6) Describe Issuer's History

Green Globe International, Inc. (the "Company" or "GGII") was incorporated under the laws of the state of Delaware on November 12, 1999 under the name of Apollo Holdings, Inc. and was originally engaged in the business of creating anti-piracy software. Due to difficulties faced by the Company in creating a sustainable business in both our business models relating to anti-piracy software services offered to corporations with digital assets and to web-based business-to-business intellectual property exchanges, the Company completed a merger in March 2004 with GTREX, Inc., a privately held Delaware corporation, to complete and market a "direct connect" software product for the travel and tourism business. The Company, in anticipation of the merger, changed its name from Apollo Holdings, Inc. to GTREX, Inc. on February 24, 2004.

Subsequent to the year ended December 31, 2007, the Company purchased an 88% interest in Green Globe, Ltd., a British company that owns the Green Globe brand, the premier international brand for sustainable travel, tourism and related green businesses, through a securities purchase and share exchange agreement with two principal shareholders and two minority shareholders.

Accordingly, the Company changed its name to Green Globe International, Inc. to reflect the nature of the Company's more global operating plan.

Over the past 5 years, the Company has focused primarily on introducing the Brand into the United States through, among other efforts, participation in the Los Angeles Green Certification Program with partners such as the LA Community College District, the LA Chamber, LA Better Buildings Challenge, LA Tourism and Convention Board, and Green Seal, the most recognized green brand in the U.S.

The Company at no time in its history has been a shell.

Through its subsidiary Green Globe Ltd., a British corporation, the Company has a non-exclusive 20 year license with a U.S. based company to use the name and logo, Green Globe, for sustainability certification in the travel and tourism industry.

Presently, we are expanding our operations to address the burgeoning energy efficiency market domestically and abroad by providing products and services to facilitate energy efficiency/renewable energy projects.
