Item VI: Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. a description of the issuer's business operations;

INSCOR, Inc. specializes in providing significant funding solutions utilizing high cash- value life insurance contracts combined with low-cost financing. The Company's solutions are tailored to municipalities, other government entities and corporations, as a low-cost solution to funding retiree and other employee benefits. In addition, INSCOR markets a variation of the plan to affluent individuals as well.

Today, many retiree health care and Other Post-Employment Benefits (OPEB) plans, especially those run by governmental entities, remain largely unfunded, due to the financial crisis. In the past, accounting rules enabled municipalities to use "pay as you go" accounting. However, with the advent of GASB 45 accounting rules, it has been revealed that unfunded liabilities are in excess of $1.5 trillion, among the 67,000 state, and local governments, and agencies.

Unfortunately, this situation leaves governments in a major bind as there are no real, practical and low-cost, existing options to fund these liabilities. After all, cities and counties have had their ratings slashed, budgets cut to the bone and some have even filed for bankruptcy protection. As a result, attempts to raise taxes, further cuts in spending in already reduced budgets, or floating bonds are non-starters.

Separately, the current financial morass has led to many stories in the press regarding the financial difficulties of entertainers and professional athletes. These stories highlight the need for affluent individuals seeking solutions for estate planning or funding cash flow needs to engage in innovative strategies today, even if one is not in financial distress.

The *FIT OPEB* Model

Management has spent more than 2 years educating and marketing its *FIT OPEB* solution to governmental leaders across the country. With so many municipalities in distress, INSCOR has elected to focus its energies on higher rated (by Moody's, S&P and Fitch ratings services) municipalities, as these entities can enjoy the greatest benefit and INSCOR's execution capabilities are highest.

The innovative Financed Insurance Trust OPEB plan, or *FIT OPEB* plan, is a customizable solution which combines the procurement of specifically designed life insurance on active employees using funds borrowed from the financial sector or bond issuance and secured by the insurance policies themselves.

Life insurance, which in large measure has been successfully used by corporations and banks for years, is modeled in coordination with the financing to provide an income stream from policy proceeds of predictable employee mortality and yearly distributions from policy cash values. As a result, a *FIT OPEB* plan can provide a cash stream to help support yearly other cash flow obligations, plus fund future cash flow and OPEB liabilities with reduced spending increases or tax increases and with fewer cuts in benefits.

Premium Matching variation of the *FIT strategy*

For those entities that want the benefits of a FIT OPEB plan, but wish to avoid incurring the additional debt that is reflected on balance sheets, Premium Matching is a solution. Prearranged lending terms are in place with banks to make low-interest loans to a third party trust instead of loaning to the municipality. Every $1.00 paid by the municipality toward the life insurance is matched by an additional $2.70 (approximate amount) into the life insurance from the trust spread-out over 10 years. The trust carries, administers and eventually retires the loan using a portion of the increased cash growth in the policies from the additional matching funds. As result, cash flow potential is nearly doubled versus plans that employ no financing.

It should be noted that with interest rates at historical lows, highly rated municipalities that implement the *FIT* strategies now are also able to benefit from incredibly low initial costs.

As part of the marketing and execution of INSCOR's *FIT OPEB* plan, the Company engaged Actuarial Risk Management, Ltd ("ARM") to conduct independent, comparative, actuarial analysis of its flagship solution, FIT OPEB. With the tools and evaluation services provided by ARM, government officials can avail themselves with critical, independent insight into the benefits of implementing a FIT OPEB strategy. In addition, INSCOR anticipates that the resulting analysis will go beyond just providing independent verification supporting governmental use of *FIT OPEB* plans. Analysis also provides governments with back-tested comparisons of other options and information helpful in making informed decisions.

The *FIT Plan* and *Premium Matching* variations for Business Owners. Professionals, Key Executives and affluent individuals

The FIT Plan and Premium Matching financing variations apply especially well within this market. The plans gain additional leverage from the inherent tax benefits of life insurance— tax deferred cash accumulation and tax-free distributions that can be especially meaningful to successful businesses and professionals. The strategies again use a combination of favorable financing terms and innovative uses of specific life insurance products and trusts - all of which result in minimum levels of out-of-pocket costs in producing the potential for significant cash flow opportunities.

On the financing side, INSCOR management has significant capabilities and relationships in which to execute financing for municipalities, corporations, professionals and affluent individuals. It should be noted that premium financing loans are considered among the safest in the industry since they are backed by the guaranteed liquidity of life insurance cash values and the strength and reputation of the life insurance companies. The security of these loans, when coupled with the current low interest rate environment, results in lending terms that are extremely favorable. Loan rates are typically LIBOR plus 1.5-2%, depending on plan design, the cash value of the life insurance provides the bulk, if not all, of the collateral on the loan.

INSCOR INC.
NOTES TO UNAUDITED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2015
AND THE YEAR ENDED DECEMBER 31, 2014

NOTE 1- GOING CONCERN

The financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses. The ability to continue as a going concern is dependent upon the Company's ability to obtain the necessary capital to fund operations and expansion.

NOTE 2 - SUMMARY OF SIGNIFCANT ACCOUNTING POLICIES

Basis of Presentation

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America ("GAAP" accounting) are the financial statements are presented in US dollars. The Company has adopted a December 31 fiscal year end.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of assets requires management to make estimates and assumptions that affect the reported amounts and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and the expenses during the reporting period. Actual results could differ from those estimates.

Financial Instruments

The carrying value of the Company's financial instruments approximates their fair value because of the short maturity of these instruments.

Income Taxes

Income taxes are accounted for under the assets and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. Use of net operating loss carry forwards for income tax purposes may be limited by Internal Revenue Code section 382 if a change of ownership occurs.

Basic Income (Loss) Per Share

Basic income (loss) per share is calculated by dividing the Company's net loss applicable to common shareholders by the weighted average number of common shares during the period. Diluted earnings per share is calculated by dividing the Company's net income available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. There are no such common stock equivalents outstanding as of June 30, 2015

Dividends

The Company has not adopted any policy regarding payment of dividends. No dividends have been paid during any of the periods shown.

Impairment of Long-Lived Assets

The Company continually monitors events and changes in circumstances that could indicate carrying amounts of long- lived assets may not be recoverable. When such events or changes in circumstances are present, the Company assesses the recoverability of long-lived assets by determining whether the carrying value of such assets will be recovered through undiscounted expected future cash flows. If the total of the future cash flows is less than the carrying amount of those assets, the Company recognizes an impairment loss based on the excess of the carrying amount over the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Advertising Costs

The Company's policy regarding advertising is to expense advertising when incurred.

Revenue Recognition

The Company recognizes revenue when products are fully delivered or services have been provided and collection is reasonably assured.

Stock-Based Compensation

Stock---based compensation is accounted for at fair value in accordance with SFAS No. 123 and 123 (R) (ASC 718) to date, the Company has not adopted a stock option plan and has not granted any stock options.

New Authoritative Accounting Guidance

The FASB issued ASU 2014-15 on August 27, 2014, providing guidance on determining when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if "conditions or events raise substantial doubt about [the] entity's ability to continue as a going concern." The ASU applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted.

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations

NOTE 3 – MATERIAL EXCHANGE AGREEMENT

During the nine months ended September 30, 2015, on March 20, 2015, the Company entered into an exchange agreement with Zion Capital Ventures wherein the Company agreed to exchange 28,000,000 shares of Series A Preferred (equaling 700,000,000 shares of common stock) for $700,000,000 in investment grade bonds. Zion Capital Ventures will receive the 28,000,000 shares of Series A Preferred Stock and Inscor, Inc. will receive the $700,000,000 in investment grade bonds. It has further been agreed to that the exchange will take place over a period of several months and will be done in tranches of $100,000,000 worth of investment grade bonds for 4,000,000 shares of Series A Preferred at a time until the total of the $700,000,000 in investment grade bonds is exchanged for all 28,000,000 shares of preferred stock.

The Investment grade bonds will be used as collateral by the Company to secure a large amount of long term financing to advance its insurance marketing plan. As of June 30, 2015, no stock has been exchanged for any of the investment grade bonds.

NOTE 4 – PREPAID EXPENSE

During the year ended December 31, 2013, the Company issued 100,000,000 shares of common stock for commission expense that will be earned over a five year period. The Company originally valued these shares at $40 million based on the stock price as of the date of issuance and recorded the amount as a prepaid expense be amortized over five years. The Company has subsequently cancelled 75,000,000 of these shares during the year ended December 31, 2014. The Company amortized $2,000,000 a quarter to account for the cost of the shares issued. The Company amortized a total of $10,000,000 which is the value of the remaining 25,000,000 shares (the portion that was not cancelled). The value of the cancelled shares is $30,000,000 and the Company reduced prepaid expense in that amount. Also, in the year ended December 31, 2014, the company granted 25,000,000 shares for services. The value of the grant is $5,000,000 which will be amortized over five years. The quarterly amortization for this amount is $250,000 which was recorded as an expense in the quarter ended September 30, 2014, and in the quarter ending December 31, 2014, reducing the prepaid expense balance to $4,500,000 as of December 31, 2014. An additional $500,000 was amortized in the six month period ending June 30, 2015, which brings the prepaid balance down to $4,000,000.

NOTE 5 – ACCRUED INTEREST

During the year ended December 31, 2014, the Company borrowed $560,000 and issued notes payable in the same amount. During the year ended December 31, 2014, the Company accrued interest in the amount of $44,345 on the notes payable of $560,000.
