

**FOUNDERS BAY HOLDINGS**  
**ANNUAL REPORT**  
**For the year ended**  
**DECEMBER 31, 2015**

**1. Name of Company and its predecessors (if any)**

Founders Bay Holdings (the “Company”) is a Nevada corporation incorporated on July 23, 1986 as Ballonies, Inc. The Company was engaged in various enterprises from that time under the names Imagex Services, Inc. (June 29, 1993) and Intersecurity Holdings Corporation, (May 11, 2005) until it acquired its current Delaware operating subsidiary, Founders Bay Technologies, Inc. pursuant to an agreement dated August 18, 2016. On October 21, 2016, the Company’s name was changed to Founders Bay Technologies, Inc. as well, and then to Founders Bay Holdings on March 10, 2017 in order to avoid confusion with its subsidiary. Although the current operating subsidiary was not acquired until after the year ended December 31, 2015, this Annual Report includes all information regarding that acquired business, including the financial statements of the acquired subsidiary, since the public entity had no operations during 2015.

**2. Address of its principal executive offices**

Our principal executive offices are located at 913 N. Market Street Suite 200, Wilmington, Delaware, and our telephone is (302) 502-0120. With respect to stock splits or dividends, recapitalizations, mergers, acquisitions, spin-offs or reorganizations currently anticipated or occurring within the past 12 months, the Company acquired all of the common stock of Founders Bay Technologies, Inc., a Delaware corporation ("FBTI"), on October 2, 2016, in exchange for a number of shares to be equal to 99% of the outstanding shares after giving effect to such issuance. The acquisition was effected by the merger of a newly incorporated Nevada subsidiary of the Company with and into FBTI. Due to the lack of authorized shares, only 450,000 shares were initially issued to the shareholders of FBTI. A one-for-2000 reverse stock split was effected through an amendment to the Articles of Incorporation filed on March 10, 2017, and reflected on the trading market on April 25, 2017. All share numbers in this Annual Report have been adjusted to give retroactive effect to the reverse split.

#### **4. Issuance History.**

Disclosure for the issuance of shares in connection with the acquisition of FBTI is provided under Item 3. There were no other issuances during the past two years. This transaction was not registered or qualified in any jurisdiction and was exempt therefrom under Section 4(2) of the Securities Act as a transaction not involving any public offering.

#### **5. Financial Statements**

Financial statements are appended to this report.

#### **6. Describe the Issuer's Business, Products and Services**

Founders Bay Holdings, a Nevada corporation organized in 1986, operates through its wholly-owned Delaware subsidiary Founders Bay Technologies, Inc. Our company employs proprietary technology for management of electronic health care records under the tradename CareConnex<sup>®</sup>. Specifically, medical providers such as hospitals, clinics, and physician groups are required to update electronic health care records processes due to government mandates and technological progress. Medical providers can and do choose from a variety of different vendors, leading to incompatibility issues. Electronic health record systems are more efficient for the patient and reimbursement programs if they can be integrated across the board. CareConnex<sup>®</sup> addresses the perennial problems related to the migration of data from legacy systems to current systems, as well as the integration and

interoperability of different systems, without the overly expensive and disruptive data migration of system switching projects

In the United States, the American Recovery and Reinvestment Act requires that healthcare providers adopt “meaningful use” of electronic medical records (defined as electronic health records for a particular patient which may be shared systemwide) by January 1, 2014, in order to maintain Medicaid and Medicare reimbursement levels. We believe that CareConnex<sup>®</sup> enables US providers to qualify and receive Medicare/Medicaid Federal EHR programs incentives four times faster and cheaper than any other solution on the market.

In the countries of the European Union and South America, our technology is becoming the core technology in new security compliance protocols and consolidation of access to disparate international datasets, allowing for globalization of care and transnational service provider benchmarking.

Our technology has been deployed by 48 hospital networks in the US in addition to over 150 service terminals across 7 countries abroad. We believe that our market penetration is at an early stage and intend to take significant market share in the industry. In addition, we are pursuing several national sales contracts for establishment of payor systems in Mexico, Brazil, and Argentina.

Since our technology is data neutral, it has immediate applicability to other electronic records systems, such as banking, finance, insurance and securities trading. Although US electronic financial systems are dominated by a few players including IBM, Microsoft and Oracle, developing markets such as Asian and Latin America are fragmented and we believe available for companies such as ourselves to attain market share. We also are evaluating growth through acquisition of other players in the electronic records industry.

Our primary SIC code is 7373.

**7. Describe the Issuer’s Facilities.**

We currently lease office space at 913 N. Market Street Suite 200, Wilmington, DE 19801. The Company pays \$1,250.00 per month pursuant to the terms of a lease ending in 2020.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Property and Depreciation**

The Organization capitalizes significant purchases and maintenance of property and equipment as well as investments in its intellectual property, which are all expected to be utilized over more than one fiscal year. Capitalized expenses are stated on the basis of cost and donated items are recorded at their current estimated fair market value at date of donation. Depreciation is computed using the double declining balance method over the estimated useful lives of the assets.

#### **Fair Value Measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various methods including market, income and cost approaches. Based on these approaches, the Company often utilized certain assumptions that participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market-corroborated or generally unobservable inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observable inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy.

The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- **Level 1 Observable inputs** - unadjusted quoted prices in active markets for identical assets and liabilities;
- **Level 2 Observable inputs** - other than quoted prices included in Level 1 that are observable for the asset or liability through corroboration with market data; and
- **Level 3 Unobservable inputs** - includes amounts derived from valuation models where one or more significant inputs are unobservable.

## NEXGEN MEDICAL SOLUTIONS, LLC

As of December 31, 2015 the fair value of the positions is an asset of \$115,061.

### **NOTE 2 – CASH AND CASH EQUIVALENTS**

#### **Cash and Cash Equivalents**

For purposes of the statements of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Cash and cash equivalents at year-end consist of the following:

Checking and money market accounts:

	<u>December 31, 2015</u>	<u>December 31, 2014</u>
Cash	\$ 115,061	83,000
Total	<u>115,061</u>	<u>83,000</u>

### **NOTE 3 – CONCENTRATIONS OF CREDIT AND MARKET RISK**

Financial instruments that potentially expose the chapter to concentrations of credit and market risk consist primarily of cash and cash equivalents. Cash and cash equivalents are maintained at financial institutions and accounts at each institution are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At December 31, 2015, the organization had \$0 of uninsured balances at these institutions.
