

OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. We use the basic disclosure information provided by OTC Pink companies under these guidelines to designate the appropriate tier in the OTC Pink marketplace: Current, Limited or No Information. OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for OTC Pink Current Information tier.

Forward-Looking Statements

This report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts, included in this section and located elsewhere in this annual report regarding the prospects of our industry and our prospects, plans, financial position and business strategy may constitute forward-looking statements. These forward-looking statements are intended to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate," "plan," "foresee," "believe" or "continue" or the negatives of these terms or variations of them or similar terminology. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we can give no assurance that these expectations will prove to have been correct. All such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results to differ materially from our expectations include, among others: (i) the ability to retain tenants, (ii) general economic, business, market and social conditions, (iii) trends in the real estate investment market, (iv) projected leasing and sales, (v) competition, and (vi) inflation. Readers are urged to consider these factors carefully in evaluating the forward-looking statements. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements included herein are made only as of the date of this report, and we do not undertake any obligation to release publicly any revisions to such forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

6) Describe the Issuer's Business, Products and Services

- A. a description of the issuer's business operations;

Management's Discussion and Analysis of Financial Condition and Results of Operations. ("MD&A").

The Company

Fortran Corporation ("Fortran" or the "Company") through its subsidiaries, is a leading telecommunications system integrator dedicated to designing, sourcing, implementing and maintaining complex communications solutions and the installation, service and repair of cooling towers across the US. The company's businesses are in two main segments;

Telecom Service Segment

We are converting the historical and traditional "telecom" business model to a "Telecom-As-A-Service" ("TaaS") and is comprised of engineering and design, network service, technical certifications, regional sales teams, remote monitoring, on-site service, dedicated sales and engineering resources. The primary services offered through this platform include:

- Manage Service Agreements (MSA's)
- Box Sales
- Moves-Adds-Changes (MAC)
- Data Cabling and In-building Wireless

The Company's offerings allows it to service the needs of its clients independent of the technology that they choose, which we believe is a unique competitive advantage. For the sale and implementation of new box sales, or other major projects, most significant orders are subject to competitive bidding processes and, generally, competition can be significant for such new orders. The Company is continually bidding on new projects to maintain and grow service revenues. Projects account for the majority of service revenues and are primarily driven by the overall economic environment and information technology capital spending. The Company also serves government clients whose revenues are not as dependent on the overall economic environment as commercial clients but are subject to governmental budgetary constraints.

New system sales (“Box Sales”) often generate a post-implementation maintenance agreement (“MSA’s”) to support the system, which generally ranges from 1-3 years for commercial clients and 3-5 years for government clients. Historically, such an agreement would result in a fixed fee earned ratably over the term of the contract. Recently, some of our clients have adopted a variable fee model based on time and materials per occurrence, similar to MAC work. While this shift decreases our contractually obligated revenues, the variable model also generates profitable revenues. Revenues from MSA’s generally are not dependent on the economy as client’s contract for maintenance to extend the life of their existing equipment and delay capital spending on new communications systems. MSA and MAC work revenues are also dependent upon the Company's relationship with its clients and its long track record of providing high-quality service.

Our service business generates backlog which is defined by the Company as orders and contracts considered to be firm.

At 11/11/2015, the Company's total backlog, which relates primarily to Services, was \$1, as opposed to \$148,232.01 on 11/11/2015, expected to be completed within the next three months.

Our Service Business introduce scale, flexibility and leverage to the business, and provide the following competitive advantages:

- A diverse client base of many small businesses to a few of the world’s largest corporations and institutions.
- Key relationships with leading technology partners.
- An expanding geographic market with 3-offices in 2-states with centralized dispatching.
- A strong financial position and balance sheet with positive cash flow.

We currently manage 8,274 clients on 11/11/2015, as opposed to 8,263 clients on 09/09/2015, classified in the following manner:

Date(s)	As of 02/09/2015	As of 05/12/2015	As of 09/09/2015	As of 11/11/2015	As of 02/09/2015
Active – 12	930	948	999	1004	853
Active – 24	351	197	190	188	262
MSA	539	558	542	546	491
Warranty	153	153	164	170	169
Exposed	6261	6404	6368	6361	6,499

Active-12 & 24 considered service orders within 12 or 24 months we feel are active client. “MSA” “Managed Service Agreement” which are service contracts paying yearly not included in Active-12 or 24. Warranty clients purchased equipment and are under the warranty for 1 to 5 years at which time they will potentially roll into our MSA business. The Exposed category is “one-time” clients that have purchased equipment or services from us more than 24-months ago but still have our equipment. We feel the exposed clients are our best opportunity to convert to one of the other categories efficiently. We feel client analytics is the best way to grow our business and evaluate potential acquisition targets.

Cooling Tower Service Segment

Tower Performance, Inc. (TPI) is a national specialty contractor involved with the repair, maintenance, upgrade, inspection, construction, and sale of parts for all types of cooling towers, mechanical equipment parts, and maintenance for air coolers. The Company has its own trained crews that perform work at the customer’s facilities.

Revenue Mix

For over 50-years, TPI has been involved in every phase of cooling construction from repair to upgrade to new towers.

Sales and Marketing

The Company acquires customers through the following sales and marketing methods:

- Ten full-time sales employees
- Advertise in ThomasNet®
- Membership in the cooling Technology Institute
- Customer and supplier referrals
- Trade shows
- Magazine Advertising

Customer Markets

TPI targets several industries including:

- Utilities, Chemical/petrochemical, Commercial real estate, Colleges and institutions
- Phosphate/fertilizer, Steel, Hospitals, Air Separation, Paper/bottling, Export/wholesale

This diversification protects the Company from the impact of a downturn in any specific industry and results in consistent demand.

Organization

The Company is organized as a C-Corporation and was established in 1964. TPI is headquartered in Florham Park, New Jersey in a 3,000 square foot office approximately 10 miles northwest of Newark Liberty International Airport. Additionally, the Company leases a 2,000 square foot office and a 4,000 square foot warehouse/yard in Houston, Texas. TPI leases its facilities from third parties at the fair market rate of \$109,000 per year.

Employee Base

The Company has 50 to 70 full-time employees, including 10 salesmen, a construction crew of up to 60 in Texas and 4 in New York/New Jersey, 3 administrators, and office personnel. TPI values its staff and their experience, and that treatment is reflected in a low employee turnover rate. For office, NYC union carpenters, and superintendent personnel.

TPI has several success drivers in this industry:

- With revenue derived from over 10 industries, the Company is highly diversified protecting it from the impact of a downturn in a single industry and reducing operational risk.
- TPI has developed an established brand name over its 50+ years of operation resulting in significant industry recognition, customer referrals, and repeat business.
- The Company provides its products and services to large and established clients, including Arizona Public Service, ExxonMobil, Valero, US Steel, PBF Energy, and Mosaic. These utility and publicly traded companies result in consistent demand and stable revenue streams for TPI.

B. Date and State (or Jurisdiction) of Incorporation:

March 17th 1948

C. the issuer's primary and secondary SIC Codes;

SIC-Code	Type
