 31, 2014, \$nil).

Expired	(2,862,042)	1.62
At June 30, 2015	28,665,758	\$ 1.78

On January 19, 2015, the Corporation issued 6,386,000 options with a strike price of \$0.61 and a fair value of \$1.5 million, to be expensed over the 2-year vesting period. The options were valued using the Black-Scholes option pricing model. Assumptions used were a dividend yield of nil, expected volatility of 74.8%, risk free rate of 1.29% and expected life of 2.25 years. The expected volatility is based on the historical volatility of Endeavour's Canadian dollar common share price on the Toronto Stock Exchange.

The Corporation has established a share option plan whereby the Corporation's directors may from time to time grant options to directors, employees or consultants. The maximum term of any option is ten years. The exercise price of an option is not less than the volume weighted average trading price of the shares traded on the exchange for the five trading days immediately preceding the grant date. At June 30, 2015, there were 41,314,367 (December 31, 2014 – 41,314,367) options available for grant under the plan, of which 12,648,609 (December 31, 2014 – 16,172,567) are still available to be granted.

(ii) *Deferred share units*

On January 26, 2013, the Corporation established a deferred share unit plan ("DSU") for the purposes of strengthening the alignment of interests between non-executive directors of the Corporation and shareholders by linking a portion of the annual director compensation to the future value of the Corporation's common shares. Upon establishing the DSU plan for non-executive directors, the Corporation no longer grants options to non-executive directors.

The DSU allows each non-executive director to choose to receive, in the form of DSUs, all or a percentage of the director's fees, which would otherwise be payable in cash. Compensation for serving on committees must be paid in the form of DSUs. The plan also provides for discretionary grants of additional DSUs by the Board. Each DSU fully vests upon award, but is distributed only when the director has ceased to be a member of the Board. Vested units are settled in cash based on the common share price at the date of settlement.

A summary of the changes in DSUs is presented below:

	DSUs outstanding
At December 31, 2013	336,994
Granted	684,148
Exercised/released	(53,333)
At December 31, 2014	967,809

At June 30, 2015	1,374,723

ENDEAVOUR MINING CORPORATION**Notes to the Unaudited Condensed Interim Consolidated Financial Statements
(Expressed in Thousands of United States Dollars, except per share amounts)**

The total fair value of DSUs at June 30, 2015, was \$0.7 million (December 31, 2014 – \$0.4 million). The fair value of the DSUs was recognized as share-based payments totaling \$0.1 million and \$0.3 million for the three and six months ended June 30, 2015 (June 30, 2014 – \$0.2 million and \$0.4 million, respectively) with a corresponding amount recorded as a deferred share unit liability in the consolidated statement of financial position (Note 9).

(iii) Performance share units

In March 2014, following a comprehensive review of its executive compensation programs and pay practices, the Corporation introduced a change in its long term incentive plan ("LTI Plan") to include a portion of performance-linked share unit awards ("PSUs"). The PSU program is intended to increase the pay mix in favour of long-term equity-based compensation with three year cliff-vesting to serve as an employee retention mechanism.

A summary of the changes in PSUs is presented below:

	PSUs outstanding
At December 31, 2013	-
Granted	2,627,000
At December 31, 2014	2,627,000

Exercised/Released	(18,889)
Forfeited	(410,111)
At June 30, 2015	4,896,000

The total fair value of outstanding PSUs at June 30, 2015, was \$0.9 million (December 31, 2014 - \$0.1 million). The fair value of the PSUs was recognized as share-based payment expense totaling \$0.4 million and \$0.8 million for the three and six months ended June 30, 2015, respectively (June 30, 2014, \$nil), with a corresponding amount recorded as a preferred share unit liability in the consolidated statement of financial position (Note 9).

(c) Diluted earnings per share

The following table summarizes the stock options excluded from the computation of diluted earnings per share because the exercise prices exceeded the daily weighted average market values of the common shares for the three and six months ended June 30, 2015, of C\$0.61 and C\$0.59 respectively (C\$0.80 and C\$0.79 for the three and six months ended June 30, 2014).

13. INCOME TAXES

The Corporation operates in numerous countries and, accordingly, it is subject to, and pays annual income taxes under, the various income tax regimes in the countries in which it operates. From time to time the Corporation is subject to a review of its income tax filings and in connection with such reviews, disputes can arise with the taxing authorities over the interpretation or application of certain rules to the Corporation's business conducted within the country involved.

The Corporation's Burkina Faso subsidiary, Burkina Mining Corporation SA ("BMC"), was audited by the Direction Générale Des Impôts ("DGI") for its fiscal taxation years December 31, 2010 and December 31, 2011, and received a final tax assessment amounting to approximately \$7.5 million, a reduction from the initial amount assessed of approximately \$27.9 million. In the three and six months ended June 30, 2015, the Corporation paid \$1.3 million and \$2.7 million (2014 - \$1.7 million), respectively, settling its liability.

In the fourth quarter of 2014, the Corporation's Malian subsidiary, Segala Mining Corporation SA ("Semico"), received a tax assessment from the Malian tax authority of \$40.6 million related to the fiscal years 2011 to 2013 and related to various taxes. The Corporation and its advisors believe that a significant portion of the assessment's tax claims are wholly without merit and as such have actively engaged with the tax authority since receiving the assessment in the fourth quarter of 2014 to resolve this matter. Subsequent to December 31, 2014, on February 13, 2015, the tax authority re-confirmed the amounts owing as a result of the assessments at approximately \$25 million. The Corporation continues to engage with the highest levels of Malian authorities together with its advisors to resolve this matter and given the response presented to the authorities as well as advice received from its advisors, a vigorous process is underway to refute the notified amounts as well as avoid any additional payments.

If the Corporation is unable to resolve these matters favorably, there may be a material adverse impact on the Corporation's financial performance, cash flows and results of operations. In the event that management's estimate of the future resolution of these matters changes, the Corporation will recognize the effects of the changes in its consolidated financial statements in the period that such changes occur.

The presentation of the condensed interim consolidated financial statements as at and for the three months ended March 31, 2015 has been amended (for comparative purposes) to correct the deferred income tax expense for the quarter by \$4.6 million to reflect the appropriate tax basis of the Corporation's mineral interests at Tabakoto. The amendment has no impact on cash, cash flows or the presentation of the condensed interim consolidated financial statements for the three and six months ended June 30, 2015. The effect of the amendment results in a decrease in the deferred tax expense for the three months ended March 31, 2015 of \$4.6 million and a corresponding increase in the deferred income tax asset at March 31, 2015. As a result, the Corporation's deferred income tax assets at March 31, 2015 were \$71.3 million, the deferred income tax expense in the three months ended March 31, 2015 is \$1.0 million, and the net earnings are \$17.5 million, of which \$12.7 million are attributable to the shareholders of the Corporation and \$4.8 million are attributable to the non-controlling interests. Basic and diluted earnings per share increases by \$0.01 per share to \$0.03 per share as a result of this amendment.

15. CAPITAL MANAGEMENT

The Corporation's objectives of capital management are to safeguard the entity's ability to support the Corporation's normal operating requirements on an ongoing basis, continue the development and exploration of its mineral properties and support any expansionary plans. In the management of capital, the Corporation includes the components of equity, short-term borrowings and long-term debt, net of cash and cash equivalents, restricted cash and marketable securities.

Capital, as defined above, is summarized in the following table:

	June 30, 2015	December 31, 2014
Equity	\$ 494,559	\$ 443,370
Current and long-term debt	264,617	290,996
	<u>759,176</u>	<u>734,366</u>
Less:		
Cash	(52,708)	(62,179)
Cash - restricted	(4,818)	(4,517)
Marketable securities	(650)	(854)
	<u>\$ 701,000</u>	<u>\$ 666,816</u>

The Corporation manages its capital structure and makes adjustments to it in light of changes in its economic environment and the risk characteristics of the Corporation's assets. To effectively manage the entity's capital requirements, the Corporation has in place a planning, budgeting and forecasting process to help determine the funds required to ensure the Corporation has the appropriate liquidity to meet its operating and growth objectives.

17. FINANCIAL INSTRUMENTS***Financial assets and liabilities***

The Corporation's financial instruments consist of cash, marketable securities, trade and other receivables, promissory note and other assets, long-term receivable, derivative financial assets, trade and other payables, derivative financial liabilities and current and long-term debt. The fair value of these financial instruments approximates their carrying value, unless otherwise noted.

The Corporation has certain financial assets and liabilities that are held at fair value. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques to measure fair value:

Classification of financial assets and liabilities

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

ENDEAVOUR MINING CORPORATION**Notes to the Unaudited Condensed Interim Consolidated Financial Statements**
(Expressed in Thousands of United States Dollars, except per share amounts)

At June 30, 2015, the levels in the fair value hierarchy into which the Corporation's financial assets and liabilities measured and recognized in the statement of financial position at fair value are categorized are as follows:

June 30, 2015				
	Level 1 Input	Level 2 Input	Level 3 Input	Aggregate Fair Value
Assets:				
Cash	\$ 52,708	\$ -	\$ -	\$ 52,708

Liabilities:				
Derivative financial liabilities	-	7,102	-	7,102
	<u>\$ -</u>	<u>\$ 7,102</u>	<u>\$ -</u>	<u>\$ 7,102</u>

At December 31, 2014, the levels in the fair value hierarchy into which the Corporation's financial assets and liabilities are measured and recognized in the statement of financial position at fair value are categorized as follows:

December 31, 2014				
	Level 1 Input	Level 2 Input	Level 3 Input	Aggregate Fair Value
Assets:				
Cash	\$ 62,179	\$ -	\$ -	\$ 62,179

	<u>\$ -</u>	<u>\$ 11,042</u>	<u>\$ -</u>	<u>\$ 11,042</u>

There were no transfers between level 1 and 2 in the periods.

ENDEAVOUR MINING CORPORATION**Notes to the Unaudited Condensed Interim Consolidated Financial Statements
(Expressed in Thousands of United States Dollars, except per share amounts)*****Financial instrument risk exposure***

The Corporation's activities expose it to a variety of risks that may include credit risk, liquidity risk, currency risk, interest rate risk and other price risks, including equity price risk. The Corporation examines the various financial instrument risks to which it is exposed and assesses any impact and likelihood of those risks.

(i) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Corporation by failing to discharge its obligations. There has been no change in the Corporation's objectives and policies for managing this risk in the three and six months ended June 30, 2015.

The Corporation's maximum exposure to credit risk is as follows:

	June 30, 2015	December 31, 2014
Cash	\$ 52,708	\$ 62,179
Cash - restricted	4,818	4,517
Trade and other receivables	17,061	21,530
Other assets	8,921	8,172
	<u>\$ 83,508</u>	<u>\$ 96,398</u>

(ii) Liquidity risk

Liquidity risk is the risk that the Corporation will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash, physical gold or another financial asset. The Corporation has a planning and budgeting process in place to help determine the funds required to support the Corporation's normal operating requirements.

The following table summarizes the contractual obligations at June 30, 2015:

	Within 1 year	2 to 3 years	4 to 5 years	Over 5 years	Total
Trade and other payables	\$ 113,794	\$ -	\$ -	\$ -	\$ 113,794
Long-term debt	-	-	230,000	50,000	280,000
Finance lease obligations	4,315	10,693	-	-	15,008
Minimum operating lease payments	1,593	2,307	1,767	-	5,667
Derivative financial liabilities	5,567	1,535	-	-	7,102
	<u>\$ 125,269</u>	<u>\$ 14,535</u>	<u>\$ 231,767</u>	<u>\$ 50,000</u>	<u>\$ 421,571</u>

Market risk***(i) Currency risk***

Currency risk relates to the risk that the fair values or future cash flows of the Corporation's financial instruments will fluctuate because of changes in foreign exchange rates. Exchange rate fluctuations may affect the costs that the Corporation incurs in its operations. There has been no change in the Corporation's objectives and policies for managing this risk during the three and six months ended June 30, 2015.

The Corporation has not hedged its exposure to foreign currency exchange risk.

The table below highlights the monetary net assets denominated in foreign currencies (in \$US):

	June 30, 2015	December 31, 2014
Canadian dollar	\$ (1,353)	\$ 1,111
CFA Francs	(8,553)	(6,451)
Other currencies	4,673	4,046
	<u>\$ (5,233)</u>	<u>\$ (1,294)</u>

The effect on earnings and other comprehensive earnings before tax as at June 30, 2015, of a 10% appreciation or depreciation in the foreign currencies against the US dollar on the above mentioned financial and non-financial assets and liabilities of the Corporation is estimated to be \$0.5 million (December 31, 2014, \$0.1 million), assuming that all other variables remained constant. The calculation is based on the Corporation's statement of financial position as at June 30, 2015.

(ii) Interest rate risk

Interest rate risk is the risk that future cash flows from, or the fair values of, the Corporation's financial instruments will fluctuate because of changes in market interest rates. The Corporation is exposed to interest rate risk primarily on its long-term debt. Since marketable securities and government treasury securities held as loans are short term in nature and are usually held to maturity, there is minimal fair value sensitivity to changes in interest rates. The Corporation continually monitors its exposure to interest rates and is comfortable with its exposure given the relatively low short-term US interest rates and LIBOR.

The effect on earnings and other comprehensive earnings before tax as at June 30, 2015, of a 10% change in interest rate on the Facility is estimated to be \$0.1 million (December 31, 2014 - \$0.1 million).

(iii) Price risk

Price risk is the risk that the fair value or future cash flows of the Corporation's financial instruments will fluctuate because of changes in market prices. There has been no change in the Corporation's objectives and policies for managing this risk and no significant changes to the Corporation's exposure to price risk during the three months and six ended June 30, 2015.

The Corporation is also exposed to other price risk or equity price risk in trading its marketable securities and unfavorable market conditions could result in dispositions of marketable securities at less than favorable prices.

18. COMMITMENTS AND CONTINGENCIES

Contracts and Leases

- (i) The Corporation has commitments in place at all four of its mines for drill and blasting services, load and haul services, and supply of explosives and hydrocarbon services.
- (ii) The Corporation has various contracts in place at Nzema mine to purchase higher grade ore from third parties for processing that typically do not extend to more than one year.
- (iii) The Corporation is subject to operating and finance lease commitments in connection with the purchase of mining equipment, light duty vehicles, operational building facilities and rented office premises.
- (iv) The Corporation is, from time to time, involved in various claims, legal proceedings and complaints arising in the ordinary course of business. The Corporation cannot reasonably predict the likelihood or outcome of these actions. The Corporation does not believe that adverse decisions in any other pending or threatened proceedings related to any matter, or any amount which may be required to be paid by reason thereof, will have a material effect on the financial condition or future results of operations.
- (v) The Corporation's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and are generally becoming more restrictive. The Corporation believes its operations are materially in compliance with all applicable laws and regulations. The Corporation has made, and expects to make in the future, expenditures to comply with such laws and regulations.
