D. The issuer's fiscal year end date;

December 31

E. Principal products or services, and their markets;

Ultrack Systems, Inc. - We help our clients locate, track and manage their assets using today's leading edge wireless and GPS based technologies. This means we are able to provide an accurate and affordable means of tracking moving assets. Ultrack Systems, Inc., GPS information is also useful to officials in cities where certain vehicles are not allowed in areas at specific times or days because of mass congestion. The software operator will be notified by setting up an electronic boundary or what we call a geo-fence. Those vehicles within the fence at restricted times can then be easily pointed out and fined accordingly from the comfort of the administrator's chair. A great way in keeping all vehicles obeying rules, raising money for the city and keeping congestion under control. Police or other traffic authorities can focus on other types of violators making them more effective and using less man power.

Our compact trackers, and our easy to use tracking software allow us to monitor or track any asset virtually anywhere in the world. This kind of application results in improved security, productivity, and customer service that surpasses our competition. Monitor your driver's routes and location at all times. Streamline their paths to maximize driving time and fuel consumption. Each vehicle outfitted with a unit can be seen from our virtual map platform. Vehicles outfitted with a unit will appear as a code on our screen. By clicking on the vehicle you wish to see, it will show you the path that it travelled and current location. Click on the additional screen that gives you a more detailed report referencing idling time, kilometers travelled, speed, braking and much more. It is like being a fly on the wall and seeing everything. Managing a fleet of 10 or a 1000 vehicles becomes easy, efficient and effortless. This tool is useful in determining the quality of driver you have behind the wheel and who is an asset or a liability to the company.
