#### NOTE 1 - Organization and Basis of Presentation

Green Leaf Innovations Inc. formerly Gold Coast Mining Corp., a Florida corporation was originally incorporated in Delaware as T.J. Cinnamons, Inc. in December, 1985. In December 2001, management and the majority shareholders approved and effected a corporate reorganization, the principal feature of which was to transfer the Company's legal domicile from Delaware to Florida pursuant to an Agreement and Plan of Merger between the Company and its wholly-owned subsidiary, Raptor Investments, Inc., a Florida corporation, wherein the Florida corporation was the surviving corporation.

The Company has continuously operated as a management holding company since its inception. From 2002 to 2005 the Company operated a Florida wholesale produce company and an ecommerce subsidiary that pursued acquisitions in the online industry. Due to various factors, including four hurricanes in 2004 that severely interrupted business, the Company turned its wholesale produce operation over to its lenders. Former management and the Company's lenders have been engaged in a dispute over the settlement of the produce operations line of credit. In 2005 the lender accepted delivery of the produce company in exchange for a release of the debts associated with the produce operation. The dispute involves previous management and the previous lenders. Current management believes that a reasonable solution to these disputes can be achieved.

From 2005 until January, 2009, the Company focused its efforts on its online properties and operations, including Snap N' Sold (an eBay drop store chain) and Hot Web, Inc. (an online auction/classified network of websites). In 2008, Jason Cooper, a business consultant, became CEO of the Company and shifted its primary focus towards mining opportunities accessible to the Company.

In January, 2009, the Company sold its websites that resulted in the Company receiving 29,400,000 common shares of Max Media Group, Inc.

In February, 2009, the Company's Articles of Incorporation were amended to change the Company's name to Gold Coast Mining Corp.

In 2015, the Company's Articles of Incorporation were amended to change the Company's name to Green Leaf Innovations Inc.

## NOTES TO CONDENSED FINANCIAL STATEMENTS

March 31, 2015 (Unaudited)

From September 2009 to March 2011, the Company has pursued financing for several joint venture opportunities available to the Company. Additionally, management has been reviewing other opportunities in various industries in an effort to stay diversified and bring value to its shareholders.

In January 2011, the Company sold its 14, 570,431 shares of Max Media Group, Inc (“MXMP”) in a private transaction. The terms and purchase price of these shares included \$10,000.00 and assistance in bringing the Company’s financials and disclose filings current, as well as assistance with debt reduction.

In September 2011, the Company elected Marc Lovito as President of Gold Coast Mining. The main agenda of Mr. Lovito was to bring the Company’s financial disclosures current, work out a settlement of the litigation involving the Company’s previous lenders and to bring one of the Company’s potential mining projects to fruition.

Gold Coast Mining worked diligently to bring its financial filings and disclosures current on Pink Sheets. The Company has filed all delinquent reports and returned to CURRENT INFORMATION status on the Pink Sheet Tier system.

In December 2011, The Company began work with its mining partner to select and come to terms on one of the mining properties that will have the funding commitment and structure in place that is beneficial to its shareholders. The Company entered into several agreements with Western Sierra Mining (“WSRA”), including funding some exploration.

In July, 2015, a new CEO, Joseph Canouse, was appointed. Mr. Canouse is refocusing corporate strategy by building value of the Company’s website properties and a restructuring of liabilities/judgements.
