D. Financial Notes

Note 1 – Organization, History and Business Activity

Nouveau Holdings, Ltd (NHLI) is a Nevada corporation, first incorporated on March 16, 1987 under the name “First American Railways, Inc.”. Over the years its name has changed various times. In September 2007 the Company name was changed to “Spectrum Acquisition Holdings, Inc.”. The Company's name was changed again in March 2013. The Company's current name is Nouveau Holdings, Ltd (NHLI)

In April 2008 the Company performed a triangular reverse merger with Western American Mining Company the majority shareholder and WAMC Cloud, Inc. At this time the combined company name was changed to Spectrum Acquisition Holdings, Inc.

Prior to the merger the company was named Western American Mining Company and its common stock traded on the pink sheets under the symbol WAMC.

Goodwill was recorded, no other adjustment in basis of assets is recorded, the shares of the legal surviving entity, are treated as issued as of the date of the transaction, and the shares held by the controlling shareholders after the transaction, are treated as outstanding for the entirety of the reporting periods.

On September 24, 2010, Spectrum Acquisition Holdings, Inc. purchased one hundred per cent of the membership interests of Avalon Perspectives LTD, LLC. The basis in assets were adjusted to fair value at the time of purchase. No Goodwill was recorded. The Company returned the claim to the previous owners in the last quarter of 2012.

In March 2013 the company changed its name to Nouveau Holdings, Inc.

The Company is currently in the process of performing product raising equity capital and seeking acquisition candidates to accomplish its growth strategies. The Company intends to conduct business in mining service industry with a focus on green technologies that create the smallest ecological footprint possible.

Basis of Consolidation

The consolidated financial statements include the accounts of Nouveau Holdings, Ltd .

Development Stage Activities

The Company is a development stage company. The Company is devoting substantially all of its present efforts in securing and establishing a new business, and although planned operations have commenced, no revenues have been realized.

The Company is subject to many risks associated with early-stage businesses in the mining industry, including its ability to raise capital, reliance on key persons, and uncertainties surrounding market acceptance of the Company's products.

To date the Company has experienced losses from its operations and anticipates that it will require additional capital resources, including the net proceeds from additional equity and debt financing transactions, to generate revenue and achieve positive cash flows from operations. The Company's ability to generate positive cash flows depends upon a variety of factors, including the acceptance in the market for the Company's products and various other factors, some of which may be beyond the Company's control. There can be no assurance that such financing transactions will be consummated or that such revenue will be generated.

Note 2 – Significant Accounting Policies

The accounting and reporting policies of the Company conform to U.S. generally accepted accounting principles (GAAP) and to general practices within the mining industry. The following summarizes the more significant of these policies.

Cash Equivalents

For purposes of the statements of cash flows, the Company considers short-term investments, which may be withdrawn at any time without penalty, and restricted cash, which will become available within one year from the date of the financial statements, to be cash equivalents.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Equipment and Depreciation

Equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which range from 3 to 7 years. Management periodically reviews these assets to determine whether carrying values have been impaired.

Other Assets

Patent costs are stated at cost.

Income Taxes

Deferred income tax assets and liabilities are computed annually for differences between the financial statements and federal income tax basis of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the period in which the differences are expected to affect taxable income. Deferred income tax benefits result from net operating loss carry-forwards. Valuation allowances are established when necessary to reduce the deferred tax assets to the amount expected to be realized. Due to the development stage nature of the Company's business, any deferred tax benefit from the anticipated utilization of net operating losses generated during the interim period have been offset by a valuation allowance. Income tax expense is the tax payable or refundable for the period plus, or minus the change during the period in deferred tax assets and liabilities.

Note 3 – Investments

The Company's current investments consist of its portfolio of patents which consists of:

Mixing, Milling and Aeration Apparatus for Digesting Metal Ore with Bacteria
US Patent 8,262,984
Laser Guidance System for Diamond Wire Cutting Apparatus
US Patent 7,755,013
Continuous Refractory Ore Bioprocessing Apparatus
US Patent 7,842,228

Note 4 - Convertible Notes

The following Table represents the outstanding convertible notes of the Company

Name	Purpose	Amount	Interest Rate	Accrued Interest	Due Date
HRMS	Past services	12,000.00	5%	\$1,683.32	Sep 2010

Note 5 – Liquidity and Going Concern Uncertainty

These financial statements have been prepared assuming that the Company will continue as a going concern. The Company is in the development stage. The Company has accumulated net losses of approximately \$3,102,284.76 from its Inception through June 30, 2013. The Company has historically been financed through an issuance of common stock. As of June 30, 2013, the Company's principal source of liquidity consisted of \$318.57 of cash and cash equivalents. To continue its current level of operations beyond December 31, 2013, it is expected that the Company will need to seek additional funds through the issuance of additional equity or debt securities or other sources of financing. Additional financing sources may not be available when and if needed by the Company. If the Company were unable to obtain the necessary additional financing, it would be required to reduce the scope of its operations, primarily through the reduction of discretionary expenses, or discontinue operations.

Note 6 – Stockholders' Equity

In April 2008 the Company affected a reverse stock split wherein 20 shares were exchanged for 1 new share of common stock which resulted in the reduction in shares being outstanding prior to the reverse merger.

In April 2010 the Company by authorization of the Board of Directors and the majority of Shareholders, increased the authorized shares of Common Stock to 1,000,000,000 shares and Preferred Stock to 10,000,000 shares.

In October 2011, the company completed a 10,000 for 1 reverse split.

In March 2012, the balance of the Preferred B stock was cancelled by the holder.

In March 2013, a shareholder canceled all of their holdings.

The Company sought approval from Financial Industry Regulatory Authority (FINRA) to change its name to Nouveau Holdings, Ltd and for a 800 for 1 reverse split which was approved April 29, 2013.

The current issued and outstanding shares of Common stock on June 30, 2013 is 299,506 and Preferred Stock Series A 2.

6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

- A. a description of the issuer's business operations;

The Issuer is a Green Mining Equipment Technologies Consortium with “Small footprint” technologies including, Laser Guidance Systems for Diamond Wire Cutting Apparatus, Continuous Refractory Ore Bioprocessing technology and new micro drilling technologies that will minimize the traditionally poisonous and toxic environmental threats posed by the mining and mining equipment industry.

The bioprocessor monitors the digestion of metal ore for silver, gold and platinum using bacteria in a controlled agitation tank.

This technology will increase production and provides multiple benefits including a safer, environmentally friendly solution to the poisonous chemicals currently used in the processing of ore for minerals that removes the usage of arsenic and prevents mercury poisoning and mining waste from polluting the watershed.

This could have a major impact on the mining of precious metals since the industry has become recognized and restricted as the source of arsenic and mercury poisoning which causes learning disabilities in children, birth defects, increased cancer and dead rivers streams and lakes.

B. Date and State (or Jurisdiction) of Incorporation:

March 16, 1987 in the State of Nevada

C. the issuer’s primary and secondary SIC Codes;

1081

D. the issuer’s fiscal year end date;

December 31

E. principal products or services, and their markets;

NHLI is a start-up Issuer focused on the development of products that are environmentally responsible for use by customers in the mining and mining equipment industries. NHLI will grow through the acquisition of companies using innovative technologies that leave a minimal footprint.

7) Describe the Issuer’s Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company has no major facilities.

8) Officers, Directors, and Control Persons
