NOTE 1 – ORGANIZATION

Organization and Nature of Operations

Nexia Holdings, Inc. ("Nexia") was incorporated under the laws of the State of Colorado on April 20, 1987 as Metropolitan Acquisition Corporation. On October 5, 2000, Nexia merged with a Nevada corporation with the same name, effectively changing its state of domicile from Colorado to Nevada. Nexia later changed its state of incorporation to Utah. Nexia is a holding company of a number of subsidiary companies.

Nexia's operating subsidiaries during the three months ending March 31, 2014 include the following:

- WG Productions Company. ("WG")
- Redline Entertainment, Inc. ("Redline")
- Green Endeavors, Inc. ("Green");
 - Landis Salons, Inc. ("Landis");
 - Landis Salons II, Inc. ("Landis II"); and
 - Landis Experience Center, LLC. ("LEC")
- Downtown Development Corporation ("DDC");
- Wasatch Capital Corporation ("WCC");
- Diversified Management Solutions, Inc. ("DMS");

WG Productions Company ("WG"), a 100% owned subsidiary of Nexia, a Utah corporation, was incorporated on August 6, 2009, as Revel Entertainment, Inc. In May 2013, its name was changed to WG Productions Company. WG was formed to produce films for its own account and for third parties. Nexia purchased WG for 200,000 shares of Series C preferred stock valued at \$1,000,000.

Redline Entertainment, Inc. ("Redline"), a Utah corporation, was incorporated on April 15, 2010. Redline is a wholly-owned subsidiary of Nexia and was incorporated to license the foreign distribution rights of films produced by WG and third-party production companies.

Green Endeavors, Inc. ("Green"), currently a Utah corporation, is a 55.85% owned subsidiary of Nexia. As of March 31, 2014 Nexia controlled 92.14% of outstanding votes. Green is a publicly traded corporation under the stock symbol GRNE.

- Landis Salons, Inc. ("Landis"), a Utah corporation, was organized on May 4, 2005 for the purpose of operating an Aveda[™] Lifestyle Salon. Landis is a wholly-owned subsidiary of Green Endeavors, Inc.
- Landis Salons II, Inc. ("Landis II"), a Utah corporation, was organized on March 17, 2010 for the purpose of opening a second Aveda[™] Lifestyle Salon in the Marmalade area of Salt Lake City. Landis II is a wholly-owned subsidiary of Green Endeavors, Inc.
- Landis Experience Center, LLC ("LEC"), a Utah limited liability company, was organized in August, 2012 primarily for the purpose of selling Aveda[™] retail products in the City Creek mall in downtown Salt Lake City. LEC is a wholly-owned subsidiary of Green Endeavors, Inc.

Downtown Development Corporation ("DDC"), a 100% owned subsidiary, was incorporated by Nexia on November 30, 1999 in Utah as A-Z South State Corporation. On August 22, 2001, its name was changed to Downtown Development Corporation. DDC owns a 6,000 square foot property in Salt Lake City, Utah.

Wasatch Capital Corporation ("WCC"), a Utah corporation, a 100% owned subsidiary, was incorporated on June 10, 1991. WCC owned a mixed use property in downtown Salt Lake City. The property was sold on November 1, 2008 to Bandaloops LLC. Nexia and subsidiaries are continuing as tenants of the purchaser. Nexia owned 100% of Wasatch common stock as of March 31, 2014.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Basis of Presentation

The consolidated financial statements include the accounts of Nexia Holdings, Inc. and its subsidiaries after elimination of intercompany accounts and transactions. In addition, Nexia consolidates various entities for which it is deemed to be the primary beneficiary. Nexia's controlling share of earnings or losses of subsidiaries is included in the consolidated operating results using the equity method of accounting.

Nexia consolidates entities under control and records a noncontrolling interest for the portions not owned by Nexia. Control is determined, where applicable, by the sufficiency of equity invested and the rights of the equity holders, and by the ownership of a majority of the voting interests, with consideration given to the existence of approval or veto rights granted to the minority shareholder. If the minority shareholder holds substantive participating rights, it overcomes the presumption of control by the majority voting interest holder. In contrast, if the minority shareholder simply holds protective rights (such as consent rights over certain actions), it does not overcome the presumption of control by the majority voting interest holder.

The consolidated balance sheets as of December 31, 2013 and 2012 and the consolidated statements of operations and cash flows for the periods presented have been prepared by Nexia and are unaudited. In the opinion of management, all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows for all periods presented have been made.

Accounting Policies

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business.

Use of Estimates

The preparation of consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Investments with original maturities of three months or less at the time of purchase are considered cash equivalents. As of March 31, 2014 and December 31, 2013, Nexia had no cash equivalents.

Inventory

Inventory consists of items held for resale and is carried at the lower of cost or market. Nexia's inventory consists of hair care products in its salon operations. Cost is determined using the first-in, first-out ("FIFO") method. Market is determined based on the estimated net realizable value, which generally is the merchandise selling price. Inventory levels are reviewed in order to identify slow-moving merchandise and damaged items and markdowns are used to clear merchandise.

Film Costs

All direct negative film costs incurred in the physical production of a film are capitalized and included separately on the Balance Sheet as Film costs. Direct negative film costs include costs of story and scenario; compensation of cast, directors, producers, extras, and miscellaneous staff; costs of set construction and operations, wardrobe, and accessories; costs of sound synchronization; rental facilities on location; and postproduction costs, such as music, special effects and editing. The costs incurred for significant changes shall be added to film costs and subsequently charged to expense when the related revenue is recognized.

Amortization of film costs begin when a film is released and it begins to recognize revenue from that film. The film costs are amortized using the individual-film-forecast-computation method, which amortizes film costs in the same ratio that current period actual revenue bears to estimated remaining unrecognized ultimate revenue as of the beginning of the current fiscal year.

Ultimate revenue to be included in the denominator of the individual-film-forecast-computation method fraction shall include estimates of revenue that is expected to be recognized from the exploitation, exhibition, and sale of a film in all markets and territories.

See FASB Accounting Standards Codification ("ASC") Topic 926-20-35.

Property and Equipment

Property and equipment are stated at cost. Expenditures that materially increase the life of the assets are capitalized. Ordinary maintenance and repairs are charged to expense as incurred. When assets are sold, or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized at that time. All capital leases are added to the property and equipment and depreciated over the life of the assets. Depreciation is computed on the straight-line method over the following useful lives:

Buildings	39 years
Computer equipment and related software	3 years
	Shorter of the lease term
Leasehold improvements	or the estimated useful life
Furniture, equipment and fixtures	3-10 years
Vehicles	5 years

When commercial buildings are sold, the net depreciated basis is deducted from the net cash and other consideration received and the difference is reported as a net gain or loss.

The following is a summary of Nexia's Property, plant and equipment by major category as of March 31, 2014:

		Accumulated	
_	Cost	Depreciation	Net
Computer equipment and related software\$	83,312	\$ (74,655) \$	8,657
Leasehold improvements	625,004	(354,498)	270,506
Furniture and fixtures	50,698	(46,963)	3,735
Leased equipment	76,298	(27,358)	48,940

Land	467,220		467,220
Signage	25,154	(8,310)	16,844
Total\$	2,331,798	\$ <u>(904,425)</u> \$	1,427,373

Fair Value of Financial Instruments

On a quarterly basis, Nexia measures at fair value its available-for-sale securities. Inputs to valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect Nexia's market assumptions. These two types of inputs have created the following fair-value hierarchy:

- Level 1 Quoted prices for identical instruments in active markets;
- Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and
- Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy requires Nexia to minimize the use of unobservable inputs and to use observable market data, if available, when determining fair value.

The fair value of Nexia's cash, short-term investments, receivables and accounts payable approximate their carrying value due to the short-term nature of these instruments. The fair market values of Nexia's long-term investments approximate their carrying values based upon current market rates of interest.

Investments in Equity Securities

Marketable Securities

Nexia considers all of its investments in marketable securities as available-for-sale. Available-for-sale securities are stated at fair value, with the unrealized gains and losses presented net of tax and reported as a separate component of Stockholders' equity. Realized gains and losses are determined using the specific identification method. Gains are recognized when realized and are recorded in the Consolidated Statements of Operations as Other income. Losses are recognized as realized or when Nexia has determined that an other-than-temporary decline in fair value has occurred.

Non-Marketable Securities

Nexia uses either the cost or the equity method of accounting to account for its long-term, non-marketable investment securities. If Nexia determines that an other-than-temporary decline exists in a non-marketable equity security, Nexia writes down the investment to its fair value and records the related write-down as an investment loss in the Consolidated Statements of Operations.

Impairment of Long-Lived Assets

Nexia's long-lived assets consist of property, plant, and equipment and other intangible assets, excluding goodwill. Nexia recognizes impairment losses as the difference between historical cost and fair value of the asset, less costs to sell, when management determines that events and circumstances indicate a need to assess impairment, and when that assessment indicates that historical cost materially exceeds fair value, less costs to sell. There was no impairment expense of long-lived assets during the nine months ended March 31, 2014 and for the year ended December 31, 2013.

Basic and Diluted Income (Loss) per Common Share

Nexia computes net income (loss) per common share by dividing the net income (loss) available to common stockholders for the period by the weighted average number of common and potentially dilutive shares during the specified period. The calculation of diluted net income (loss) per share gives effect to common stock equivalents; however, potential common shares are excluded if their effect is anti-dilutive. For the three months ended March 31, 2014, diluted earnings per common share amounted to \$0.0008. For the three months ended March 31, 2013, potential common shares were excluded from the computation of diluted loss per share because their effect would be anti-dilutive. There were 5,013,963,905 such potentially dilutive shares excluded as of March 31, 2013.

Deferred Revenue

Deferred revenue arises when customers pay for products and/or services in advance of revenue recognition. Nexia's deferred revenue consists solely of unearned revenue associated with the purchase of gift certificates for which revenue is recognized only when the service is performed or the product is delivered.

Revenue Recognition

Nexia recognizes revenue from its three main sources of revenue as follows:

Sales – Salon

Revenue from sale of services and products is recognized at the date the services are provided, or when the products are delivered to the customer.

Rental Revenue

Rental revenue is recorded in the period in which it is earned in accordance with rental agreements and lease contracts. Rent payments are typically due by the first of each month.

Film Distribution

Film revenue is recorded in the period in which it is earned in accordance with film commission agreements and contracts. Film commissions are typically due when a distributor has executed a distribution contract and received notice of delivery of materials. See FASB Accounting Standards Codification ("ASC") Topic 926-605 and Accounting Standards Update ("ASU") 2011-04.

Advertising and Promotional Expense

Nexia expenses advertising costs the first time the advertising occurs. Advertising expense was \$19,956 for the three months ended March 31, 2014, and \$18,056 for the three months ended March 31, 2013.

Stock-based Compensation

Nexia recognizes the cost of employee services received in exchange for awards of equity instruments as stockbased compensation expense. Stock-based compensation expense is measured at the grant date based on the value of the restricted stock award, option or purchase right and is recognized as expense, less expected forfeitures, over the requisite service period, which typically equals the vesting period. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model. The fair value of each restricted stock issuance is determined using the fair value of Nexia's common stock on the grant date.

Determining the fair value of stock-based awards at the grant date requires judgment, including estimating the following:

- Expected volatility of our stock;
- Expected term of stock options;
- Risk-free interest rate for the period;
- Expected dividends, if any; and
- Expected forfeitures.

The computation of the expected volatility assumption used in the Black-Scholes option pricing model for new grants is based on implied volatility when the remaining maturities of the underlying traded options are at least one year and, when the remaining maturities of the underlying traded options are less than one year, it is based on an equal weighting of historical and implied volatilities.

When establishing the expected life assumption, Nexia reviews annual historical employee exercise behavior with respect to option grants having similar vesting periods. The risk-free interest rate for the period within the expected term of the option is based on the yield of United States Treasury notes in effect at the time of grant. Nexia has not historically paid dividends, thus the expected dividends used in any calculations are zero. Judgment is required in estimating the amount of stock-based awards that Nexia expects to be forfeited. Nexia calculates an expected forfeiture rate for stock options issuances based on historical trends.

The valuation of all options, including the expected life and forfeiture rates of stock options, are calculated based on one employee pool because there is no significant difference in exercise behavior between classes of employees.

Options granted by Nexia are most often exercised immediately after the grant date. Consequently, Nexia has determined the fair value of the options based on the market price of Nexia's stock on the date of grant.

As of March 31, 2014 and December 31, 2013, Nexia had no outstanding options or warrants to purchase shares of its common stock.

Income Taxes

Deferred income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Also, Nexia's practice is to recognize interest and/or penalties related to income tax matters in income tax expense.

As of March 31, 2014, Nexia's deferred tax assets, which are solely related to net operating losses, have been fully offset by a valuation allowance.

Noncontrolling Interest in Subsidiary

On January 1, 2009, Nexia adopted new accounting guidance which clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. The new guidance also requires consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the noncontrolling interest and requires disclosure, on the face of the consolidated statement of operations, of the amounts of consolidated net income attributable to the parent and to the noncontrolling interest. In addition, it establishes a single method of accounting for changes in a parent's ownership interest in a subsidiary that does not result in deconsolidation and requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated unless the deconsolidation is an in-substance sale of real estate.

The new guidance on noncontrolling interests was required to be applied prospectively after adoption, with the exception of the presentation and disclosure requirements, which were applied retrospectively for all periods presented. As a result, Nexia reclassified noncontrolling interests to permanent equity in the accompanying consolidated balance sheets.

Recent Accounting Pronouncements

Management believes the impact of other recently issued standards and updates, which are not yet effective, will not have a material impact on Nexia's consolidated financial position, results of operations or cash flows upon adoption.

NOTE 3 – GOING CONCERN

Nexia's consolidated financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. Nexia has incurred a cumulative deficit through March 31, 2014 of \$36,038,994. In addition, Nexia has defaulted on several of its liabilities. These matters raise substantial doubt about Nexia's ability to continue as a going concern.

Primarily, revenues have not been sufficient to cover Nexia's operating costs. Management's plans to enable Nexia to continue as a going concern include the following:

- Creating new lines of business including events such as Slide The CityTM and The Lantern Festival;
- Increasing the number of films produced for our own account and third parties;
- Generating additional revenues through increasing the number films we distribute for third parties;
- Producing higher quality films specifically tailored to sell in specific markets;
- Increase retail sales of Landis Salons, Inc.;
- Open new salon locations;
- Increasing revenues from rental properties by implementing new marketing programs;
- Making improvements to certain rental properties in order to make them more marketable;
- Reduce expenses through consolidating or disposing of certain subsidiary companies;
- Convert certain debt into shares of Nexia's common stock; and
- Purchasing revenue-producing real estate.

There can be no assurance that Nexia can or will be successful in implementing any of its plans or that it will be successful in enabling Nexia to continue as a going concern. Nexia's consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 4 – FINANCIAL INSTRUMENTS

Marketable Securities

Nexia considers all of its investments in marketable equity securities as available-for-sale. Available-for-sale equity securities are stated at fair value, with the unrealized gains and losses presented net of tax and reported as a separate component of Stockholders' equity. Realized gains and losses are determined using the specific identification method. Gains are recognized when realized and are recorded in the Consolidated Statements of Operations as Other income (expense), net. Losses are recognized as realized or when Nexia has determined that an other-than-temporary decline in fair value has occurred.

On a quarterly basis, Nexia measures its available-for-sale securities at fair value. The fair value of financial assets was determined using the following levels of inputs as of March 31, 2014:

	Fair Va	lue Measuremen	ts as of March 3	1, 2014:
Assets	Total	Level 1	Level 2	Level 3
Available-for-sale securities\$	1,292	\$ 1,292	\$	\$
Total \$	1,292	\$ 1,292	\$	\$

On a quarterly basis, Nexia measures its available-for-sale securities at fair value. The fair value of financial assets was determined using the following levels of inputs as of December 31, 2013:

	Fair Value Measurements as of December 31, 2013:				
Assets	Total	Level 1	Level 2	Level 3	
Available-for-sale securities\$	1,151	\$ <u>1,151</u>	\$ <u></u>	\$	
Total $\$$ _	1,151	\$ <u>1,151</u>	\$	\$	

It is Nexia's policy to review the fair value of these marketable equity securities on a regular basis to determine whether its investments in these companies are other-than-temporarily impaired. This evaluation includes, but is not limited to, reviewing each company's cash position, financing needs, earnings or revenue outlook, operational performance, management or ownership changes and competition. If Nexia believes the carrying value of an investment is in excess of its fair value, and this difference is other-than-temporary, it is Nexia's policy to write down the investment to

reduce its carrying value to fair value. These impairments are included in Other income (expense), net in the Consolidated Statement of Operations. Nexia did not recognize an other-than-temporary impairment of its available-for-sale equity securities during the three months ended March 31, 2014 and the year ended December 31, 2013.

Non-Marketable Securities

Nexia uses either the cost or equity method of accounting to account for its long-term, non-marketable investment securities. Nexia realized a non-cash gain of \$1,000,000 on the disposal of non-marketable investments during the three months ending March 31, 2014 as compared to no gain in the three months ended March 31, 2013. If Nexia determines that an other-than-temporary decline exists in a non-marketable equity security, Nexia writes down the investment to its fair value and records the related write-down as an investment loss in the Consolidated Statements of Operations. As of March 31, 2014 and December 31, 2013, the non-marketable securities were \$0. There was a write-down due to other-than-temporary declines in the amount of \$2,000,000 during the year ended December 31, 2011. The securities written down have subsequently been exchanged back for the original consideration given. This has resulted in a gain on sale of securities, but is a non-cash gain.

	March 31, 2014	December 31, 2013
Non-marketable securities – Application of cost method Total Non-marketable securities	\$ <u></u>	\$ \$

NOTE 5 – INVENTORY

Nexia's inventory consists of finished goods products that are held for resale at all locations or that are used for the services provided by the two salons. Inventory is carried at the lower of cost or market. As of March 31, 2014 and December 31, 2013, inventory amounted to \$153,010 and \$144,317, respectively.

Nexia calculates its inventory on a first-in, first-out basis. Below shows the inventory broken out by class:

	March 31, 2014	December 31, 2013
Raw materials	\$	\$
Work in process		
Finished goods	153,010	144,317
Total inventory	<u>\$ 153,010</u>	<u>\$ 144,317</u>

NOTE 9 – LEASE COMMITMENTS

Operating Leases

Facilities are leased under operating leases expiring at various dates through 2020. Certain of these leases contain renewal options. Rental expense was \$52,738 for the three months ended March 31, 2014 as compared to \$58,714 for the three months ended March 31, 2013.

Landis has signed a ten year lease agreement for its Salt Lake salon location until September 30, 2015. Landis II has signed a ten year lease agreement for its Marmalade salon location until September 30, 2020. Nexia also has commitments on operating leases for equipment used in product production or office use. Future payments for maintenance, insurance and taxes to which Nexia is obligated are excluded from minimum lease payments.

As of March 31, 2014, future minimum lease payments under non-cancelable operating leases were as follows:

	Operating
For the fiscal years ending December 31:	Leases
2014 – remainder	150,417
2015	188,415
2016	131,741
2017	137,801
2018	145,575
Thereafter	203,149
Total lease payments	\$957,098

Capital Leases

The following is a summary of the gross amount of assets by class recorded under capital leases as of March 31, 2014 and December 31, 2013:

Classes of Property	March 31, 2014	De	December 31, 2013		
Salon equipment	\$ 76,298	\$	76,298		

	March 31,	December 31,

Total, net	\$ 48,707	\$ 53,017		
Less current portion	(19,148)	(18,368)		
Long-term portion	\$29,559	\$ 34,650		

As of March 31, 2014, future minimum lease payments under non-cancelable capital leases were as follows:

	Capital
For the fiscal years ending December 31:	 Leases
2014 – remainder	\$ 19,332
2015	25,776
2016	12,042
2017	1,539
2018	259
Thereafter	
Total capital lease payments	58,948
Less interest for the terms	 (10, 242)
Total, net	\$ 48,706

NOTE 10 – REAL PROPERTY LEASES

Nexia owns one commercial building and two residential homes which it leases out. Lease agreements are generally five years for the commercial building and one year for the residential homes. Annual lease amounts generally increase each year. Commercial tenant leases include reimbursement to Nexia for allocated property taxes, insurance on the building and common area expenses.

NOTE 11 – EQUITY

Preferred Stock

Nexia is authorized to issue 50,000,000 shares of preferred stock with a par value of \$0.001 per share. The Preferred Stock can be issued in various series with varying dividend rates and preferences.

As of March 31, 2014 and December 31, 2013, the number of shares of Series A Convertible Preferred Stock issued and outstanding was 151,000 shares. The Series A Preferred shares have voting rights equal to 100 shares of common stock for every 1 Series A Preferred share, and it may be converted into \$10 worth of common stock. A total of 10,000,000 shares have been designated and authorized as Series A Preferred Stock.

As of March 31, 2014 and December 31, 2013, the number of shares of Series B Convertible Preferred Stock issued and outstanding was 15,000,000. The Series B preferred stock holds voting rights equal to 2,000 shares of common stock for each share of the Series B Preferred Stock issued. The shares do not have any conversion rights into common stock or any other class of stock of Nexia. A total of 20,000,000 shares have been designated and authorized as Series B Preferred Stock pursuant to a filing on November 3, 2009.

On March 23, 2014, the Board of Directors approved the settlement of a stock exchange agreement executed in March 2009 whereby Nexia issued 200,000 shares of Series C Preferred stock valued at \$1,000,000 in exchange for 1,000,000 shares of Series C Preferred stock of Green Day Technologies (fka GDT Tek Inc., and Seamless Corporation). The 1,000,000 Series C Preferred stock were returned, and 200,000 shares of Nexia Series C Preferred stock were cancelled and returned to Nexia.

As of March 31, 2014 and December 31, 2013, the number of shares of Series C Preferred Stock issued and outstanding was 1,497,882 and 1,697,882, respectively. The Series C Preferred shares may be converted into \$5.00 worth of common stock and are subject to redemption by Nexia upon a \$5.00 cash payment. The Series C Preferred shares hold voting rights equal to 1 share of common stock for every 1 Series C Preferred share. A total of 5,000,000 shares have been designated and authorized as Series C Preferred Stock.

Common Stock

Nexia was authorized as of March 31, 2014, to issue 25 billion shares of common stock with a par value of \$0.0001 per share. As of both March 31, 2014 and December 31, 2013, the number of common shares issued and outstanding was 45,419,512. The common stock holds voting rights of one vote per share. It has no dividend or preemptive rights.

NOTE 12 - SUBSEQUENT EVENTS

On May 30, 2014 in Spokane, Washington, the Lantern Fest held its test event with great success. A large crowd attended to witness the amazing view of hundreds of burning lanterns lifting into the night after an evening of fun, family-friendly events including music, food, and roasting smores. The Lantern Fest has plans to hold events in more than thirty additional cities across the US and Canada. The web site for Lantern Fest is http://www.thelanternfest.com.

On July 19, 2014 Slide the CityTM held an event in Salt Lake City, Utah that attracted over 3,000 participants and an almost equal number of observers where three city blocks were shut down to create an over 200 yard long water slide for participants. The plan is to hold similar events annually in cities across the country building on the success of the first event. The website for Slide the City is <u>http://www.slidethecity.com</u>.

The Company believes that setting up these types of events across the nation will lead to additional opportunities in the entertainment industry and generate revenues in new areas.

Nexia has evaluated subsequent events through July 29, 2014, which is the date the financial statements were issued.

Item IV: Management's Discussion and Analysis of Plan of Operation

Cautionary Statement Regarding Forward-Looking Statements

The information herein contains certain forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. Investors are cautioned that all forward looking statements involve risks and uncertainty, including, without limitation, the ability of Nexia to continue its business strategy, changes in the real estate markets, labor and employee benefits, as well as general market conditions, competition, and pricing. Although Nexia believes that the assumptions underlying the forward looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore, there can be no assurance that the forward looking statements included in this disclosure will prove to be accurate. In view of the significant uncertainties inherent in the forward looking statements included herein, the inclusion of such information should not be regarded as a representation by Nexia or any other person that the objectives and plans of Nexia will be achieved.

General

The current operations of Nexia Holdings, Inc. ("Nexia" or the "Company") consist of three principal areas: (1) assisting with the development and production of events and film products (2) the operation of Landis Lifestyle Salons through Nexia's ownership interest in Green Endeavors, Inc. ("GRNE") and (3) the acquisition, leasing and selling of real estate. The following discussion examines Nexia's financial condition as a result of operations for the three and nine months ended March 31, 2014 and 2013.

Results of Operations

The following discussion examines our results of operations and financial condition based on our consolidated financial statements for the three months ended March 31, 2014 and 2013.

Revenue

Three months ended March 31, 2014 and 2013

Gross revenues for the three months ended March 31, 2014, were \$1,009,666 as compared to \$1,128,945 for the same period in 2013. The decrease in revenue for the three months ended March 31, 2014 compared with the same period in 2013 was \$119,279, or 10.6%, is due to an overall decrease of the number of film distribution contracts executed in the three months ended March 31, 2014.

	Three Months Ended						
	March 31,		March 31,				
	2014		2013		Change		
Services, net of discounts	\$	616,567	\$	621,782 \$	5	(4,915)	
Product, net of discounts		220,898		232,831	(11,933)	
Rent		22,988		13,583		9,405	
Film distribution and commissions		87,853		261,049	(1	73,196)	
Consulting		63,360				61,360	
Total revenue	\$ _	1,009,666	\$ <u>1</u>	<u>,128,945</u> \$	(1	<u>19,279</u>)	

Costs and Expenses

Three months ended March 31, 2014 and 2013

Costs of revenue for the three months ended March 31, 2014, decreased to \$492,656 from \$539,593 for the three months ended March 31, 2013, a decrease of \$46,937 or 15.7%. This decrease over the comparable quarterly periods is primarily attributable to staffing changes, less product inventory shrink, and reduced sales.

Cost of services for three months ended March 31, 2014, decreased to \$363,853 from \$402,343 for the three months ended March 31, 2013. Cost of products for the three months ended March 31, 2014, decreased to \$128,803 from \$137,250 for the three months ended March 31, 2013.

The following table shows general and administrative expense for the three months ended March 31, 2014 and 2013:

	Ν	March 31, 2014		March 31, 2013		Change
Salaries and wages	\$	204,548	\$	154,819	\$	49,729
Rent		62,899		58,804		4,095
Advertising and promotional		20,462		18,402		2,060
Credit card merchant fees		15,037		16,934		(1,897)
Insurance		24,688		23,426		1,262
Utilities and telephone		19,200		18,444		756
Professional services		110,090		73,225		36,865
Repairs and maintenance		14,518		8,847		5,671
Finance charges		1,512		1,125		388
Office expense		19,345		13,654		5,691
Travel		4,245		4,097		148
Other		82,375		53,164		29,211
Total general and administrative expenses	\$	578,919	\$	<u>444,941</u>	\$ _	133,979

The increase in general and administrative expenses over the comparable quarterly periods is primarily due to increases in salaries and wages, professional fees and office expense. Other general and administrative expenses are individually insignificant and include dues and subscriptions, property taxes, office supplies, and transfer agent expenses.

Depreciation and amortization expense for the three months ended March 31, 2014, increased to \$40,283 from \$38,986 for the three months ended March 31, 2013.

Amortization of film costs for the three months ended March, 2014, decreased to \$2,291 from \$105,602 for the three months ended March 31, 2013. This was primarily due to the less distribution contracts executed for WG production films as opposed to films from third parties.

Other Expenses, net

Three months ended March 31, 2014 and 2013

Other expenses, net for the three months ended March 31, 2014, was income of 971,348 as compared to expenses of 64,629 for the comparable period in 2013. This increase over the comparable quarterly period is primarily due to a gain on sale of securities of 1,000,000 (see Note 4 – Financial Instruments) and a reduction of interest expense of 15,022 and a change in valuation of the derivative liability of 13,399.

Net Income (loss)

Three months ended March 31, 2014 and 2013

Our net income for the three months ended March 31, 2014 increased to \$866,865 from a loss of \$64,806 for the three months ended March 31, 2013. This increase is primarily due to a gain on sale of securities, and reduction of operating expenses offset by a reduction in overall revenue due to senior salon artists focusing more on training new stylist.

Liquidity and Capital Resources

As of March 31, 2014 and December 31, 2013

We had a working capital deficit of \$2,541,121 as of March 31, 2014. Our current assets were \$1,109,084, which consisted of \$487,375 in cash, \$1,292 in available-for-sale securities, \$463,874 in accounts receivable net of allowance for doubtful accounts, \$153,010 in inventory, and \$3,533 in prepaid expenses. Our total assets were \$3,335,847, which included \$1,439,181 in property and equipment (net), \$169,826 in notes receivable, and \$347,885 in film costs, net of amortization, and \$269,871 in other assets. Our current liabilities were \$3,650,205, including \$2,695,345 in accounts payable and accrued liabilities, \$55,346 in deferred revenue, \$112,193 in deferred rent, \$47,500 due to related parties, \$47,333 in the derivative liability, \$525,243 in current portion of notes payable, \$44,760 in current portion of capital lease obligations, and \$103,336 in current portion of convertible notes payable, net of debt discount. Our long-term liabilities were \$927,126. Our total stockholders' deficit at March 31, 2014, was \$1,241,484.

Cash Flows from Operating Activities

Cash flows from operating activities include net income (loss), adjusted for certain non-cash charges, as well as changes in the balances of certain assets and liabilities.

Three months ended March 31, 2014 and 2013

Net cash provided by operating activities for the three months ended March 31, 2014, was \$61,404 as compared to \$56,077 for the three months ended March 31, 2013. The increase in cash provided by operating activities over the comparable period is primarily due to a change in net income for the three months ended March 31, 2014 to \$866,865 from a loss of \$64,806 in the comparable quarter and the change in accounts payable and accrued liabilities of \$264,489 offset by the change in gain on sale of investments of \$1,000,000.

We expect to increase cash provided by operating activities over the next twelve months by executing the individual business strategies of our subsidiaries which include, increasing operational efficiencies, reduce discretionary spending and opening an additional salon. As additional locations are opened, we hope to achieve economies of scale by operating multiple salons with minimal general and administrative staff and expenses.

Cash Flows from Investing Activities

Three months ended March 31, 2014 and 2013

Cash flow used in investing activities for the three months ended March 31, 2014, was \$51,938 as compared to \$2,315 for the three months ended March 31, 2013. The increase in cash flows provided by investing activities is primarily due to an increase in the purchases of property, plant, and equipment of \$49,623.

We expect to continue our investing activities, including purchasing both property and equipment for an additional salon location.

Cash Flows from Financing Activities

Three months ended March 31, 2014 and 2013

Cash flows provided by financing activities for the three months ended March 31, 2014, was \$48,513 as compared to \$50,272 for the three months ended March 31, 2013. The decrease in cash flows provided by financing activities over the comparable period is due to a decrease in proceeds from the issuance of preferred stock and subsidiary stock, partially offset by a decrease of payments on notes payable to both related and unrelated parties in the current period.

Other Factors Affecting Liquidity and Capital Resources

We have insufficient current assets to meet our current liabilities due to negative working capital of \$2,541,121 as of March 31, 2014. Historically, we have funded our cash needs from a combination of revenues, carried payables, sales of equity, and debt transactions. Since we are not currently realizing net cash flows from our business, we may need to seek financing to continue our operations. Prospective sources of funding could include shareholder loans, equity sales or loans from other sources though no assurance can be given that such sources would be available or that any commitment of support is forthcoming to date.

We do not intend to pay cash dividends in the foreseeable future.

We expect to purchase property or equipment for an additional salon location. We are currently seeking and analyzing equipment loans and capital leasing options to fund a significant portion of the equipment needed.

We expect to hire approximately 15 stylists over the course of the next 12 months to fully staff our existing salons and in the range of 20 to 30 stylists in the next 12 months to staff an additional salon location. The operating funds needed to carry out this plan will be generated through equity or debt financing.

Going Concern

Primarily, revenues have not been sufficient to cover Nexia's operating costs. Management's plans to enable Nexia to continue as a going concern include the following:

- Creating new lines of business including events such as Slide The CityTM and The Lantern Festival;
- Increasing the number of films produced for our own account and third parties;
- Generating additional revenues through increasing the number films we distribute for third parties;
- Producing higher quality films specifically tailored to sell in specific markets;
- Increase retail sales through our Landis Lifestyle Salons;
- Open new salon locations;
- Increasing revenues from rental properties by implementing new marketing programs;
- Making improvements to certain rental properties in order to make them more marketable;
- Reduce expenses through consolidating or disposing of certain subsidiary companies;
- Convert certain debt into shares of Nexia's common stock; and
- Purchasing revenue-producing real estate.

There can be no assurance that Nexia can or will be successful in implementing any of its plans or that it will be successful in enabling Nexia to continue as a going concern. Nexia's consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Impact of Inflation

We compensate some of our salon employees with percentage commissions based on sales they generate. Accordingly, this provides us certain protection against inflationary increases, as payroll expense is a variable cost of sales. In addition, we may increase pricing in our salons to offset any significant increases in wages and cost of services provided. Therefore, we do not believe inflation has had a significant impact on the results of our operations.

Off Balance Sheet Arrangements

We do not have any off-balance sheet financing arrangements.

Known Trends, Events, or Uncertainties

General Real Estate Investment Risks

Nexia's investments are subject to varying degrees of risk generally incident to the ownership of real property.

Real estate values and income from Nexia's current properties may be adversely affected by changes in national or local economic conditions and neighborhood characteristics, changes in interest rates and in the availability, cost and terms of mortgage funds, the impact of present or future environmental legislation and compliance with environmental laws, the ongoing need for capital improvements, changes in governmental rules and fiscal policies, civil unrest, acts of God, including earthquakes and other natural disasters which may result in uninsured losses, acts of war, adverse changes in zoning laws and other factors which are beyond the control of Nexia.

Value and Illiquidity of Real Estate

Real estate investments are relatively illiquid. The ability of Nexia to vary its ownership of real estate property in response to changes in economic and other conditions is limited. If Nexia must sell an investment, there can be no assurance that Nexia will be able to dispose of it in the time period it desires or that the sales price of any investment will recoup the amount of Nexia's investment.

Property Taxes

Nexia's real property is subject to real property taxes. The real property taxes may increase or decrease as property tax rates change and as the property is assessed or reassessed by taxing authorities. If property taxes increase, Nexia's operations could be adversely affected.
