<u>N/A</u>

4) Issuance History

List below any events, in chronological order, that resulted in changes in total shares outstanding by the issuer in the past two fiscal years and any interim period. The list shall include all offerings of equity securities, including debt convertible into equity securities, whether private or public, and all shares or any other securities or options to acquire such securities issued for services, describing (1) the securities, (2) the persons or entities to whom such securities were issued and (3) the services provided by such persons or entities. The list shall indicate:

In December, 2011, The Company issued 135 million common shares for conversion/settlement of a $25,000 debt, eliminate share issuance obligations, as well as, secure capital for legal, accounting, and OTCMarket subscription fees

In March, 2012, the Company issued 50 million common shares for conversion/settlement of a $25,000 debt. Conversion price was $.0005

In May, 2012, the Company issued 25,000,000 common shares in connection with a 2010 consulting agreement.

In July, 2012, the Company issued 25.000,000 common shares in connection with a 2010 consulting agreement.

In September, 2012, the company issued 60,000,000 shares for the conversion of 4 million Preferred E shares.

In March, 2013 the company issued 165,000,000 shares for the conversion of 11 million Preferred E shares.

In August, 2013, The Company issued 75,000,000 shares to JFenway for the conversion of 5,000,000 Series E Preferred shares.

In August, 2013, the Company issued 75,000,000 shares to Paul Lovito for the conversion of 5,000,000 Series E Preferred shares.

In August/September/October 2013, the Company issued 365,000,000 million shares for conversion of a $50,000 debt. The shares were issued to Iconic Holdings and Vernier Holdings which acquired the debt from JFenway.

In August, 2013, The Company issued 80,000,000 shares for conversion of a $16,000 debt. The shares were issued to Deer Valley, LLC which acquired the debt from JFenway.

In August of 2013, the Company issued 90,000,000 shares for conversion of a $15,000 debt. The shares were issued to Deer Valley, LLC which acquired the debt from JFenway.

In August, 2013, the Company issued 75,000,000 shares for conversion of a $15,000 debt. The shares were issued to Michael Maloney which acquired the debt from JFenway.

In September, 2013, the Company issued 100,000,000 shares for conversion of a $10,000 debt. The shares were issued to Paul Lovito.

In September, 2013, the Company issued 100,000,000 shares for conversion of a $10,000 debt. The shares were issued to JFenway.

In September, 2013, the Company issued 110,000,000 in a 504 placement resulting in $10,000 of net proceeds. The shares were issued to Deer Valley.

Preferred Stock:

In July, 2013, the Company reached a settlement with both Preferred Series E holders, JFenway and Paul Lovito. The initial settlement provided that each Preferred E Holder receive a convertible note in the amount of $1,162,500 note in return for the retirement of 30,000,000 Series E Preferred Stock which converted at 1:15..

Subsequently, it was decided that the amount of the notes was egregious and each holder agreed to enter into settlement upon a new amount. Mr. Lovito has agreed and executed a new note in the amount of $225,000 which equated to two times the value of those preferred at the time of the transaction.

The Company is still in negotiations with JFenway.

A. Whether the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

The company believes it has 51,000,000 of restricted stock. It is researching this matter.

NOTE 1 - Organization and Basis of Presentation

Gold Cost Mining Corp. formerly Hot Web, Inc., a Florida corporation was originally incorporated in Delaware as T.J. Cinnamons, Inc. in December, 1985. In December 2001, management and the majority shareholders approved and effected a corporate reorganization, the principal feature of which was to transfer the Company's legal domicile from Delaware to Florida pursuant to an Agreement and Plan of Merger between the Company and its wholly-owned subsidiary, Raptor Investments, Inc., a Florida corporation, wherein the Florida corporation was the surviving corporation.

The Company has continuously operated as a management holding company since its inception. From 2002 to 2005 the Company operated a Florida wholesale produce company and an ecommerce subsidiary that pursued acquisitions in the online industry. Due to various factors, including four hurricanes in 2004 that severely interrupted business, the Company turned its wholesale produce operation over to its lenders. Former management and the Company’s lenders have been engaged in a dispute over the settlement of the produce operations line of credit. In 2005 the lender accepted delivery of the produce company in exchange for a release of the debts associated with the produce operation. The dispute involves previous management and the previous lenders. Current management believes that a reasonable solution to these disputes can be achieved.

From 2005 until January, 2009, the Company focused its efforts on its online properties and operations, including Snap N’ Sold (an eBay drop store chain) and Hot Web, Inc. (an online auction/classified network of websites). In 2008, Jason Cooper, a business consultant, became CEO of the Company and shifted its primary focus towards mining opportunities accessible to the Company.

In January, 2009, the Company sold its websites that resulted in the Company receiving 29,400,000 common shares of Max Media Group, Inc.

In February, 2009, the Company's Articles of Incorporation were amended to change the Company’s name to Gold Coast Mining Corp.

In August, 2009, the Company declared a dividend of 1 share of Max Media Group, Inc. (Pink Sheets:MXMI) for every 30 shares owned of Gold Coast Mining Corp. The record date for the Max Media dividend was set for August 31, 2009.

From September 2009 to March 2011, the Company has pursued financing for several joint venture opportunities available to the Company. Additionally, management has been reviewing other opportunities in various industries in an effort to stay diversified and bring value to its shareholders.

In January 2011, the Company sold its 14, 570,431 shares of Max Media Group, Inc ("MXMI") in a private transaction. The terms and purchase price of these shares included $10,000.00 and assistance in bringing the Company's financials and disclose filings current, as well as assistance with debt reduction.

In September 2011, the Company elected Marc Lovito as President of Gold Coast Mining. The main agenda of Mr. Lovito was to bring the Company's financial disclosures current, work out a settlement of the litigation involving the Company's previous lenders and to bring one of the Company's potential mining projects to fruition.

Gold Coast Mining worked diligently to bring its financial filings and disclosures current on Pink Sheets. The Company has filed all delinquent reports and returned to CURRENT INFORMATION status on the Pink Sheet Tier system.

In December 2011, The Company began work with its mining partner to select and come to terms on one of the mining properties that will have the funding commitment and structure in place that is beneficial to its shareholders.

In January 2012 the Company agreed to pursue a joint venture with Western Sierra Mining ("WSRA") on the Gold Star Mine. The Gold Star Mine, currently owned by WSRA, consists of up to 5 unpatented claims on over 300 acres near Prescott, Arizona.
The Company is a 50/50 partner and has agreed, through previous issued Preferred Stock to WSRA, to fund $400,000 to develop the Gold Star mining claims.

Through June 2012 Western renewed the leases for the property and reduced the focus of the leases and development work to 316.45 acres. Additionally, approval of the

Exploration Permit for the property was received.

In August 2012 the Company agreed to pursue an investment in another property offered by its partner WSRA. A 50/50 joint venture was considered and an initial investment of $50,000 was made. The joint venture would require additional funding and Gold Coast would have the opportunity to acquire up a 50% interest in the mine based on its final invested dollars. The Company made the initial $50,000 payment in August 2012.

The Company pursued negotiations with its investors and preferred shareholders, including WSRA, to fund the Company’s investment into the Azurite project as well as to fund additional investments, mergers and corporate expenses (legal, accounting, etc). The preferred shareholders agreed to finance the purchase of a minimum 5% interest in Azurite and to facilitate the Company's anticipated merger which requires the retention of an SEC attorney and a CPA for the purpose of filing a Form 10. To date, the purchase of 5% interest in Azurite has been completed. Additionally, an SEC attorney and CPA have been retained and are in the process of auditing the Company's financials. The Company anticipates the progression of the merger to coincide with the filing and completion of the Form 10. In exchange for assisting in the funding and completion of these endeavors, the Board of Directors agreed to amend the conversion of the Class E Preferred from one share of preferred to one share of common to a conversion of one share of preferred to fifteen shares of common.

In July, 2013, a new CEO, Michael Shea was appointed. Mr. Shea has refocused the Company’s strategy toward investing in minority interest in either producing oil wells, or in “to be” drilled oil wells. In August, 2013, the Company made a $20,000 investment for a 2% working intersest in the Garfield oil lease/well. The Company is hoping to increase its interest to 5%.

In the opinion of management, the accompanying balance sheets and related interim statements of income, cash flows, and stockholders' equity, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Preparing financial statements requires management to make estimates and assumptions that affect the amounts of assets, liabilities, revenue, and expenses. Actual results and outcomes may differ from management's estimates and assumptions.

NOTE 2 - Summary of Significant Accounting Policies

Cash and Cash Equivalents

The Company considers those short-term, highly liquid investments with original maturities of three months or less as cash and cash equivalents.

Impairment of Long-Lived Assets

In accordance with Statement of Financial Accounting Standards ("SFAS") 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," the Company reviews its long-lived assets for impairments. Impairment losses on long-lived assets are recognized when events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses then are measured by comparing the fair value of assets to their carrying amounts. The Company recognized no impairment loss at June 30, 2013 and December 30, 2012.

Revenue Recognition

Revenues, if any, will be recognized when earned.

Earnings Per Share

The weighted average number of shares used for computing "fully diluted" earnings per share reflects the conversion of 11,000,000 convertible preferred shares into 165,000,000 common shares.

Income Taxes

The Company records deferred income taxes using the liability method as prescribed under the provisions of SFAS No. 109. Under the liability method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement and income tax bases of the Company's assets and liabilities. An allowance is recorded, based upon currently available information, when it is more likely than not that any or all of the deferred tax assets will not be realized. The provision for income taxes includes taxes currently payable, if any, plus the net change during the year in deferred tax assets and liabilities recorded by the Company

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Environmental Remediation Costs

Environmental remediation costs are accrued based on estimates of known environmental remediation exposure. Such accruals are recorded even if significant uncertainties exist over the ultimate cost of the remediation. It is reasonably possible that the Company's estimates of reclamation liabilities, if any, could change as a result of changes in regulations, extent of environmental remediation required, means of reclamation or cost estimates. Ongoing environmental compliance costs, including maintenance and monitoring costs, are expensed as incurred. There were no environmental remediation costs accrued at September 30, 2013 and December 31, 2012.

Advertising Costs

The Company's policy regarding advertising costs are to expense them as they are incurred. The Company incurred approximately $4,000 of advertising costs during the period ended September 30, 2013 and $0 during December 31, 2012.

Recently Issued Accounting Pronouncements

SFAS No. 149 "Amendment of Statement 133 on derivative instruments and hedging activities". This statement amends and clarifies financial accounting and reporting for derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under SFAS 133, "Accounting for derivative instruments and hedging activities".

SFAS No. 150 "Accounting for certain financial instruments with characteristics of both liabilities and equity". This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity.

The Company believes that the above standards would not have a material impact on its financial position, results of operations or cash flows.

NOTE 3 - Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Through September 30, 2013, the Company had incurred cumulative losses of $14,705,121. As of September 30, 2013 the Company had negative working capital of $1,465,996.The Company's ability to continue as a going concern is dependent upon obtaining financing adequate to fulfill its exploration activities, development of its properties and achieving a level of revenues adequate to support the Company's cost structure. Management's plan of operations anticipates that the cash requirements for the next twelve months will be met by obtaining capital contributions through the sale of its common stock and cash flows from operations. There is no assurance that the company will be able to implement the plan.

NOTE 4 - Stockholders’ Equity

At various stages in the Company’s development we have issued shares of common stock for services or assets with a corresponding charge to operations or property and equipment. In accordance with SFAS 123, these transactions, except for stock issued to employees, have been recorded on the Company’s books at the fair value of the consideration received or the fair value of the common stock issued, whichever is more reliably measured.

Preferred Stock

In June, 2006, the Company issued 2,000,000 shares of Series B and Series C Preferred Stock in exchange for services valued at $20,000. In January, 2009, the Series B and Series C Preferred Stock were converted into 40,000,000 common shares. In July, 2009, the Company increased its authorized preferred shares to 100,000,000. In July, 2009, 60,000,000 shares of preferred stock were issued in conjunction with a joint venture mining agreement. The issuance was recorded on the books at a value of $.01 per share for a total of $600,000. The shares have 1-for-15 voting rights with common shares and converts to common on a 1-for-15 basis.

During the quarter ended March 31, 2013 the Company secured the return of 4,000,000 Class E preferred shares for retirement to treasury. Additionally, 11,000,000 Class E shares were converted to common. The Company is negotiating the return and reduction of additional Class E shares.

In July, 2013, the Company reached a settlement with both Preferred Series E holders, JFenway and Paul Lovito. The initial settlement provided that each Preferred E Holder receive a convertible note in the amount of $1,162,500 note in return for the retirement of 30,000,000 Series E Preferred Stock which converted at 1:15..The notes carry an interest rate of 10% with an initial 12 month “interest free” period.

Subsequently, it was decided that the amount of the notes was egregious and each holder agreed to enter into settlement upon a new amount. Mr. Lovito has agreed and executed a new note in the amount of $225,000 which equated to two times the value of those preferred at the time of the transaction. The note carries an interest rate of 10% with interest charged for the first 12 months.

The Company is still in negotiations with JFenway.

Stock Options and Warrants

At June 30, 2013 there were 20,000,000 warrants issued and outstanding. 10,000,000 warrants are exercisable at $0.10 per share and 10,000,000 are exercisable at $0.15 per share.

12/31/2012		Expiration
Issued	20,000,000	12/31/2015
Exercised	0	
Outstanding	20,000,000	

There were no options and warrants exercised during 2013.

NOTE 5 - Commitments and Contingencies

Leases

As of September 30, 2013 and December 31, 2012 the Company was not obligated under any non- cancelable operating or capital lease agreements.

Litigation

To the knowledge of management, no federal, state or local governmental agency is presently contemplating any proceeding against the Company. The Company, its former management and its lenders have been engaged in a lawsuit since 2005 over the settlement of the produce operations line of credit. In 2005, the lenders accepted delivery of the produce company and certain promissory notes of former management of the Company in exchange for a release of the Company debts associated with the produce operation.

On July 19th, 2011, the Plaintiff, Gelpid Associates, LLC received a judicial default judgment against Raptor Holdings. Subsequently, on January 10, 2013, the Court granted final judgment against Raptor Investments, Inc. (now known as Gold Coast Mining Corp.) in the amount of $4,950,938.73.

The Company has insufficient capital and assets to satisfy the judgment and is seeking a settlement with Gelpid Associates. However, no assurances can be made that a settlement can be reached. The Company is exploring its options in the event a satisfactory settlement can't be reached.

NOTE 6 - Liabilities from Discontinued Operations

In January, 2009, the Company sold all of its remaining internet assets and focused its business operations mainly to mining/energy. Total remaining liabilities consist of the default judgments noted in item ***VI Default of Senior Securities*** and are reflected on the Company's books as Liabilities. This amount will be reduced as theses liabilities are paid or settled. Settlement gains, if any, will be credited to paid-in capital.

NOTE 7 - Related Parties

There were no related party transactions in the period ended September 30, 2013 and December 31, 2012.

NOTE 8 - Income Taxes

The Company has adopted FASB 109 to account for income taxes. The Company currently has no issue that creates timing differences that would mandate deferred tax expense. Net operating losses would create possible tax assets in future years. Due to the uncertainty as to the utilization of net operating loss carry forwards, an evaluation allowance has been made to the extent of any tax benefit that net operating losses may generate. No provision for income taxes has been recorded due to the net operating loss carryforwards of $14,705,121 and $11,615,963 as of June 30, 2013 and December 31, 2012 respectively that will be offset against further taxable income. No tax benefit has been reported in the financial statements.

Deferred tax assets and the valuation account as of December 31, 2012 and 2011 are as follows:

Deferred tax asset:	9/30/13	2012
Net operating loss carryforward	$ 14,705,121	$13,166,337
Valuation allowance	($14,705,121)	($13,166,337
	$ -	$ -

The components of income tax expense are as follows:

	2013	2012
Current Federal Tax	$ -	$ -
Current State Tax	-	-
Change in NOL benefit	37,025	37,187
Change in allowance	(37,025)	(37,187)
	$ -	$ -

The Company has incurred losses that can be carried forward to offset future earnings if conditions of the Internal Revenue Codes are met. These losses are as follows:

Year of Loss	Amount	Expiration Date
2009 and prior	$10,031,478	2030
2010	10,119,448	2031
2011	11,615,963	2032
2012	13,166,337	2033

ITEM IV– **MANAGEMENT'S DISCUSSION AND ANALYSIS**

Some information contained in or incorporated by reference into this report may contain "forward-looking statements." These statements include comments regarding exploration and mine development and construction plans, costs, grade, production and recovery rates, permitting, financing needs, the availability of financing on acceptable terms or other sources of funding, and the timing of additional tests, feasibility studies and environmental permitting. We believe the expectations reflected in those forward-looking statements are reasonable. However, we cannot assure that these expectations will prove to be correct. Our actual results could differ materially from those anticipated as a result of the risk factors, including but not limited to: worldwide economic and political events affecting the supply and demand for gold; volatility in market prices for gold and other metals; financial market conditions and the availability of debt or equity financing on terms acceptable to our properties; uncertainties as to whether additional drilling, testing and feasibility studies will establish reserves at any of our properties; uncertainties associated with developing a new mine, including potential cost overruns and the unreliability of estimates in the early stages of mine development; variations in ore grade and other characteristics affecting mining, crushing, milling and smelting operations and mineral recoveries; geological, metallurgical, technical, permitting, mining and processing problems; the availability and timing of acceptable arrangements for power, transportation, mine construction, contract mining, water and smelting; the availability, terms, conditions and timing of required government worldwide economic and political events affecting the supply of and demand for gold; volatility in market prices for gold and other metals; financial market conditions, and the availability of debt or equity financing on terms acceptable to our company; uncertainties as to whether additional drilling, testing and feasibility studies will establish reserves at any of our properties; uncertainties associated with developing a new mine, including potential cost overruns and the unreliability of estimates in the early stages of mine development; uncertainties as to title to our properties and the availability of sufficient properties to allow for planned activities; variations in ore grade and other characteristics affecting mining, crushing, milling and smelting operations and mineral recoveries; geological, metallurgical, technical, permitting approvals; uncertainties regarding future changes in tax and foreign-investment legislation or implementation of existing tax legislation and the availability of experienced employees.

Business Strategy

In July, 2013, a new CEO, Michael Shea was appointed. Mr. Shea has refocused the Company's strategy toward investing in minority interest in either producing oil wells, or in "to be" drilled oil wells. In August, 2013, the Company made a $20,000 investment for a 2% working intersest in the Garfield oil lease/well. The Company is hoping to increase its interest to 5%.

Off Balance Sheet Arrangements

The Company does not have any transactions, agreements or other contractual arrangements that constitute off-balance sheet arrangements.

ITEM V – **LEGAL PROCEEDINGS**

The Company continues to pursue and engage in discussions to reach a Settlement Agreement with lenders from the Company's previously owned wholesale produce subsidiary debts. The lenders have received a default judgment in the amount of approximately $5 million (See Note 5 of the Financial Statements). The Company and its management are attempting to reach a settlement, although no settlement can be assured.

ITEM VI – **DEFAULTS OF SENIOR SECURITIES**

In 2008, the Company under "Hot Web", issued a series of Convertible Secured Notes aggregating $25,000 to Stealth Fund, L.L.L.P. Subsequently, the Company defaulted under these notes. On May 20, 2010, in the Circuit Court of Palm Beach, a default judgment was entered against the Company in the amount of $43,166 plus 6% interest. No payments have been made on this judgment.

In 2008, the Company under "Hot Web" issued a series of unsecured notes aggregating $42,000 to Access Key IP. Subsequently, the Company defaulted under these notes. On May 6, 2010, in the Circuit Court of Palm Beach, a default judgment was entered against the Company in the amount of $53,071 plus 6% interest. No payments have been made on this judgment.

ITEM VII – **SUBSEQUENT EVENTS**

On October 4, 2013, the Company signed a Letter of Intent to acquire 2 producing oil wells and a third "to be" drilled oil well. The purchase price is $500,000. The Company is doing its due diligence and seeking "non equity" financing.

ITEM VIII – **EXHIBITS AND MATERIAL CONTRACTS**

None

6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. a description of the issuer's business operations;

In July, 2013, a new CEO, Michael Shea was appointed. Mr. Shea has refocused the Company's strategy toward investing in minority interest in either producing oil wells, or in "to be" drilled oil wells. In August, 2013, the Company made a $20,000 investment for a 2% working intersest in the Garfield oil lease/well. The Company is hoping to increase its interest to 5%.

B. Date and State (or Jurisdiction) of Incorporation:

Florida: December 12, 2001

C. the issuer's primary and secondary SIC Codes;

1041 & 1381

D. the issuer's fiscal year end date;

December 31

E. principal products or services, and their markets;

The principal products of the Company's joint venture projects are gold, silver and other materials extracted from ore bodies. All these products are considered commodities and have ready, well established, worldwide markets for as much as the Company can produce.

7) Describe the Issuer's Facilities

See Section 6 above

8) Officers, Directors, and Control Persons

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant shareholders.

A. Names of Officers, Directors, and Control Persons. In responding to this item, please provide the names of each of the issuer's executive officers, directors, general partners and control persons (control persons are beneficial owners of more than five percent (5%) of any class of the issuer's equity securities), as of the date of this information statement.

Michael Shea, CEO & President

Michele Driscoll-Hinton, CFO

B. Legal/Disciplinary History. Please identify whether any of the foregoing persons have, in the last five years, been the subject of:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);

   N/A

2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;

   N/A

3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; or

   N/A

4. The entry of an order by a self-regulatory organization that permanently or temporarily barred suspended or otherwise limited such person's involvement in any type of business or securities activities.

   N/A

C. Beneficial Shareholders. Provide a list of the name, address and shareholdings or the percentage of shares owned by all persons beneficially owning more than ten percent (10%) of any class of the issuer's equity securities. If any of the beneficial shareholders are corporate shareholders, provide the name and address of the person(s) owning or controlling such corporate shareholders and the resident agents of the corporate shareholders.

N/A

9) Third Party Providers

Please provide the name, address, telephone number, and email address of each of the following outside providers that advise your company on matters relating to operations, business development and disclosure:

Legal Counsel
