### **Item 6. Issuer's Business, Products And Services**

#### **A. Description of Operations**

Great Rock Development is a publicly traded research & development company. Current focus is on the development of technologies that assist mining companies to extract greater value in gold and platinum mining..

The Company has been researching and developing a proprietary Gold & Platinum Filter. The technology separates and filters Gold & Platinum down to an industry leading 10 microns in size. This 500% improvement transforms once valueless tailings into potentially valuable minerals.

While Great Rock works to commercialize the Filter prototype management is working on the development of new mineral claims and acquisition of proven Gold and or Platinum properties. Management it hopes to develop and mine in some cases in partnership with established development partners, utilizing our Imagen Filter to... Unearth More.

Previously, the Company has been developing a new lottery gaming platform and suite of associated applications. The Company hoped to launch this platform in the fall of 2016. With delays with its R&D partner on the project and management's optimism on its new gold & platinum extraction technology the Company is exploring the sale of this gaming platform to focus more efforts on its gold and platinum technology.

#### **Sources of Revenue**

Current focus is on the development of technologies that assist mining companies to extract greater value in gold and platinum mining.. Income is generated by the license of the technology. Management expects The technology to be

licensed on a profit sharing basis. With miners seeking greater production output, Great Rock anticipates the deployment of its technology to increase the mining extraction and profit. The extra profits generated from the technology would be shared with Great Rock. Additionally the Company will seek dormant claims that can be acquired inexpensively and attempt to find new value using its technology.
