NOTE 1 – NATURE OF OPERATIONS AND ORGANIZATION

History of Organization

Here To Serve Holding Corp. f/k/a F3 Technologies, Inc. (the “Company” or “Here To Serve”) was incorporated in the State of Delaware as New Ithaca Corporation on September 22, 1983. In 2006, under the direction of Mr. Frank Connor, the Company operating as F3 Technologies began trading on the OTC Market Exchange under the symbol FTCH. Over the next several years, the Company consulted in the software development industry.

In September of 2013, the Company’s board resolved to make a change in management and appointed a new CEO and Director of the Company.

Under the new CEO’s direction, the Company began operating as Here To Serve Holding Corp. and repositioned itself into two growth potential industries, waste management and software development. This was done by creating three separate Limited Liability Companies; Here to Serve Missouri Waste Division, LLC (“HTSMWD”), a Missouri Limited Liability Company, Here To Serve Technology Division, LLC (“HTST”), a Georgia Limited Liability Company and Here To Serve Georgia Waste Division, LLC (“HTSGWD”), a Georgia Limited Liability Company.

In 2014, HTSMWD purchased the assets of a solid waste disposal company in the St. Louis, MO market. This acquisition was intended to create the platform company for future acquisitions in the solid waste disposal industry. HTSGWD was created to facilitate expansion in this industry throughout the Southeast.

The merger of the Company and Meridian Waste Services, LLC became effective May 15, 2014. The merger was accounted for by the Company using business combination accounting. Under this method, the purchase price paid by the acquirer is allocated to the assets acquired and liabilities assumed as of the acquisition date based on the fair value. By the application of “push-down” accounting, our assets, liabilities and equity were accordingly adjusted to fair value on May 15, 2014. Determining the fair value of certain assets and liabilities assumed is judgmental in nature and often involves the use of significant estimates and assumptions.

For further discussion of this merger, see *Explanation of Membership Interest Purchase Agreement* below.

Explanation of Membership Interest Purchase Agreement

On October 17, 2014, (the “Execution Date”), Meridian Waste Solutions, Inc. (MWSI) entered into that certain Membership Interest Purchase Agreement (the “Purchase Agreement”) by and among Here to Serve Holding Corp., a Delaware corporation, as seller (“Here to Serve”), MWSI, as parent, Brooklyn Cheesecake & Dessert Acquisition Corp., a wholly-owned subsidiary of MWSI, as buyer (the “Acquisition Corp.”), the Chief Executive Officer of

As further consideration, at the closing of the transaction contemplated under the Purchase Agreement, (i) in satisfaction of all accounts payable and shareholder loans, Here to Serve will pay to MWSI Majority Shareholder \$70,000 and (ii) MWSI purchased from the then Company Majority Shareholder 230,000 shares of the MWSI’s common stock for a purchase price of \$230,000. Pursuant to the Purchase Agreement, to the extent Purchase Price Shares are issued to individual shareholders of Here to Serve at or upon closing of the Purchase Agreement: (i) shares of common stock of Here to Serve held by the individuals will be cancelled (ii) 1,000,000 shares of Here to Serve’s Class A Preferred Stock will be cancelled; and (iii) 71,120 shares of Here to Serve’s Class B Preferred Stock will be cancelled (the “Additional Consideration”).

On October 17, 2014, the directors and majority shareholders of MWSI approved the Purchase Agreement and the transactions contemplated under the Purchase Agreement. The directors of Here to Serve and the Here to Serve Shareholders approved the Purchase Agreement and the transactions contemplated thereunder. This closing of the Purchase Agreement results in a change of control of the MWSI and the MWSI changed its business plan to that of HTSMWD.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America ("GAAP" accounting). The Company has adopted a September 30 fiscal year end.

Basis of Consolidation

The consolidated financial statements for the period ending March 31, 2016 include only the operations of the Company and there is no consolidation. All consolidating subsidiaries were disposed of in the transaction with Brooklyn Cheesecake and Dessert Company, Inc. discussed in Note 1 above.

Cash and Cash Equivalents

Here To Serve Holding Corp considers all highly liquid investments with maturities of three months or less to be cash equivalents.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts payable, other liabilities, accrued interest, notes payable, and an amount due to a related party. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these consolidated financial statements.

Impairment of long-lived assets

The Company periodically reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be fully recoverable. The Company recognizes an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset. The amount of impairment is measured as the difference between the asset's estimated fair value and its book value. During the nine months ending June 30, 2016, the Company experienced no losses due to impairment.

Investment

The Company has an investment in a publicly held corporation in the waste management industry. The investment is restricted for more than one year, therefore this investment is recorded using the cost method of accounting. The Company monitors this investment for impairment and makes appropriate reductions in the carrying value if the Company determines that an impairment charge is required based primarily on the financial condition and near-term prospect of this entity.

These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that based on available evidence, which are not expected to be realized.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company recognizes revenue when there is persuasive evidence of that an arrangement exists, the revenue is fixed or determinable, the products are fully delivered or services have been provided and collection is reasonably assured.

Concentration of Credit Risks

The Company maintains its cash and cash equivalents in bank deposit accounts, which could, at times, exceed federally insured limits. The Company has not experienced any losses in such accounts; however, amounts in excess of the federally insured limit may be at risk if the bank experiences financial difficulties.

Basic Income (Loss) Per Share

Basic income (loss) per share is calculated by dividing the Company's net loss applicable to common shareholders by the weighted average number of common shares during the period. A diluted earnings per share is calculated by dividing the Company's net income available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. At June 30, 2016 and September 30, 2015 the Company had a series of convertible notes outstanding that could be converted into approximately 9,200,000 and 6,099,883 common shares, respectively. These are not presented in the statement of operations since the company incurred a loss and the effect of these shares is anti- dilutive.

These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.
