These are the Company’s two active subsidiaries as of March 31, 2018. All significant inter-company transactions have been eliminated in consolidation.

The Company’s mergers and acquisitions were accounted for as purchases in accordance with ASC 805, *Business Combinations* (previously codified as SFAS No. 141). Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in the United States requires management to make estimates and assumptions that affect amounts reported and disclosed in the financial statements and the accompanying notes. Actual results could differ materially from these estimates. On an ongoing basis, we expect to evaluate our estimates, including those related to the accounts receivable, the accounts payable and sales allowances, fair values of marketable and non-marketable securities, fair values of intangible assets and goodwill, useful lives of intangible assets, property and equipment, fair values of options to purchase our common stock, and income taxes, among others. We expect to base our estimates on historical experience and on various other assumptions that are believed to be reasonable, and the results of which form the basis for making judgments about the carrying values of assets and liabilities.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts or revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Significant accounting policies and estimates underlying the accompanying financial statements include:

It is reasonably possible that the estimates may change in the future.

Fair Value of Financial Instruments

The carrying amounts of our financial instruments, including cash and cash equivalents, marketable securities, Accounts Receivable, Accounts Payable and accrued liabilities, approximate fair value because of their generally short maturities.

Cash and Cash Equivalents and Marketable Securities

We invest our excess cash in money market funds and in highly liquid debt instruments of U.S. municipalities, corporations and the US government and its agencies. All highly liquid investments with stated maturities of three months or less from date of purchase are classified as cash equivalents; all highly liquid investments with stated maturities of greater than three months are classified as marketable securities.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Leasehold improvements, if any, are amortized over the shorter of the lease term or the estimated useful lives of the assets. Depreciation for equipment commences once it is placed in service and depreciation for buildings and leasehold improvements commences once they are ready for their intended use.

Depreciation

Depreciable property, when utilized by the Company and not held for sale, is expected to be depreciated using a straight-line method over the estimated useful lives of the assets as follows:

Land improvements	3-20 years
Buildings and improvements	3-14 years
Furniture, fixtures and equipment	5-10 years
Computer software	5 years

Long-Lived to Assets Including Goodwill and Other Acquired Intangible Assets

The Company reviews property and equipment and intangible assets, including goodwill, for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Recoverability of these assets is measured by comparison of carrying amounts to the future on discounted cash flows the assets are expected to generate. If property and equipment and intangible assets are considered to be impaired, the impairment to be recognized equals the amount by which the carrying value of the asset exceeds its fair market value. The Company has made no adjustments to long-lived assets in any of the years presented. In accordance with ASC 350, *Intangibles – Goodwill and Other* (Previously SFAS No.142), the Company tests goodwill, if any, for impairment at least annually, or more frequently if events or changes in circumstances indicate that this asset may be impaired.

ASC 350 also requires that intangible assets with definite lives be amortized over their estimated useful lives and reviewed for impairment whenever events or changes in circumstances indicate an asset's carrying value may not be reasonable in accordance with ASC 360, *Property, Plant and Equipment* (Previously SFAS No.144).

Legal Costs

Legal costs are expensed as incurred.

Discontinued Operations

The Company's discontinued operations include Orpheus Capital, LLC, through the date that it was sold on February 8th, 2013. Discontinued operations also include the financial results and cumulative deficit of Totalpost Services, Inc. as of the date of its sale on February 20, 2015, as well as the gain related to the disposition of Totalpost Services, Inc. The Company followed guidelines set forth in ASC 205-20, *Presentation of Financial Statements, Discontinued Operations*. The Accumulated deficit of Discontinued Operations as of December 31, 2018 was $3,761,729.

Gains on Real Estate Sales

Gains on disposition of properties are recognized using the full accrual method in accordance with the provisions of ASC 360-20, *Real Estate Sales* (Previously SFAS No.66), provided that various criteria relating to the terms of sale and any subsequent involvement by the Company with the properties sold are met.

Advertising and Promotional Expenses

Advertising and promotional costs are expensed as incurred.

Stock-based Compensation

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004), *Share-based Payment* ("SFAS 123R"), that addresses the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for equity instruments of the enterprise or liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. SFAS 123R eliminates the ability to account for share-based compensation transactions using the intrinsic value method under Accounting Principles Board Opinion No.25, Accounting for Stock Issued to Employees ("APB 25"), and it generally requires instead that such transactions be accounted for using a fair-value-based method. This standard is now codified as ASC 718, *Compensation – Stock Compensation*.

Liquidity

As shown in the accompanying financial statements, the Company has incurred a net loss from continuing operations of $480,430 for the quarter ended September 30, 2018, and a cumulative loss from inception (February 3, 1998) of $10,301,867. Management anticipates the Company will attain profitable status and improve its liquidity for the continued developing, marketing and selling of its products. The accompanying financial statements do not include any adjustments that might result should the Company be unable to continue as a going concern. If operations and cash flows continue to improve through these efforts, management believes that the Company can continue to operate and achieve profitability. Common Stock

The authorized capital stock of the Company includes 800,000,000 shares of common stock, par value $0.001 per share. The holders of the shares: (a) have equal ratable rights to dividends from funds legally available and therefore, when, as, and if declared by the Board of Directors of the Company; (b) are entitled to share ratably in all of the assets of the Company available for distribution upon winding up of the affairs of the Company; and (c) are entitled to one non-cumulative vote per share on all matters on which shareholders may vote at all meetings of shareholders. These securities do not have any of the following rights: (a) cumulative or special voting rights; (b) preemptive rights to purchase new issues of shares; (c) preference as to dividends or interest; (d) preference upon liquidation; or (e) any other special rights or preferences. In addition, the shares are not convertible into any other security. There are no restrictions on dividends under any loan, other financing agreements or otherwise.

On December 17, 2014, by shareholder consent, the Articles of Incorporation were amended to authorize the Corporation's board of directors to have the authority to authorize the issuance of Preferred Stock from time to time in one or more classes or series, and to state in the adopted resolution or resolutions from time to time providing for the issuance thereof. The Board of Directors is authorize whether the class or series shall have voting rights, full or limited, the nature and qualifications, limitations and restrictions on those rights, or whether the class or series will be without voting rights. The number of shares to constitute the class or series and the designation thereof, the preferences and relative, participating, optional or other special rights, if any, and the qualifications, limitations, or restrictions thereof, if any, with respect to any class or series. Whether or not the shares of any class or series shall be redeemable and if redeemable, the redemption price or prices, and the time or times at which, and the terms and conditions upon which, such shares shall be redeemable and the manner of redemption; Whether or not the shares of a class or series shall be subject to the operation of retirement or sinking funds to be applied to the purchase or redemption of such shares for retirement, and if such retirement or sinking funds be established, the amount and the terms and provisions thereof. The dividend rate, whether dividends are payable in cash, stock of the Corporation, or other property, the conditions upon which and the times when such dividends are payable, the preference to, or the relation to the payment of dividends payable on any other class or classes or series of stock, whether or not such dividend shall be cumulative or noncumulative, and if cumulative, the date or dates from which such dividends shall accumulate. The preferences, if any, and the amounts thereof which the holders of any class or series thereof are entitled to receive upon the voluntary or involuntary dissolution of, or upon any distribution of assets of, the Corporation. Whether or not the shares of any class or series are convertible into, or exchangeable for, the shares of any other class or classes or of any other series of the same or any other class or classes of stock of the Corporation and the conversion price or prices or ratio or ratios or the rate or rates at which such exchange may be made, with such adjustments, if any, as shall be stated and expressed or provided for in such resolution or resolutions and such other rights and provisions with respect to any class or series as the Board of Directors deem advisable. The shares of each class or series of the Preferred Stock may vary from the shares of any other class or series thereof in any respect. The Board of Directors may increase the number of shares of the Preferred Stock designated for any existing class or series by a resolution adding to such class or series authorized and unissued shares of the Preferred Stock not designated for any existing class or series of the Preferred Stock.

Effective February 10, 2015, the Company completed a 1-for-6 reverse stock split of the Company's common stock. The financial statements and footnotes for the quarter year ended March 31, 2018, have been presented on a post-split basis.

On November 4, 2015, Robert Labella executed a subscription agreement with the Company to acquire 250,000,000 common shares of the company at a price of $0.001 a share in exchange for a $250,000.00 investment into the company. As of March 31, 2018, Mr. Labella had only transferred a portion of the funds to the Company but reaffirmed his commitment to honor the terms and conditions of the Subscription Agreement. As of the date of this filing on April 14, 2016, the Company has received significant investment funds from Mr. Labella towards his commitment. The Company is entertaining the possibility of increasing the price per a share due to the delay in Mr. Labella's performance on the total capital contribution. However, at the time of this filing, the Company believes that Mr. Labella will perform in full on his obligation. As such, the commitment has been recorded on the balance sheet as a "Subscription Receivable" and as a corresponding increase in Equity. But the total outstanding shares have not been updated to reflect the commitment as there has not been full performance as of the date of this filing and shares have not been issued from treasury. If the total common shares of 250,000,000 were issued and outstanding, the total outstanding common shares of the company would be 356,341,557 and Mr. Labella would have a controlling interest of approximately 76% of the total outstanding common shares. Mr. Labella has represented to the Company that he is not the beneficial owner of any other class of stock of the Company as of the date of this filing. Management believes that this receivable is still collectable and has thus chosen not to write off the receivable as a bad debt.

As of December 31, 2018, the Company had 736,090,305 shares of common stock issued and 732,686,638 outstanding.

Dividends

The Company does not currently intend to pay cash dividends. Because the Company does not intend to make cash distributions, potential shareholders would need to sell their shares to realize a return on their investment. There can be no assurances of the projected values of the shares, nor can there be any guarantees of the success of the Company.

A distribution of revenues will be made only when, in the judgment of the Company's board of directors, is in the best interest of the Company's stockholders to do so. The Board of Directors will review, among other things, the financial status of the Company and any future cash needs of the Company in making its decision.
