## 1 Corporate Information

Nature of Operations

Nautilus Minerals Inc. (the "Company", "Nautilus" or "NMI") is a company whose common shares are listed on the Toronto Stock Exchange and quoted on OTCOX International and Nasdaq International Designation program.

Nautilus is engaged in the exploration and development of the ocean floor for copper and gold rich seafloor massive sulphide deposits and for manganese, nickel, copper and cobalt nodule deposits. To date the Company has not earned any revenues from operations and is considered to be in the exploration stage. The Company has one segment being mineral property exploration in Australasia. The exploration activity involves the search for deepwater copper and gold rich seafloor massive sulphides in the western Pacific Ocean and nodule deposits in the eastern Pacific Ocean. The Company's main focus is to create shareholder value by demonstrating the seafloor production system and establishing a pipeline of development projects to maximize the value of mineral licenses and exploration applications that Nautilus holds in various locations in the Pacific Ocean. The Company's principal project is the Solwara 1 Project in Papua New Guinea (PNG) in the Bismarck Sea. The proposed principal operations of the Company subject to permitting and funding requirements will be the extraction of copper, zinc, gold and silver deposits where there are economically viable discoveries.

The Company's condensed interim consolidated financial statements and those of its controlled subsidiaries ("consolidated financial statements") are presented in US Dollars.

Nautilus is a company incorporated in British Columbia, Canada. The registered office, head office and principal offices of the Company are located at:

## 2 Liquidity Risk

#### Liquidity Risk

These condensed interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business.

On April 8, 2016 the Company received gross proceeds of C\$28.3M following the closing of its rights offering through the issuance of 188,425,531 common shares at the subscription price of C\$0.15 per share.

On August 21, 2016, the Company entered into a subscription agreement with Mawarid Offshore Mining Ltd. ("Mawarid") and Metalloinvest Holding (Cyprus) Limited ("Metallo"), and together with Mawarid, the "Purchasers") whereby the Purchasers agreed to purchase, on a private placement basis (the "Private Placement"), such number of common shares of the Company, as is necessary to raise gross proceeds of up to US\$20 million. Pursuant to the Subscription Agreement, the Private Placement will close in tranches, on a monthly basis, during the period from December 1, 2016 through to November 30, 2017 (the "Financing Period"), at the election of the Company.

The Company will determine the amount of funds to be raised under each tranche during each month of the Financing Period, subject to the limitations of receiving maximum subscription proceeds of US\$2.0 million per month and an aggregate maximum total amount of US\$20 million during the entire Financing Period.

Shares will be issued under each tranche at a price that is equal to the volume weighted average trading price of the Company's common shares on the Toronto Stock Exchange (the "TSX") for the 5-day period immediately prior to the date the Company issues the Purchasers a notice that the tranche will proceed. Closing of the bridge financing has been provisionally approved by the TSX. The subscription agreement was voted upon at the Extraordinary General Meeting (EGM) on October 26, 2016 and was approved by the shareholders. We await final approval formalities by the TSX.

The Company has no source of revenue and requires significant additional funding (in addition to the Private Placement) to be able to complete the build and deployment of the seafloor production system to be utilized at the Solwara 1 Project by the Company and its joint venture partner (as to 15%), the Independent State of Papua New Guinea's nominee.

For the purposes of seeking the additional funding required and in order to continue operating during the Financing Period, the Company will implement a restructuring plan as outlined in the Management, Discussion and Analysis accompanying these Financial Statements.

There can be no assurances that the Company will be able to obtain the necessary project financing on acceptable terms or at all to complete the Solwara 1 Project. Failure to secure project financing may result in the Company taking various steps aimed at maximizing shareholder value, including suspending or terminating the development of the seafloor production system and the Solwara 1 Project, and engaging in various transactions including, without limitation, asset sales, joint ventures and capital restructurings.

There can be no assurances that any transaction will result from these matters and the Company will provide updates as circumstances warrant. Any transaction(s) will be subject to all necessary stock exchange and, if applicable, shareholder approvals as well as compliance with all other regulatory requirements.

Notes to Condensed Interim Consolidated Financial Statements For the three and nine months ended September 30, 2016 and 2015

(expressed in US Dollars) (Unaudited)

The Company previously disclosed that in the event that the required bridge financing is secured and the Company is able to continue development of the Solwara 1 Project, the schedule would be delayed. The Company has now secured the necessary bridge financing to facilitate the time required to secure that additional required funding to complete the development of the Solwara 1 Project. If the additional required funding is secured by June 2017 and subject to ongoing detailed planning, the Company could be in a position to commence the initial deployment and testing operations at the Solwara 1 Project by the end of Q1 2019.

With the implementation of the restructure plan, Nautilus expects that cash and cash equivalents will be sufficient to pay for capital expenditure commitments and general and administrative costs for at least the next 12 months. Depending upon future events, the rate of expenditures and other general and administrative costs could increase or decrease. The Company continues to evaluate a range of alternative options available to it to access capital to fund future expenditures.

Nautilus' opinion concerning liquidity and its ability to avail itself in the future of the financing options mentioned above are based on currently available information. To the extent that this information proves to be inaccurate, future availability of financing may be adversely affected.

Factors that could affect the availability of funding include Nautilus' performance (as measured by various factors including the progress and results of its exploration work), the Company's ability to meet the conditions necessary to close the Private Placement, the state of international debt and equity markets, investor perceptions and expectations of past and future performance, the global financial climate, metal and commodity prices, political events in the south Pacific, obtaining operating approvals from the PNG government for the Solwara 1 Project, drilling and metallurgical testing results on the Company's tenements, ongoing results from environmental studies, engineering studies and detailed design and delivery of equipment.

## 3 Basis of preparation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, IAS 34: Interim Financial Statements, and do not contain all of the information required for annual financial statements and should be read in conjunction with the most recent annual audited financial statements of the Company. These statements follow the same accounting policies and methods of application of the most recent annual audited financial statements.

These condensed interim consolidated financial statements were approved on 27 October, 2016 by the Board of Directors.

#### 7 Restricted cash

\$543,308 (December 31, 2015 - \$516,144) has been provided as security for leases and tenements held in Papua New Guinea and Fiji.

#### 8 Exploration and evaluation assets

In 2006, the Company through its 100% owned subsidiary Nautilus Minerals Niugini Ltd acquired a 100% interest in certain PNG subsea exploration licenses by issuing common shares with an estimated fair value of \$12,213,367 to Barrick Gold Inc.

Following the grant of the mining lease (ML154) for the Solwara 1 deposit on January 13, 2011 the Company determined that an economic benefit is more likely than not to be recovered from the Solwara 1 deposit and, accordingly, commenced capitalizing exploration and evaluation costs associated with the Solwara 1 deposit.

With the formation of the joint venture (Note 10) between the Company and the State Nominee on December 11, 2014, the Company commenced recording its 85% share of the related joint venture expenditure on the Solwara 1 exploration and evaluation assets.

#### 11 Related party transactions

Protection Group International Ltd, trading as PGI Strontium Ltd ("PGI") is a company based in the United Kingdom which provides integrated, intelligence-led risk management solutions with respect to the protection of assets. PGI is a privately owned company of which 51% is owned by United Engineering Services LLC ("UES"), a wholly owned subsidiary of MB Holding Company LLC ("MB Holding"), one of the Company's major shareholders. PGI provided risk assessment and training related services to the Company in the normal course of business and on an arm's length basis. For the period ended September 30, 2016 the Company incurred costs of \$98,055 (Q3 2015 - \$1,005,755) for services provided by PGI.

On January 18, 2016, the Company announced that it had signed agreements with UES to provide support services associated with wet testing the Company's seafloor production equipment and storing the equipment as it is delivered from various suppliers prior to integration onto the Production Support Vessel.

For the period ended September 30, 2016 the Company incurred costs of \$1,409,225 (Q3 2015 – nil) for services provided by UES.

On August 21, 2016, the Company announced that it signed a subscription agreement (the "Subscription Agreement") with Mawarid Offshore Mining Ltd. ("Mawarid") and Metalloinvest Holding (Cyprus) Limited ("Metallo", and together with Mawarid, the "Purchasers") under which the Purchasers agreed to purchase such number of common shares of the Company that will raise gross proceeds of up to US\$20 million.

Pursuant to the Subscription Agreement, the shares will be purchased on a private placement basis and will close in tranches, on a monthly basis, during the period from December 1, 2016 through to November 30, 2017 (the "Financing Period"), at the election of the Company.

The Company will determine the amount of funds to be raised under each tranche during each month of the Financing Period, subject to the limitations of receiving maximum subscription proceeds of US\$2.0 million per month and an aggregate maximum total amount of US\$20 million during the entire Financing Period.

Shares will be issued under each tranche at a price that is equal to the volume weighted average trading price of the Company's common shares on the Toronto Stock Exchange (the "TSX") for the 5-day period immediately prior to the date the Company issues the Purchasers a notice that the tranche will proceed. Closing of the bridge financing remains subject to the approval of the TSX.

In accordance with our policy on exploration and evaluation assets, all exploration expenditure incurred for the Solwara 1 project is capitalised to exploration and evaluation assets, with all other exploration expenditure expensed to the Statement of Loss.

In order to maintain the exploration leases, licenses and permits in which the Company is involved, the Company is expected to fulfil the minimum annual expenditure conditions under which the tenements are granted. These obligations may be varied from time to time, subject to approval, and are expected to be fulfilled in the normal course of operations of the Company. The exploration commitments are based on those exploration tenements that have been granted and may increase or decrease depending on whether additional applications are granted, relinquished or form joint ventures in the future. Based on tenements granted at September 30, 2016, total variable rental commitments are \$1.1 million and total variable expenditure commitments are \$27.4 million over the life of the

The non-cancellable commitments as at September 30, 2016 include \$365.0 million for payments to be made under the charter party arrangement with MAC for the PSV with an amended commencement date no later than September, 2018.

#### b) Cancellable commitments

In order to maintain the exploration leases, licenses and permits in which the Company is involved, the Company is committed to fulfil the minimum annual expenditure conditions under which the tenements are granted. These

Notes to Condensed Interim Consolidated Financial Statements For the three and nine months ended September 30, 2016 and 2015

(expressed in US Dollars) (Unaudited)

obligations may be varied from time to time, subject to approval, and are expected to be fulfilled in the normal course of operations of the Company. The exploration commitments are based on those exploration tenements that have been granted and may increase if applications are granted in the future.

The Company has entered into various contracts for the design and build of the seafloor production system. As at September 30, 2016, the committed value of the contracts is \$30.4 million. The committed value of \$30.4 million reflects ongoing milestone payments for continuing contracts. The contracts are cancellable by the Company at any time, however, in the event of cancellation, the Company is liable for any costs incurred up to that point, with an estimate of costs for terminated contracts included in the accrued costs at period end. No other penalties or cancellation fees are payable under these contracts.

## 16 Financial risk management

The Company's activities expose it to a variety of financial risks: foreign exchange risk, credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

Risk management is carried out under policies approved by the board of directors. The board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

#### a) Capital Management

The Company's objectives in the managing of the liquidity and capital are to safeguard the Company's ability to continue as a going concern and provide financial capacity to meet its strategic objectives. The capital structure of the Company consists of equity attributable to common shareholders, comprising of issue share capital, contributed surplus and deficit.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets to facilitate the management of its capital requirements. The Company prepares annual expenditure budgets that are updated as necessary depending upon various factors, including successful capital deployment and general industry conditions. The annual and updated budgets are approved by the Board of Directors. As at September 30, 2016 the Company does not have any long-term debt and is not subject to any externally imposed capital requirements. The Company has sufficient funds to meet its current operating and exploration and development obligations.

#### b) Foreign exchange risk

The Company's operations are located in several different countries, including Canada, Australia, PNG, Tonga and Solomon Islands and require equipment to be purchased from several different countries. Nautilus has entered into key contracts in United States dollars, British pounds sterling and euros. Future profitability could be affected by fluctuations in foreign currencies. The Company has not entered into any foreign currency contracts or other derivatives to establish a foreign currency protection program but may consider such actions in the future.

Notes to Condensed Interim Consolidated Financial Statements For the three and nine months ended September 30, 2016 and 2015

(expressed in US Dollars) (Unaudited)

Foreign exchange risk is mitigated by the Company maintaining its cash and cash equivalents in a "basket" of currencies that reflect its current and expected cash outflows. As at September 30, 2016 the Company held its cash and cash equivalents in the following currencies:

% of total cash in
<b>US\$</b> terms held
51
7
40
1
1
100

#### c) Credit Risk

The Company places its cash and cash equivalents only with banks with an S&P credit rating of A+ or better. Our maximum exposure to credit risk at the reporting date is the carrying value of cash and cash equivalents and other receivables.

#### d) Liquidity Risk

Liquidty risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by the delivery of cash or another financial asset. The Company manages liquidity by maintaining adequate cash and short-term investment balances. In addition, the Company regularly monitors and reviews both actual and forecasted cash flows. The Company has no source of revenue and has significant cash requirements to be able to meet its administrative overhead and maintain its property interests. In order to be able to continue to advance the development of the Solwara 1 Project and its mineral property interests, the Company will need to secure additional equity, debt and/or joint venture partner funding. Until that time, certain discretionary expenditures may be deferred and measures to reduce operating costs may be taken in order to preserve working capital. See note 2, Liquidity Risk.

#### 17 Subsequent Events

The subscription agreement was voted upon at the Extraordinary General Meeting (EGM) on October 26, 2016 and was approved by the shareholders. Subsequent to the shareholder meeting, the Company has received final approval of the Bridge Financing from the Toronto Stock Exchange.
