INFORMATION CIRCULAR

As at September 20, 2016, unless otherwise noted

FOR THE ANNUAL GENERAL AND SPECIAL MEETING OF THE SHAREHOLDERS TO BE HELD ON OCTOBER 27, 2016

SOLICITATION OF PROXIES

This information circular is furnished in connection with the solicitation of proxies by the management of Excelsior Mining Corp. (the "**Company**") for use at the Annual General and Special Meeting (the "**Meeting**") of the Shareholders of the Company to be held at the time and place and for the purposes set forth in the Notice of Meeting and at any adjournment thereof.

PERSONS OR COMPANIES MAKING THE SOLICITATION

The enclosed Instrument of Proxy is solicited by management of the Company ("Management"). Solicitations will be made by mail and possibly supplemented by telephone or other personal contact to be made without special compensation by regular officers and employees of the Company. The Company does not reimburse Shareholders' nominees or agents (including brokers holding shares on behalf of clients) for the cost incurred in obtaining from their principals, authorization to execute the Instrument of Proxy. No solicitation will be made by specifically engaged employees or soliciting agents. The cost of solicitation will be borne by the Company. None of the directors of the Company have advised that they intend to oppose any action intended to be taken by Management as set forth in this Information Circular.

APPOINTMENT AND REVOCATION OF PROXIES

The persons named in the accompanying Instrument of Proxy are directors or officers of the Company and are nominees of Management. **A Shareholder has the right to appoint a person to attend and act for him/her on his/her behalf at the Meeting other than the persons named in the enclosed Instrument of Proxy. To exercise this right, a Shareholder should strike out the names of the persons named in the Instrument of Proxy and insert the name of his/her nominee in the blank space provided, or complete another proper form of Instrument of Proxy. The completed Instrument of Proxy should be deposited with the Company's Registrar and Transfer Agent, TSX Trust Company, located at 200 University Avenue, Suite 300, Toronto, ON, M5H 4H1, at least 48 hours before the time of the Meeting or any adjournment thereof, excluding Saturdays, Sundays and holidays.**

The Instrument of Proxy must be dated and be signed by the Shareholder or by his/her attorney in writing, or, if the Shareholder is a Company, it must either be under its common seal or signed by a duly authorized officer.

In addition to revocation in any other manner permitted by law, a Shareholder may revoke a Proxy either by (a) signing a Proxy bearing a later date and depositing it at the place and within the time

aforesaid, or (b) signing and dating a written notice of revocation (in the same manner as the Instrument of Proxy is required to be executed as set out in the notes to the Instrument of Proxy) and either depositing it at the place and within the time aforesaid or with the Chairman of the Meeting on the day of the Meeting or on the day of any adjournment thereof, or (c) registering with the Scrutineer at the Meeting as a Shareholder present in person, whereupon such Proxy shall be deemed to have been revoked.

NON-REGISTERED HOLDERS OF COMPANY'S SHARES

Only Shareholders whose names appear in the Company's Central Securities Register (the "Registered Shareholders") or duly appointed proxyholders are permitted to vote at the Meeting. Shareholders who do not hold their common shares of the Company ("Common Shares") in their own name ("Beneficial Shareholders") are advised that only proxies from Shareholders of record can be recognized and voted at the Meeting. Beneficial Shareholders who complete and return an Instrument of Proxy must indicate thereon the person (usually a brokerage house) who holds their Common Shares as registered Shareholder. Every intermediary (broker) has its own mailing procedure, and provides its own return instructions, which should be carefully followed. The form of proxy supplied to Beneficial Shareholders is similar to that provided to Registered Shareholders. However, its purpose is limited to instructing the registered Shareholder how to vote on behalf of the Beneficial Shareholder. Management of the Company does not intend to pay for intermediaries to forward to objecting beneficial owners under National Instrument 54-101 the proxy-related materials and Form 54-101F7 – *Request for Voting Instructions Made by Intermediary*, and in case of an objecting beneficial owner, the objecting beneficial owner will not receive the materials unless the objecting beneficial owner's intermediary assumes the cost of delivery.

If Common Shares are listed in an account statement provided to a Shareholder by a broker, then in almost all cases those Common Shares will not be registered in such Shareholder's name on the records of the Company. Such Common Shares will more likely be registered under the name of the Shareholder's broker or agent of that broker. In Canada, the vast majority of such Common Shares are registered under the name of CDS & Co. (the registration for the Canadian Depository for Securities, which company acts as nominee for many Canadian brokerage firms). Common shares held by brokers or their nominees can only be voted (for or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, brokers/nominees are prohibited from voting shares for their clients. The directors and officers of the Company do not know for whose benefit the Common Shares registered in the name of CDS & Co. are held.

In accordance with National Instrument 54-101 of the Canadian Securities Administrators, the Company has distributed copies of the Notice of Meeting, this Information Circular and the Instrument of Proxy to the clearing agencies and intermediaries for onward distribution. Applicable regulatory policy requires intermediaries/brokers to seek voting instructions from Beneficial Shareholders in advance of Shareholders' meetings unless the Beneficial Shareholders have waived the right to receive meeting materials. Every intermediary/broker has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Shareholders in order to ensure that their Common Shares are voted at the Meeting. Often the form of proxy supplied to a Beneficial Shareholder by its broker is identical to the Instrument of Proxy provided by the Company to the Registered Shareholders. However, its purpose is limited to instructing the Registered Shareholder how to vote on behalf of the Beneficial Shareholder. Should a Beneficial Shareholder receive such a form and wish to vote at the Meeting, the Beneficial Shareholder should strike out the Management proxyholder's name in the form and insert the Beneficial Shareholder's name in the blank provided. The majority of brokers now delegate the responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("**Broadridge**"). Broadridge typically applies a special sticker to the proxy forms, mails those forms to the Beneficial Shareholders and requests Beneficial Shareholders to return the proxy forms to Broadridge. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. **A Beneficial Shareholder**

receiving a proxy with a Broadridge sticker on it cannot use that proxy to vote Common Shares directly at the Meeting – the proxy must be returned to Broadridge well in advance of the Meeting in order to have the Common Shares voted. All references to Shareholders in this Information Circular and the accompanying Instrument of Proxy and Notice of Meeting are to Shareholders of record unless specifically stated otherwise.

VOTING OF SHARES AND EXERCISE OF DISCRETION OF PROXIES

On any poll, the persons named in the enclosed Instrument of Proxy will vote the shares in respect of which they are appointed and, where directions are given by the Shareholder in respect of voting for or against any resolution, will do so in accordance with such direction.

If no choice is specified on the proxy with respect to a matter to be acted upon, the proxy confers discretionary authority with respect to the matter upon the proxyholder named on the Instrument of Proxy. In the absence of any direction in the Instrument of Proxy, it is intended that the proxyholder named by Management in the Instrument of Proxy will vote the shares represented by the proxy in favour of the motions proposed to be made at the Meeting as stated under the headings in this Information Circular. The Instrument of Proxy enclosed, when properly signed, confers discretionary authority with respect to amendments or variations to any matters which may properly be brought before the Meeting.

At the time of printing of this Information Circular, the Management of the Company is not aware that any such amendments, variations or other matters are to be presented for action at the Meeting. However, if any other matters which are not now known to the Management should properly come before the Meeting, the Proxies hereby solicited will be exercised on such matters in accordance with the best judgement of the nominee.

FINANCIAL STATEMENTS

The audited financial statements of the Company for the year ended December 31, 2015 will be presented to the Shareholders at the Meeting.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

At September 20, 2016, the Company had 138,503,924 Common Shares and no non-voting common shares (“Non-Voting Common Shares”) issued and outstanding.

Common Shares

September 6, 2016 has been determined as the record date as of which holders of Common Shares or their duly appointed proxies are entitled to receive notice of and attend and to one vote per common share at the Meeting. Shareholders desiring to be represented by proxy at the Meeting must deposit their proxies at the place and within the time set forth in the notes to the Instrument of Proxy in order to entitle the person duly appointed by the proxy to attend and vote thereat.

Non-Voting Common Shares

The Non-Voting Common Shares are restricted securities within the meaning of National Instrument 51-102. Non-Voting Common Shares do not carry the right to vote at any meetings of the Shareholders. Non-voting shares may be converted at the option of the holder into Common Shares on the basis of one (1) non-voting common share for one (1) common share of the Company. As the Non-Voting Common Shares are convertible into Common Shares, pursuant to National Instrument 62-104, a take-over bid for the Common Shares must also be made to the holders of the Non-Voting Common Shares.

Quorum and Significant Shareholders

The quorum for a meeting of Shareholders is two persons who are, or who represent by proxy, shareholders who, in the aggregate, hold at least 5% of the issued shares entitled to be voted at the meeting.

Other than as set forth below, to the knowledge of the directors or executive officers of the Company, as at September 20, 2016, no Shareholder beneficially owns or controls, directly or indirectly, voting securities carrying more than 10% of the voting rights attached to the Common Shares of the Company.

Greenstone Excelsior Holdings L.P. (“**Greenstone**”) is the beneficial owner of 55,550,869 Common Shares representing approximately 40.11% of the issued and outstanding Common Shares.

FIXING THE NUMBER OF DIRECTORS AND ELECTION OF DIRECTORS

The persons named in the enclosed Instrument of Proxy intend to vote in favour of the ordinary resolution fixing the number of directors on the board of directors of the Company (the “Board of Directors”) at eight (8). Although Management is nominating eight (8) individuals to stand for election, the names of further nominees for directors may come from the floor at the Meeting. Each director of the Company is elected annually and holds office until the next Annual General Meeting unless that person ceases to be a director before then. Management of the Company proposes to nominate the persons herein listed for election as directors of the Company to serve until their successors are elected or appointed. In the absence of instructions to the contrary, the Common Shares represented by proxy will, on a poll, be voted for the nominees herein listed. MANAGEMENT OF THE COMPANY DOES NOT CONTEMPLATE THAT ANY OF THE NOMINEES WILL BE UNABLE TO SERVE AS A DIRECTOR. IN THE EVENT THAT PRIOR TO THE MEETING ANY VACANCIES OCCUR IN THE SLATE OF NOMINEES HEREIN LISTED, IT IS INTENDED THAT DISCRETIONARY AUTHORITY SHALL BE EXERCISED BY MANAGEMENT TO VOTE THE PROXY ON ANY POLL FOR THE ELECTION OF ANY PERSON OR PERSONS AS DIRECTOR UNLESS THE SHAREHOLDER HAS SPECIFIED OTHERWISE IN THE PROXY. **UNLESS AUTHORITY TO DO SO IS WITHHELD, THE PERSONS NAMED IN THE ACCOMPANYING INSTRUMENT OF PROXY INTEND TO VOTE FOR THE ELECTION OF ALL OF THE NOMINEES.**

The following table sets out the names of the persons to be nominated for election as directors, the positions and offices which they presently hold with the Company, their respective principal occupations or employment during the past five years if such nominee is not presently an elected director and the number of Common Shares of the Company which each beneficially owns, directly or indirectly, or over which control or direction is exercised as of the date of this Information Circular:

Mr. Sujir was also an independent director of Norwood Resources Ltd. (“**Norwood**”) from May 2008 until January 2011. In the last quarter of 2010, the board of directors of Norwood determined that delays through the last quarter of 2010 had made Norwood insolvent and believed that the company was not financeable, and determined that the interests of stakeholders would best be protected by an assignment into bankruptcy. Norwood declared bankruptcy on January 19, 2011. Mr. Sujir resigned as a director of Norwood on January 19, 2011.

Greenstone and the Company also entered into an Investor Rights Agreement (the "**Greenstone IR Agreement**") pursuant to which Greenstone was granted certain rights including the right to nominate directors to the Company's Board of Directors and to participate in future financing to maintain its pro-rata ownership position.

On September 5, 2014, the first tranche of the financing closed, whereby Greenstone purchased 20,580,000 Common Shares, equal to approximately 19.9% of the issued and outstanding Common Shares of Excelsior, at a price of C\$0.34 per Common Share in return for gross proceeds of US\$6,393,341.64. Compensation discussion and analysis

The Company has a Compensation Committee that is responsible for determining all forms of compensation to be granted to the Named Executive Officers and the directors, and for reviewing the President and CEO’s recommendations respecting compensation of the other officers of the Company. The Company’s Named Executive Officers are compensated through consulting agreements and or management services arrangements. The Compensation Committee does not have a pre-determined compensation plan and does not engage in benchmarking practices.

Compensation for the NEOs is composed of three components: base salary, performance bonuses and stock options. Performance bonuses are considered from time to time. The Compensation Committee does not rely on any formula, or objective criteria and analysis to determine an exact amount of compensation to pay. The establishment of base salary, award of stock options and performance bonuses is based on subjective criteria including individual performance, level of responsibility, length of service and available market data. The target is for the total compensation package granted to the NEOs to be approximately in the middle range of other comparably sized mining companies, however there is no fixed formula, or pre-determined set of peer companies that is used for this determination.

Base compensation is determined following a review of comparable compensation packages for that position, together with an assessment of the responsibility and experience required for the position to ensure that it reflects the contribution expected from each NEO. Information regarding comparable salaries and overall compensation is derived from the knowledge and experience of the Compensation Committee, which takes into consideration a variety of factors. These factors include overall financial and operating performance of the Company and the Board’s overall assessment of each NEO’s individual performance and contribution towards meeting corporate objectives, levels of responsibility, length of service and industry comparables. Each of these factors is evaluated on a subjective basis.

Base Salary

In determining the base salary of an executive officer, the Compensation Committee begins its analysis with a recommendation from the President and CEO of the Company and also places weight on the following factors: the particular responsibilities related to the position; the experience level of the executive officer; the difficulties in recruiting new talent; and his or her overall performance. During the financial year ended December 31, 2015, the annual base consulting fees for services provided by Stephen Twyerould, the President and CEO were US\$285,000, the annual base consulting fees for services provided by Roland Goodgame, Executive Vice President, were US\$220,000 and the annual base consulting fees for Rebecca Sawyer, Vice President, Sustainability were US\$130,000.

Carlo Valente, the CFO of the Company during the financial year ended December 31, 2015, did not receive compensation directly from the Company, except for grants of options. Mr. Valente was an employee King & Bay West Management Corp. (“**King & Bay West**”), a company that provides management services to the Company. King & Bay West invoices the Company on a monthly basis for fees for management services provided which are determined based on the usage of such services by the Company. See “Management Contracts” for a description of the Company’s agreement with King & Bay West.

Bonus Payments

Executive officers are eligible for annual cash bonuses. The Compensation Committee does not currently prescribe a set of formal objective measures to determine discretionary bonus entitlements. Rather, the Compensation Committee uses informal goals typical for exploration and development stage companies such as strategic acquisitions, advancement of exploration, operations and development, equity and debt financings and other transactions and developments that serve to increase the Company's valuation. Precise goals or milestones are not pre-set by the Compensation Committee. During the three most recently completed financial years, the Company's focus has been on deploying its capital to advance the Gunnison Copper Project and it has not paid any discretionary cash bonuses during this period.

Long-Term Incentives

The Company believes that granting stock options and shares to key personnel encourages retention and more closely aligns the interests of executive management with the intent of Shareholders. The inclusion of options in compensation packages allows the Company to compensate employees while not drawing on limited cash resources. Further, the Company believes that the option component serves to further align the interests of management with the interests of the Company's Shareholders. The amount of options to be granted is based on the relative contribution and involvement of the individual in question, as well as taking into consideration previous option grants. There are no other specific quantitative or qualitative measures associated with option grants and no specific weights are assigned to any criteria individually, rather, the performance of the Company is broadly considered as a whole when determining the number of stock based compensation (if any) to be granted and the Company does not focus on any particular performance metric. During the financial year ended December 31, 2015, the Company granted a total of 4,500,000 stock options to its Named Executive Officers.

Hedging Restrictions

The Company does not have any policies that restrict a NEO or director from purchasing financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars, or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or director.

Risk Management and Assessment

With respect to the management of risk, the Board takes a conservative approach to executive compensation, rewarding individuals with additional performance-based compensation dependent upon the success of the Company and when such success can be demonstrated. The Compensation Committee is responsible for reviewing the Company's compensation program to ensure that risks are identified and mitigated to the extent possible. Care is taken in measuring this success, while ensuring it is achieved within normal operating procedures and standards, including those related to the environment, health, safety and sustainable development.

The nature of the business and the competitive environment in which the Company operates requires some level of risk-taking to achieve growth and desired results in the best interest of stakeholders. The Company's executive compensation program seeks to encourage behaviours directed towards increasing long-term value, while limiting incentives that promote excessive risk taking.

While the Company has not awarded any discretionary bonuses in the past three financial years, there is a risk associated with its approach to discretionary bonuses as there are no pre-defined objectives, target amounts or caps. As a result, there is some incentive for Named Executive Officers to take on unmanageable risk and unsustainable performance over the long term in order to achieve a short term discretionary bonus payout. The Company is aware of this risk and as the Company moves to a more advanced stage of development, it is expected that the Compensation Committee will develop a bonus program with pre-defined objectives and target amounts in order to mitigate these risks.

The Company views stock options as a valuable tool for aligning the interest of management and Shareholders in the long term growth and success of the Company. The Company is aware that stock option grants that vest immediately may create an incentive for management to maximize short term gains at the expense of the long term success of the Company. In order to mitigate this risk, option grants are generally subject to vesting period of two years from the date of grant.

Compensation Governance

Compensation Committee

Members and Independence

During the financial year ended December 31, 2015, the Compensation Committee was comprised of three directors of the Company, Colin Kinley, Jay Sujir and Steven Lynn, all of whom are currently independent of the Company for purposes of applicable securities laws. Currently, the compensation Committee consists of Colin Kinley, Jay Sujir and Steven Lynn.

Skills and Experience

The Board believes that each current and former member of the Compensation Committee possesses skills and experience relevant to the mandate of the Compensation Committee. In addition, the members of the Compensation Committee each have skills and experience that enable them to make decisions on the suitability of the Company's compensation policies and practices.

Committee Member	Relevant Skills and Experience
Colin Kinley	Mr. Kinley spent 26 years as an executive for Layne Christensen Company specializing in engineered drilling and resource development projects and he is currently an executive of several companies focused on oil or mineral resource exploration and development. Option-based Awards

The only equity compensation plan which the Company has in place is its stock option plan (the “**2014 Plan**”). The 2014 Plan has been established to attract and retain employees, consultants, officers or directors to the Company and to motivate them to advance the interests of the Company by affording them with the opportunity to acquire an equity interest in the Company.

The 2014 Plan reserves for issuance a maximum of 16,466,400 Common Shares, being approximately 11.89% of the Common Shares issued and outstanding at the date of this Information Circular. Currently, the Company has options outstanding that will result in 15,386,000 Common Shares being issuable upon the exercise of such options, which represents approximately 11.11% of the current number of issued and outstanding Common Shares.

The 2014 Plan is administered by the Board of Directors and provides for grants of non-transferable options under the 2014 Plan at the discretion of the Board of Directors to directors, senior officers, employees, management company employees of, or consultants to, the Company and its subsidiaries, or their permitted assigns (each an “**Eligible Person**”).

The Board of Directors has the authority under the 2014 Plan to determine the exercise price per Common Share at the time an option is granted, but such price shall not be less than the closing price of the Common Shares on the TSX Venture Exchange (the “**Exchange**”) on the last trading day preceding the date on which the grant of the option is approved by the Board of Directors. The Board of Directors also has the authority under the 2014 Plan to determine other terms and conditions relating to the grant of options, including any applicable vesting provisions, provided that any options granted to Consultants performing Investor Relations Activities must vest in stages over a period of not less than 12 months with no more than one-quarter of the options vesting in any three-month period.

The term of options granted under the 2014 Plan shall not exceed 10 years from the date of grant. However, as permitted by Exchange Policy 4.4 – *Incentive Stock Options* (the “**Policy**”), the 2014 Plan includes an automatic extension of the expiry date associated with any option that expires during a trading blackout period imposed by the Company in accordance with insider trading policies. Under the 2014 Plan, if an option expires within a blackout period, the expiry date will be automatically extended to ten (10) business days following the date on which the blackout period is lifted.

All options granted under the 2014 Plan are not assignable or transferable other than by will or the laws of dissent and distribution. Other than Eligible Persons engaged in Investor Relations Activities, if an optionee ceases to be an Eligible Person for any reason whatsoever other than termination for cause or death, each fully vested option held by such optionee will cease to be exercisable 90 days following the termination date (being the date on which such optionee ceases to be an Eligible Person), provided that in no event shall such right extend beyond the expiry date of such options. If an optionee dies, the legal representative of the optionee may exercise the optionee's options within one year after the date of the optionee's death but only up to and including the original option expiry date. In the case of an optionee who is an Eligible Person engaged in Investor Relations Activities, each fully vested option held by such optionee will cease to be exercisable within 30 days from the date such optionee ceases to provide Investor Relations Activities, provided that in no event shall such right extend beyond the expiry date of such options. In the case of an optionee who is an Eligible Person who is terminated for cause, any option held by such optionee shall expire immediately.

In adherence with the Policy, the 2014 Plan also includes the following limitations on stock option grants:

- (a) Unless the Company obtains shareholder approval (which must be disinterested shareholder approval if required by the policies of the Exchange) the aggregate number of Common Shares issuable to insiders (as a group) pursuant to options granted under the 2014 Plan, together with Common Shares issuable to insiders (as a group) under any other share compensation arrangement of the Company, shall not at any time:
 - (i) exceed 10% of the number of Common Shares outstanding immediately prior to the grant of any such option; or
 - (ii) result in the issuance to insiders (as a group), within a 12 month period, of an excess of 10% of the number of Common Shares outstanding immediately prior to the grant of any such option.
- (b) the aggregate number of Common Shares issuable to any one Eligible Person who is a Consultant (as defined in the 2014 Plan) shall not, within a one year period, exceed 2% of the number of Common Shares outstanding immediately prior to the grant of any such option;
- (c) the aggregate number of Common Shares issuable to all Eligible Persons retained in Investor Relations Activities shall not, within a one year period, exceed 2% of the number of Common Shares outstanding immediately prior to the grant of any such option; and
- (d) unless the Company obtains disinterested shareholder approval, the aggregate number of Common Shares issuable to any one Eligible Person (and where permitted, any companies that are wholly owned by that Eligible) shall not, within a one year period, exceed 5% of the number of Common Shares outstanding immediately prior to the grant of any such option.

The 2014 Plan also provides that shareholder approval must be obtained to effect any of the following modifications to the 2014 Plan: (a) an increase in the benefits under the 2014 Plan; (b) an increase in the number of Common Shares which may be issued under the 2014 Plan; (c) modifications to the requirements as to the eligibility for participation in the 2014 Plan; (d) modifications to the limitations on the number of

options that may be granted to any one person or category of persons under the 2014 Plan; (e) modifications to the method for determining the exercise price of options granted under the 2014 Plan; (f) an increase in the maximum option period; or (g) modifications to the expiry and termination provisions applicable to options granted under the 2014 Plan.

At the Meeting, the Company is proposing certain amendments to the 2014 Plan. Please refer to the heading “*Particulars of Other Matters to be Acted Upon – Approval and Ratification of Amended Stock Option Plan*”.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

On June 30, 2005, the Canadian Securities Administrators introduced in final form National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("NI 58-101") and National Policy 58-201 – *Corporate Governance Guidelines* ("NP 58-201"). The Company has reviewed its own corporate governance practices in light of the NP 58-201 guidelines. In certain cases, the Company's practices comply with NP 58-201, however, the Board of Directors considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore certain guidelines have not been adopted.

Set out below is a description of certain corporate governance practices of the Company, as required by NI 58-101.

Board of Directors

NP 58-201 recommends that boards of directors of reporting issuers be composed of a majority of independent directors. NI 52-110 sets out the standard for director independence. Under NI 52-110, a director is independent if he or she has no direct or indirect material relationship with the Company. A material relationship is a relationship which could, in the view of the Board of Directors, be reasonably expected to interfere with the exercise of a director's independent judgment. A majority of the Company's

current directors are considered independent. The independent directors are Jay Sujir, Colin Kinley, Steven W. Lynn, Jim Kolbe and Lord Robin Renwick. The non-independent directors are Mark Morabito, Stephen Twyerould and Mike Haworth.

Mark Morabito was the Company's Executive Chairman until January 31, 2016 when he transitioned to become Non-Executive Chairman. Mr. Morabito is also the President & CEO of King & Bay West, and therefore is not considered independent. Stephen Twyerould is the President & CEO of the Company and therefore is not considered independent. Michael Haworth is the Managing Partner of Greenstone Capital LLP and a director of Greenstone Management Limited, the general partner of Greenstone. Greenstone, is the beneficial owner of 55,550,869 Common Shares representing approximately 40.11% of the issued and outstanding Common Shares and has certain rights under the Greenstone IR Agreement. Therefore, Mr. Haworth is not considered independent.

The proposed Board of Directors will have five independent directors: Jay Sujir, Colin Kinley, Steven W. Lynn, Jim Kolbe and Lord Robin Renwick, and three non-independent directors: Mark Morabito, Stephen Twyerould, and Michael Haworth. As a result, a majority of the Board of Directors will be independent. The Board of Directors believes that management is effectively supervised by the independent directors of the Company on an informal basis, as the independent directors are actively and regularly involved in reviewing the operations of the Company and have regular and full access to management.

During the year ended December 31, 2015, the independent directors did not hold regularly scheduled meetings at which the non-independent directors and members of management were not in attendance. However, during certain meetings the independent directors held in-camera meetings.

The Chair of the Board of Directors is not an independent director and the Company does not have a lead director. The Board is of the view that appropriate procedures are in place to allow the Board to function independently of management while continuing to provide the Company with the benefit of having a Chair of the Board with extensive experience and knowledge of the Company's business. To facilitate the Board operating independently of management, the following processes are in place:

- the Board can hold in-camera meetings with the non-management directors;
- at Board meetings, members of management, including the President & Chief Executive Officer and Executive Chairman, are not present for the discussion and determination of certain matters;
- under the Company's Articles any one director may call a Board meeting;
- the compensation of the Named Executive Officers is considered in their absence by the Compensation Committee; and
- in addition to the standing committees of the Board, independent committees are appointed from time to time, when appropriate.

Orientation and Continuing Education

The Company provides an orientation program to new directors. This program consists of:

- A detailed briefing with the Chairman.
- A detailed briefing with the President & Chief Executive Officer.
- The Company's General Counsel providing education regarding directors' responsibilities, corporate governance issues and recent and developing issues related to corporate governance and regulatory reporting.
- Provision of the Company's committee charters and corporate governance policies to the new director.
- Access to the Company's independent directors, as required, for the new director to discuss the operation of the Company and the Board.

The Nominating and Corporate Governance Committee reviews, monitors and makes recommendations regarding new director orientation and the ongoing development of existing Directors.

The Company also encourages senior management to participate in professional development programs and courses and supports Management's commitment to training and developing employees. The Board of Directors provides comprehensive information regarding the Company to new directors and continuing education for directors on an ad hoc basis in respect of issues that are necessary for them to understand to meet their obligations as directors.

Ethical Business Conduct

The Board of Directors expects Management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Company's business plan and to meet performance goals and objectives. On September 30, 2014, the Board of Directors adopted a formal written Code of Business Conduct and Ethics (the "Code") which is available on SEDAR at www.sedar.com.

The Board endeavors to ensure that directors, officers and employees exercise independent judgement in considering transactions and agreements in respect of which a director, officer or employee of the Company has a material interest, which include ensuring that directors, officers and employees are thoroughly familiar with the Code and, in particular, the rules concerning reporting conflicts of interest. In addition, in accordance with the *Business Corporations Act* (British Columbia), if a director is a director or officer of, or has a material interest in, any person who is a party to a transaction or proposed transaction with the Company, that director is not entitled to vote on any directors' resolutions in respect of such transaction, in most circumstances. The Nominating and Corporate Governance Committee monitors conflicts of interest of both the Board of Directors and Management in accordance with the Code.

Nomination of Directors

The Company has a Nominating and Corporate Governance Committee that, in consultation with the Chair of the Board and the Chief Executive Officer, is responsible for recruiting and identifying individuals qualified to become new Board members and for recommending to the Board, new director nominees for the annual meeting meetings of shareholders. The Committee also, in consultation with the Chair of the Board, recommends to the Board, the individual Directors to serve on the various committees of the Board.

In making its recommendations for the nomination of a new Board member, the Committee considers the competencies and skills that the Board considers to be necessary to the Board as a whole to possess, the competencies and skills that the Board considers each existing director to possess, and the competencies and skills each new nominee will bring to the boardroom. The Committee also considers the amount of time and resources that nominees have available to fulfill their duties as a Board member.

The Committee may also recommend for Board approval the removal of a director from the Board or from a Board Committee if he or she is no longer qualified to serve as a director under applicable requirements or for any other reason the Committee considers appropriate.

The current members of the Nominating and Corporate Governance Committee are Lord Robin Renwick, Jim Kolbe and Steven W. Lynn, all of whom are independent directors.

Compensation

The quantity and quality of the directors' and executive officers' compensation is reviewed on an as needed basis by the Compensation Committee and/or the Board of Directors as a whole. Further details about the Company's compensation practices are disclosed under the heading "*Statement of Executive Compensation*".

Other Board Committees

The only committee of the Board that the Company has, other than the Audit Committee, Compensation Committee and the Nominating and Corporate Governance Committee, is the Project Steering Committee. The current members of the Project Steering Committee are Stephen Twyerould, Michael Haworth and Colin Kinley. The purpose of the project steering committee is to assess and review the overall progress of the Company's Gunnison Copper Project, and in particular, to consider and guide the Company in respect of the technical, financing, permitting and stakeholder engagement aspects of the Gunnison Copper Project.

Assessments

The Board of Directors does not, at present, have a formal process in place for assessing the effectiveness of the Board of Directors as a whole, its committees or individual directors, however, the Nominating and Corporate Governance Committee, in consultation with the Chairman of the Board, is developing a formal system to evaluate the effectiveness of the Board as a whole, its individual members, and the Committees of the Board to ensure they are fulfilling their respective responsibilities and duties. Until the formal assessment system is developed and implemented, the Board of Directors conducts informal periodic

assessments of the effectiveness of the Board of Directors and its individual members and Committees on an ongoing basis.

PARTICULARS OF OTHER MATTERS TO BE ACTED UPON

Approval and Ratification of Amended Stock Option Plan

At the Meeting, Shareholders will be asked to consider, and if thought advisable, approve an amended stock option plan for the Company (the “**2016 Plan**” or the “**Plan**”) to replace the Company’s existing stock option plan (the “**2014 Plan**”) which was last approved by Shareholders at the Company’s annual and general meeting of Shareholders held September 30, 2014.

In order to provide the Company with added flexibility in attracting employees, consultants, officers and directors, the Company has revised the 2014 Plan to increase the number of shares reserved under the Plan from 16,466,400 Common Shares to 17,966,400 Common Shares, which represents approximately 12.97% of the current number of issued and outstanding Common Shares. In addition, the Company has made certain amendments to the 2014 Plan with respect to income tax compliance matters. The terms of the 2016 Plan are otherwise consistent with the terms of the 2014 Plan. For further details on the 2014 Plan please refer to the heading “*Statement of Executive Compensation – Option Based Awards*”.

Currently the Company has options outstanding that will result in 15,386,000 Common Shares being issuable upon the exercise of such options, which represents approximately 11.11% of the current number of issued and outstanding Common Shares. Assuming the approval of the Plan, 1,642,068 options will be available to be granted under the Plan, representing approximately 1.19% of the current number of issued and outstanding Common Shares.

Therefore, at the Meeting, Shareholders will be asked to pass a resolution in the following form:

“BE IT RESOLVED, as an Ordinary Resolution, that:

1. Subject to regulatory approval, the amended stock option plan (the “**2016 Plan**”) pursuant to which the directors may, from time to time, authorize the issuance of options to directors, officers, employees and consultants of the company to a maximum of 17,966,400 Common Shares of the Company, with a maximum of 5% of the Company’s issued and outstanding shares being reserved to any one person on a yearly basis, be and is hereby approved and ratified.
2. The Company be and is hereby authorized to grant stock options pursuant to and subject to the terms and conditions of the 2016 Plan entitling the option holders to purchase Common Shares of the Company.
3. Any one director or officer of the Company be and is hereby authorized and directed for and in the name of and on behalf of the Company to execute and deliver, or cause to be executed and delivered, any and all such documents, and to do or cause to be done all such acts and things, as in the opinion of such director or officer may be necessary or desirable in order to carry out the terms of this resolution, such determination to be conclusively evidenced by the execution and delivery of such documents or the doing of any such act or thing.”

The full text of the 2016 Plan will be available for review at the Meeting and may be obtained from the Company prior to the Meeting upon request.

Management recommends that Shareholders vote in favour of the resolution to approve the 2016 Plan and the increase in the number of Common Shares available for issuance under the 2016 Plan. **In the absence of contrary instruction, the persons named in the enclosed Instrument of Proxy intend to vote for the**

approval of the resolution to approve the 2016 Plan and the increase in the number of shares available for issuance under the 2016 Plan at the Meeting.

Approval of Greenstone Transaction

Background

As required by the policies of the TSX Venture Exchange (“**TSXV**”) and applicable Canadian securities laws, shareholders will be asked at the Meeting to approve, by way of ordinary resolution, a financing transaction with Greenstone, a Guernsey limited partnership and an affiliate of Greenstone Resources L.P. (“**Greenstone Resources**”). Subject to satisfaction of certain conditions precedent (unless waived by Greenstone in its sole discretion), Greenstone will complete a US\$14 million financing transaction consisting of (i) a non-brokered private placement pursuant to which Greenstone will subscribe for US\$10 million of Common Shares (the “**Private Placement**”); and (ii) the purchase by Greenstone of an additional 1% gross revenue royalty (“**GRR**”) on the Company’s mineral projects (the “**Royalty Financing**”) for gross proceeds of US\$4 million. Greenstone is currently the beneficial owner of 55,550,869 Common Shares representing approximately 40.11% of the issued and outstanding Common Shares and therefore a “related party” of the Company. As of the date hereof, Greenstone has a 2% gross revenue royalty on the Company’s mineral projects. Accordingly, assuming the completion of the Royalty Financing, Greenstone will have a gross revenue royalty of 3% on the Company’s mineral projects.

The business purposes of conducting the Private Placement and Royalty Financing (the “**Proposed Transaction**”) is to provide the Company with sufficient funds to fund the continued development of the Company's Gunnison Copper Project and to pay care & maintenance and deferred acquisition costs associated with the Johnson Camp Mine adjacent to the Gunnison Copper Project.

Details Regarding Greenstone Resources

Greenstone was registered in August 2014 as a closed ended limited partnership in Guernsey, Channel Islands. It was established to serve as special purpose investment holding vehicle for Greenstone Resources’ and its affiliates’ investment in the Company.

Greenstone Resources is a private equity fund specializing in the mining and metals sector. It was established in Guernsey, Channel Islands in July 2013 and was registered with the Guernsey Financial Services Commission (“**GFSC**”) as a closed ended investment fund on 8 August 2013. It pursues investments in post-exploration metals and mining projects (from pre-feasibility study through to production) in both developed and emerging markets.

Greenstone, Greenstone Resources and Greenstone Co-Investment’s manager and general partner is Greenstone Management Limited (“**GML**”), a non-cellular Guernsey company limited by shares. GML is licensed by the GFSC to carry out the activities of Promotion, Subscription, Registration, Dealing, Management, Administration and Advising with registration number 2103131. Investment decisions relating to Greenstone, Greenstone Resources and Greenstone Co-Investment are taken by GML.

Messrs. Michael Haworth and Mark Sawyer co-founded Greenstone Resources in 2013. They are both members of the board of directors of GML and co-chairs of its investment committee. Mr Haworth was formerly Managing Director at JP Morgan and Head of Mining and Metals Corporate Finance in London. Mr. Haworth is also a director of the Company. Mr. Sawyer is the former co-head of group business development at mining major Xstrata plc.

Details of the Private Placement and Royalty Financing

On September 29, 2016, the Company entered into a subscription agreement (the “**Subscription Agreement**”) with Greenstone pursuant to which, subject to satisfaction of certain conditions precedent, Greenstone will subscribe, pursuant to the Private Placement, for US\$10 million of Common Shares at a

price of \$0.45 per Common Share. Settlement will occur in United States dollars and the exact number of Common Shares to be issued has been determined based on a Cdn\$/US\$ exchange rate of Cdn\$1.00 being equal to US\$0.77 (the “**Exchange Rate**”). Based on the Exchange Rate, upon closing of the Private Placement, Greenstone will acquire 28,860,028 Common Shares (representing approximately 20.84% of the Company’s current issued and outstanding Common Shares). After the closing of the Private Placement Greenstone will hold a total of 84,410,897 Common Shares, which will represent approximately 50.44% of the Company’s issued and outstanding Common Shares (post-closing of the Private Placement). The Common Shares that will be acquired by Greenstone will be acquired pursuant to an exemption from the prospectus requirement in section 2.3 of National Instrument 45-106.

Greenstone has agreed that it will not, for a period of four months following completion of the Private Placement, dispose of the Common Shares it acquires pursuant to the Private Placement (other than to an affiliate). For the period which commenced on September 2, 2016 and ending on the date which is 120 days from the date of the Subscription Agreement, without the prior written consent of Greenstone, the Company has agreed not to issue or agree to issue any Common Shares (or securities convertible or exchangeable into Common Shares) at an issue price, conversion price or exercise price (as applicable) of less than Cdn\$0.45 except for Common Shares (subject to certain exceptions).

Greenstone will also conduct the Royalty Financing pursuant to which it will purchase an additional 1.0% gross revenue royalty on production from the Gunnison Copper Project and the Johnson Camp Mine for gross proceeds of US\$4 million.

The net proceeds of the Proposed Transaction will be used for the continued development of the Company's Gunnison Copper Project (including the completion of permitting and the feasibility study), to pay care & maintenance and deferred acquisition costs associated with the Johnson Camp Mine adjacent to the Gunnison Copper Project, and for working capital and general corporate purposes.

Should shareholder approval not be given for the Private Placement, or should the Company terminate the Subscription Agreement for any reason whatsoever (except for a default by Greenstone or the failure by Greenstone to satisfy certain conditions) the Corporation shall pay a US\$250,000 break fee to Greenstone Management Limited (or as Greenstone may direct).

Multilateral Instrument 61-101 Compliance

Formal Valuation and Minority Approval

Pursuant to Multilateral Instrument 61-101 - *Protection of Minority Security Holders in Special Transactions* (the “**Instrument**”), the Proposed Transaction constitutes a “related party transaction” as Greenstone is a related party of the Company. The Company is relying on an exemption from the formal valuation requirement of the Instrument contained in Section 5.5(b) of the Instrument, on the basis that no securities of the Company are listed or quoted on the Toronto Stock Exchange, the New York Stock Exchange, the American Stock Exchange, the NASDAQ Stock Market, or a stock exchange outside of Canada and the United States other than the Alternative Investment Market of the London Stock Exchange or the PLUS market operated by PLUS Markets Group plc.

The Company is required to obtain minority shareholder approval for the Proposed Transaction as there are no available exemptions. The Company is seeking to obtain such minority shareholder approval at the Meeting.

To effect the Proposed Transaction, the Company is required to obtain approval by a majority of the votes cast by affected holders of Common Shares, excluding the votes attached to the Common Shares that are beneficially owned or over which control or direction is exercised by Greenstone and other “interested parties” in the Proposed Transaction as defined in the Instrument, at a meeting of holders of that class of securities called to consider the Proposed Transaction (the “**Minority Approval**”). To the Company's knowledge there are no interested parties with respect to the Proposed Transaction other than Greenstone.

For greater certainty, Mr. Michael Haworth, a director of the Company, is not considered to be an “independent director” (as defined in the Instrument) as he is a principal and therefore, an “issuer insider” (as defined in the Instrument) of Greenstone.

In addition to obtaining minority shareholder approval, the Proposed Transaction is subject to satisfaction (or waiver by Greenstone) of a number of conditions, including, without limitation, receipt of all regulatory approvals, including the approval of the TSXV and the applicable securities regulatory authorities. Assuming all approvals are obtained and other conditions are satisfied or waived, the Private Placement and Royalty Financing are expected to close within no more than 11 business days of the Meeting (provided that all closing conditions have been satisfied or waived by Greenstone).

⁽²⁾ Michael Haworth is a Managing Member of Greenstone Capital LLP and a Director of Greenstone Management Ltd., the General Partner to Greenstone Resources. Greenstone Resources, through its affiliate Greenstone, is the beneficial owner of 55,550,869 Common Shares representing approximately 40.11% of the issued and outstanding Common Shares.

To the knowledge of the Company, 55,550,869 Common Shares held by Greenstone are to be excluded from the approval of the Proposed Transaction, leaving 82,953,055 Common Shares eligible to vote on the approval of the Proposed Transaction.

Board Approval and Recommendation

The Board consists of the eight individuals set forth in the table above. Of the eight directors, the Company has seven directors who are "independent" (as defined in the Instrument) with respect to the Proposed Transaction.

The Company has been evaluating financing proposals from several third parties in order to obtain sufficient funds for the continued development of the Company's Gunnison Copper Project (including the completion of permitting and the feasibility study), to pay care & maintenance and deferred acquisition costs associated with the Johnson Camp Mine adjacent to the Gunnison Copper Project, and for working capital and general corporate purposes. Commencing in February 2016, the Company solicited expressions of interest from various institutional investors, private equity funds and royalty companies. Interested parties entered into confidentiality agreements with the Company and commenced due diligence and conducted site visits to the Gunnison Copper Project. As a result of this process, the Company received term sheets from various parties for financing transactions (including Greenstone). Greenstone was not provided with copies of other term sheets that were received by the Company prior to the time Greenstone submitted its term sheet to the Company.

After the receipt of all of the term sheets, the Board met formally to discuss the financing proposals. Mr. Michael Haworth, a director of the Company, is not considered to be an "independent director" (as defined in the Instrument) as it relates to the Proposed Transaction, as he is a principal and therefore, an "issuer insider" (as defined in the Instrument) of Greenstone. Mr. Haworth has declared his interest in, and abstained from voting on, the terms of the Proposed Transaction.

The Board determined that Proposed Transaction was in the Company's best interests and unanimously approved the Proposed Transaction, with Mr. Haworth abstaining from such approval. In making its determination, the Board reviewed the financing alternatives that were available to the Company and determined that the Private Placement and Royalty Financing presented the most favorable and certain alternative. In addition, the Board determined that the terms of the Proposed Transaction were fair and reasonable.

Benefits of Proposed Transaction

No person will benefit directly or indirectly (other than in respect Greenstone's shareholdings) with respect to the Proposed Transaction. However, the Company will benefit from the successful completion of the Proposed Transaction, as the Company will be able to continue its development plan.
