NOTE 1. ORGANIZATION AND NATURE OF BUSINESS

Herborium, Inc., (the "Company") provides unique, natural and complementary healthcare related products to consumers and healthcare professionals seeking alternative answers to the management of healthcare issues not currently met by standard Western medicine. Its products are botanical supplements comprised of unique herbal formulations, referred to as botanical therapeutics, that have a record of clinical efficacy and safety established in China; however, these products have not been evaluated according to standards of clinical efficacy and safety applicable to pharmaceutical products sold in the United States and other countries, and because these products are herbal-based, they are not recognized as pharmaceuticals by the Food and Drug Administration (the "FDA"). The Company's business model is based on (i) owning and/or marketing unique products with established clinical history in their country of origin, and (ii) a proactive approach to meeting the regulatory changes and challenges of the new healthcare marketplace. Historically, substantially all of the Company's revenue has been derived from the sale of AcnEase through its corporate website.

Herborium, Inc., was incorporated in the State of Delaware on June 4, 2002, and was the surviving entity following a merger of G.O. International, Inc., a New Jersey corporation, with and into the Company effective June 6, 2002. On September 18, 2006, the Company was acquired by Pacific Magtron International Corporation, Inc. ("PMIC"), a publicly traded Nevada Corporation, pursuant to a Merger Agreement and PMIC's plan of reorganization in bankruptcy. The transaction was accomplished by the merger of a PMIC subsidiary into the Company, with the Company as the surviving corporation (the "Merger"). Under the provisions of the Merger Agreement and the plan of reorganization, the stockholders of the Company exchanged 100% of their common stock of the Company for 85% of the post-Merger PMIC common stock.

The Company's merger with PMIC was treated as a recapitalization with no purchase price allocation. In connection with the merger, PMIC changed its name to Herborium Group, Inc. and adopted the fiscal year of Herborium Group, Inc., which is November 30.

NOTE 2. BASIS OF ACCOUNTING AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Company's consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of business. The Company incurred a net loss of \$19,000 for the three months ended August 31, 2016 in comparison to net loss of \$16,100 for the same quarter ending August 31,2015. The Company had a working capital deficiency of \$101,600 and \$123,700 on August 31, 2016 and of August 31, 2015, respectively. Management is pursuing additional equity capital and debt financing in connection with the proposed acquisition of the AcnEase formula (See Note 4), as well as for general working capital purposes. However, there is no assurance that these efforts will be successful. Our ability to generate sufficient profits and obtain additional funding and pay off our obligations will determine our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Principles of consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Herborium, Inc. and Herborium.com, Inc. All significant intercompany accounts and transactions are eliminated in consolidation.

Cash and cash equivalents

The Company maintains its cash accounts in two commercial banks. The balance is insured by the Federal Deposit Insurance Corporation up to \$250,000 at each bank.

Inventory

Inventory, consisting of finished botanical therapeutic products, is stated the lower of cost or market and is valued on the first-in, first-out method. When net realizable value has fallen below cost, inventory is written down.

Shipping and handling costs

Shipping and handling costs associated with outbound product sold amounted to approximately \$18,900 for the three months ended August 31, 2016 and were charged to cost of sales.

Property and equipment

Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets ranging from five to seven years.

Maintenance and repairs are charged to expense when incurred. When property and equipment are retired or otherwise disposed of, the applicable cost and accumulated depreciation are removed from the accounts and any gain or loss is credited or charged directly to income.

Advertising and social Media

It is the Company's policy to expense advertising costs as they are incurred. Advertising and Social Media expenses amounted to approximately \$20,000 for the three months ended August 31, 2016.

Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes

Income tax expense includes current and deferred federal and state taxes arising from temporary differences between income for financial reporting and income tax purposes, as well as from the expected realization of net operating loss carry forwards. A valuation allowance is established when necessary to reduce deferred tax assets to the amounts expected to be realized.

Revenues

The Company recognizes revenue when inventory is shipped to its customers and collectability is reasonably assured for sales made on account.

Allowance for doubtful accounts

The Company makes judgments as to its ability to collect outstanding trade receivables and provides allowances, if deemed necessary, for the portion of receivables when collection becomes doubtful. Provisions are made based upon a specific review of all significant outstanding invoices.

Recent accounting pronouncements

There are no recently issued accounting standards that we expect to have a material effect on our financial condition, results of operations or cash flows.

NOTE 3. OTHER ASSETS

Other assets consist of as of August 31, 2015:

Intellectual property	\$ 20,000	
Deferred consulting fees	139,000	
Trademarks	52,100	
Other	3,000

Less: accumulated amortization	(176,500)	
	\$ 38,500	

Amortization expense amounted to \$1,500 for the three months ended August 31, 2016.

NOTE 4. MAJOR SUPPLIER

Since commencing sales of its principal product, AcnEase, the Company has purchased all of the product sold, and held in inventory as of August 31, 2016, from AH USA, a USA -based business entity owned by the individual who is the inventor and sole owner of AcnEase, an acne product. The Company is party to a licensing agreement with AH USA under which the Company, as licensee, is the exclusive worldwide distributor of AcnEase.

On January 10, 2008, the Company and the individual owning the intellectual property rights related to AcnEase (the "Seller") entered into a Purchase Agreement ("Agreement") for the acquisition of all rights related to AcnEase, including the formulation thereof, all sourcing information, extraction procedures, manufacturing and packaging information as well as all related clinical and testing information and trade secrets. Consideration will consist of aggregate cash payments of \$500,000 and issuances of 5,428,354 shares of common stock. In accordance with the Agreement, 3,500,000 shares of the Company's common stock having a value of \$19,000 were issued to Seller following the Agreement's signing. Upon obtaining sufficient financing to complete the purchase of the rights related to AcnEase, and provide sufficient working capital to expand the business following such purchase, the Company will make an initial payment of \$450,000 to the Seller in return for all the aforementioned information regarding the acne product. There is no date by which time the Company is required to obtain financing; however, the Agreement has been extended in perpetuity. The remaining portions of the purchase price, \$50,000 cash and 1,928,000 shares of common stock, will be held in escrow and released when certain conditions are met, principally the successful manufacturing of the acne product on a commercial scale. The aforementioned shares of common stock held in escrow have not been issued as of August 31, 2016, nor has the cash been escrowed.

The Agreement also requires the Company to purchase on an as-needed basis at a negotiated price any inventory of the acne product in the possession of the Seller at the time that the Company has the ability to manufacture the product.

NOTE 5. CONVERTIBLE NOTES PAYABLE

Through November 2008, pursuant to a private offering (the "Offering") the Company sold Units of its securities consisting of an aggregate \$450,000 in principal amount of its Convertible Notes (the "Notes"), 450,000 shares of its common stock and warrants (the "Warrants") exercisable for 900,000 shares of common stock. In accordance with ETIF 00-27: Application of Issue No. 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios to Certain Convertible Instruments", the Company allocated certain amounts to the fair value of the shares of common stock and warrants to purchase common stock included in each Unit, as well as the 20% conversion discount applicable in certain circumstances. Based on this allocation, the indicated fair value of each Note (face value - \$50,000) amounts to \$48,000. The resulting discount of \$2,000 is attributable to a warrant value of \$2,000 and a common stock value of \$1,000.

The Warrants are exercisable for a period of five years from issuance. 50% of the Warrants are exercisable at \$.025 per share and 50% are exercisable at \$.05 per share, subject to certain adjustments, including, but not limited to, adjustments for stock splits, stock dividends, mergers and consolidations.

The Notes are convertible, beginning twelve months after issuance or, if earlier, the closing of a qualified financing or an acquisition of the Company, into shares of common stock in whole or in part from time to time at the option of the investors at a Conversion Price equal to \$.025 or 80% of the issuance price in a qualified financing or in connection with an acquisition of the Company.
