LIBERTY INTERNATIONAL HOLDING CORPORATION
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENT
DECEMBER 31, 2020

Note 1 – Organization and Description of Business

Liberty International Holding Corporation, a Colorado corporation ("LIHC" or the "Company"). The Company was registered in the state of Florida in June 1997, and was re-instated in Florida on January 22, 2021. On March 18, 2021 the Company was re-domiciled to the state of Colorado.

On January 11, 2021 the Company added a Convertible Preferred B series of stock. The Convertible Preferred B stock has 10,000,000 authorized shares at $0.0001 par value. Each share of Series B stock shall be convertible, at the option of the holder, into 4 times the sum of all shares of Common Stock outstanding and all other preferred shares outstanding, divided by the outstanding number of shares of Series B Stock

On December 15, 2020, the 11th Judicial Circuit Court in Miami-Dade County, Florida entered an order appointing Small Cap Compliance, LLC, as custodian for LIHC. On December 16, 2020, Rhonda Keaveney was appointed as interim officer and director. On January 8, 2021, for their services Small Cap Compliance was issued 7,716,216 Preferred A shares and 1 Preferred B share. Those shares were subsequently sold to Supplement Group. On January, 8, 2021, Rhonda Keaveney resigned as the Company's CEO, Treasurer, Secretary, and Director and appointed David Lovatt as its CEO, Treasurer, Secretary, and Director and Leonard K. Armenta Jr. as its president.

On March 23, 2021 the Company amended its articles of incorporation to change its name to Performance Drink Group, Inc.

The Company has elected December 31 as its year end.

Note 2 – Going Concern

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not established any source of revenue to cover its operating costs. These conditions raise substantial doubt about the company's ability to continue as a going concern Company will engage in very limited activities without incurring any liabilities that must be satisfied in cash until a source of funding is secured. The Company will offer noncash consideration and seek equity lines as a means of financing its operations. If the Company is unable to obtain revenue producing contracts or financing or if the revenue or financing it does obtain is insufficient to cover any operating losses it may incur, it may substantially curtail or terminate its operations or seek other business opportunities through strategic alliances, acquisitions or other arrangements that may dilute the interests of existing stockholders.

Note 3 – Summary of Significant Accounting Policies

Basis of Presentation

The Financial Statements and related disclosures have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). The Financial Statements have been prepared using the accrual basis of accounting in accordance with Generally Accepted Accounting Principles ("GAAP") of the United States (See Note 2) regarding the assumption that the Company is a "going concern".

LIBERTY INTERNATIONAL HOLDING CORPORATION
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENT
DECEMBER 31, 2020

Development Stage Company
The Company is a development stage company as defined by section 915-10-20 of the FASB Accounting Standards Codification. The Company is still devoting substantially all of its efforts on establishing the business. Its planned principal operations have not commenced.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In the opinion of management, all adjustments necessary in order to make the financial statements not misleading have been included. Actual results could differ from those estimates.

Cash Equivalents

The Company considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents. Consolidated cash and cash equivalents at June 30, 2020 and June 30, 2019 was $0. The Company considers all highly liquid investments with maturities of three months or less to be cash equivalents.

Income Taxes

The Company accounts for income taxes under ASC 740 "Income Taxes." Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

Basic Earnings (Loss) Per Share

The Company computes basic and diluted earnings per share amounts in accordance with ASC Topic 260, Earnings per Share. Basic earnings per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding during the reporting period. Diluted earnings per share reflects the potential dilution that could occur if stock options and other commitments to issue common stock were exercised or equity awards vest resulting in the issuance of common stock that could share in the earnings of the Company.

Fair Value of Financial Instruments

The Company's balance sheet includes certain financial instruments. The carrying amounts of current assets and current liabilities approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization.

The Company follows FASB Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" which defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of June 30, 2020 and June 30, 2019. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include accounts receivable, other current assets, accounts payable, accrued compensation and accrued expenses. The fair value of the Company's notes payable is estimated based on current rates that would be available for debt of similar terms which is not significantly different from its stated value.

Share Based Expenses

ASC 718 "Compensation – Stock Compensation" prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, "*Equity – Based Payments to Non-Employees."* Measurement of share-based payment transactions with non-employees is based on the fair

value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

Related Parties

The Company follows ASC 850, Related Party Disclosures, for the identification of related parties and disclosure of related party transactions.

Recently Issued Accounting Pronouncements

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the *FASB Accounting Standards Codification*™ ("ASC") is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company.

We have reviewed the FASB issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.
