JNS Holdings Corporation
Notes to Consolidated Financial Statements
March 31, 2016

Note 1 Interim Reporting

The information presented in the accompanying consolidated interim three-month financial statements is unaudited. In the opinion of management, the accompanying consolidated interim three-month financial statements reflect all adjustments necessary to present fairly our financial position at March 31, 2016, results of operations and cash flows for the three months ending March 31, 2016. All such adjustments are of a normal recurring nature. In preparing the accompanying financial statements, management has made certain estimates and assumptions that affect reported amounts in the financial statements and disclosures of contingencies. Actual results may differ from those estimates. The results for interim periods are not necessarily indicative of annual results. These consolidated interim three-month financial statements follow the same accounting policies and methods of their application as JNS Holdings Corporation ("the Company's") December 31, 2015 unaudited interim financial statements. Accordingly, these financial statements should be read in conjunction with the March 31, 2016 unaudited interim financial statements of the Company.

Note 2 - Business Description

Business

JNS Holdings Corporation. ("The Company") was incorporated under the name Kid Rom, Inc under the laws of the State of Delaware on September 13, 1994. In February 2012 the company changed its name to JNS Holdings Corporation. JNS Holdings Corporation, through its subsidiaries, operates as an owner/operator of electric vehicle (EV) charging stations throughout the Chicagoland area, as well as an electrical contractor in the United States. The company is based in Wheeling, Illinois. JNS Holdings Corporation operates through its subsidiaries JNS Power & Control Systems, Inc., S&H Leasing, Inc. and Evolve USA Charging Corp. specializing in (EV) charging station installations, temperature control installations & all types of specialty electrical work including owning and operating electric vehicle ("EV") charging stations throughout the greater Chicago area.

Note 3 – Significant accounting policies

These interim financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

Use of Estimates

The preparation of the financial statements in conformity with Generally Accepted Accounting Principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

Cash

We consider all short-term highly liquid investments with an original maturity at the date of purchase of three months or less to be cash equivalents.

Income Taxes

We use the asset and liability method of accounting for income taxes in accordance with ASC Topic 740, "Income Taxes." Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year and (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity's financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if based on the weight of the available positive and negative evidence, it is more likely than not some portion or all of the deferred tax assets will not be realized.

ASC Topic 740.10.30 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740.10.40 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. We have no material uncertain tax positions for any of the reporting periods presented.

Note 4 –Acquisitions

JNS Holdings Corporation subsidiary JNS Power & Control Systems, Inc. ("JNS Power") has received a favorable ruling in its lawsuit against 350 Green, LLC ("350 Green") for enforcement of an Asset Purchase Agreement with 350 Green. Under the terms of the Asset Purchase Agreement, 350 Green, an owner and operator of electric vehicle ("EV") charging stations throughout the country, contracted to deliver to JNS Power its chargers and license agreements with property owners, all of which are located in the Chicagoland area. On September 24, 2013, the U.S. District Court for the Northern District of Illinois, Judge Elaine Bucklo issued a ruling ordering 350 Green to deliver the chargers and licenses as contracted in the Asset Purchase Agreement.
