Part I.

Item 1. Business

Jurisdiction and date of issuer's incorporation

Jurisdiction: Florida

Date of Incorporation: June 18, 1999

Overview of products and services offered

SIC Codes: 7372-0000; 7372-9901

Global Profit Technologies, Inc. ("the Company") or ("GLPT") is a publicly traded e-commerce company within the Financial Products & Services Sector and Continuing Education & Training segment of the financial community. Specifically, its proprietary software applications are designed to facilitate trading in the over-the-counter foreign currency markets

The Company licenses its software to a forex brokerage, and as such the software is not available for purchase or use by any individual traders. Additionally, the forex brokerage licensee does not accept U.S. citizens as trading clients.

Item 1A. Risk Factors

If any of the events or circumstances described in the following risks actually occurs, our business, financial condition or results of operations could suffer, and the trading price of our common stock could decline. Investors should consider the following risks and the information contained under the heading "Warning Concerning Forward Looking Statements" before deciding to invest in our common stock.

Internal review of initial testing of our software as well its performance at a forex brokerage has yielded positive results; however, these results have not been certified by an outside, independent source.

GLPT has generated revenues since inception, but these revenues have not been consistently sufficient to provide working capital. Additional capital is needed to develop and implement a marketing plan.

GLPT's software depends on the trade execution by a third-party broker. GLPT cannot guarantee successful and timely trade execution. In addition, GLPT cannot guarantee attractive counterparty for all trades.

Other risk factors include the economic and legislative environment. The recent credit crisis has generated increased legislative inquiry and regulations. Additional software programming is often required in response to regulations, thereby, potentially increasing the cost of doing business

The market for our stock is limited due to the size of the float. This may make it more difficult for investors to dispose of our common stock. This restriction on liquidity may negatively impact the value and cause a decline in its market value.

Warning Concerning Forward Looking Statements

This annual report contains statements which constitute forward looking statements within the meaning of the federal securities laws. Also, whenever we use words such as “believe”, “expect”, “estimate”, “plan”, “intend” or similar expressions, we are making forward looking statements.

Actual results may differ materially from those contained in or implied by our forward-looking statements as a result of various factors. Important factors that could cause actual results to differ materially from those in our forward-looking statements include, among others, general market conditions, regulatory developments and other conditions which are not within our control.

Item 1B. Unresolved Staff Comments

None

Item 2. Properties

GLPT does not lease any space at this time. There are no future plans to enter into any lease agreements until such time that there is sufficient working capital.

Item 3. Legal Proceedings

None

Item 4. Mine Safety Disclosures

Not applicable.

Part II.

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Title, class, par, description, number of shares of securities outstanding

500,000,000 Common Shares Authorized, \$.001 par value 155,421,919 Common Shares Issued and Outstanding as of December 31, 2016.

CUSIP Number: 37949N105

Trading Symbol: GLPT

Transfer Agent: Pacific Stock Transfer Co.
4045 South Spencer St., Suite
403 Las Vegas, NV 89119

Our common stock is currently traded on the Over the Counter Bulletin Board (the “OTCBB”).

Stockholders

As of December 31, 2016, there were 1,213 stockholders of record of our common stock.

Dividend Policy

We have not declared or paid any dividends on our common stock since inception and we do not plan on paying any cash dividends on our common stock in the foreseeable future. We intend to retain any future earnings for use in operation and expansion of our business. Any future decision to pay dividends on common stock will be at the direction of our Board of Directors and will be dependent upon our fiscal condition, results of operations, capital requirements and other factors our Board of Directors may deem relevant.

Item 6. Selected Financial Data

Not applicable

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Plan of Operations

Global Profit Technologies, Inc., formerly fantastic Fun, Inc., Florida, (FTFN) trading on the Pink sheets, ([FTFN.PK](#)) FTFN was acquired, thru a private transaction, where Global Profit Holdings, a Nevada corporation, domiciled in Scottsdale AZ. and solely owned and controlled by Joseph Nemeth acquired 24,025,113 shares of FTFN, or approximately 94% of the total shares outstanding, on or about September 26, 2007.

It is the Company's intent to establish GLPT, as an E-Commerce company within the Financial Products and Services Sector and as a subset; Continuing Education and Training. GLPT, predominantly through Proprietary Software and its trading methodologies and applications with the initial applications, (4X-DAT™), focus on foreign currency markets and trading of those markets.

Global Profit Technologies, Inc. initial emphasis and primary focus was in developing, marketing and managing proprietary trading technologies with the initial emphasis in the forex market. The Primary emphasis and initial focus is to leverage Mr. Nemeth's technologies, sales and marketing network and competencies into a self-sustaining organically grown international e-commerce company.

GLPT believes what Mr. Nemeth envisioned, proposed and is now implementing will be among the only trading software applications of its kind. 4X-DAT™ brings to any trader, an unparalleled solution designed to automate the trading activities in the forex markets. Until recently, the forex market was reserved only for the wealthiest companies and currency traders, requiring hundreds of millions of dollars in order to participate. Currency trading in the forex market is currently and has been historically, one the most lucrative capital propositions and possibly the most profitable business activity of the world's largest banks and financial institutions.

Recently, however, with the advent of, and convergence of new technologies, computers, communications, software development, the doors to this enormous market have become more and more accessible, even to the average individual. Today, it is possible for an average trader to open a trading account of only a few thousand dollars with a licensed foreign currency broker, and the profit potential of this Five-Trillion-dollar a day industry is within anyone's reach.

GLPT is targeting non-USA foreign exchange brokerages as well as institutional houses as potential customers to license its software.

On October 19, 2015, GLPT announced it has selected Automata FX, Ltd. as its brokerage of choice to offer the new platform and the two companies have formed a strategic licensing agreement.

Excerpts from this announcement include:

"We have a tremendous opportunity here, to advance the interests of both companies," said Joseph Nemeth, CEO & Chief Software Architect of Global Profit Technologies. "Automata FX will now have a unique offering through an exclusive licensing of our automated platform, which will position it as a very attractive option for an ever-growing market of Forex traders. GLPT will benefit by receiving technology licensing fees, while at the same time knowing that we are receiving the best possible trade execution for users of our technology," Nemeth added.

GLPT notes that Automata FX is a foreign brokerage and is not permitted to accept U.S. clients.

The result of this structure will be that GLPT will generate recurring cash flows from technology licensing fees primarily through its brokerage relationship with AutomataFX.

Results of Operations

The following should be read in conjunction with our financial statements and accompanying notes included in this Annual Report.

Revenues:

Net revenues increased by 473% in 2016 over 2015, increasing from \$38,289 to \$218,994. This increase is the result of technology licensing fees of the 4X-DAT™ software.

Gross Profits:

Gross profit increased 14% for 2016 over 2015, increasing from (\$1,358,088) to (\$1,168,952). This increase was attributed to increased revenues from technology licensing fees of the 4X-DAT™ software.

Selling, General, and Administrative Expenses:

Selling, general, and administrative expenses increased by 458% from \$23,974 in 2015 to \$133,736 in 2016. This increase was due to the increase in operations resulting from the technology licensing of the 4X-DAT™ software.

.

Net Loss

Net loss decreased by 7% during 2016 as compared to 2015, decreasing from a net loss of \$1,393,589 to a net loss of \$1,300,673. This decrease in loss occurred due to the technology licensing of the 4X-DAT™ software.

.

Liquidity and Capital

Resources

Cash and Cash Equivalents

At December 31, 2016, cash amounted to \$21,142 as compared to \$4,754 at December 31, 2015.

December 31, 2016 working capital deficit amounted to approximately \$631,954 as compared to a deficit working capital of \$717,747 at December 31, 2015. The decrease in working capital deficit was primarily due to the increase in unbilled revenues and unrealized gains in a foreign exchange trading account.

Off-Balance Sheet Arrangements

GLPT has no off-balance sheet arrangements.

Critical Accounting Policies

None.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Not applicable

Item 8. Financial Statements and Supplementary Data

The information required by this item is included in Item 15 of this Annual Report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures

None

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Management is responsible for establishing and maintaining disclosure controls and procedures that are designed to ensure accurate reporting. Lack of working capital has restricted GLPT's ability to report on a timely basis. Current evaluations of controls and procedures are underway to ensure that material information is presented in a timely fashion in the future.

Management Report on Internal Controls over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting. Due to lack of working capital, GLPT was restricted in being able to adequately hire personnel to implement segregation of duties and other risk mitigation systems. As resources become available, our management will begin the process of assessing the effectiveness of our internal control over financial reporting and implementing standard controls.

Item 9B. Other Information

Global Profit Technologies, Inc.
NOTES TO UNAUDITED FINANCIAL STATEMENTS

NOTE 1. GENERAL ORGANIZATION AND BUSINESS ISSUES

Global Profit Technologies, I c. [GLPT] is a publicly traded e-commerce company within the Financial Products & Services Sector and Continuing Education & Training segment of the financial community.

The company's business model is to license its software technology to non-USA users.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reporting amounts of revenues and expenses during the reported period. Actual results will differ from those estimates.

Fixed Assets

Software and the related Education and Training software are recorded at cost and will be amortized on a straight-line basis over their estimated lives beginning with the official software launch during the first quarter of 2014. Ongoing modifications are charged to expense as incurred. Significant modifications and betterments are capitalized. As of December 31, 2016, \$3,986,092 in total amortization expense has been recognized and expensed.

Treasury Stock

During 2010, GLPT agreed to purchase 288,000 shares at \$0.20 to \$0.25 per share. GLPT uses the cost method for recording these repurchase agreements.

Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements.

Recent Accounting Pronouncements

There are no recently issued accounting standards that are expected to have a material effect on our financial condition, results of operations or cash flows.

NOTE 3. INCOME TAXES

No income tax benefit has been recorded in the accompanying financial statements since the recoverability of such assets is not reasonably assured at this time.

Global Profit Technologies, Inc.
NOTES TO UNAUDITED FINANCIAL STATEMENTS

NOTE 4. COMMON CONTROL

Global Profit Holdings, Inc. and Global Profit Technologies, Inc. have common control interests by Jozef Nemeth.

NOTE 5. RELATED PARTY TRANSACTIONS

In December, 2015, Global Profit Technologies, Inc. and Joseph Nemeth entered into a debt-for-equity conversion agreement, whereby Joseph Nemeth exchanged \$1,200,000 in related party debt owed to him for 8,000,000 shares of common stock.

At December 31, 2016 and December 31, 2015, \$449,556, and \$498,863, respectively, remained payable to Mr. Nemeth.

NOTE 6. UNAUDITED FINANCIAL STATEMENTS

The financial statements presented are unaudited. The company believes that these financial statements present fairly, in all material respects, the financial position of GLPT and the results of its operations and cash flows for the periods presented in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The results of operations for the years ended December 31, 2016, 2015 and 2014 are not necessarily indicative of the future results.

NOTE 7. SUBSEQUENT EVENTS

There are no subsequent events to report.
