

## OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. We use the basic disclosure information provided by OTC Pink companies under these guidelines to designate the appropriate tier in the OTC Pink marketplace: Current, Limited or No Information. OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for OTC Pink Current Information tier.

**Note 1 - Nature of Business and Significant Accounting Policies**

Nature of Business

Pocket Games, Inc. (the "Company") was incorporated on October 4, 2013 ("Inception") under the laws of the State of Florida. The Company is engaged in the development, marketing and sale of interactive games for mobile devices, tablets and computers. The Company has limited customers and products and revenues to date.

On February 9, 2016, Pocket Games, Inc. entered into a Share Exchange Agreement (the "Exchange Agreement") with Social Technology Holdings, Inc., a Delaware corporation ("STH"), AEL Irrevocable Trust ("AIT"), Sugar House Trust ("SHT", and together with AIT, the "STH Majority Shareholders") and David Lovatt, the principal and controlling shareholder of the Company ("Lovatt") regarding the acquisition by the Company from the STH Majority Shareholders of 20,000,000 shares of Class A common stock, par value \$0.0001 per share, of STH (the "STH Class A Common Stock") and 2,000,000 shares of Class B common stock, par value \$0.0001 per share, of STH (the "STH Class B Common Stock"). The STH Class A Common Stock and the STH Class B Common Stock transferred to the Company by the STH Majority Shareholders constitute 80% of the issued and outstanding shares of STH Class A Common Stock and 100% of the STH Class B Common Stock.

In exchange for the STH Class A Common Stock and STH Class B Common Stock, the Company issued to the STH Majority Shareholders an aggregate of 320,000 shares of non-redeemable, voting convertible shares of Series B preferred stock of the Company (the "Company Series B Preferred Stock"). In addition, Lovatt, as the owner of 1,000 shares, or 100%, of Company's Series A Preferred Stock, returned such shares to the Company treasury, in exchange for which the Company reissued 500 shares of such Series A Preferred Stock to the STH Majority Shareholders, and 500 shares of Company Series A Preferred Stock, together with 80,000 shares of Company Series B Preferred Stock, to Lovatt. Each share of the Company's Series A Preferred Stock entitles the holder(s) to cast 50,000 votes at any meeting of Company stockholders or in connection with any consents required of Company common stockholders. After the share exchange, Lovatt will maintain control of the Company. During the quarter ended July 31, 2017, the Company unwound the Exchange Agreement and therefore the financial information of STH is no longer consolidated with the financial statements of the Company.

We develop games and provide end-end services for software and application development. We also have a dedicated division for server support and cloud management. Our clients rely on us to support their core IT architecture and provide 24/7 support for their business critical infrastructure and the company is currently developing new platforms and applications to serve our customer base.

The Company has adopted a fiscal year end of October 31.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and short-term highly liquid investments purchased with original maturities of three months or less. Cash and cash equivalents at July 31, 2017 were \$-0-.

Revenue Recognition

The Company generates revenue from three sources; sale of game applications, sale of advertising provided with games, and outsourced application development services. The Company recognizes revenue using four basic criteria that must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured, which is typically after receipt of payment and delivery, net of any credit card charge-backs and refunds. Determination of criteria (3) and (4) are based on management's judgment regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required. Revenues on advertising are deferred and recognized ratably over the advertising period.

Income Taxes

The Company recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax basis of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. The Company provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

**Note 2 - Going Concern**

As shown in the accompanying financial statements, the Company has incurred continuous losses from operations, has an accumulated deficit of \$6,197,866, has a negative working capital of \$976,932 and has cash on hand of \$-0- as of July 31, 2017, and has generated minimal revenues to date. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is currently seeking additional sources of capital to fund short term operations through debt or equity investments, including loans from Officers and Directors. The Company, however, is dependent upon its ability to secure equity and/or debt financing and there are no assurances that the Company will be successful, therefore, without sufficient financing it would be unlikely for the Company to continue as a going concern.

The financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company's ability to continue as a going concern. The financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

**Note 3 – Related Party Transactions**

Promissory Note

From time to time the Company received unsecured loans, bearing interest at 12% per annum, maturing on December 31, 2014 (in default) from one of the Company's Directors and Treasurer, as disclosed in Note 4.

Revenues

Total revenues recognized were \$-0- for the nine months ended July 31, 2017. The Company entered into a contract with a related party during the fiscal year ended October 31, 2015, whereby, the Company will perform testing on games and applications. There were no revenues from related parties during the nine months ended July 31, 2017.

Employment Contracts

On October 4, 2013, the Company entered into two employment agreements with the two officers of the Company. Both agreements are for a term of three years and require monthly payments of \$10,000 to each officer. During the year ended October 31, 2016, accrued compensation of \$143,995 was converted into a convertible promissory note. Accrued compensation was \$101,140 at July 31, 2017.
