NOTE 1 - Organization and Basis of Presentation

GolfGear International Inc. (the "Company") was incorporated in November, 1996. From inception through January, 2010, the Company marketed golf equipment and supplies. Effective October 7, 2009, the Company's shareholders approved Share Exchange Agreement to acquire all of the shares of Crowfoot Management Ltd. (the "Agreement"). Pursuant to the Agreement, Crowfoot Management Ltd ("Crowfoot") was purchased on a share for share exchange. Crowfoot is engaged in the construction business and focused on the development of green technologies.

In the opinion of management, the accompanying balance sheets and related interim statements of income, cash flows, and stockholders' equity, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Preparing financial statements requires management to make estimates and assumptions that affect the amounts of assets, liabilities, revenue, and expenses. Actual results and outcomes may differ from management's estimates and assumptions.

Interim results are not necessarily indicative of results for a full year. The information included in these financial statements should be read in conjunction with information included in the annual financial statements. For presentation purposes, certain balances contained in these notes that are either unchanged or immaterially changed for the period presented are reflected as of the previous year end.

NOTE 2 - Summary of Significant Accounting Policies

Cash and Cash Equivalents

The Company considers those short-term, highly liquid investments with original maturities of three months or less as cash and cash equivalents.

Impairment of Long-Lived Assets

In accordance with Statement of Financial Accounting Standards ("SFAS") 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," the Company reviews its long-lived assets for impairments. Impairment losses on long-lived assets are recognized when events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses then are measured by comparing the fair value of assets to their carrying amounts. The Company recognized no impairment loss at June 30, 2011.

Revenue Recognition

Revenues, if any, will be recognized when earned.

Income Taxes

The Company records deferred income taxes using the liability method as prescribed under the provisions of SFAS No. 109. Under the liability method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement and income tax bases of the Company's assets and liabilities. An allowance is recorded, based upon currently available information, when it is more likely than not that any or all of the deferred tax assets will not be realized. The provision for income taxes includes taxes currently payable, if any, plus the net change during the year in deferred tax assets and liabilities recorded by the Company

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Environmental Remediation Costs

Environmental remediation costs are accrued based on estimates of known environmental remediation exposure. Such accruals are recorded even if significant uncertainties exist over the ultimate cost of the remediation. It is reasonably possible that the Company's estimates of reclamation liabilities, if any, could change as a result of changes in regulations, extent of environmental remediation required, means of reclamation or cost estimates. Ongoing environmental compliance costs, including maintenance and monitoring costs, are expensed as incurred. There were no environmental remediation costs accrued at March 31, 2011.

Advertising Costs

The Company's policy regarding advertising costs are to expense them as they are incurred. The Company had not incurred any advertising costs during the period ended June 30, 2011.

Recently Issued Accounting Pronouncements

SFAS No. 149 "Amendment of Statement 133 on derivative instruments and hedging activities". This statement amends and clarifies financial accounting and reporting for derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under SFAS 133, "Accounting for derivative instruments and hedging activities".

SFAS No. 150 "Accounting for certain financial instruments with characteristics of both liabilities and equity". This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity.

The Company believes that the above standards would not have a material impact on its financial position, results of operations or cash flows.

NOTE 3 - Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Through June 30, 2011, the Company had incurred cumulative losses of $801,424 and has negative working capital of $201,333 as of June 30, 2011. The Company's ability to continue as a going concern is dependent upon obtaining financing adequate to fulfill its exploration activities, development of its properties and achieving a level of revenues adequate to support the Company's cost structure. Management's plan of operations anticipates that the cash requirements for the next twelve months will be met by obtaining capital contributions through the sale of its common stock and cash flows from operations. There is no assurance that the company will be able to implement the plan.

NOTE 4 - Stockholders' Equity

At various stages in the Company's development we have issued shares of common stock for services or assets with a corresponding charge to operations or property and equipment. In accordance with SFAS 123, these transactions, except for stock issued to employees, have been recorded on the Company's books at the fair value of the consideration received or the fair value of the common stock issued, whichever is more reliably measured.

The Company's Certificate of Incorporation, as amended, authorizes the issuance of up to 2,9000,000,000 shares of common stock at a par value of $.0001 per share. On May 13, 2010, the Company's Board of Directors approved a 250:1 reverse stock split. This resulted in a decrease in outstanding common stock from 148,403,454 to 593,614 of which 49,353 were free-trading and 544,261 were restricted. The share and per-share data for all periods presented has been retroactively adjusted to reflect the stock split.

In May, 2010 the company issued to an officer of the Company 150,000,000 common restricted shares and 10 Preferred A shares for services rendered to the company.

Also in January 15, 2010 the company issued 125,000 Preferred C shares to a non-related party in a share for share swap to purchase all of the stock of Crowfoot Management Ltd.

Stock Options and Warrants

There are no outstanding unexpired warrants or options as of June 30, 2011.

NOTE 5 - Commitments and Contingencies

Litigation

At June 30, 2011, the Company was not party to any legal proceedings. To the knowledge of management, no federal, state or local governmental agency is presently contemplating any proceeding against the Company.

NOTE 6 - Related Parties

The Company received periodic advances from its principal stockholder based upon the Company's cash flow needs.

ITEM IV– **Management's Discussion and Analysis**

Crowfoot Management, a wholly owned subsidiary of GolfGear International, has, in the past, taken a wait-and-see approach. The first quarter of 2011 has shown signs of recovery, and we are aggressively pursuing construction projects in the surrounding Shuswap lakes area.

Crowfoot Management owns a one acre property in Celista, BC (Shuswap lakes area) that has a 4,200 square foot log and frame partial two story building. The second story already has an existing single bedroom suite, plus a two bedroom suite and office space. The ground floor portion of the building was a former restaurant and is currently being renovated to be converted into a three bedroom, 2 and a half bathroom, plus den and office space home. The kitchen, dining area, and living room have a vaulted ceilings and log construction. This contract has been awarded to Con-X Construction Ltd and is scheduled to be completed for the beginning of the 2011 summer rental season. This existing building with the conversion completed will rent in today's marketplace for a minimum of $4,600 per month.

The above mentioned one acre property is located one block from Shuswap lake with lake access. The Shuswap lake area is a huge tourist destination with lack of accommodations for all seasons. In addition, the property is located at the foot of Crowfoot Mountain, which is home to the Crowfoot Snowmobile club, which has in excess of 500 members, who are continually asking for winter accommodation. In addition to water sports and snowmobiling, the area has become a destination for recreational dirt biking and ATVing. These motor sport activities are largely done in the spring and fall.

In consulting with local property management, it has become evident that summer rentals are in high demand and low supply for small chalet type facilities.

We have completed the business plan to construct ten chalet type buildings with ample parking. These chalets would be one bedroom with a loft and would accommodate up to six people each. The estimated cost to complete this project is $520,000 with estimated revenues in excess of $400,000 per year. We are in the final stages of our negotiations with Con-X Construction Ltd to implement our business plan, scheduled for completion in March 2012, in time for the summer rental season.

Crowfoot Management is also in negotiations to purchase two additional properties in the Shuswap lakes area to use as rentals to boost the company revenue and asset base.

Crowfoot Management continues to look at opportunities in the construction and housing industries in Canada and the Middle East.

Crowfoot Management is in discussions with companies to acquire the use of and/or purchase companies with green technologies in the building and construction industry.

In addition to its existing operations, the Company believes that the gold and silver mining industry presents a great opportunity for expansion of the Company's business model. To this end, the Company's management is currently in negotiations to acquire exclusive worldwide rights an ore extraction/refining technology that will allow it to process silver and gold ores. The Company is also currently in negotiations with both domestic and international mine owners and operators, and is aggressively pursuing processing agreements that will enable the Company to utilize this ore extraction/refining technology in the extraction and refining of gold and silver in active mining operations.

Off-Balance Sheet Transactions

The Company does not have any transactions, agreements or other contractual arrangements that constitute off-balance sheet arrangements.

ITEM V- **Legal Proceedings**

The Company is not party to any material legal proceedings or administrative actions.

ITEM VI- **Defaults of Securities**

The Company is not presently in default on any promissory notes

ITEM VII- **Other Information**

NONE

ITEM IX – **Issuer's Certifications**

1. I, Ricardo Caicedo, have reviewed this June 30, 2011, Quarterly Disclosure Statement of GolfGear International, Inc.;

2. Based on my knowledge, this disclosure statement does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the disclosure statement; and

3. Based on my knowledge, the financial statements, and other financial information included or incorporated by reference in this disclosure statement, fairly present in all material respects the financial condition, results of operations and cash flows of the issuer as of, and for, the periods presented in this disclosure statement.

Date: August 19, 2011

/s/ Ricardo Caicedo

Ricardo Caicedo, President and Director
