Notes to the Condensed Interim Consolidated Financial Statements

For the three and nine months ended September 30, 2016 and 2015

(Unaudited - Stated in thousands of United States Dollars, except per share amounts, unless otherwise noted)

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Newmarket Gold Inc. (formerly Crocodile Gold Corp.) (individually, or collectively with its subsidiaries, as applicable, "Newmarket Gold", "Crocodile Gold" or the "Company") is a gold mining and exploration company with three producing mines in Australia: the Fosterville and Stawell Gold Mines in the State of Victoria and the Cosmo Gold Mine in the Northern Territory. The Company also has a portfolio of development opportunities on its significant land package, including the Big Hill Project and the Maud Creek Gold Project.

Newmarket Gold is incorporated in Canada under the legislation of the Province of Ontario. Newmarket Gold's common shares are listed on the Toronto Stock Exchange ("TSX"). The Company's head office is 200 Burrard Street, Suite 1680, Vancouver, British Columbia, Canada V6C 3L6 and registered address is 2100 Scotia Plaza, 40 King Street West, Toronto, Ontario, Canada M5H 3C2.

These condensed interim consolidated financial statements of the Company and its subsidiaries were prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. Since the condensed interim consolidated financial statements do not include all disclosure required by IFRS for annual financial statements, they should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2015.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The significant accounting judgements, estimates and assumptions in the preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in Note 3 of the Company's audited consolidated financial statements as at and for the year ended December 31, 2015.

These condensed interim consolidated financial statements were approved by the Company's Board of Directors on November 2, 2016.

2. BUSINESS ARRANGEMENTS

(a) Business arrangement with Kirkland Lake Gold Inc. ("Kirkland Lake Gold")

On September 29, 2016, the Company announced the completion of a definitive agreement (the "Arrangement Agreement") to merge Newmarket Gold and Kirkland Lake Gold. Kirkland Lake Gold is a Canadian focused, intermediate gold producer with assets in the historic Kirkland Lake gold camp, and east of the Timmins gold camp along the Porcupine-Destor Fault Zone, both in northeastern Ontario. Kirkland Lake Gold is publicly traded in Canada on the TSX under the ticker symbol KLG.

The proposed business combination will be effected by way of a Plan of Arrangement under the Canada Business Corporations Act. At closing, all Kirkland Lake Gold common shares will be exchanged at a ratio of 2.1053 Newmarket Gold common shares per each Kirkland Lake Gold common share. Newmarket Gold shareholders will continue to hold their existing common shares. The combined entity will be renamed Kirkland Lake Gold and is expected to continue trading on the TSX. Concurrently with closing the transaction, the combined entity will undertake a 0.475 for 1 share consolidation subject to approval of the Newmarket Gold shareholders. As a result of the transaction it is expected that existing Kirkland Lake Gold and Newmarket Gold shareholders will own approximately 57% and 43% respectively, of the combined entity on a fully diluted in-the-money basis. As a result of the change of control, all of the unvested performance share units and stock options of the Company, as outlined in Note 13, will automatically vest as of the effective date of closing of this Arrangement Agreement.

The Arrangement Agreement includes customary provisions including non-solicitation provisions, a right to match any superior proposal, a C\$55 million termination fee payable to Newmarket Gold under certain circumstances and C\$42.5 million termination fee payable to Kirkland Lake Gold under certain circumstances.

For Kirkland Lake Gold, the transaction will require approval by 66 2/3 percent of the votes cast by its shareholders as well as the approval of a simple majority of disinterested shareholders voting at a special shareholders meeting. The transaction will require the approval of a simple majority of the shareholders of Newmarket Gold as well as the approval of 66 2/3 percent of the votes cast by Newmarket Gold shareholders to effect the name change and share consolidation. In addition to shareholder and court approvals, the Transaction is subject to applicable regulatory approvals including TSX approval and satisfaction of certain other customary closing conditions customary in transactions of this nature.

2. BUSINESS ARRANGEMENTS

(b) Business arrangement with Newmarket Gold Inc.

On July 10, 2015, Crocodile Gold Corp. completed a Plan of Arrangement ("the Arrangement") with Newmarket Gold Inc. ("Newmarket") resulting in an amalgamation of the two companies. Pursuant to the Arrangement and effective upon closing, the amalgamated company continued under the name Newmarket Gold Inc. Under the terms of the Arrangement, each Newmarket shareholder received 0.2 Newmarket Gold common shares for each Newmarket common share. Each Crocodile Gold shareholder had the option to elect to receive consideration per Crocodile Gold common share of (i) 0.2456 Newmarket Gold common shares, or (ii) C\$0.37 per share in cash, subject to a maximum aggregate cash consideration of C\$20 million. The cash consideration was funded from a private placement of subscription receipts for gross proceeds of C\$25 million completed by Newmarket as a condition to the Arrangement. The remaining proceeds were available for working capital purposes. As part of the financing, 992,000 broker warrants were issued entitling the holder to acquire one Newmarket Gold common share at an exercise price of C\$1.25 with an expiration date of January 10, 2017.

Upon closing of the Arrangement, the Crocodile Gold share purchase warrants, options, and phantom share units became exercisable for 0.2456 Newmarket Gold common shares, reflecting the number of Newmarket Gold common shares a holder would have received if they were the holder of that number of Crocodile Gold common shares at the time of the Arrangement. In addition, the Company assumed the outstanding stock options and warrants of Newmarket, which were exercisable for 0.2 Newmarket Gold common shares and having a total fair value of \$683 as determined using the Black-Scholes pricing model on the closing date of the Arrangement.

Transaction costs of \$16,653 (of which \$13,397 were non-cash costs) associated with the Arrangement were expensed in the condensed interim consolidated statement of operations for the nine months ended September 30, 2015.

Upon closing of the Arrangement, the Company's convertible unsecured debentures ("Debentures") (Note 11) were convertible into Newmarket Gold common shares with each C\$1 thousand principal being convertible into approximately 982.4 Newmarket Gold common shares, being 4,000 Crocodile Gold common shares multiplied by the exchange ratio of 0.2456. Each Debenture was convertible, at the holder's option, into Newmarket Gold common shares at any time prior to maturity at a conversion price of C\$1.02.

All issued and outstanding shares, warrants, options, phantom share units and per share amounts have been retrospectively applied for all periods presented in these condensed interim consolidated financial statements to reflect the completion of the Arrangement. For further details on this transaction and accounting thereof, refer to Note 2 of the Company's audited consolidated financial statements as at and for the year ended December 31, 2015.

3. SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed interim consolidated financial statements were prepared using the same accounting policies and methods as those used in the Company's consolidated financial statements for the year ended December 31, 2015, except for the adoption of the following standard amended by the International Accounting Standards Board ("IASB") that was effective and adopted as of January 1, 2016:

- IAS 1 *Presentation of Financial Statements* ("IAS 1") was amended in December 2014 in order to clarify, among other things, that information should not be obscured by aggregating or by providing immaterial information, that materiality consideration apply to all parts of the financial statements, and that even when a standard requires a specific disclosure, materiality considerations do apply. The adoption of this policy did not have a material impact on the consolidated financial statements of the Company.

Ending balance	\$ 95,481	\$ 77,180

For the nine months ended September 30, 2016, the Company concluded that no impairment charge or reversal was required on its operating mine properties.

During the nine months ended September 30, 2016, the Company completed the sale of a non-core mine property in the Northern Territory for consideration of A\$40 thousand and the retention of a 1% Net Smelter Returns Royalty (payable up to a maximum of A\$1 million). At December 31, 2015, the Company wrote down the carrying value of this property based on the consideration contemplated in the related sale agreement. An impairment charge of \$472 was recorded in the consolidated statement of operations during the year ended December 31, 2015.

8. MINE PROPERTIES - continued

The Company also completed the sale of certain non-core mineral leases in the Northern Territory to PNX Metals Limited ("PNX"), an exploration company with a number of projects in the Northern Territory, for consideration of 1 million shares of PNX, having an approximate fair value of A\$20 thousand, and a 2% net smelter return royalty over any gold and silver production from the leases.

During the nine months ended September 30, 2016, the Company executed a sale agreement with respect to the divestment of its non-core mining lease at Point Leamington in Newfoundland, Canada with Callinex Mines Inc. ("Callinex"). Under the terms of the agreement, Callinex paid the Company C\$115 thousand on closing of the transaction (received) with an additional C\$400 thousand in either cash or shares to be paid within two years. The payment in either cash or shares is made at the election of Callinex. Any shares issued are based on a fixed price per share of C\$0.462. The Company will also retain a 1% net smelter return royalty on any production from the Point Leamington Project, which can be purchased by Callinex at any time for C\$1 million. The Company has written down the carrying value of the Point Leamington property and has recognized an impairment charge of \$167 in the condensed interim consolidated statement of operations for the nine months ended September 30, 2016.

For the year ended December 31, 2015, the Company identified the significant production challenges experienced at the Cosmo Gold Mine during 2015 and the lower production profile expected in 2016 as indicators of a potential impairment of the carrying value of the Cosmo Gold Mine for the year ended December 31, 2015. Consequently, the Company performed an assessment to determine the recoverable amount of the mine operation for a potential impairment by comparing the carrying value of the Cosmo Gold Mine, the lowest level of assets and liabilities for which there are independent cash flows, to the discounted cash flows expected from the use and eventual disposition of those assets and liabilities. The recoverable amount was determined to be the fair value less costs to sell ("FVLCS") and management's estimate of the FVLCS is classified as level 3 in the fair value hierarchy. At December 31, 2015, the discounted cash flows over the life of mine for Cosmo was below the carrying value of the long-lived assets of the mine and as a result an impairment of \$24,073 was recorded against mine properties and \$1,424 recorded against property, plant, and equipment (Note 9), resulting in a total impairment charged to the statement of operations of \$25,497.

On January 14, 2015, the Company completed an agreement with AuRico Gold Inc. to terminate a net free cash flow sharing arrangement between the two parties in exchange for a one-time payment of \$16,744 and the granting of a 2% net smelter return royalty over the Fosterville Gold Mine commencing on that date, and a 1% net smelter return royalty over Stawell Gold Mine commencing January 1, 2016. As a result of the termination agreement, the estimated fair value of the royalties granted was recorded against the carrying value of the mine properties (totaling \$12,558). The key assumptions used in determining the fair value of the royalties granted were future gold price, discount rates, and estimated production from the Fosterville and Stawell Gold Mines.

9. PROPERTY, PLANT AND EQUIPMENT

The table below provides information on the Company's property, plant and equipment segregated by site and details the total cost and accumulated depreciation:

Ending balance	\$ 4,889	\$ 827
	\$ 50,089	\$ 42,432

As part of the impairment assessment outlined in Note 8 with regards to the Cosmo Gold Mine, the Company allocated \$1,424 of the total impairment charge recorded during the year ended 2015 to property, plant, and equipment.

During the year ended December 31, 2015, the Company identified certain non-core mine camp property and equipment at Pine Creek that is not expected to be used in operations. Based on an independent evaluation of the property and equipment, the Company has written down its carrying value and has recognized an impairment charge of \$530 in the consolidated statement of operations during the year ended December 31, 2015.

10. INVESTMENTS

	\$ 5,644	\$ 4,544

As at September 30, 2016, the Company maintained an equity ownership in JDS Silver Inc. ("JDS Silver") of 6.72%, and made no further investments in the company during the nine months ended September 30, 2016. JDS Silver is a private company incorporated in British Columbia, Canada which owns the Silvertip project, a high-grade silver-lead-zinc project in northern British Columbia, Canada, which is in the construction phase.

On March 3, 2015, the Company subscribed for 357,143 common shares of JDS Silver for consideration of \$400. The subscription was part of a C\$2.5 million equity financing completed by JDS Silver totaling 1,773,606 shares. In June and July 2015, JDS Silver completed a two-tranche C\$3.8 million equity financing totaling 3.2 million common shares in which the Company did not participate. Based on the valuation of the first tranche, the Company recorded a \$752 loss on the revaluation of the investment, which was included in other (losses) gains on the condensed interim consolidated statement of operations for the nine months ended September 30, 2015. The Company did not record any impairment or recovery on JDS Silver for the nine months ended September 30, 2016.

10. INVESTMENTS - continued

The Company also holds investments in Primary Gold Limited ("Primary"), Navarre Minerals Limited ("Navarre"), and PNX Metals Inc. ("PNX"), all listed on the Australian Stock Exchange. As at September 30, 2016 and December 31, 2015, the Company owned a 3.8% equity interest in Primary Gold and an 18.8% investment in Navarre. During the nine months ended September 30, 2015, the Company acquired 8.67 million additional common shares of Navarre for total consideration of \$204.

These investments have been revalued to their fair value based on their quoted market prices as at September 30, 2016. During the nine months ended September 30, 2016, \$808 was recorded as an unrealized gain in other comprehensive income (nine months ended September 30, 2015 – an unrealized gain of \$45). In relation to the Company's investment in Primary, \$1,700 was reclassified from accumulated other comprehensive income and recorded as a loss on the revaluation of investments in other (losses) gains on the condensed interim consolidated statement of operations for the nine months ended September 30, 2015 as management determined, at that time, the decline in the quoted market price of Primary to be other than temporary in nature.

(a) Capital leasing obligations

The Company has financed the acquisition of certain equipment through the assumption of capital lease obligations. These obligations are secured by the acquired equipment, which has a net book value of \$4,889 as at September 30, 2016. The loans bear interest at rates ranging between 3.68% and 7.29% per annum with maturity dates between December 31, 2016 and July 1, 2019. Interest expense related to the equipment loans of \$101 has been charged to the condensed interim consolidated statement of operations in the nine months ended September 30, 2016 (nine months ended September 30, 2015 – \$127). The fair value of the loan liability is approximately equal to its carrying amount.

(b) Convertible unsecured debentures

On April 5, 2013, the Company issued C\$34.5 million of 8% convertible unsecured debentures (the "Debentures") for net proceeds of \$31,031 after accounting for transaction costs of \$2,913. The Debentures had a maturity date of April 30, 2018 and unless converted or redeemed earlier, interest of C\$1,380 was payable semi-annually on April 30 and October 31. As a result of the Arrangement (Note 2), each Debenture was convertible at the holder's option into common shares at any time prior to maturity at a conversion price of C\$1.02.

On the inception date, the Debentures were recorded in the consolidated statement of financial position at the net present value of future payments using a discount rate of 12%. At that time, after discounting the liability to its estimated fair value and deducting the transaction costs, the liability and equity portion of the convertible debentures were recorded at C\$27.2 million and C\$4.3 million respectively. The liability portion was being accreted to its face value using the effective interest rate method at 13.67%.

The Debentures were redeemable by the Company in whole or in part, provided that the volume weighted average trading price of the common shares on the Toronto Stock Exchange (the "TSX") for the 20 consecutive trading days ending on the fifth trading day preceding the day prior to the date upon which the notice of redemption is given is at least 150% of the conversion price. On February 16, 2016, the Company provided notice to Debenture holders that on March 30, 2016 it would redeem, in full, all of the then outstanding Debentures by issuing common shares in the Company. Prior to that date, Debenture holders converted C\$34.47 million Debentures into 33,863,328 common shares of the Company. On March 30, 2016, the Company redeemed the remaining outstanding C\$21,000 Debentures through the issuance of 10,287 common shares, in accordance with the terms of the Debentures. All unpaid accrued interest up to the date of conversion or redemption, was paid in cash.

As a result of the full conversion and redemption of the Debentures, the carrying value of the Debentures of \$23,218 was transferred to issued capital. The Company also transferred the previously recorded equity portion of the convertible debenture of \$4,250 to issued capital. In addition, \$673 of deferred tax impact related to the non-accreted portion was recorded in the consolidated statements of operations and comprehensive income.

For the nine months ended September 30, 2016, accretion of \$695 was recorded as finance costs in the condensed interim consolidated statement of operations (nine months ended September 30, 2015 - \$2,431).

12. PROVISIONS

	September 30, 2016	December 31, 2015
Decommissioning, rehabilitation and similar liabilities	\$ 34,878	\$ 31,696
Long service leave	8,230	6,927
Total provisions	43,108	38,623
Current provisions	(12,517)	(10,404)
Non-current provisions	\$ 30,591	\$ 28,219

(a) Decommissioning, rehabilitation and similar liabilities

The Company provides for the estimated future cost of rehabilitating mine sites and related production facilities on a discounted basis on the development of mines or installation of those facilities. The rehabilitation provision represents the present value of estimated future rehabilitation costs, which are expected to be incurred up to 2032. The estimated undiscounted cash flows used to estimate the liability are \$39,426. These provisions are based on the Company's internal estimates, with consideration to closure plans and bonding requirements established with relevant regulatory bodies. Assumptions, including an inflation rate of 2.5% and discount rates of 1.52% and 1.60%, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates are reviewed regularly to take into account any material changes to the assumptions. However, actual rehabilitation costs will ultimately depend upon future market prices for the necessary decommissioning works required, which will reflect market conditions at the relevant time. Furthermore, the timing of rehabilitation is likely to depend on when the mines cease to produce at economically viable rates. This, in turn, will depend upon future gold prices and costs of production, which are inherently uncertain.

During the nine months ended September 30, 2016, no amount was included as a recovery in care and maintenance in the condensed interim consolidated statement of operations from the decrease in provisions recognized on the rehabilitation of non-core assets (nine months ended September 30, 2015 – \$1,572).

A summary of the Company's changes to decommissioning, rehabilitation, and similar liabilities for the nine months ended September 30, 2016 and year ended December 31, 2015 is presented below:

	September 30, 2016	December 31, 2015
Balance, beginning of the period	\$ 31,696	\$ 35,678
Net increase in provisions recognized	1,943	431

Balance, end of the period	34,878	31,696
Current portion of rehabilitation provision	(6,085)	(5,467)
Non-current portion of rehabilitation provision	\$ 28,793	\$ 26,229

(a) Long service leave

Long service leave is an Australian employee entitlement which accrues based on an employee's length of service to a company. The provision is estimated based on the total current service of the Company's employees and future expected service and earnings. As at September 30, 2016, the total accrued long service leave was \$8,229, of which \$6,431 was classified as a current liability in the condensed interim consolidated statement of financial position (\$6,927 and \$4,937 as at December 31, 2015, respectively).

13. ISSUED CAPITAL

The Company is authorized to issue an unlimited number of common shares.

(a) Share capital and shares to be issued

As at September 30, 2016, the Company had 178,002,620 common shares issued and outstanding. The authorized share capital consists of unlimited common shares without par value and unlimited preferred shares, issuable in series with special rights and restrictions attached. During the nine months ended September 30, 2016, the Company issued a total of 4,821,164 common shares related to the exercise of warrants (Note 13(b)), 1,433,667 common shares related to the conversion of certain performance share units (Note 13(e)), and 1,928,576 related to the exercise of stock options (Note 13(d)). Also as at September 30, 2016, the Company had a total of 2,718,333 performance share units that had vested and are convertible to common shares at the option of the holder any time prior to the expiry date; the fair value of these units is categorized as shares to be issued on the consolidated statement of financial position.

As at the date of these financial statements, the fully paid common shares outstanding of the Company was 178,399,420. Subsequent to September 30, 2016, the Company issued 396,800 common shares on the exercise of share purchase warrants.

(b) Warrants

A summary of the Company's warrants activities for the nine months ended September 30, 2016 and the year ended December 31, 2015 is presented below:

	Number of Warrants	Value
Balance as at December 31, 2014	15,689,589	\$ 10,608
Warrants assumed on completion of Arrangement	4,666,666	90
Broker warrants assumed on completion of Arrangement	992,000	317

Exercise of warrants	(19,840)	(6)
Balance as at December 31, 2015	16,661,749	\$ 10,919
Expiry of warrants	(11,438,820)	(9,366)
Exercise of warrants	(4,821,169)	(1,424)
Balance as at September 30, 2016	401,760	\$ 129

During the nine months ended September 30, 2016, 4,821,169 warrants were exercised resulting in total gross proceeds to the Company of \$5,662. As a result, the original fair value of the warrants of \$1,424 was transferred from contributed surplus to issued capital. In addition, on March 24, 2016, 11.4 million warrants with an average exercise price of C\$9.16 expired unexercised and consequently, the fair value associated with those expired warrants of \$9,366 was transferred to equity reserves.

As a result of the Arrangement with Newmarket (Note 2), the Company assumed 4,666,666 warrants of Newmarket entitling the holders to purchase the same number of common shares of Newmarket Gold at an exercise price of C\$1.50 and an expiry date of October 4, 2015. These warrants expired unexercised on October 4, 2015.

In addition, the Company also assumed 992,000 broker warrants as part of the Agreement (Note 2), with an exercise price of C\$1.25 and an expiry date of January 10, 2017. The fair value of these warrants of \$317 was determined using the Black-Scholes pricing model on the closing date of the Arrangement with a risk-free rate of 0.49%, a volatility factor of 67.72%, an expected life of 1.5 years, and an expected dividend yield of 0%.

13. ISSUED CAPITAL – continued*(c) Stock option plan and share unit plan*

In conjunction with the completion of the Arrangement, shareholders of both predecessor entities (Crocodile Gold and Newmarket) approved new incentive plans for the amalgamated company, Newmarket Gold. The new incentive plans supersede all existing executive-based compensation plans, however, awards outstanding prior to the date of closing, being July 10, 2015, continue to be governed by and subject to the terms of the incentive plans of each predecessor entity. The new Stock Option Plan and Share Unit Plan are consistent with current TSX policies and are summarized below. On completion of the Arrangement all previously granted options prior to July 10, 2015 became fully vested pursuant to the terms of the Arrangement.

The Stock Option Plan ("SOP") and Share Unit Plan ("SUP") provides for the issuance of options or units respectively to employees, directors, or officers of the Company or any of its subsidiaries or affiliates, consultants, and management employees. The aggregate number of Newmarket Gold shares available at all times for issuance under the SOP and SUP or any other security based compensation arrangement (pre-existing or otherwise) shall not exceed 20,000,000 Newmarket Gold shares. Any option or unit which has been cancelled or terminated prior to exercise in accordance with the terms of the SOP or SUP will again be available for grant under the SOP or SUP. The Board of Directors has the power to determine terms of any options and units granted under the Company's incentive plans, including setting exercise prices, vesting terms and expiry dates.

(d) Stock options

Each option granted converts into one common share of the Company on exercise. No amounts are paid or payable by the recipient on receipt of the grant. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry at the option of the holder. A summary of the Company's stock option activities for the nine months ended September 30, 2016 and for the year ended December 31, 2015 is presented below:

13. ISSUED CAPITAL – continued*(d) Stock options – continued*

During the nine months ended September 30, 2016, 1,030,000 options were granted in accordance with the terms of the Company's Stock Option Plan as follows:

- On January 1, 2016, the Company granted 125,000 options to a consultant of the Company. These options vested over a one year period with 50% vesting six months from the date of grant and the remaining 50% vesting one year from the date of grant. The options expire on January 1, 2019 and have an exercise price of C\$1.35. The fair value of these options on the date of grant was \$55.
- On April 6, 2016, the Company granted 150,000 options to a director of the Company. These options vested over the course of 3 years, with 1/3 of the total vesting on April 6, 2017, 1/3 of the total vesting on April 6, 2018, and the final 1/3 vesting on April 6, 2019. The options expire on April 6, 2021 and have an exercise price of C\$2.46. The fair value of these options on the date of grant was \$154.
- On June 4, 2016, the Company granted 480,000 options to various employees of the Company. These options vested over the course of 3 years, with 1/3 of the total vesting on June 4, 2017, 1/3 of the total vesting on June 4, 2018, and the final 1/3 vesting on June 4, 2019. The options expire on June 4, 2021 and have an exercise price of C\$3.71. The fair value of these options on the date of grant was \$757.
- On July 26, 2016, the Company granted 25,000 options to an employee of the Company. These options vested over the course of 3 years, with 1/3 of the total vesting on July 26, 2017, 1/3 of the total vesting on July 26, 2018, and the final 1/3 vesting on July 26, 2019. These options expire on July 26, 2021 and have an exercise price of C\$3.75. The fair value of these options on the date of grant was \$39.
- On August 3, 2016, the Company granted 250,000 options to a director of the Company. These options vested over the course of 3 years, with 1/3 of the total vesting on August 3, 2017, 1/3 of the total vesting on August 3, 2018, and the final 1/3 vesting on August 3, 2019. These options expire on August 3, 2021 and have an exercise price of C\$4.52. The fair value of these options on the date of grant was \$478.

As a result of the Arrangement with Newmarket (discussed in Note 2), the Company assumed 580,000 options of Newmarket entitling the holders to purchase the same number of common shares of Newmarket Gold at a weighted average exercise price of C\$1.25 per share and expiry dates ranging from October 4, 2018 to April 7, 2019. All options assumed were fully vested on closing. The fair value of these options assumed was determined using the Black-Scholes pricing model on the closing date of the Arrangement with a weighted average risk-free rate of 0.66%, weighted average volatility factor of 67.66%, a weighted average expected life of 3.36 years, and a weighted average expected dividend yield of 0%.

In July 2015, the Company granted a total of 8,170,000 stock options to directors, employees, and consultants. The options granted have an exercise price of C\$1.50 per share and expire five years from the date of grant. These options had a grant date estimated fair value of \$0.47. The options vest over a three year period, one-third vesting from one year after the date of grant, one-third vesting from two years after the date of grant, and the final one-third vesting from three years after the date of grant.

The fair value of options granted during the nine months September 30, 2016 and 2015 were estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions (with expected volatility being based on the Company's peer group and the expected volatility of similar entities):

	September 30, 2016	September 30, 2015
Grant share price per share	C\$3.44	C\$1.25

13. ISSUED CAPITAL – continued*(e) Share unit plan – continued*

The original performance share units granted during the year ended 2015, had an expiry of three years from the date of grant and vest based on the 20-day volume weighted average price on the TSX of the Company's shares: (i) as to one-third when the price of the Company's shares is C\$2.25 or greater; (ii) as to one-third when the price of the Company's shares is C\$3.00 or greater; and (iii) as to one-third when the price of the Company's shares is C\$3.75 or greater. On the performance share units vesting by reaching the thresholds noted, each vested performance share unit will be converted to one common share of the Company. These performance share units had a grant date fair value of \$2,133. The fair value of the performance share units was calculated using a Monte-Carlo simulation model which provides a valuation based on a number of future probabilities and scenarios based on the vesting terms noted above. The performance share units outstanding have expiry dates between July and December 2018.

During the nine months ended September 30, 2016, 4,152,000 of the Company's outstanding performance share units vested, as the Company's 20-day volume weighted average price on the TSX of the Company's shares surpassed the C\$2.25, C\$3.00, and C\$3.75 vesting thresholds. As a result of these units vesting, the fair value attributed to these performance share units being \$2,067 was transferred from equity reserves to shares to be issued. In connection with the vested performance share units, 1,433,667 of these vested units were exercised and converted to common shares of the Company, resulting in a transfer of \$714 from shares to be issued to common shares. In accordance with the terms of the Share Unit Plan, the holders of the remaining performance share units (totaling 2,718,333 units), have elected to defer the receipt of their common shares until a later date, exercisable at any time prior to their expiry date.

During the nine months ended September 30, 2016, 834,000 performance share units were granted to various directors and employees of the Company pursuant to the terms of the Company's Share Unit Plan and under the following vesting terms:

- On April 4, 2016, the Company granted 140,000 performance share units to a newly appointed director. These performance share units expire three years from the date of grant and vest based on a 20-day volume weighted average price on the TSX of the common shares at the following amounts and thresholds: (i) one-third will vest when the price of the Common Shares is C\$3.00 or greater; and (ii) two-thirds will vest when the price of the Common Shares is C\$3.75 or greater. These performance share units had a total grant date fair value of \$171. The fair value of these performance share units was calculated using a Monte-Carlo simulation model which provides a valuation based on a number of future probabilities and scenarios based on the vesting terms noted above. The fair value is being amortized over the term of the vesting period.
- On June 4, 2016, the Company granted a total of 350,000 performance share units to its directors. These performance share units will vest on the date that is 12 months from the date of grant, being June 4, 2017. These performance share units had a total grant date fair value of \$1,003. The fair value of these performance share units was calculated using the share price on the date immediately prior to the date of grant. The fair value is being amortized over the term of the vesting period.
- On June 4, 2016, the Company granted a total of 205,000 performance share units to its employees. These performance share units will vest on the date that is 36 months from the date of grant, being June 4, 2019. These performance share units had a total grant date fair value of \$588. The fair value of these performance share units was calculated using the share price on the date immediately prior to the date of grant. The fair value is being amortized over the term of the vesting period.
- On July 26, 2016, the Company granted a total of 25,000 performance share units to an employee. These performance share units will vest on the date that is 36 months from the date of grant, being July 26, 2019. These performance share units had a total grant date fair value of \$71. The fair value of these performance share units was calculated using the share price on the date immediately prior to the date of grant. The fair value is being amortized over the term of the vesting period.
- On August 3, 2016, the Company granted a total of 114,000 performance share units to a director. These performance share units vest over the course of 3 years, with 1/3 of the total vesting on August 3, 2017, 1/3 of the total vesting on August 3, 2018, and the final 1/3 vesting on August 3, 2019. These performance share units had a total grant date fair value of \$394. The fair value of these performance share units was calculated using the share price on the date immediately prior to the date of grant. The fair value is being amortized over the term of the vesting period.

13. ISSUED CAPITAL – continued*(f) Phantom share units*

The Company has granted phantom share unit (“PSU”) to certain Australian employees, each of which entitles the holder to a cash payment on exercise based on the market value of the Company’s stock on the date of exercise less the strike price of the PSU. PSUs are recorded at their fair market value on the date of grant based on the quoted market price of the Company’s stock and are revalued at each reporting date based on the difference between the quoted market price of the stock at the end of the period and the strike price. The fair value is recognized as a share based payment expense in the consolidated statement of operations with a corresponding entry in accrued liabilities. The total amount expensed related to these PSUs during the nine months ended September 30, 2016 was \$606 (nine months ended September 30, 2015 - \$Nil).

During the nine months ended September 30, 2016, 300,000 PSUs were granted to certain employees in Australia. These recently granted PSUs have a strike price of C\$3.71 and expire on June 4, 2021. The PSUs vest over a 3 year period, with 1/3 vesting on June 4, 2017, a further 1/3 vesting on June 4, 2018 and the final 1/3 vesting on June 4, 2019.

No PSUs were forfeited during the nine months ended September 30, 2016 (nine months ended September 30, 2015 – 39,296). The total PSUs outstanding as at September 30, 2016 was 550,512 (of which 250,512 were exercisable) with a weighted average strike price of C\$2.72.

14. SUPPLEMENTAL CASH FLOW INFORMATION

As at September 30, 2016, the Company’s cash balance was \$78,711 (December 31, 2015 – \$36,515) and cash equivalents was \$3,812 (December 31, 2015 - \$Nil). All cash and cash equivalents are held on deposit with major Canadian and Australian banks.

15. RELATED PARTY TRANSACTIONS

The remuneration of directors and key executives is determined by the compensation committee of the Board of Directors. The directors' fees and other compensation of directors and key management personnel were as follows during the nine months ended:

	September 30, 2016	September 30, 2015
Short-term compensation and benefits	\$ 1,312	\$ 1,600
Share-based payments	3,740	886
	\$ 5,052	\$ 2,486

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including any directors (executive and non-executive) of the Company. The amounts above have been included in general and administrative and share based payments in the condensed interim consolidated statement of operations.

16. COMMITMENTS AND CONTINGENCIES*(a) Material contracts*

The Company has engaged an independent contractor to provide mining and development services at its Cosmo Gold Mine in the Northern Territory, Australia. The mining contract was executed in March 2014 and carried a two-year term with an option for a 12 month extension, such option having been exercised. The Company may terminate the contract with not less than 30 days' notice, in which case the Company would be liable for a termination payment equal to one-quarter times the previous month's invoice plus any outstanding amounts owing for work completed prior to termination.

The Company has entered into an updated contract for the Northern Territory with the newly deregulated power retail provider in the Northern Territory for a 12 month period beginning on July 1, 2015, extending its previous contract with the then government-regulated power provider under the contract. The contract was extended under the same terms, rates, and conditions to December 31, 2016. Under the terms of the contract, the Company is obligated to purchase a minimum annual quantity of electricity regardless of actual consumption. As at September 30, 2016, the Company was in compliance with the terms of the contract and does not anticipate any issues with meeting the minimum purchase commitments over the term.

The Company has also entered into a contract for power in the State of Victoria with an independent supplier which provides for electricity for the Fosterville Gold Mine and the Stawell Gold Mine through to December 31, 2016. Under the terms of the contract, the Company is obligated to purchase a minimum annual quantity of electricity regardless of actual consumption. As at September 30, 2016, the Company was in compliance with the terms of the contract and does not anticipate any issues with meeting the minimum purchase commitments over the term.

(b) Environmental bonds

As at September 30, 2016, the Company had provided performance guarantees totaling \$18,646 (as at December 31, 2015 - \$17,723) to the Northern Territory and Victorian governments relating to the future reclamation and rehabilitation of the Company's mine sites and exploration tenements. Subsequent to September 30, 2016, the Company provided additional performance guarantees totaling \$1,387 to the Northern Territory and Victorian governments relating to future reclamation and rehabilitation of the Company's mine sites. All performance guarantees are secured by cash deposits held with a major Australian bank, and are recorded as long-term in restricted cash.

16. COMMITMENTS AND CONTINGENCIES – continued

(c) Management contracts

As at September 30, 2016, minimum commitments upon termination of the existing contracts were approximately \$1,926 and minimum commitments due within one year under the terms of these contracts are \$1,752. In addition, the Company also is party to various executive and employee contracts that would require payments totalling \$1,803 to be made upon the occurrence of a change of control.

(d) Royalty obligations

As at September 30, 2016, the Company has the following obligations with respect to royalties:

- 2% net smelter return royalty from the Fosterville Gold Mine (held by AuRico Metals Inc.).
- 1% net smelter return royalty from Stawell Gold Mine (effective January 1, 2016) (held by AuRico Metals Inc.).
- A\$2 per ounce royalty payable on gold produced from the Stawell Gold Mine mining license.
- 1% ad valorem royalty on any future gold production above 250,000 ounces derived from the Maud Creek Gold Project.
- A\$4 vendor royalty per ounce of gold produced from the Pine Creek tenements.

The Company also has royalties payable to various vendors of tenements located outside the currently anticipated mining areas.

With respect to the Maud Creek Gold Project, the Company also has an obligation of a payment of A\$2 million that would be due upon a decision to proceed with development of the Maud Creek Gold Project. In addition to the production royalty described above, a further 1% gross royalty and A\$5 per ounce royalty are payable on any future gold production from certain tenements from the Maud Creek Gold Project that are located south of the main Maud Creek gold deposit.

The Fosterville Gold Mine is subject to a license fee which enables it to use the patented BIOX process to treat refractory ore from the underground mine. The fee is paid at a rate of A\$1.33 per ounce of gold produced and treated through the BIOX Plant and terminates when 1,500,000 ounces of gold in aggregate has been treated in the plant. As at September 30, 2016, approximately 1,088,022 ounces of gold had been treated in the plant.

17. FINANCIAL INSTRUMENTS

The Company's financial instruments as at September 30, 2016 and December 31, 2015 are cash, restricted cash, investments, accounts payable and accrued liabilities, and certain short-term and long-term debt and other borrowings. As at December 31, 2015, the Company's financial instruments also included convertible debentures, which were fully converted and/or redeemed during the three month ended March 31, 2016.

The carrying value of the Company's cash, restricted cash, accounts payable and accrued liabilities, and short-term debt and other current borrowings approximate their fair value because of the short maturity of these instruments.

The fair value of investments in publicly-held companies, totaling \$1,346 (December 31, 2015 - \$471), are classified as level one, and the fair values are based on quoted closing prices as at the date of the statement of financial position. Investments in privately-held companies, totaling \$4,298 as at September 30, 2016 (December 31, 2015 - \$4,073), are classified as level three. The Company's valuation methods for privately-held companies have not changed since December 31, 2015.

18. SUBSEQUENT EVENTS

Subsequent to September 30, 2016, 396,800 options were exercised at an exercise price of C\$1.25 (Note 13(a)).

Subsequent to September 30, 2016, the Company provided additional performance guarantees totaling \$1,387 to the Northern Territory and Victorian governments relating to future reclamation and rehabilitation of the Company's mine sites. The guarantees are secured by cash deposits held with a major Australian bank.
