**iBrands Corporation**  
**Notes to the Financial Statements**

**NOTE 1      Nature of Operations**

The company was organized in the state of Nevada on September 7, 1994. On January 22, 1998, a merger was effected between Kenneth C. Garcia, Inc. and the company. On March 2, 2000, the company exchanged shares with MAS Acquisition XIV Corp. ("MAS"), a reporting company under the Securities Exchange Act of 1934. As a result, the company became the parent company to MAS, its whollyowned subsidiary. On July 6, 2000, Sterile-Pro, Inc. was merged into the company. On February 16, 2004, the company, for financial accounting purposes was acquired by Ragin' Ribs, Inc. in a transaction treated as a recapitalization of RRI. On December 6, 2005, the company filed a Form 15-12G with the Securities and Exchange Commission, voluntarily terminating the registration of our common shares and suspending the filings of certain reports under Sections 13(a) and 15(d) of the Securities Exchange of 1934, as amended, including reports on 10K, 10Q and 8K. On June 1, 2006, the company sold Ragin' Ribs to a third party and acquired Virtuoso Medspa, Inc. Subsequently, the company changed its name on August 1, 2006 to Medspas of America, Inc. On March 16, 2009, the Company changed its name to iBrands Corporation reflecting its acquisition of iMenu24/7 and I Software, Inc. that own and operate a proprietary Internet software platform providing online ordering for the restaurant industry. On March 24, 2014, the company acquired Hatchbrands Ventures, Inc. as a wholly-owned subsidiary. On August 1, 2013, the company redomiciled to Wyoming with corresponding amendments to its Articles of Incorporation.

**NOTE 2                                      Summary of Significant Accounting Policies**

**Basis of Presentation**

These financial statements are presented in United States dollars and have been prepared in accordance with generally accepted accounting principles in the United States of America. The Company has adopted a December 31 fiscal year end. The financial statements for September 30, 2016 are prepared internally by management and have neither been audited or reviewed by an outside accounting firm.

**Fair Value of Financial Instruments**

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC ("ASC 820-10"), fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Pursuant to ASC 825, the fair value of cash and marketable securities is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. The Company believes that the recorded

values of cash, accounts receivables, marketable securities, accounts payable and accrued liabilities, and notes payable approximate their current fair values because of their nature and respective relatively short maturity dates or durations.

#### Cash and Cash Equivalents

Cash and cash equivalents consist of cash and short-term investments with original maturities of less than 90 days. Cash equivalents are placed with high credit quality financial institutions and are primarily in money market funds. The carrying value of those investments approximates fair value.

#### Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment. Deferred income taxes are reported for timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes in accordance with FASB ASC 740-10, "Income Taxes," which requires the use of the asset/liability method of accounting for income taxes.

The Company provides for deferred taxes for the estimated future tax effects attributable to temporary differences and carryforwards when realization is more likely than not.

#### Revenue Recognition

The Company recognizes revenues and the related costs when persuasive evidence of an arrangement exists, delivery and acceptance has occurred or service has been rendered, the price is fixed or determinable, and collection of the resulting receivable is reasonably assured. Amounts invoiced or collected in advance of product delivery or providing services are recorded as deferred revenue. The Company accrues for sales returns, bad debts, and other allowances based on its historical experience.

#### Deferred Financing Costs

Deferred financing costs consist of costs incurred to obtain debt financing, including legal fees, origination fees and administration fees. Costs associated with the Convertible Promissory Note are deferred and amortized in our accompanying statement of operations using the straight-line method, which approximates the effective interest method, over the terms of the respective financing instrument.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. These estimates and judgments are based on historical information, information that is currently available to the Company, and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could differ from those estimates.

#### Recent Accounting Pronouncements

In February 2013, the FASB issued authoritative guidance on the reporting of reclassifications out of accumulated other comprehensive income. The guidance requires an entity to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated

other comprehensive income by the respective line items of net income if the amount is reclassified to net income in its entirety in the same reporting period. The guidance is effective for fiscal years beginning after December 15, 2012, with early adoption permitted. The adoption of this guidance did not have a material effect on the Company's financial condition, results of operations or cash flows.

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position, or cash flow.

#### NOTE 3      Accrued Interest

The company accrues interest at a rate of 8% annually regarding the Debenture and Long Term Notes

Payable described in Note 4.

#### NOTE 4              Short and Long Term Liabilities

The company entered into an 8% Series A Convertible Redeemable Debenture dated August 5, 2000 amended on July 31, 2005, amended on January 24, 2006 and amended on May 18, 2006. The company has been funded by certain entities who are shareholders. The company reflects this funding in the form of Long Term Notes Payable. One entity sold their Long Term Note to a non-affiliate third party on May 29, 2014.

#### NOTE 5              Share Structure

##### Common Stock

We are authorized to issue 30,000,000,000 shares of common stock, par value \$0.00001. As of March 31, 2017, we had 15,401,527,624 shares of common stock issued and outstanding, held by 395 shareholders. Of those 15,401,527,624 shares of common stock, 2,844,700,044 were free trading.

##### Preferred Stock

We are authorized to issue 20,000,000 shares of preferred stock, par value \$0.00001, the rights, privileges, and preferences of which may be set by the Board of Directors without further shareholder approval.

As of March 31, 2017, we had 39,260 shares of Series A Preferred Stock issued or outstanding held by 47 shareholders, 5,000,000 shares of Series B Convertible Preferred Stock issued or outstanding held by one shareholder, and no shares of Series C Preferred Stock issued or outstanding.
