McCusker & Company Inc. Board of Directors

ACCOUNTANT'S COMPILATION REPORT

I have compiled the accompanying statement of Balance Sheet for McCusker & Company Inc. (an S-Corporation) as of December 31, 2015, and the related Statement of Revenues and Expenses for the year then ended in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management (owners). I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them. However, I did become aware of a departure from general accepted accounting principles that is described in the following paragraph.

Generally accepted accounting principles require that fixed assets be depreciated over their estimated useful lives. The Company has computed depreciation on several fixed assets in accordance with the Modified Accelerated Cost Recovery System required for federal income tax purposes, which does not allocate depreciation to expense over the estimated useful lives of the assets. The effects of this departure from generally accepted accounting principles have not been determined.

Management has elected to omit substantially all of the disclosures and the statement of cash flows required by generally accepted accounting principles. If the omitted disclosures and statement were included in the financial statements, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

I am not independent with respect to McCusker & Company Inc.
